VAN ANDA IN SOME DEMAND

Dardanelles and Golden Star also Figured in Yesterday's Mining Exchange Deals.

NEWS OF BOUNDARY COUNTRY

Something About the Old Lake Harold Gold Mine—Mining Exchanges.

Business showed a little inclination to pick up on the local mining stock market yesterday, the chief features being Van Anda, Dardanelles, Rathmullen and Golden Star. Despatches from the West announced that the Van Anda smelter on Texada Island has started up, and that 10 cents was being bid at Victoria and Vancouver for the stock of that mine. These reports caused the stock to go up to 10¼ cents locally. Dardanelles was in some demand and sold up to 11¾ cents. A great deal of Golden Star also changed hands at prices a little under those that ruled the day before.

Lake Harold Mine.

Mining Editor World: Can you give me any information re the Lake Harold Gold Mining Company? Considerable of this stock is held here, and several of the shareholders have written to the secretary and Mr. Meek of Port Arthur, but were not favored with a reply. They have taken the people's money, and I think the shareholders are entitled to hear what they have done with it. Any information you may be able to give will be thankfully received.

Berlin, July 14, '99. A Shareholder.

In answer to the above we would say that, as our correspondent probably knows, the Lake Harold mine has been closed down for several years owing to lack of funds. Some months ago an order for winding-up proceedings was issued, but the same has not been executed as yet. A settlement with the creditors of the property is at present on the tapis. Mr. Aemilius Jarvis, broker, West King-street, Toronto, would probably give you further details regarding these legal proceedings. The Lake Harold mine has several large leads of ore, some of it of very high value, and is equipped with a 10-stamp mill, and it is to be hoped that the outcome of the present litigation will be the resumption of operations on the property.

Quebec Mining Syndicate.

The Rainy Lake Herald states that Mr. Frank Carrell, representing the Quebec Mining Syndicate, composed of 25 of Quebec's leading business men, has arrived in the Lake of the Woods and started operations on three claims adjoining the Triggs property.

Ferguson Being Pumped Out.

As noted by The World's traveling correspondent in his letter from Mine Centre some days ago, the Ferguson mine is to be shortly reopened. The Border Budget states that a force of men has been put to work pumping the water out of the shafts of the Ferguson and getting the mine into readiness for its inspection by the secretary and other English shareholders of the company, who are expected to arrive in a few days.

Deposit of Arsenic.

An exchange says: There have been discovered between Lakes Timagamingue and Temogamingue vast tracts of white arsenic, which, it is reported, will be the largest deposits in the world. The ore is a solid body, 1020 feet long and 310 feet wide, and at the depth of a few feet will last for generations. The ore is 62 per cent. of arsenic, which sells at $65 per ton. There is also $8.20 worth of gold to the ton. The find is looked upon as phenomenal. Eggart and Howlatt of Toronto are interested in the discovery.

The Lake Shore Mine.

This property was recently purchased by the Canadian Gold Fields Syndicate, and the shareholders of this company believe that the production of this mine alone will make their shares valuable. Messrs. Mitchell, Wallace & Co. received instructions from the manager of the mine that he will begin shipping about Aug. 1, and he estimates that in the process of development he can ship ore netting the company $7?0 per day, and within two months from Aug. 1 he can double the shipments.

Work on Pathfinder.

Grand Forks, July 11.—(Special Correspondence.)—Work on the Pathfinder mine, on the north fork of Kettle River, is progressing satisfactorily. No. 1 shaft has been sunk along the foot wall, to a depth of 100 feet, and a cross-cut a distance of about 23 feet. This cross-cut shows about 12 feet of ore of good shipping grade. The exact extent of the vein has not yet been determined, as the cross-cut has not been extended to the hanging wall.

The south drift in No. 2 tunnel is in 35 feet. It shows up a fine body of chalcopyrite ore, with a quartz gangue. Counting the width of the tunnel above, and the drilling a hole four and a half feet, and striking no wall, the ore body thus far has been demonstrated to be at least nine and a half feet wide. The values are in gold and copper, running from $12 to $28 per ton in gold and copper, as well as two ounces in silver.

The surface stope, 180 feet south of the same lead, is 12 feet wide of clean ore, averaging $20 to $30 per ton in gold and copper. Two shifts are at work on the drift. One shift is employed in the surface cut.

A five-drill plant will be installed as soon as the railway reaches the Boundary.

C.P.R. in Boundary Country.

Grand Forks, B.C., July 18.—(Special correspondence).—The members of the Canadian Mining Institute on their western tour will visit the Boundary country. The party is expected to exceed 250. The original intention was to simply visit Rossland and the Slocan camps, but B. T. A. Bell, the secretary, writing from Ottawa to Richard Armstrong, president of the Grand Forks Board of Trade, stated that at a meeting of the executive held last week it was decided to include the Boundary camps in the itinerary. Mr. Bell added that the program had been changed because the C.P.R. assured him of the extension of its line to this section before the delegates left the east.

The Board of Trade of Grand Forks purposes tendering the visitors a reception and banquet.

F. W. Peters, Assistant General Freight Agent of the C.P.R. for the Kootenays in the Boundary country is here for a few days. He expressed himself as delighted at the rapid progress made in extending the line west from Robson. The rails have been laid to a point seven miles west of Gladstone, about 20 miles from Grand Forks. Cascade will be reached on the first of August. Mr. Peters stated that he expected to see trains running into Grand Forks by the 15th of August. This city, he added, has been chosen as the station whence all bonded freight destined for Republic will be transhipped. The United States Treasury Department has consented to locate one of its officers here to facilitate the delivery of bonded goods. Mr. Peters further stated that, in the month or two which would intervene before the railway is extended across the summit, this city will also be the distributing point for all freight destined for Greenwood, Eholt, Midway and other westerly Boundary towns. Mr. Peters said he observed on his tour that merchants had allowed their stocks to run low, in consequence of the early advent of the railway and cheaper freight rates as compared with charges of hauling goods by wagon from the nearest railway station 40 miles distant. He succeeded in making a large number of freight contracts here. The railway will not be taken over for two months by the C.P.R.; in the meantime the provisional rates charged by the construction department has no bearing on the classified tariff to go into effect subsequently. The C.P.R., went on Mr. Peters, has the utmost faith in the mining possibilities in the Boundary country. This was evidenced by the enormous amount of money appropriated by the company for the construction of spurs to the various camps. The report about the C.P.R. building into Republic, Wash., is unfounded.

Mr. Peters came in over the line by rail to Gladstone, and thence six miles by hand car to the rail head. He stated that the work on the big tunnel through a mountain east of Gladstone is being pushed night and day. The men are piercing through the rock a distance of 3100 feet. Working from both ends they are now in 1200 feet. The work proceeded 16 feet a day. A compressor plant is in operation. Recently 11 feet of rock in the tunnel was blown out at one shot. Pending the completion of this big undertaking, trains will overcome the mountains by means of a switch-back, there being six legs on each side. The grades are four per cent. with curves of 22 degrees, without compensation.

Snowshoe of Greenwood.

Grand Forks, B. C., July 12.—(Special Correspondence.) — A. J. McMillan of Rossland, Managing Director of the British Columbia, Rossland and Slocan Syndicate of London, England, which took over the Snowshoe property in Greenwood Camp, is in town. He is accompanied by H. W. Hardy, consulting engineer. Mr. McMillan reports that the property is being developed on an extensive scale. A 40 horse power boiler, engine and hoist were installed this week. The shaft is now down 180 feet, and in addition there are a number of cross-cut drifts and open cuts. The C.P.R. spur line, now under construction in Greenwood camp, crosses the claim, which is a gold-copper proposition.

Placer Gold.

The Vancouver, B.C., Province publishes a story to the effect that placer fields of gold have been discovered near the upper entrance to the Alberni Canal on the Pacific coast. The distance to the part of the country is about 150 miles by water, from Victoria. It is said that as high as $2 to the pan has been gotten by prospectors.

ALL TUCKERED OUT.

Ordinary household duties shouldn't exhaust a woman who has good health. Doesn't take much work, though, this warm weather, to tire out, or even prostrate a woman who suffers from any derangement of the heart or nerves.

Every summer thousands of women break down in health.

Their daily work becomes a burden—
They can no longer sit still and read or sew—
Even the joyous laughter of their own children distresses them.

The great majority can't go to the seaside to recuperate—
Must struggle along as best they may.
Is there any help for such?

MILBURN'S HEART AND NERVE PILLS.

This remedy supplies food for the exhausted nerve cells, enriches the blood, strengthens and regulates the heart and invigorates the entire system.

Any worn-out, run-down, tired-out, weak, nervous woman who starts using these Pills soon finds her health and strength returning.

Her appetite improves—
She does not tire so easily—
Sleep is sound and refreshing—
The ashen color of her face is replaced by the rosy tint of health—
Her heart beats strong and regular.

Such has been the record of Milburn's Heart and Nerve Pills in the hundreds of cases that have been brought to our notice.

Here is one woman's statement:—

Mrs. J. Delaney, who lives at 262 Brussels Street, St. John, N.B., says:—"Some time ago I become extremely indisposed. My blood became poor, and I was very much run down and suffered from loss of appetite, nervousness, pallor, sleeplessness and debility. I have tried a great many remedies but without securing relief. I was at last advised to use Milburn's Heart and Nerve Pills, and decided to give them a trial. I must say that from the first few doses I felt a distinct increase of strength.

"My nervous system has been invigorated and regulated. Refreshing sleep comes to me every night. Day by day these wonderful pills have built up my run down system and have given strength and energy to my weakened frame. Other troubles from which I suffered, namely, indigestion and constipation, together with severe headaches, have been altogether removed. I know there are a great many people suffering just as I did, and it is my earnest wish that all should know that a reliable cure exists in Milburn's Heart and Nerve Pills."

LABATT'S PORTER!

Undoubtedly the BEST brewed on the continent. PROVED to be so by Analyses of four Chemists, and by awards of the World's Great Exhibitions, especially Chicago, 1893, where it received 96 points out of a hundred—much higher than any other Porter in United States or Canada.

CANADIAN SHOTS AT BISLEY

Lieut. J. W. Gilchrist Captured the First Prize in the Premier and Got a Bicycle.

PTE. FLEMING, SECOND, GETS £10.

Bertram of the 77th Looks Like the Winner in the Volunteer Aggregate.

Bisley Camp, July 19.—Canada's representatives did well in the Premier. First and second prizes fall to members of the team, the tie with two other competitors having been shot off this morning, and, as a result, Lieut. J. W. Gilchrist of the First Battery of Field Artillery captured the first prize, winning a Premier Helical roadster bicycle valued at £21. Pte. A. R. Fleming of the B.T. Co. came second, getting £10 as his reward. This competition was open to all-comers, the range being 600 yards.

Sergt. C. R. Crowe of the First Battery of Field Artillery stood close to the front in the Secretary of State for War's competition, coming third and winning £6. Lieut. H. C. Blair of the 79th Battalion was 24th, getting £2.

In the Martins Challenge Cup competition Sergt.-Major Huggins of the 13th Battalion landed in 12th place and won £4. Lieut. R. A. Robertson of the same battalion was 17th, and, with Pte. D. Dwyer of the 10th Royal Grenadiers, 18th, and Pte. J. H. Simpson of the 10th Royal Grenadiers, 31st, got £1 each. Lieut. A. Robertson of the 77th Battalion and Capt. O. F. Wetmore of the 74th Battalion, 110th, each took £2.

The Queen's Prize.

In the first stage of the Queen's Prize, Lieut. John Gibson got 387th place and £2; Lieut. J. W. Gilchrist, First Battery of Field Artillery, 427th place and £1; Capt. A. D. Cartwright, 10th Royal Grenadiers, 460th place and £1. From this stage only the first 300 at all the ranges went into the second stage.

St. George's Challenge Vase.

Shooting in the first stage of the St. George's Challenge Vase event began today. At 500 yards, Pte. A. R. Fleming scored a possible. Sergt. A. Graham of the 48th Highlanders was only one point behind. Lieut. John Buckley of the 32nd Battalion also made 34. Sergt. L. T. Bertram's points numbered 33. Capt. A. D. Cartwright 33, Pte. J. H. Simpson 33. The St. George's is a squadded competition, shot in two stages—to-day at 500 and 600 yards, and on Saturday in the second stage at 800 yards. In the first stage the number of shots allowed is seven at each distance, and in the second stage ten. The first 100 in the first stage are entitled to compete in the second stage. The leading prizes are the Challenge Vase, Dragon Cup, Gold Cross and £30. The aggregate value of the 285 prizes offered is £950.

Lieut. A. Robertson of the 77th Battalion won 20 shillings in series four of the Scurry event. Capt. A. Wilson of the 33rd Battalion also got a place amongst the prize-winners, securing 10 shillings. The shooting was at 600 yards.

Volunteer Aggregate.

Sergt. L. T. Bertram of the 77th Battalion looks the probable winner in the Volunteer aggregate, which is awarded to competitors in the Martins Cup, Queen's Prize, first stage, and St. George's, first stage, whose respective scores make the highest aggregate. Eighty prizes are offered, the first being a £1000 challenge cup and £15.

The scores of the Canadians are as follows:

Sergt. L. T. Bertram, 77th Batt.	196
Lieut. H. C. Blair, 79th Batt.	187
Sergt. C. R. Crowe, 1st B.F.A.	189
Pte. A. R. Fleming, B.T. Co.	187
Sergt.-Maj. S. J. Huggins, 13th Batt.	193
Lieut. R. A. Robertson, 13th Batt.	184
Capt. O. W. Wetmore, 74th Batt.	188

To-day the Duke of Cambridge competition began. The scores of the Canadian competitors were:

Sergt. L. T. Bertram, 77th Batt.	43
Lieut. John Buckley, 32nd Batt.	44
Capt. R. Rennie, Q.O.R.	43
Pte. A. R. Fleming, B.T. Co.	42
Capt. A. Wilson, 33rd Batt.	41

These contestants will gain places in the prize list.

This event is open to all-comers, and the aggregate value of the prizes is £100. His Royal Highness the Duke of Cambridge gives £30 of this amount. The first prize is £20. The distance is 900 yards, and the shots number 10.

In the St. George's Challenge Vase competition, Sergt. A. Graham of the 48th Highlanders made a total score at both ranges, 500 and 600 yards, of 68.

Pte. J. H. Simpson of the 10th Royal Grenadiers made a possible in the Ladies' Competition at 600 yards.

A GREAT DAY ON THE WATER.

Sunday School Excursions in Great Numbers—Notes of Movements of Boats.

Another big batch of Sunday Schools held their annual picnics yesterday to the various pleasure resorts.

The excursions were: The Milkdealers' Association, 400 strong, to Burlington, on the Garden City; First-avenue Baptist Sunday School, 350 strong, to St. Catharines, on Lakeside and Lincoln; Newmarket Methodist Sunday School, 300 strong, to Island Park; Agnes-street Methodist Sunday School, 600 strong, to Lorne Park, on the White Star; and Prince of Wales Lodge, I.O.O.F., 400 strong, to Niagara, on the Chippewa.

About 500 members of Brant-avenue Methodist Church of Brantford came to the city on the steamer Macassa on their annual outing. A number of the excursionists spent the day at Island Park.

The farmers of Youngstown will come to the city to-day on the Corona.

The A. J. Tymon had one of her largest cargoes of fruit and vegetables from Jordan yesterday afternoon.

The annual moonlight excursion of the commercial travelers was held on board the steamer Chippewa last night. About 1200 members of the association and their friends patronized the trip and all had a good time. The brass band of the Royal Grenadiers was present and also an orchestra. During the trip a select program of musical and vocal selections was rendered by capable artists.

The Argyle took out a large excursion party to Alexandria Bay last night. She also had on board the Toronto and Springfield Baseball Clubs for Rochester.

The excursion of Victoria Presbyterian Sunday School of Toronto Junction will be run to Brant House, Burlington, to-day on the Macassa and Modjeska.

The C.M.B.A. excursion takes place to St. Kitts to-day on the Lakeside and Lincoln.

The White Star brought down a Sunday School excursion from Oakville. There were 400 in the party.

The Acacia went to Hamilton and the Queen City cleared for Queenston.

The employes of A. A. Banhelmes of Parkdale will go to Oakville on Saturday and the Ontario Wire and Lead Company excursion will take place to Lorne Park the same day. Both excursions will be carried by the White Star.

The St. Joseph, with 688 tons of coal from Oswego for Dickson & Eddy, Ante-

"Granite" and "Banner."

Attention is called to the advertisement of Messrs. T. G. Williamson & Co. of this city with regard to the treasury stock of the above properties, which are being operated by the Camp McKinney Mines, Limited. A five-stamp mill has been installed and the telegram quoted in the advertisement gives the result of the first run. The company is capitalized for only $250,000, and it will be observed that the amount of ore blocked out already amounts to $200,000, which certainly looks most promising.

Arsenical Iron Carrying Gold.

There have been discovered in the Lake Temagamingue district vast deposits of arsenical iron, carrying gold, which, it is reported, are the largest and richest deposits of this mineral in the world. The ore is in a solid body over 1020 feet long by 310 feet wide. It would take over three generations to take a layer 10 feet deep off the whole tract. The assays show over 47 per cent. of crude arsenic to the ton and $8.20 of gold. The find is considered phenomenal. Eggert & Howlatt of 3 Court-street are interested in the discovery.

The Parry Sound Mines.

Before the members of the Standard Mining Exchange yesterday afternoon Mr. R. Forbes, the expert of the Parry Sound Copper Company, owners of the McGown mine and other properties in the locality, gave a review of the work that has already been done at Parry Sound and the phenomenal results that have been obtained.

He said the work was being pushed along as fast as men and money could do it and that the results were simply marvelous. He had examined mining properties north, south, east and west, but never had he seen anything in the way of a mine that could compare one-fifth in value, at the present stage of the mining, with the McGown mine to-day. He went into details to show the value of other mines in comparison with the McGown and he stated emphatically that any man who went into the Parry Sound district now could make big money out of mining, as the district had the minerals in larger quantities than any place else, and besides that there were easy means of transportation and it was right at the doors of the people of Ontario.

Mr. Forbes said he was out in the Kootenay district before a shaft was put into the Le Roi or the War Eagle mines, and he knew all about those splendid properties, but he would not take a half interest in the Wilcox property at Parry Sound for the War Eagle and Le Roi properties combined.

He said that when the geologists and mineralogists condemned a country, that was the time he always went to the place and he quoted several cases where the geologists and mineralogists had condemned good things, notably Parry Sound and the Rainy River district.

Mr. S. F. Pearce, a director of the Parry Sound Copper Company, made a few remarks in corroboration of all Mr. Forbes had said and Mr. J. B. Vallentyne of the Hattie Bell Company also spoke, saying that his company was working hand-in-hand with the Parry Sound Copper Company for the proper development of the district.

Mr. Frank Powell of the Mining Exchange said that he, with others, had visited the Parry Sound properties and had been astonished at their value.

A vote of thanks was passed to Mr. Forbes, Mr. Pearce and Mr. Vallentyne.

An Honorary Member.

At the afternoon session of the Standard Mining Exchange yesterday, Mr. Forbes of the Parry Sound Copper Company was upon the motion of the president (Mr. E. Gartly-Parker, seconded by Vice-President M. D. Boyd) granted the privileges of membership for 12 months from date, to mark their appreciation of the courtesy extended by Mr. Forbes on their recent visit to the Parry Sound District.

SHE KILLED HER SISTER.

To Get Insurance and for This Mary Ansell Was Hanged in England.

London, July 19.—Despite strenuous efforts to secure a reprieve, including an appeal to the Queen, Mary Ann Ansell, who was convicted of murdering her sister, an inmate of an insane asylum, by sending her poisoned cake, was hanged to-day at St. Alban's. The crime for which Mrs. Ansell was executed was committed for the purpose of securing the payment of life insurance money, the murderess having obtained a policy upon the life of her sister, giving a false description.

Cream Puffs Not Analyzed.

Dr. A. R. Pyne, seen by The World last night, said he had no authority to analyze the alleged poisonous cream puffs that made the Drury family sick on Monday.

He declared such authority would have to come from the consumer or the maker, and as yet he had been approached by neither.

Rainy River

The Rainy River Gold Mining Co. Limited.....

INVESTORS WHO INVESTIGATE, and understand cold, hard facts, are purchasing the shares of this PARENT COMPANY, because they realize:

1. A company with scores of properties in one of the best and cheapest mining camps in the world must succeed.
2. The management of this company is practical, economical, reliable and aggressive.
3. Two of the company's important properties, under vigorous development, are demonstrating large ore bodies.
4. Several subsidiary companies under organization will each provide 50 per cent. stock dividends.
5. The shares at twenty cents each are the best value on the market.

The price of shares will no doubt be advanced at the Annual Meeting on Aug. 1.

SOMETHING GOOD.

If you are looking out for something good communicate with,

E. GARTLY PARKER, - Member of the Standard Mining Exchange, 12 Adelaide St. E. Phone 1842.

He deals in B.C., Ont. and Republic Mining Stocks and Properties.

It was Mr. Parker's pleasure to meet Messrs. Forbes, Pierce and Vallantyne yesterday at the Standard Mining Exchange, gentlemen who are interested in **Parry Sound District**, close to our doors, and it will repay investors to consider any proposition emanating from them. Like the **Republic Camp**, Parry Sound has some really wonderful properties.

Van Anda, Golden Star, Empress, Deer Trail No. 2.

We handle all Mining Stocks, and can give close quotations on Republic Stocks. 246

The Market is Dull

Owing to the holiday season, only a small percentage of the general public are coming forward, the residue apparently frightened by the ups and downs of Golden Star. This is emphatically the time to buy MINING STOCKS. First be sure there is merit in the proposition, and then go ahead. Send for our views. Orders for the purchase or sale of any of the standard stocks promptly and carefully executed.

12 Per Cent Interest

Is what holders of Deer Trail No. 2 stock have been getting for fourteen months. This investment is as safe as a bank stock, and pays three times as much interest. There is ore enough in sight at the mine to keep this dividend up for years. We also recommend Van Anda, Fairview Corporation, Canadian Gold Fields, Alice A. and Hammond Reef. We buy and sell all reliable mining stocks on a small commission. Clients can rely upon honest treatment, as we have no interest in any mining company, and no worthless stock of our own to unload. Write, wire or telephone for quotations.

INVALID AND NURSE BOTH DEAD.

Miss Sills of Belleville and Miss Phillips of Toronto Drowned in the Moon Chute.

Bracebridge, July 19.—Two young ladies, Miss Annie Sills, the 18-year-old daughter of Mr. E. G. Sills, ex-M.L.A., of Belleville, and Miss Phillips, her nurse, who have been stopping for some time with Mr. T. Burgess of Bala, went out on the river on a rowboat. As far as is known, they ventured too near the mouth of the Moon chute, and the current, being very strong, they were swept down the chute. A party who were on the river in a boat saw their danger, but they were too far from them to render any assistance. They found the boat, cushions, oars, etc., at the foot of the rapids, but no signs of the unfortunate occupants. The place where the accident happened is very dangerous, the current very swift and strong, and strangers should never venture near without a guide. This is only one of a number of accidents that have happened at Moon chute.

Miss Sills had been suffering from nervous prostration, and, in company with her nurse, went to Muskoka two weeks ago for the benefit of her health.

Miss Phillips' parents reside at Newmarket, her father being Mr. A. S. Phillips, but she had been residing in Toronto for several years. Two years ago she graduated as a nurse from the General Hospital, Toronto, and since that time she has been filling positions as private nurse, and living with Mrs. Kirk, 5 Clarence-square. She was a most estimable young lady. Only
