LISTOWEL STANDARD.

FRIDAY, JUNE 11, 1880.

TOWN AND COUNTRY.

PERTH County Council will assemble on Tuesday next, 15th inst.

A NEW sidewalk has been laid down in front of the Royal Hotel.

THE County L. O. L. of North Perth meets at Milverton to-morrow.

MR. W. BEADLEY has removed his grocery to Dr. Philip's store on Wallace street.

PREPARATION is being made for the erection of Messrs. A. Macdonald & Co's new bank block on Main street.

Our Tweeds and Clothing department surpasses anything in town. Call and be convinced.—20a. JOHN C. BURT.

AN attempt is to be made to "resurrect" the defunct Mechanics' Institute by calling a public meeting for that purpose.

JOHN C. BURT has just received another shipment of new prints,—new designs, new colors, at amazing low figures.—20a.

THE adjourned Courts of Revision for the townships of Elma and Wallace will be held to-morrow at Newry and Gowanstown respectively.

THE Grand Trunk Railway will issue tickets to Woodstock at a single fare on Saturday. Forepaugh's show visits that place to-morrow.

Still to the front! Just received, a new lot of Dress Goods, worth 25c. for 17c.; 20c. for 20c. call and secure your dresses.—20a. J. C. BURT.

HOSIERY. — Women's, Misses' and Boys' Children's Hosiery. A nice lot of new goods in this line. Come and see them, at JOHN RIGGS, successor to Roy & Riggs.—11.

EXCURSION.—Excursion tickets will be issued to Hamilton by the G. W. R. on Monday next, 14th inst., the occasion of the grand Foresters' demonstration. The fare from Listowel and return will be $1.50.

LECTURE.—Rev. W. F. Clarke delivered his lecture, "Success in Life," before a comparatively small audience in the Congregational Church on Tuesday last. The lecture is said to have been very able, and worthy a much larger house than greeted the Rev. gentleman.

ALMOST A FIRE.—On Wednesday a spark from the smoke stack of Messrs. Large's planing factory alighted on the roof of the building and set fire to the shingles. It was fortunately discovered in time to prevent a calamity, but not before it had burned quite a hole in the roof.

PRINCE Leopold and Princess Louise have returned from their trip west, and on Wednesday passed through Toronto on their way to the capital. Prince Leopold and suite will enjoy some fishing below Quebec previous to their departure for England, which is to take place on the 24th prox.

BUSINESS FOR SALE.—The undersigned offers her Millinery and Fancy Goods business for sale, and in the meantime all goods will be sold at cost price. Now is the time to secure better bargains than have ever before been offered in this line. All parties indebted to me must settle their accounts at once.

19-b. MRS. G. MAYNARD.

LACROSSE.—The Listowel junior Lacrosse Club, recently organized, has already attained a membership of about thirty. The club meets for practice in the Agricultural park several times a week, morning and evening. Their first match game is to be played on Dominion Day, when a junior club from Stratford is expected here.

PERSONAL.—Mr. Porteous, general freight agent of the Grand Trunk Railway, of Montreal; Mr. J. Earls, assistant ditto, of Toronto; and Mr. A. B. Atwater, Superintendent of the Peort and Huron division of the G. T. R., registered at the Grand Central Hotel on Thursday. The gentlemen were making a tour of inspection of the newly acquired line.

LIKELY TO ACCEPT.—We understand that Rev. W. F. Clarke, of Guelph, who has been conducting the public worship during the past few Sundays in the Congregational Church in this town, is likely to accept the invitation to take permanent charge of the Congregation. Rev. Clarke appears to have made a very favorable impression, and should he conclude to remain here, he will no doubt find a willing people to labor among it.

STREET WATERING.—Messrs. Hess Bros., contractors for watering the streets, have their apparatus now in excellent working order, and are able to keep the streets as wet as need be. With their powerful force pumps and reservoirs, it takes but a single minute to fill the large tank which they use for sprinkling. They have certainly got the upper hand of the dust, and with their excellent facilities will no doubt continue to keep it.

THE London Conference of the Canada Methodist Church, which has been in session in Hamilton during the past week, closed its labors on Wednesday evening. The final draft of stations for the Wellington and Stratford districts is nominally the same as the first draft, published in our last issue. Rev. Dr. Fowler continues in charge of the C. M. Church here. The next meeting of Conference will be held in Brantford, commencing the first Wednesday in June 1881.

BAND STAND.—The Council have resolved to erect a band stand on the old school grounds. While the site chosen is not surrounded with any attractions in the shape of trees or other of nature's beneficos, it is a better place for it than having it erected on one of the public streets, as some of our "assembled wisdom" proposed. Perhaps the Council at a future day will reconsider the park project, in which case a stand may be erected therein—the proper place for one.

GERMAN SOCIETY.—A number of the leading Germans of this town have formed a society, the object of which is to promote German fellowship and to cultivate the voice and intellect. The society is to be called the "Listowel Liedertafel." At a meeting held in Martin's block on Monday evening, twenty-eight founding members were enrolled, and the following officers were elected: President, Geo. Hess; Vice-Pres., A. F. Lustig; Sec., Johann B. Dinkel; Treasurer, C. C. H. Wetzel. Mr. Wm Schneider was appointed teacher of the "maennerchar" (choir of gentlemen singers.)

GOVERNMENT APPOINTMENT.—Mr. Thos. E. Hay left this week for Muskoka, having received an appointment from the Ontario Government in connection with the construction of colonization roads in that district. He will probably be some months away. We do not object to the appointment, as our Reeve will no doubt fill the position as well, if not more ably than the generality of Government appointees; but it is quite evident that Mr. Mowat knows his friends every whit as well as the "wicked Tories" know theirs, and is just as apt to award them for "faithful service" whenever occasion arises.)

PEACE disturbing Harristonians will do well to give Listowel a wide berth after this. Outrages upon decency and order are not permitted to go unpunished here, whatever looseness of morals and laxity of justice may prevail in Harriston. Consideration for the feelings of the friends of the gentry (?) who recently polluted Listowel with their presence—not for the feelings of themselves if beings such as these can be supposed to possess any feelings or sense of shame—alone makes us refrain from publishing their names. It is devoutly to be hoped that the lesson of a "special" police court will last them the remainder of their natural lives.

Our place of business will always be found crowded with new and fashionable goods, and at prices that command a quick sale. Terms cash or produce. No trouble to show goods.

20a. JOHN C. BURT.

Misses' and Children's Genuine French kid button boots, very best quality, at JOHN RIGGS, successor to Roy & Riggs.

THIS is the season of Church Conferences, Church Synods and Church Assemblies. Within the past and during the present and next week or two the annual meetings of the various denominations will have been held and the ministers will have returned to their charges. The present week has witnessed the opening of the Assembly of the Presbyterian Church of Canada at Montreal; the holding of the Anglican Synod of the Diocese of Toronto at the provincial capital, and the close of the London Conference of the Canada Methodist Church at Hamilton. Next week the Anglican Synod of the Diocese of Huron will assemble in London.

LISTOWEL REAPERS.—The important improvements for the season of 1880, are the putting of steel plated reaper guards on the reaper bar of the "I X L" Combined; improved tilt, and improved cutter bar on mower. On the "Victor" single reaper we have strengthened certain weak points and made great improvements on the tilting and raising and lowering attachments, etc. Sufficient warranty given with both of these machines. A first class rear cut mower, the "Johnston," is offered as a companion single mower to go with the "Victor" reaper; makers, Detwiler & Shantz, Preston. Sample to be seen at the shop.

A. MCILWRAITH,
20c. Listowel Foundry.

DELEGATION.—Messrs. D. D. Campbell and Wm. Hess left on Tuesday for Detroit, to gather such information as could be obtained relating to the manufacture of matches. These gentlemen were appointed as a delegation at a public meeting held in the Council Chamber on Thursday evening of last week, at which the report of the gentlemen who had previously visited London was given. The London deputation were favorably impressed with what they saw at London; but it was thought advisable to ascertain more about the manufacture of matches before encouraging Mr. Wallace's project, Messrs. Campbell and Hess were thereorel chosen to proceed to Detroit and investigate the manufactories in operation there.

AID ASKED FOR.—The directors of the Stratford & Huron Railway have again approached the township of Wallace, soliciting aid for the construction of their road from Listowel to Palmerston. They now ask that the sum of five thousand dollars be granted them on condition that the township receive its portion of the Land Improvement Fund, in which event the township will have sufficient to wipe off its present endebtedness, make the grant asked for by the Ry. Company, and yet have a balance to its credit. We notice that the Council has deferred taking action. In the meantime it is the intention of the directors of the road to hold public meetings in the township, when the matter will be laid before the ratepayers.

FINE CARVING.—Mr. August Fritz, formerly of Berlin, but at present in the employ of Messrs. Hess Bros. of this town, recently sent to his Excellency the Governor-General, a number of exquisite specimens of wood carving, the collection consisting of a group of Canadian birds, in an ornamental frame, also beautiful clusters of fruits and flowers. All the specimens were carved out of white maple wood. A short time previously Mr. Fritz presented the Princess Louise with some finely executed specimens of carving, for which he received their Excellencies acknowledgement and thanks, and subsequently an order from his Excellency the Governor-General for the above mentioned articles. Mr. Fritz is to be congratulated for the prominent notice which his clever workmanship has gained. It is a credit which he may well be proud of.

CATTLE FAIR.—Last Friday's fair was one of the poorest of the season, very few cattle being offered, and those of an inferior quality. The paucity of the fair was doubtless owing to the fact that about all the marketable cattle in this neighborhood have been picked up by buyers for shipment abroad. Farmers are beginning to realize that good stock pays much better than the poor scrubby kind which has hitherto been too common on our market, and are turning their attention to the raising of beef cattle for the apparently insatiable maw of "John Bull." There was an unusally large number of agricultural implement venders in town on Friday, all the leading manufactories of the province being represented. The agents of the several makers appeared to be doing a lively trade with the farmers, who were in town in considerable numbers during the day.

WOOL has continued to come in during the past week in considerable quantities, the excellent market afforded here by reason of the keen competition which has prevailed among the numerous buyers attracting the farmers hither from a distance beyond the town's ordinary trade boundary. The market for the past few days has exhibited a slight decline. From the 30c. to 31c. have been the ruling figures until yesterday, when the price declined another cent, 29c. to 30c. being present quotations. The *Mail* of Thursday reports the Toronto wool market as follows: Fleece has been coming in fairly well, and the season is definitely opened. Prices have been weak, and, as we remarked was expected, have declined, the fall being about four cents. Several lots of 1,000 to 4,000 lbs sold during last week and on Monday; but to day they showed a further decline and went off at 28c. Street receipts have been fair, and prices have declined there also, the range to-day being 29 to 30c. Pulled wools nominal.

"ECONOMY."—The town treasurer's statement for May shows the expenditure for "street improvements" during the month to have been something over one hundred dollars. And this sum was chiefly expended in repairing sidewalks, culverts, etc. Which "sufficiently demonstrates" that notwithstanding all this work was included, in the constable's duties as defined by the "champion of economy," the town's finances are drawn upon as heavily as before the new order of things was promulgated. That Mr. Hay is much more of an economist in theory than in practice was aptly illustrated by his utterances at the school board the other evening, when, in justification of his course in cutting down the teacher's salaries, he stated that he knew of persons in this town who were actually starving—persons who were subsisting on potatoes alone. The next morning Mr. Hay indulged in a trip to London in company with a number of "jolly good fellows," at the expense of the "starving" citizens. This is economy "with a stick in it," and Mr. Hay evidently has a keen relish for the "stick," too—let the poor, deluded, "starving" ratepayers, or any one else, pay for it.

CANADIAN MONTHLY.—The June number of the *Canadian Monthly* presents its readers with the following interesting bill of fare: Canadian Life in the Country Fifty Years ago, by Caniff Haight, Toronto. Mary Secord, a Canadian Ballad of 1813, by Fidelis. Some Difficulties of Agnosticism, by Rev. Charles Pelham Mulvany. The Mohammedan Princess, by Mrs. Francis Rye, Barrie. The Light of Asia, by Frederick T. Jones, Toronto. The Literature of Education in Canada, by an Old Head Master. Impatient Buds, a Poem. Down South in a Sailboat, by Robert Tyson, Toronto, (concluding part.) My Young Wife's Party, by Fred Travers. Tide-water, by Mrs. K. Seymour McLean, Kingston. 'Confidences,' by 'A Girl of the Period.' June, a Poem. Weeds in Water Works, by Rev. A. F. Kemp, L. L. D., Ottawa. Medical Education, by Dr. N. H. Beemer, London. Patience, a Poem. How Jessie's Fortune Came True, by 'Dalacher,' Montreal. Morality and Religion again—A Word with my Critics, by W. D. Le Sueur, D. A., Ottawa. The Child Musician, by Austin Dobson. The Late Hon. Geo. Brown, by the Editor. Round the Table; Book Reviews; Music and the Drama.

The law requires the use of the Imperial Measure. Every size onhand at J. H. SMITH'S.

Ladies Black and Colored Kids at 50c. per pair at Bean & Gee's.

A beautiful range of kid gloves to hand and are to be sold at half price. Call and secure bargains. Ladies' and Misses' long lace mitts and gloves in silk and cotton, very cheap.

20a. JOHN C. BURT.

COW BY-LAW.—The cow by-law, requiring that all cattle be prevented from running at large within the corporation of Listowel between the hours of 7 p. m. and 7 a. m., and all cattle with the exception of milch cows at all other times, has been passed by the Town Council, and will come into operation on the 15th inst. The penalty attached to the infringement of this by-law is impounding of the animals, in which case the costs of poundage and any damage will have to be liquidated in order to redeem the animals. The feeling in favor of a total prohibition of cattle running at large is rapidly increasing, and were it not for the possible hardship which might be caused those who have cows and are unable to procure pasture for them, it is more than probable that such a law would have been put in force without delay. The cleanliness of our streets and the protection of both public and private property require that the cattle nuisance be put a stop to, and legislation to that effect may be looked for at no distant day. Of course it would to some extent be arbitrary to enforce such a law without giving owners of cattle reasonable time to secure pasture or to dispose of their animals. The present modified form of the cow by-law will abate the evil somewhat, if properly carried out, and it especially behooves owners of cows to see that its provisions are respected. It might also be judicious for them to make provision for an entirely prohibitory law, which no doubt will be put in force by another season.

TOWN COUNCIL.—Council met in the Council chamber on Monday evening, 7th inst. Present, the Mayor in the chair, the Reeve, Deputy-Reeve, and Councillors Nichol, Dillabough, Heppler, Hay, Freeman, Bradley, Binning, Hess. The minutes of previous meeting were read and confirmed. A communication was read from Elma & Wallace Agricultural Society, asking for the usual annual grant. Moved by Dr. Dillabough, seconded by Dr. Nichol, that the Council grant one hundred dollars to the Elma & Wallace Agricultural Society for the benefit of the Society—carried. Several accounts were read, and referred to Finance Committee. Dr. Nichol, chairman of Committee to see about a band stand, reported that he had offered ground free of charge for the purpose, and that the cost of a suitable stand would be $20. It was moved by Dr. Dillabough, seconded by A. D. Freeman, that a band stand be erected on the old school grounds—carried. The town treasurer's statement for the month of May was read, showing:

Balance on hand from April	$210 77
Licenses paid	16 00
Rent of hall	6 00
Cemetery lots	16 00
Proceed note discounted	979 18
Taxes collected	133 31
	$1361 26

EXPENDITURE.

Street improvements	$103 11
Expense account	18 30
Salaries	95 00
Public School	500 00
Balance on hand	644 65
	$1361 26

It was moved by J. A. Hacking, seconded by A. D. Freeman, that the chairman of the Board of Works be instructed to repair sidewalk in front of Royal Hotel, subject to approval of Board of Works—carried. It was moved by Dr. Dillabough, seconded by J. Heppler, that Dr. Nichol be appointed along with Messrs. D. D. Campbell and W. Hess, to proceed to Detroit as a deputation to inspect match works, etc., and report on return—lost on division. It was moved by T. E. Hay, seconded by H. Martinson, that the Council approve the action of the meeting of ratepayers, selecting D. D. Campbell and Wm. Hess as a Committee to go to Detroit and examine the system and cost of manufacturing matches, and report to a meeting of ratepayers on their return, and that their expenses be paid by the town—carried. It was moved by Dr. Dillabough, seconded by J. Heppler, that a sidewalk be built on north side of Elma street from Mill street to Wellington street; and that a sidewalk be built on the west side of Dodd street, from Bay street; this motion to be added to the report of special Committee on sidewalks, and considered same as report adopted at former meeting of Council—carried. A deputation from the Listowel Mechanics' Institute waited upon the Council, asking that assistance be given that institution. Mr. McIlwraith and Dr. Burgess, the members of the deputation, in the course of their remarks explanatory of the financial position of the Institute, stated that the Institute was $130 in debt, and had nothing to pay it; for the last year there had been only 18 or 19 subscribers; the Institute had received no Government grant for the past two years, and could receive no further grant until the money (the last grant from the Government, $400, and the basis upon which it was obtained, $200) had been expended in the way the law required. Some $460 had been spent in rent, etc., but the Government did not take cognizance of this, a Government grant being obtainable only on moneys spent in the purchase of books, lectures and night schools. The present indebtedness was chiefly on account of rent, and unless assistance was obtained, the books would have to be sold to pay off the debt. Several members of the Council expressed their views on the question of assisting the Institute, the general feeling of the Board being against appropriating town funds towards its aid. It was thought best to endeavor to stimulate an interest in the Institute by calling a public meeting for that purpose, it was accordingly moved by Dr. Nichol, seconded by Dr. Dillabough, that the Mayor be authorized to call a public meeting to consider the state of the Mechanics' Institute—carried. The Mayor reported that the Committee appointed to consolidate the by-laws of the town had completed their arduous labors, and had prepared a code of by-laws which the Committee considered would, if adopted, promote the public interests. The by-law for the impounding of animals found running at large was read. Council went into Committee of the whole on the by-law, Dr. Nichol in the chair. The by-law was taken up clause by clause. It was moved in Committee by J. A. Hacking, seconded by W. G. Hay, that Sec. 3, By-law No. 63, be amended by inserting that it may be lawful for milch cows to run at large from 7 a. m. to 7 p. m. from the first day of April to the 1st day of December in each year—carried. Sec. 5 was amended to read as follows: For every horse or head of cattle, pig, sheep or goat, 25 cents to be paid to the party for impounding it, and 25 cents to the pound-keeper for receiving the same; and the party impounding geese or ducks shall be allowed 5 cents per head, and the pound-keeper 5 cents. Section 14 was amended by inserting the word ducks, also by setting the fine to be imposed on the owners of horses, cattle, pigs, etc., at 50 cents per head; geese and ducks 10 cents. The several sections of the By-law having been passed in Committee, the Council resumed, when it was moved by Dr. Dillabough, seconded by J. Heppler, that By-law 63, as amended in Committee of the Whole, and now read for the third time, be and is hereby adopted, said By-law to take effect on and after the 15th inst.—carried. Council adjourned.

APPOINTMENT.—Mr. W. D. Johnstone has been appointed traveling agent for the Listowel Foundry, and will be around anon, letting the farming community know what is being done in implements in this establishment. A favorable reception is respectfully solicited.

17A. A. MCILWRATH.

Misses' and Children's Genuine French kid button boots, very nice, but a little expensive, at JOHN RIGGS, successor to Roy & Riggs.—11.

GLASS.—S. Bricker & Co. have a very large stock of window glass—big reductions to parties purchasing in quantities.—7.
