Camp Notes.

SPORTS DAY.

The weather man was again in kind mood yesterday and King Sol shone out in all his glory over the camp and added to the success of the Sports held during the day. A large number of visitors were present and all were greatly interested in the various events which were run off under the direction of Lieut. Fred Reid. The lads all entered into the spirit of the thing and showed which was good to see. Even the officers, many of whom surprised even themselves by their show of energy, took part in their own events with a "go or die" expression on each face.

In the 100 yards dash for officers the Camp Commandant, Capt. Henry, surprised everybody by putting on a burst of speed which took him past the tape a long distance ahead of the other competitors. Capt. Joe Snow was second, and the also rans, were Capt. (Rev) Pike (who, inadvertently has been taken down "one pip" in the last two of these notes), Lieut. King, Lieut. R. G. Ash and Lieut. F. B. Rendell. The 100 yards race was quite well contested. Some of the competitors however, in crowding under the tape a bit, were sent in. The road race from Mansel's Bridge was very well run and was won by Sgt. Hookey in good style. The football match between the Officers and the Visitors caused considerable amusement. The heat was anything but an inducement to play a hard game and as a consequence the match was played in shifts, some carrying on, whilst others stood by and rested. The officers won by 2 goals and 3 corners.

A corner. Lieut. Phil Rendell played a magnificent game in goal and seems marked out for a successful career between the posts. Capt. Henry and Capt. Snow also played hard and spectators were greatly surprised at their enormous amount of surplus energy. The officers team was Capt. Henry, Capt. Snow, Lieut. Rendell, King, Reid and Perlin. Amongst the casualties were Messrs. R. Jeans, E. Lawrence, F. Wills, A. Clouston, F. Curran and C. Dicks. After prayers in the evening, the sports prizes were presented by Mrs. Miller, wife of Capt. J. J. Miller of J. Co. Wabana. His Excellency the Governor inspected the camp at 2 p.m. to-day and to-morrow camp will break up and the Battalion will march to town. The list of winners in the Sports is as follows:

A Criminal Waste.

Messrs. Fred House, J. and Reginald White are at present taking the census in their town. It used to be the custom in the days of previous Governments to pass on this sort of thing to school teachers, since they were the worst kind of government servants in the colony. It has remained for the present administration of political crooks to award this work to party supporters and not to needy school teachers.

However, with that aspect we are not so much concerned as with the waste of the Colony's money in such an entirely unnecessary undertaking at this time. A Census is an interesting accumulation of data when times permit, but to spend \$50,000 on a census with an almost bankrupt Treasury and a population groaning under a burden of taxation is nothing short of a piece of criminal waste.

And this on the part of a Government which pleads that it has no money for this, that or the other thing, and yet can waste it on a census! Not an economy! Members of the Assembly still getting paid their \$1000 a year, while the working man is told that wages must come down! Departmental Heads drawing their \$4000 to \$5000 a year, but the laborer is told that 25 cents an hour is high enough this year!

Oh, it is absolutely sickening. Wake up Newfoundlanders.—Twillingate Sun.

Harbor Grace Notes.

Schr. Lucid, Capt. C. Barrett, after being on dock and repairs effected, left port on Saturday.

Schr. Effie M. Morrissey, Capt. H. Bartlett, arrived in port from Brigus Saturday afternoon and went on dock.

Miss Elsie Sheppard, of Wood's Candy Store, St. John's, is in town spending a holiday with her mother.

Mr. A. J. Goodland, Principal of the High School here, left by the s.s. Sagona on Friday, to spend a time at Bonavista.

Miss Lizzie Foley, stenographer at the Bank of Montreal, St. John's, arrived in town by Saturday night's train on a holiday, to her parents, Mr. and Mrs. J. Foley, and friends.

Schr. Elsie May, Leander Pike, master, arrived in port yesterday morning from Carbonear, and went on dock.

Schr. St. Helena, Capt. Vardy, arrived in port yesterday at dinner hour and went on dock in the afternoon.

Mr. Bert Simmons, of Messrs. Gray and Goodland's, St. John's, is on a holiday here to his mother, Mrs. Hugh Simmons and friends.

The Sons of England annual decoration service took place on Sunday afternoon, the different cemeteries being visited and on the grave of each deceased member floral tributes were placed by the brethren.

A Strawberry Festival is to be held on the South Side this afternoon (Wednesday), strawberries, ice cream and high class tea being supplied by the ladies in charge. The day is such a very fine one and it being a whole holiday in town the affair should be well patronized. We wish the ladies every success.

A football match was played at Shannon Park last night, between the Star team and a visiting team from Bay Roberts, which resulted in a win by the latter.

Mrs. (Rev.) E. Davis and child, after having spent a month or more here visiting friends, left for Bay of Islands by yesterday morning's train.

Miss Rene Wills, stenographer at Messrs. A. Harvey & Co.'s, St. John's, is on a two week's holiday here, having arrived by Monday night's train.

Motor boats Zaida B. and E. L. Stewart arrived in port on Monday night from Bell Island, bringing a large number of passengers, being chiefly those who have been discharged from the different companies there until operations are again commenced. This places quite a lot of men out of employment, but we hope it will not be for long and conditions will be such that they will be able to resume work on the island again.

NOTICE OF QUESTION.

Sir M. P. Cashin.—To ask Hon. the Minister of Marine and Fisheries to lay on the table of the House a statement showing the number of vessels cleared for the Labrador fishery this year, last year, and the previous year, if these details are kept in his Department and if not, to procure them from whatever Department keeps such records and submit them here.

Sir M. P. Cashin.—To ask Hon. the Minister of Marine and Fisheries if his attention has been called in an article in the past issue of the "Western Star" which asserts that illegal salmon fishing is general on the West Coast, and that at one point a party of five tourists from abroad were so disgusted with conditions that they left for home earlier than they intended; and if the Government, as it has abandoned the system of fishery wardens, will take any steps to prosecute the parties guilty of these offences.

Sir M. P. Cashin.—To ask Hon. the Minister of Posts and Telegraphs if it is the case that officials in his Department are destroying all newspapers addressed to points in the Northern Bays, except the Advocate and the Star; if this is done with his approval and that of his Department; and if any written instructions to that effect have been given, to lay copy of the same on the table.

Sir M. P. Cashin.—To ask Hon. the Minister of Education if it is his intention to appoint a Private Secretary after the closing of this House; and if so, to state who he proposes for this position and what is the need for such an appointment.

Sir M. P. Cashin.—To ask Hon. the Colonial Secretary if a claim on behalf of the F.P.U. for payment of several hundred dollars for clothes supplied to the crew of the motor boat F.P.U. is or has been before his Department and if the facts are that this motor boat was lost on the North Coast a year ago, the crew escaping; if the crew claimed that they lost their belongings and secured new outfits from the F.P.U. store in the vicinity; if the bills for these outfits were sent to the Poor Commissioner and by him to the Relieving Officer in the vicinity; if the Relieving Officer refuses to certify the bills on the ground that the men saved all their clothes and suffered no loss whatever; if the Hon. Minister of Marine and Fisheries and the Hon. Prime Minister have both written urging that the bills be signed, and if so why; and to lay on the table of the House copies of all correspondence in relation to this matter.

League Baseball, St. George's Field, this evening at 6.45 sharp. Cubs vs. B. I. S. Admission 10c. Ladies free. Grand Stand 10c. extra.—Jly28/21.

The Heat Wave Madness

Through the irritation and depression bred by long spells of wet, gloomy weather may lead people to say, half in jest, that they "feel like committing murder." It is nevertheless a fact that it is the fine weather which sends up the average of crimes of violence, while wet weather pulls it down.

Statistics show that during a heat wave murders, suicides, serious assaults, and other crimes of violence increase to an alarming extent.

In London offences of this sort are at their lowest in January, and rise to their highest in July, after which the crime curve falls steadily until by the middle of October it is normal again.

And what is true of London holds good also, in regard to Paris, New York, and other great cities. Worst of all is it when abnormal heat is associated with a dry burning wind.

In Australia, for example, a wind of this type blows occasionally from the interior deserts, and when this is the case the police know what to expect.

For statistics, taken over a number of years, prove that quarrels and murderous assaults are three times as numerous while this scorching wind is blowing than during normal weather.

Britain Will Build Capital Ships.

LONDON, July 21.—Mr. Lloyd George declared in the House of Commons to-day that it was essential for the Government to proceed with its policy of replacing obsolete capital ships in the navy.

Mr. Lloyd George made this declaration in answer to questions concerning the Government's naval programme.

The necessity for replacing obsolete ships, the Premier said, would not be affected by the forthcoming conference on disarmament in Washington, which, he assumed, "will be a complete success."

The Premier was speaking concerning the four capital ships provided for in the naval estimates. He was asked if the Government would not suspend work on capital ships pending the outcome of the Washington Conference.

Mr. Lloyd George said the Government, in replacing obsolete ships, neither committed itself to nor contemplated any building programme in answer to that of any other power.

As a result of candid discussions with the principal naval Powers, the Premier declared, it might be possible to avoid anything in the nature of competitive building, but he said it would be a dereliction of duty on the part of the Admiralty to allow the efficiency in training or morale of the Royal Navy to deteriorate from neglect and not to provide it with material equal to the best, and in which full confidence could be had.
