The first approaches of consumption are so insidious that thousands remain unconscious of its presence until it has brought them to the verge of the grave. The immediate use of "Bryan's Pulmonic Wafers" upon the first appearance of the cough, pain, or soreness of the throat or chest, would generally preclude a fatal result; therefore, when you take a cold use "Bryan's Pulmonic Wafers," and thus prevent the necessity for taking them in more dangerous complaints. To be obtained of all Druggists and country dealers. Price 25 cents per box. 23

Whenever the Bodily Vigor wines, whether from the effects of old age, residence in hot climate, insufficient nutrishment, child-bearing; rapid growth, excession, &c., Fellows Compound Syrup of Hypophosphites will impart the *vis vitæ* to the system and soon restore the wonted strength.

The Fever-Stricken Invalid who may have had his recovery retarded by infantile weakness, will rapidly recover under the influence of Fellows' Compound Syrup of Hypophosphites.

When hope forsakes the poor Consumptive let him not procrastinate an hour, as every moment gained is invaluable. The disease is positively curable by Fellows' Compound Syrup of Hypophosphites, in its earlier stage, while in the later and hopeless cases, life may be prolonged, and the patient made capable of performing his regular avocations for years, feeling little inconvenience from his malady.

Catarrh is a common disease,—so common that snuffing, spitting, and blowing of the nose, meet us at every turn on the street. Your foot slips in these nasty discharges on the sidewalk and in the public conveyance; and its disagreeable odor, contaminating the breath of the afflicted, renders them offensive to their associates. There is the highest medical authority for stating that with fully one-half, if not two-thirds, of those afflicted with consumption of the Lungs, the disease commences as Catarrh in the nose or head, the next step being to the throat and bronchial tubes—lastly to the lungs. How important then so give early and prompt attention to a Catarrh! To cure this loathesome disease correct the system by using Dr. Pierce's Golden Medical Discovery, which tones it up cleanses the blood, and heals the diseased glands by a specific influence upon them; and to assist, use Dr. Sage's Catarrh Remedy with Dr. Pierce's Nasal Douche. This is the only way to reach the upper and back cavities where the discharge comes from. No danger from this treatment, and it is pleasant to use. The two medicines with instrument are sold by dealers in medicines.

THOMAS' ECLECTRIC OIL! *Worth Ten Times its Weight in Gold. Do you know anything of it? If not, it is time you did.*

There are but few preparations of medicine which have withstood the impartial judgement of the people for any great length of time. One of these is THOMAS' ECLECTRIC OIL, purely a preparation of six of some of the best Oils that are known, each one possessing virtues of its own. Scientific physicians have long sought to find a formula of several ingredients in such fixed proportions of gentle power, and prolonging effects which could never result from the use of any one of them, or in different combinations. This in the preparation of this Oil a chemical change takes place, forming a compound which could not by any possibility be made from any other combination or proportions of the same ingredients, or any other ingredients, and entirely different from anything ever before made, one which produces the most astonishing results, and having a wider range of application than any medicine ever before discovered. It contains no alcohol or other volatile liquids, consequently loses nothing by evaporation. Wherever applied you get the benefit of every drop; whereas with other preparations nearly all the alcohol is lost in that way, and you get only the small residue of Oils which they may contain.

The Horse.

Of the great number of animals under the control of man, the horse is unquestionably the most serviceable; but it is not strange that so many who own horses, and who are dependent on their labor for a living, should neglect to give them that care and attention which their own interest no less than the safety and comfort of the horse demands. The best remedy for horses is "Dudley's Condition Powders and Arabian Horse Remedy;" of this there can be no doubt. It is safe and easily given. Remember the name, and see that the signature of Hord & Co. is on each package. Northrop & Lyman, Toronto, Ont., proprietors for Canada. Sold by all medicine dealers. 22

Ten years ago Messrs. Geo. P. Rowell & Co., established their advertising agency in New York City. Five years ago they absorbed the business conducted by Mr. John Hooper, who was the first to go into this kind of enterprise. Now they have the satisfaction of controlling the most extensive and complete advertising connection which has ever been secured, and one which would be hardly possible in any other country but this. They have succeeded in working down a complex business into so thoroughly a systematic method that no change in the newspaper system of America can escape notice, while the widest information upon all topics interesting to advertisers is placed readily at the disposal of the public.

THE

Sprague Churn!

Important to Farmers and Dairymen of this Province.

J. L. SPRAGUE, inventor of this Churn, seeing the failings of other Churns, has lately constructed a churn that is the most perfect churn ever constructed, and that is taking the lead where ever it has been introduced.

This churn contains the best points and results of study on the proper method of obtaining every particle of butter that cream contains, in from one to six minutes, the average time being four minutes.

It has charged eight pounds of butter from six quarts of cream in forty seconds.

It has churned milk from a farrow cow, on a test, in one minute.

It will make better butter, butter that will stand more working without a separator churn, the grain being entire.

It will make the hardest kind of butter in the hottest days in August.

It works the buttermilk out in one minute, and cleanses itself in one minute.

By the motion of the paddles the air is pumped in at the ends, passes through the cream, and is carried off through a tube in the top of the cover, this process cleanses the cream of all unpleasant flavor and brings the oxygen of the air in contact with the oil in the cream which hardens and turns to butter.

It is driven with cogwheels that set these paddles in rapid motion and make the labor so light that a child of twelve years old can churn with ease.

These churns are manufactured at Berwick, N. S., and will be for sale in this county after April 1.

Orders strictly attended to.
