SPEED IS GREAT ESSENTIAL IN ATLANTIC MAIL SERVICE

Subsidy Forfeit on Each Trip Overtime—C. P. R. Compete With Allans.

Ottawa, Jan. 8.—In the negotiations now in progress between the cabinet and the Allan Steamship Company for a five years renewa lof the latter's Atlantic mail contract, the company promises to provide for the service the two turbine boats which are built to steam seventeen knots, two other vessels of fifteen knots, and two new steamers of eighteen knots, which they intend building if they get this contract. The Canadian Pacific Railway Company have again called the government's attention to the fact that their two new vessels now building in the old country will be the fastest on the St. Lawrence route, and are available for the carriage of mails to and from the old country. They are willing to accept a joint contract with the Allans, whereby the mails would be carried by the two fastest liners of either company. The Allans refuse, however, this proposition. The draft contract in course of negotiation with the Allans contains most stringent provisions to ensure that the mail boats shall make the best time of which they are capable. The subsidy will be payable at so much per trip, and in the event of the mails being unduly delayed the subsidy will be forfeited altogether. The company and the government have not yet agreed upon the precise terms of the bargain, and in the event of the Allans refusing what the government considers a reasonable arrangement a bargain may yet be made with the C.P.R.

ROGERS CALMLY DEFIANT WON'T SHOW MISSOURI

New York, Jan. 8.—Henry H. Rogers, the vice-president of the Standard Oil Company of New Jersey, and a director of the Standard Oil Company of Indiana, which Attorney-General Herbert S. Hadley is trying to oust from Missouri, was on the witness stand today on quo warranto proceedings brought by Mr. Hadley. Mr. Hadley took up with him only two points: Whether the Standard Oil Company of Indiana has an office at 26 Broadway, this city, where the Standard Oil Company of New Jersey has its offices, and whether the Standard Oil Company of New Jersey owns or controls a majority of the stock of the Indiana company, the Waters-Pierce Oil Co. of Missouri, and the Republic Oil Co. of New York.

Mr. Rogers said that he did not know that the Indiana company has offices at 26 Broadway, that he supposed its affairs are in Indiana, and that he imagined that James A. Moffet, president of the Standard Oil Co. of Indiana, has an office at 26 Broadway, but that he (Rogers) was never in it.

Mr. Rogers declined to answer the question, whether the Standard Oil Co. of New Jersey owns the stock of the other companies which Mr. Hadley alleges has combined to stifle competition in Missouri. Mr. Hadley pressed the questions with much insistence and demanded answers without evasions.

He Doesn't Care.

"Do you mean to say to the supreme court of Missouri that you do not know where the offices of the company which you are a director of are located?" demanded Mr. Hadley.

"It is immaterial to me what the supreme court of Missouri expects me to say," replied Mr. Rogers.

When Mr. Rogers went on the stand this forenoon a zealous photographer temporarily broke up the proceedings and drove him out of the room by burning a flashlight to get a picture of him. It filled the room with smoke, and Mr. Rogers was excused until a later hour.

HAMILTON NEWS

HAMILTON'S CIVIC AFFAIRS SPEND WITHIN REVENUE

Is Mayor's Suggestion in Inaugural Address—Game Protective Association Formed.

Hamilton, Jan. 8.—(Special.)—The first session of the new city council was a pleasant but tame affair. A number of ladies added to the brightness of the scene, and Chairman Nicholson of the markets committee decorated the council chamber with flowers, flags and bunting. The session was opened with prayer from Rev. F. E. Howitt. Mayor Biggar delivered an address of considerable length. It was, in brief, to the effect that the city's share of local improvements should be reduced, as he considered it too high; that the expenditure should be kept within the revenue, which was not done last year; that a public wharf was needed in the east end annex district; that the Dominion and Ontario governments should be asked for grants towards improving the facilities for the shipping of manufactures by water, and that Messrs. Long and Bisby deserved the gratitude of every citizen for their splendid gift of a site for the consumption sanitarium, at a cost of $8500. Ald. Main and Ald. Eastwood made brief speeches, and the latter advocated a return to the ward system of electing aldermen, electing them for three years, a certain number to drop out each year. Ald. MacLeod, Stewart, Wright, Eastwood, Nicholson, Bailey and Main were appointed on the striking committee.

Committee Honors.

The striking committee reported at to-night's meeting of the council as follows, the slate passing without a crack: Board of works, Ald. Stewart, (chairman), Church, Findlay, Howard, Baird, Dickson, Sweeney; markets, police and jail, Ald. Nicholson (chairman), Eastwood, Lewis, Gilbert, MacLeod, Main, Bailey; fire and water, Ald. MacLeod (chairman), Allen, Church, Sweeney, Clark, Birrell, Gilbert; House of Refuge, Ald. Baird (chairman), Wright, Howard, Findlay, Bailey, Stewart, Martin; sewers, Ald. Wallace (chairman), Howard, Lewis, Martin, Allen, Dickson, Clark; court house, Ald. Gilbert (chairman), Lewis, Gilbert, Baird, Howard; harbor and beach, Ald. Sweeney (chairman), MacLeod, Findlay, Witton, Martin, Clark, Dickson; finance, Ald. Main (chairman), Bailey, Eastwood, Wright, Nicholson, Witton, Birrell; bay front improvement, Ald. Eastwood (chairman), Main, Stewart, Wallace, Allen, Nicholson, Birrell. The council reappointed the retiring members of the independent boards, as follows: Board of education, Thomas Hobson, J. T. Wilson; board of health, W. H. Judd, Thomas Creeks; court of revision, R. MacKay; library board, Henry Dallyn.

Game Protection.

A largely attended meeting of well-known citizens was held in the Waldorf Hotel to-night for the purpose of organizing a local branch of the Ontario Fish and Game Protective Association. Major William Hendrie, jun., presided. A. Kelly Evans, Toronto, secretary-treasurer of the Ontario Fish and Game Protective Association, spoke on the aims and objects of the association, and the great benefits to be derived from assisting the authorities in prosecution for offences against the fish and game laws. Oliver Adams, Toronto, secretary of the extension committee, spoke of the progress the association was making. Samuel Barker, M.P., Dr. Malloch and others expressed sympathy with the proposed organization, and they promised to support it. The membership fee was placed at one dollar. About fifty joined the association to-night. Following were the officers chosen: Judge J. F. Monck, president; James Crooks, Thomas Upton, Dr. Rennie, vice-presidents; Major W. Hendrie, secretary-treasurer; executive committee, Mr. Barnard, Major Labatt, Dr. Malloch, Captain Spencer, John Hunter, Dr. Overholt, George Burton.

C. P. R. Extension.

Options on property in the new annex are being obtained by John Addison for the C.P.R. Company, which, it is said, intends putting in a stub line to parallel the Grand Trunk's line to the manufacturing district.

Local pork packers are objecting very strongly to the rescinding of the regulation with reference to importing hogs in bond from the United States to be slaughtered here and sent out of the country again as the manufactured product. They say they cannot get enough Canadian hogs to keep their factories running, and bringing hogs in bond and sending them right out again as pork does not interfere with the Canadian market.

Willie Whiteside, a former well-known Tiger footballer, and for some time a law student in Nesbitt, Gauld & Dickson's office, died yesterday in Montreal. His remains will be interred in this city Tuesday afternoon. The funeral will be from the residence of Mrs. Brocklesby, 224 Mary-street.

Judge Gets White Gloves.

Justice Britton was given a pair of white kid gloves by Sheriff Middleton at the opening of the assizes this afternoon, there being no criminal case on the calendar. Ald. Gilbert was elected foreman of the grand jury. John Luxton was chosen a grand juryman in place of Stewart E. Malloch, who died since being drafted.

The cemetery board to-morrow night will consider a request from Rev. H. W. Crews, made on behalf of the Hamilton Ministerial Association, that Sunday funerals be discontinued. Some of the members of the board think occasional Sunday funerals are necessary, but Superintendent Rutherford would like to see them discontinued.

George F. Moore, formerly of this city, but who has been foreman in the works of the N. & W. Railway at Roanoke, Virginia, for a number of years, died yesterday. He was a brother of T. L. David and S. A. Moore of this city.

Police Want More.

The police are talking of asking for increased pay. The first class men, who get $2.10 a day, want 25 cents more. A general increase may be asked.

H. T. Bunbury, clerk of the first division court, thinks some person wants to burn down his office. Yesterday he discovered coal oil poured on the floor in a suspicious manner. Some time ago an attempt was made to burn the place.

The Toronto Daily and Sunday World delivered to any address in Hamilton before 7 a.m.; daily, 25 cents a month; Sunday, 5 cents per copy. Hamilton office, Royal Hotel Building. Phone 965.

David Harum Cigars, 2 for 15 cents or 4 for 25 cents, to-day, at Billy Carroll's Opera House Cigar Store. ed

SAFEBLOWER JUST RELEASED ANNOUNCES HIS CONVERSION

Startling Confession of Evangelists' Power Made at Massey Hall Last Night.

That the interest in the Torrey-Alexander meetings has not abated was evinced by the fact that 2000 people were at Massey Hall yesterday afternoon, and in the evening the auditorium was packed to capacity. Fifty persons professed conversion, and many requests were made for prayer.

At the afternoon service Dr. Torrey spoke on "Bringing in Sinners." He said that greater results were to be obtained from personal work than from that of preachers or teachers. The great advantages that personal work had over preaching were many. "Anyone could do it at any time, any place, among all classes, an effective work that will produce wonderful results," said Dr. Torrey.

After the sermon a telephone message was received from the City of Belleville, asking for the results of the meeting, and requesting that a worker be sent to help them. A later telegram read: "We ask your prayers to kindle a fire that will never go out."

A man from Ingersoll rose in the audience and said that he had come down to see if the meetings were really as the press represented. He was satisfied. He was glad that a sensible English woman had decided to have a Yankee singer for her husband.

Many pastors gave testimony to the great help the services had been to them, as well as an enthusiasm to the Christians thruout the city.

At the evening service, after Mr. Alexander had sung a new hymn, back in the gallery rose a man. "I have just been released from Kingston Penitentiary," he said. "I served ten years for safe-blowing. I thank God that I was on my knees for two hours last night. By the grace of God, I hope to live a sober, upright life. I have been a drunkard and a scoundrel. I hope to live down my past."

"Thank God," said Mr. Alexander. "What a noble, brave resolve." The audience rose and sang "There By the Side of Jesus," a song which is gaining great popularity at the meetings.

Dr. Torrey took as his subject, "What, Then, Shall I Do With Jesus?" Everything, in this life, in the life to come, depended on what one did with the Christ. If He was accepted He would be everything. Reject Him and everything would be lost. Peace of conscience depended on the accepted and simple faith. Lasting peace, satisfying joy, everlasting life or sorrow, unhappiness, death depended on the treatment of the Saviour. It was the great divide. Decide to-night—now!

"The brutality, cold-heartedness, merciless cruelty of people," said Dr. Torrey, "people of culture and refinement, who let the babes of the poor starve while they roll in wealth, is just as devilish as the drunkard who roasts his child in a drunken rage. The cold, self-centred cruelty of the upper classes was just the same as the low, brutal, vile, degradation of the lower classes."

Take Laxative Bromo Quinine Tablets. Druggists refund money if it fails to cure. E. W. Grove's signature is on each box. 25c. 2340

After a Picture.

Sir Frederick Borden has written to R. K. Killaly, judgment clerk at Osgoode Hall, for a copy of the illustration of "The Canadian Defence Commission in 1865," which appeared in The Globe of the 23rd ult. The minister of militia is very much interested in the picture, and will have it enlarged for the department.

LOCAL OPTION LEGALIZED IN ONLY ONE OUT OF THREE

Pickering Township Council Acts on the Vote, But Markham and King Hold Over.

In a number of local municipalities in York County and the adjoining Township of Pickering, where the local option measure was carried, the inaugural meetings held yesterday were made the occasion for dealing with the matter.

In Brougham, where the Pickering Township Council met, the bylaw was given its several readings and finally passed, to take effect on May 1. Some slight informality in the manner of taking the vote is said to have occurred, but council overruled the objection. In Pickering the bylaw was carried by a majority of 98.

In Markham Township the measure was not so successful. At the meeting of the council yesterday a letter was read from J. A. Haverson, solicitor for the Licensed Victuallers, protesting against the passage of the measure on the ground of informality in the appointment of a deputy returning officer in sub-division No. 5. C. H. Stiver, township clerk, in the appointment of a deputy returning officer to take his place, was said to have exceeded his privilege. The bylaw was given its first and second reading, and laid over until the next meeting of the council. In Markham Township the bylaw was carried by 194 majority. The old system of statute labor is again in vogue in Markham Township in accordance with the vote abolishing the commutation system. E. Wismer was appointed assessor for the east, and Wm. Brown for the westerly portion of the township. The board of health will consist of Reeve Slater, R. A. Stiver, David James, Wm. Monkman and J. A. Mitchell. The auditors are J. F. Davison and Walter Scott. J. E. Francis was appointed commissioner for Yonge-street.

King Township passed the local option bylaw with a majority of 59, but council yesterday refused to deal with the bylaw. A special meeting will be held on Jan. 20 to consider the question, but Township Clerk Jenkins regards the matter as likely to be held over during the year.

WHAT IS A TRUNK LINE?

Editor World: The papers talk of new C.P.R. trunk line in the Northwest. Will you give the definite meaning of a "trunk line" in this connection and oblige many readers?

The main line from which branch lines diverge.

PULPWOOD POLICY.

The government's policy in regard to the pulpwood industry will be announced in a few days by Hon. Frank Cochrane, minister of mines. Altho applications have been made recently by parties desirous of securing pulpwood concessions they will not be definitely dealt with for some time.

Car Struck Wagon.

A City Dairy milk wagon, driven by a man named Phillips, was struck by Car No. 8 on the Scarboro Electric Railway, near Woodbine-avenue, yesterday. The horses escaped uninjured, tho the wagon was badly smashed. Phillips was dragged from the wreckage uninjured, but drenched with milk from head to foot. The vestibule of the car bore marks of the collision.

SCHEME FOR COMPENSATION WHEN LICENSES ARE CUT OFF

Young Liberals Would Divide It Between Government and Liquormen Themselves.

"Public Opinion and Public Life" was the subject of an address by Rev. J. A. Macdonald before the Young Liberal Club in the Labor Temple last night.

Public opinion was defined by Mr. Macdonald as the thing that finds expression in the acts of public men. Power was the essential element of a public man's career, as power must mean responsibility and the powerful man must become responsible to recognized public opinion, which should be educated to be active and not lethargic. If democracy was educated it would have only the powerful, well educated, whole-souled leader.

Mr. Macdonald then spoke of the university and the system there of teaching an arts course and a science course separately and not combining the two for a thoro education, as the arts man knew nothing of science and vice-versa. This was a bad system for the educating of public men, to which class every man should aspire, both in the interests of Christianity and of patriotism.

Every source thru which men are educated (the church, the press, political institutions or parties) should combine these educational facilities and efforts towards this. Information should be spread by the press, the political parties should arouse profitable discussion and the church should be, or is, the key to the situation, as nearly all educational institutions are under the jurisdiction of some section of the church.

A motion was made at the meeting that the Liberal Club should strongly advocate compensation if or when license reduction is asked, for by the people. One-half of the compensation should be contributed by the government and one-half by the liquor men themselves who still retain their licenses.

The matter of erecting a suitable Liberal Club building was also discussed.

GAZETTE PRINTERS STRIKE EDITORS ARE SETTING TYPE

Trouble in Montreal Newspaper Office Over Placing Apprentices on Monoline Machines.

Montreal, Jan. 8.—(Special.)—The editor-in-chief of The Gazette and a dozen more are setting type this evening in The Gazette office. About 75 printers in the news and job office are now on strike and the paper will be crippled for a few days. The Gazette will publish the following to-morrow:

"The Gazette will for some days be published under disadvantageous circumstances. Some time ago there was put into the job printing department a monotype plant. Men qualified to operate the machines are few in number. There were only three among the employes of The Gazette. They were not rendering what in the opinion of the management was satisfactory service in that the work done on the machines was not as great as was being turned out in other establishments. The men especially concerned were spoken to on the matter, and seemed to recognize the justice of the complaint. In turn they were assured that if they showed better results their request for an increase of pay would be considered.

"On Saturday last one of the men in question was absent. Another, early in the forenoon, asked to be put on different work. When this desire was not acceded to, he left. The third followed his example. Two apprentices who had some experience with the machines were then put at work on them. To this the union men objected, and, when the foreman declined to take the apprentices off, left the establishment. All were being paid the typographical union scale, and admit that personally they had no complaint to make. The object of their going out was to prevent apprentices from learning to operate machines, which it is their desire that only members of the union shall be permitted to work on.

"Last evening at 7.30 the men working on the newspaper, which is a separate department, having no connection with the job printing plant, also left their work. They did this, it is understood, in obedience to an order of Mr. Lynch, the president of the International Typographical Union, whose headquarters are at Indianapolis, U.S., conveyed thru the president of the local union, who is an employe of another office. The men in the newsroom, like those in the jobbing department, had and made no complaint. They also were receiving the union scale of pay and working under union conditions. Their action was a coercive strike, designed to force the management of the establishment into accepting conditions untair and tyrannical.

"Under the circumstances, the publishers trust that the readers of and advertisers in The Gazette will show the consideration the situation calls for. With the help of the loyal employes, who, it is hoped, will be reinforced in a few days, it is expected that the inconvenience will be short lived."

RECOVERED $600 OF "SWAG."

Another Lot of Moneypenny's Tweeds Found in Chatsworth.

Detective Sockett and Mr. Monypenny of the firm of Monypenny Bros., returned last night from Chatsworth, where they succeeded in recovering about $600 worth of tweeds, stolen from the firm. They expected to have unearthed about double the quantity, but were disappointed. The goods were in possession of a merchant in the village. He claims he purchased them from Goodman. None of the silks stolen from W. R. Brock & Co. were found.

Charles Goodman, who is under arrest for receiving, and who is supposed to have "fenced" the stolen goods, will come up in police court today.

The man Warren, who was arrested on a charge of vagrancy by the police, was never in the employ of Monypenny Bros. His brother, who is missing, was the caretaker of the building.

ARE NOW PROVINCIAL "COPS."

Sergeant Duncan and Detective Mackie Recognized by Government

Detective Sergeant Duncan and Detective Mackie yesterday received their Christmas box from the Ontario government. It was the official document notifying them of their appointment as provincial constables. This is the first time a city officer has received this distinction. It gives them power to make an arrest in any part of the province

PIANO SALON:
115-117 King Street West,
TORONTO.

FALSE RETURNS TO GOV'T.

Continued From Page 1.

advantage, causing the wreck of the company, but the investigation is still proceeding.

Rental Inadequate.

The factory occupied by the Liszt Piano Co. was erected by the Loan Co. at an entirely inadequate rental, and at the end of two years the piano company had an option to buy it at $60,000.

In November last the Loan Co. had sold its office premises, costing it $100,000, for $60,000, in return for maturing and matured shares of its own withdrawable stock acquired by the Toronto Life Co.

No accounts had been kept with the instalment shareholders, nor is there any means in the company of determining its liability to them, except from agents' reports.

Shortage of a Million.

There is a shortage of about $1,000,000 in the instalment share account, and the company's published statements were "increasingly untrue each year, accompanied by similarly false returns to the government. The auditors and officers, according to the evidence, were unaware of this. This might be possible save in the president's case."

Determined on Saturday.

On Saturday morning Hon. Mr. Foy, Mr. Cross and Mr. Masten had a two hours' conference at which the advisability of ordering the arrest of Mr. Phillips was determined upon.

At 9 o'clock yesterday morning the matter was placed in Crown Attorney Curry's hands by Mr. Masten. Mr. Curry then ordered Detective Sergt. Duncan to place the law in motion.

"The charge is practically one of making false returns to the government in connection with the York Loan," said Mr. Curry late last night. If Phillips can get bail I have told Mr. Hunter I would accept his surety for $5000.

Mr. Curry has apparently known for some time that the York Loan was shaky. He has had to interfere with considerable success on behalf of people who were entitled to their money from the company but didn't get it until he took a hand in the matter. Then they did. He has some recollection of the company figuring in the police court in the happy days gone by. Always he advised those who consulted him to move their money to something that looked better.

Mr. Curry said that he had not gone into the matter sufficiently yet to talk of details, or even make one charge entailing a specific amount. The investigation had shown Phillips' statements to the government had been wrong, and that he had evolved the scheme of a Realty Company, to whom lands were sold and mortgaged to the full value. These would show, per the statement, larger assets in the way of mortgages than there were, and this statement had to some extent gulled the public. The mortgages would generally be accepted as investments, and worth more than par whereas they were on the company's own property. It was shown that the company was the owner of the real estate that was mortgaged.

Public Deluded.

"By a false statement the public was induced and led to believe things much different from what they were," said Mr. Curry.

Then the loan company had a lot of real estate which he doubted the legality of their having, but would not say so. They were entitled to loan and advance money on real estate, but not to speculate.

Discussing this phase and speaking entirely for himself Mr. Curry said he did not believe in parental legislation. People ought to be able to manage their affairs, but the law was the law. As far as the York Loan was concerned he had always felt that it was not a safe game. He was acting for the people now at the request of the attorney-general. There would be a remand when the case is called to-day, and then he will go into details.

No Others.

"Phillips asked if you were going to arrest anybody else?" said The World.

"Don't think so, as far as I know," replied Mr. Curry. "The report puts the whole burden on Phillips. Up to the present time I have not determined what further course of action I shall take. I want to become possessed of all the facts."

"When you were afraid of this concern for so long why didn't you do something to prevent others going into it?" he was asked.

"It was run under the provisions of the law, as far as I could find out," said Mr. Curry in reply.

Mr. Phillips on his release from custody had nothing to say regarding the case.

Toronto Shareholders.

The local committee of the York Loan shareholders will meet at the Methodist Book Room to-night and will consider some propositions from Toronto capitalists to the effect that they co-operate in the purchase and development of York Loan real estate. The committee approves of the idea that the city should have an expert look into the property of the Southern Light and Power Co., and see if it could not be beneficially used by Toronto.

CAUSE OF FIRE UNKNOWN.

Samuel Gotashensky's Death to Be Investigated—Iron in Cotton?

The cause of the fire which caused the death of Samuel Golasbinsky still remains a mystery. The inquest opened last night by Coroner J. E. Elliott at the General Hospital did not show any sufficient reason for the starting of the fire.

The foreman of the picking department and the superintendent of the company both agreed that while the occupation was a dangerous one, the only cause for the fire was a bit of stone or steel striking the picks and creating a spark.

The inquest was adjourned until Wednesday night at the hospital.
