PROVINCIAL NEWS

ST. ANDREWS, May 13.—A very enjoyable entertainment under the auspices of the Charlotte county grammar school was given in Memorial Hall last Thursday evening. Several selections were pleasingly rendered by forty of the grammar school pupils, piano accompaniment by Mrs. Trueman. Principal Trueman followed in a very interesting talk, subject The Rhine in Story. He first gave a general description of the river, its scenery, etc., including a detailed account of the cities of Freiburg, Strassburg, Mainz, Worms and Cologne. The river between the latter two cities was more fully described by the aid of a diagram. He related a number of legends associated with the different old ruins perched on the river's banks. Mr. Trueman closed with a word picture of the cathedral at Cologne and an impassioned appeal to his hearers to do all they could to create in our province a greater interest in the arts of architecture and painting. Refreshments were handed round at the close of the programme. A vote of thanks was extended to the providers of the entertainment. The amount of cash realized was, for admissions $40, and from the sale of candy $18, to be used for school purposes.

JACKSONVILLE, May 15.—The W. M. S. Auxiliary met in the Methodist church on Thursday afternoon. After devotional exercises the minutes of the last meeting were read and approved. Several dollars of the Easter offering were handed to the treasurer. Miss Robinson, a St. John lady and returned missionary from Japan, is expected to be present at the convention. While in Jacksonville she will be a guest at the Methodist parsonage.

MACE'S BAY.

MACE'S BAY, May 15.—A fairly representative meeting of Trinity church congregation was held here Saturday evening of last week, the Rev. F. W. M. Bacon, rector, presiding. The object of the meeting was to bring before the people a statement of the financial standing of the church, and the rector's report was, as it always has been, entirely satisfactory to the congregation. The church is now practically free from any financial encumbrance, and six names were added to the list of subscribers during the meeting. For seven years Mr. Thomas has faithfully discharged the arduous duties attached to his office, and words fail to express the regret upon his retirement, since it also means his removal to a distant part of the dominion. At the close of the meeting the rector presented Mr. Thomas with a prayer book and address.

SALISBURY, May 15.—The special meetings which have continued for nine weeks, have ended. Many have been added to the two churches.

Joseph Goldman recently sold to Joseph Lewis his property, now rented by A. C. M. Lawson. The present tenant will vacate at the end of the month and probably locate in Chatham. There are no vacant houses for renting purposes in Salisbury.

The property of Mr. Elliott, now occupied by John Kennedy, has been sold to Nelson Bleakney, now of Moncton, but formerly of this place. Mr. Bleakney will still rent the property.

Miss Smith, who accompanied Mrs. Smith from Montreal recently, is very low with nervous prostration.

Prof. L. W. Titus of St. John, rendered two of his popular solos at the Methodist church last night.

HARCOURT, May 16.—Sunday three persons were taken into the Episcopal church membership by Rev. G. L. Freebern.

Rev. Father Legere of the Adamsville parish held divine service at the residence of James Buckley this morning.

MILLTOWN, May 16.—Hugh Balkam, who has been at home for several weeks, returned to his work at Chipman on Monday morning.

On Sunday afternoon, in the Methodist church, the Rev. J. G. Shearer, dominion secretary of the Lord's Day Alliance, gave a very eloquent and instructive address on the work of the Alliance in Canada.

Milltown, that in the past has been connected with St. Stephen in a branch of the L. D. A., at this meeting moved to organize a branch of its own, and appointed Rev. J. C. Robertson, B. D., president; W. S. Robinson, secretary-treasurer, and other resident pastors as vice-presidents. Twenty dollars was pledged as Milltown's annual contribution, $15 of which were collected at that meeting.

ST. MARTINS, May 16.—The home of Deacon J. S. Titus was invaded last evening by upwards of fifty of his friends, the occasion being his 70th birthday anniversary. The party was a complete surprise to Mr. Titus. During the early part of the evening Rev. C. W. Townsend at a request from the committee who had the affair in charge, made an appropriate address, during which on behalf of the deacon's many friends, he presented him with a handsome gold headed ebony cane, which bore upon it the inscription: "J. S. Titus, St. Martins, N. B., May 13, 1905." To Mrs. Titus was presented a beautiful fountain pen. Suitable replies were made to the address by both Mr. and Mrs. Titus. Addresses were also made by Ald. Lewis of St. John, and Rev. Mr. Webber, the Methodist clergyman, and Donald McKenzie, the new Presbyterian clergyman. Following these came a wholesome speech from Weeden Fowler of Hillsdale, an old time friend and early neighbor of Mr. Titus, who himself is over eighty years of age, but still hale and hearty. He was followed by W. H. Moran, who expressed pleasure at being present and this sharing in the joyous occasion. The remainder of the evening was spent in conversation and choice music rendered by E. A. Titus upon his beautiful new phonograph. Refreshments of a dainty character were served and at midnight the company broke up. Among the guests from a distance may be mentioned Mr. and Mrs. James Floyd and Mrs. Gilbert Titus of Bloomfield; Mrs. George Weir of Norton; Ald. Lewis, Mrs. Gifford and Mrs. Titus of St. John; Mrs. Fred McLean of Woodstock, and others. Regrets at being unable to be present were sent by Rev. Mr. Byron of Moncton.

He also accused prominent society people, including leading ladies, of drunkenness and of attending revels of the most disorderly character.

Mr. Wyman N. Thomas, Ompah, Addington Co., Ont., writes: "My wife had congestion of the lungs along with other troubles, and became very weak and run down. By the use of Dr. Chase's Nerve Food she was made as strong and well as ever. Of course I had a doctor, but she was weak, and it was Dr. Chase's Nerve Food which built her up."

FOUR MILITARY DESERTERS CAPTURED.

Had Left No. 4 Depot at Fredericton and Were Making For the States.

(Fredericton Gleaner.)

The military authorities claim that they are having more trouble than they should have with deserters from No. 4 military depot. Two men were absent from duty this morning and the authorities made up their minds to catch them if possible and bring them back. Two men were despatched on bicycles and they overtook the deserters on their way to Woodstock to cross the line to Houlton. The men were brought back to the depot and put in the cells.

The local police will probably be called upon to assist in finding out who it is that is purchasing the kits of these men who desert. When they leave, their kits in almost every case disappear with them and the idea prevails in military quarters that some person is buying these kits. The penalty for assisting a deserter to escape is 10 years penal servitude and anyone purchasing the kit of a deserter would certainly be liable under the provisions of the law to a sentence such as mentioned.

Word has been received here that Ptes. Morrison and Livingston, who recently deserted, have been captured at Springhill, N. S. Last evening a guard in charge of Sgt. Charles Berringer was sent to Springhill to bring back those two prisoners. Pte. James Matheson, who deserted some time ago, is a man whom the authorities would like to get hold of.

Matheson during his short time spent here cut a wide swath as a fighter and one Saturday night when arrested he made a lively time of it for the guard. The day after Matheson deserted he spent most of the time around Wilmot Park and said that he was going to Sydney that night. It was that day that the authorities found out that Matheson was a deserter from the Garrison Artillery. Matheson carries a South African medal.

ADVERTISING NEW BRUNSWICK.

C. E. Beane, editor of the Maine Central, the official organ of the railway of the same name, is here again. He did not come alone this time. His companion is H. F. Allen, a hard-worked young barrister, who has torn himself from Coke and Blackstone for a brief spell, and will assist Mr. Beane in getting out the issue of the Maine Central, which will be published the last of this month. In this issue, which is to be of a high order of typographical and pictorial excellence, the beauties of St. John city and the many points of interest in the province to prospective hunters and tourists will be proclaimed to the world. The Tourist Association are the prime movers in the matter, and will co-operate with Mr. Beane in the work. A large number of photographs and special articles will be published, as a result of which the tourist business of the province should be greatly augmented. The merchants of the city are expected to aid this laudable enterprise by using liberal quantities of advertising space. Mr. Beane and Mr. Allen will remain in the city for about a week.

SPIRITS IN BRITISH HOUSE OF COMMONS

Sir Gilbert Parker Saw Form of a Member,

But When He Turned to Look Again the Vision Had Disappeared.

LONDON, May 14.—Believers and doubters in which is generally termed spiritualism had two matters to discuss this week. The first was a paper on automatic writing, read by Prof. Richet to the Society for Psychical Research.

Put briefly, the professor's paper was a detailed account of a woman, whose genuineness and good faith he vouched for, who, without the slightest knowledge of Greek, writes Greek and quotes sentences in Greek from a book she has never seen or heard of. The professor offered no explanation of this remarkable achievement.

Sir Oliver Lodge, who presided, declared that the society had perfect faith in Prof. Richet, and the latter had perfect faith in the woman, but it did not follow that the society had faith in her.

The second mystery concerns the appearance in the house of commons of the astral body of a member of parliament. The event occurred shortly before parliament rose for the Easter recess.

Sir Carne Rasch, member for Mid-Essex, had been suffering from influenza, which developed into neurosis. He grew seriously ill, but attended the sessions of the house in order to help the government whip. Finally, however, he had to give in and remain at home.

Sir Gilbert Parker, who saw what he thought was the baronet, is positive in regard to the following, which is given in his own words:

"I wished to speak, but missed being called. As I swung around to resume my seat I was attracted by seeing Rasch out of his place. I knew he had been ill, so I nodded my head and said, 'I hope you are better.' He made no sign or reply. His face was remarkably pallid, and he sat hunched up. His expression was steely and altogether stony, and his appearance was grim and almost resentful. I thought for a moment and then turned to him again, but he had disappeared. I was puzzled and went in search of him. I expected to overtake him in the lobby, but he was not there. No one of the whips or doorkeepers had seen him. I enquired about him all

FREDERICTON, N. B., May 16.—The Fredericton Trotting Park Association held a reorganization meeting last evening. The following were elected directors: J. H. Calder, T. H. Colter, A. B. Kitchen, L. B. C. Phair, D. McCatherine, D. E. Hanlon and J. S. Scott. The directors elected Mr. Calder president and Mr. Colter secretary-treasurer. It was decided to hold a meeting of the board next Wednesday evening, when plans for the season will be arranged. It is likely two meets will be held, one on July 21st, and the other during exhibition week.

Donald Fraser, jr., returned from the up river section last night. Mr. Fraser states that the drives on the Tobique are all coming along well and that this concern's drive is in corporation limits. The other drives are practically in. The drive for the Fraser concern's mill at Cabino on the Temiscouta lakes is in safe waters. This mill will be running full force by next week. The Aberdeen mills here are now running full blast and turning out a large amount of manufactured lumber each day. Tomorrow the Fraser concern will despatch a crew of men for Plaster Rock to work in their mill at that place. The mill is now running.

The university students have decided to hold their annual sports this year on the college field on the 24th of May.

Salmon fishing at Springhill this year is reported to be exceptionally good.

The new contractors, Messrs. Porter and O'Donnell, for lighting the city, arrived in town this afternoon and signed the contract. They started in this evening with the lighting.

Geo. T. Whelpley, accompanied by his daughter, left last evening for Montreal to consult Dr. Shepherd. Mr. Whelpley's health has been troubling him for some time past.

Lieut. T. G. Loggie, whose brother died a short time ago, in San Francisco, has been requested to leave for that city to assist in settling up his brother's estate. The late Mr. Loggie, it is understood, left valuable property and if circumstances permit, Col. Loggie will start for the western city some time next week.

NEARLY DONE PLANTING SPECIMEN ORCHARDS.

Thos. A. Peters, deputy commissioner of agriculture, who was at the Clifton last evening, told the Sun that all the illustration orchards which the department decided to plant this year had been set out except the one which will be located on Senator King's farm at Chipman, Queens Co. This one will be planted today.

The orchards have been located on the farms of the following gentlemen:

Thos. Clair, Clair Station, Madawaska county.

B. R. Violette, St. Leonards, Madawaska county.

T. E. Henderson, Andover, Victoria county.

Wm. Johnson, New Denmark, Victoria county.

B. I. Whitehead, Upper Queensbury, York county.

Wm. Murray, Doaktown, Northumberland county.

R. A. Murdock, Chatham, Northumberland county.

B. J. Power, North Tetagouche, Gloucester county.

W. R. McFate, Golden Grove, Saint John county.

A small orchard has also been planted on the grounds of the Macdonald consolidated school at Kingston.

One hundred apple trees and twenty-four plum trees have been planted in each county.

In the up-river counties the work of planting has been done under the direction of A. Alward, of the department of agriculture.

The rest of the orchards have been planted under the eye of Deputy Commissioner Peters, who has been assisted by A. C. Johnson, a prominent and successful fruit grower of Wolfville. The work was commenced on the eighth, and will be completed today.

Ten varieties of apples are being set out, and four varieties of plums.

Mr. Peters says that only varieties which are thought to be adapted to the soil and climate of the province have been planted. The farmers will have an opportunity of inspecting the manner in which these orchards are set out, and it is hoped that the fruit growing industry will be greatly stimulated.

THE BRITISH MUSEUM.

The British museum keeps to the old ways. In the general catalogue the letters I and J and U and V are mixed up just as they were in the days of our grandfathers. It is for this reason that "Joseph" comes before "Ireland" and "Virgil" before a word like "unit."
