Offices—Toronto Street, Toronto.

Liberal rates of interest allowed, paid or compounded half-yearly. It is recognized as

Canada's PREMIER Company.

TWIN CITY YET A FEATURE

That Stock Made a New Record, Selling Up to 89.

Mr. Ames of Toronto Elected to the Directorship—Road Said to Be Earning This Year Between 6 and 7 per Cent. on the Common Stock —Missouri Pacific Strong—Money Rates and Foreign Exchange.

World Office,
Tuesday Evening, June 11.

Twin City again attracted a good deal of attention on the Canadian stock exchanges to-day, the most interesting news concerning the Twin City Rapid Transit Company being that Mr. A. E. Ames, the senior member of the firm of A. E. Ames & Co. of this city, and president of the Toronto Board of Trade, was to-day elected a director thereof. It is said that Canadians now hold a third of the capital stock of the company, and Mr. Ames goes on the board to represent their interests. As regards the earning power of the company, The New York Tribune to-day printed the following: "The strength of Twin City Rapid Transit is stated to be due to the large earning power the property has developed as the result of important extensions in the last two years and the rapid growth of the cities of St. Paul and Minneapolis. In the fourth week of May gross earnings increased $701 a day, or 9.4 per cent. The preferred stock is now receiving its full 7 per cent. dividend, and sells at 150. The earning power of the common stock this year, it is estimated, will be between 6 and 7 per cent. The common stock is becoming scarce, owing to investment purchases." The information contained in the above paragraph was sufficient to keep up the demand for the stock, and it consequently sold up to 88¾ in Toronto and New York, and to 89 in Montreal, closing only fractionally below that record price. Much higher prices are talked of for the stock.

Imperial and Dominion Banks, C.P.R. and Montreal Street Railway were buoyant to-day.

* * *

The Imperial Bank issued a good annual statement to-day, showing profits for the year, after allowing for bad debts, etc., $403,477.16, out of which two dividends of 9½ per cent. altogether ($236,429.41), were paid. The sum of $150,000 out of profits and premium received on new stock was transferred to rest account and $104,637.98 was carried forward. The rest account now totals $1,700,000. Notes of the bank in circulation now total $1,950,-295, and deposits total over $15,000,000. The bank has over $2,000,000 out on call loans in Canada. It should have been said above that of the $150,000 carried to rest $125,000 was from the year's profits and $27,000 from premiums on new stock issued.

* * *

Grand Trunk Railway System earnings, June 1 to 7, 1901, $516,063; 1900, $505,667; increase, $10,396.

At a meeting of the directors of the Carter-Crume Company, Limited, held this afternoon, the usual quarterly dividends were declared, viz.: 1¾ per cent. on the preferred and 1¼ per cent. on the common. The dividend is payable July 2, and transfer books will be closed from 15th to 30th inst., inclusive.

* * *

Toronto Railway Company car earnings compared with previous year:

	Increase.	Decrease.
Sunday, June 2	$2,219 07	$636 82

Notes by Cable.

Consols in London to-day advanced 5-16.

On Wall Street.

The desultory movement of prices in today's stock market demonstrated the professional character into which it has again relapsed. The volume of dealings fell back near to the level which was reached previous to last week's spurt of speculative activity. The diminished interest showed a tendency to become congested in a few stocks. The opening made a good show of strength under the combined influence of a favorable interpretation of the government crop report, and the rumors which came thick from London that peace was imminent in South Africa.

A sharp raid carried Texas Pacific down 2⅞ from the high point, and Missouri Pacific itself fell under last night's closing. The whole market suffered from realizing until the aggressive movement in Missouri Pacific checked the decline. This stock touched 122⅝ on well-defined expectations of a coming dividend. There was a rumor that the companies' bonds, which give the option of exchange into stock, and which pay 5 per cent., are to have the option exercised in their behalf. The pressure on Texas & Pacific was attributed to a change in the ratio of its proposed exchange with Missouri Pacific stock, which has been supposed hitherto to be two shares for one of Missouri Pacific. The Mexican Central issues were largely dealt in in connection with a report of a refunding plan, which would bring the stock nearer to dividend claims.

The appearance of Standard Oil interests in controlling numbers in the directorate of American Linseed Company was responsible for the strength of these stocks and of National Lead, which, it is said, will benefit from the change. A number of the high-priced specialties, such as Sugar, Amalgamated Copper and American Tobacco, fluctuated feverishly under the influence of what seemed purely speculative operations.

The seeming pressure gained force at the last, and the closing was heavy at about the lowest, and generally below last night's declines from the top, ranging from 1 to 4 points in the principal active stocks. The sale of 100 shares of Northwestern preferred was made at 13 points lower than the preceding sale.

J. J. Dixon has the following this evening from New York:

The stock market to-day was largely professional and important fluctuations were the exceptions. Mo. Pacific was noteworthy for its strength, after the first hour, while Texas Pacific was erratic. This stock suffered a sharp break in the forenoon, but the demand for it was quite pronounced in the afternoon. The grain carrying roads were generally strong, the buying being based on the improvement in crop conditions announced in the government report issued yesterday. In the industrial list an upward movement in National Lead was about the only feature. The Steel stocks were heavy, the not pressed for sale. Sugar and Tobacco stocks were quiet at a lower range of prices. Aside from railroad earnings and dividend declarations there was no news of importance bearing on the market. London sold, on balance, but the arbitrage business was light. Money was easy. Demand sterling 4.88¼ to 4.88⅝.

The New York Post this evening says: In view of the final outcome of the day's price movement no more comment is needed than what was said yesterday. The crop news for which the market waited at yesterday's closing was very favorable, so much so as to start a jubilant rise in stocks, which was carried as far, in several important quarters, as 2 to 3 points over yesterday's closing. At noon this upward movement slackened; the familiar halt ensued, and in about an hour the whole list of prices began to crumble. Before the close, nearly all of the earlier advances had been lost. A few stocks, notably Sugar and R.I., went considerably below yesterday's close. At the end prices were slightly firmer, but the day's net changes were insignificant. The afternoon declines were not in the least mysterious, unless, indeed, to that class of Wall Street philosophers who believe that the "bankers' buying" of stocks last season was a matter of purely personal investment, and that when the outside public had ceased its bidding the "syndicates" would hug their own holdings all the tighter. It is fortunate for Wall-street and for the situation generally that the experiment as to bankers' belief in current values was not tried with commercial conditions actually against us. Estimates as to the probable yield of wheat, on the basis of the government returns, vary as they usually do. If the statistician of the Produce Exchange has figured rightly present indications favor by far the largest American wheat crop ever garnered. By the other responsible but more conservative estimates it will fall short of the 675,000,000 bushel crop of 1898, but of no other. This is a highly important development in finance. It is all the more important, as to the probable relations of our own wheat crop to that of the world at large.

Banks lost $300,000 since Friday.

Executive Committee will recommend declaration regular dividend, 1¼ per cent., quarterly, on common.

Railway Earnings.

First week of June:

		Increase.

Better than a letter from your boy, is to read next Sunday's World. Full details from military camps.

A Tonic For the Debilitated.—Parmelee's Vegetable Pills, by acting mildly but thoroughly on the secretions of the body, are a valuable tonic, stimulating the lagging organs to healthful action and restoring them to full vigor. They can be taken in graduated doses and so used that they can be discontinued at any time without return of the ailments which they were used to allay.

A Live Store.

There is no trading place where more satisfactory work can be had in the lines of ladies' wear carried by the firm than are to be secured at McKendry's Ladies' Emporium. The firm has mastered difficulties that would have buried many business men, and to-day takes front rank as providers of millinery, blouses, costumes [illegible] stopping any day this week.

DR. A. W. CHASE'S CATARRH CURE ... 25c.

is sent direct to the diseased parts by the Improved Blower. Heals the ulcers, clears the air passages, stops droppings in the throat and permanently cures Catarrh and Hay Fever. Blower free. All dealers, or Dr. A. W. Chase Medicine Co. Toronto and Buffalo. 1257

CROP REPORT WAS BEARISH

And Grain Futures Broke at Chicago Yesterday.

Wheat Cables Had Come Lower—Liverpool Maize Values Likewise Were Down—Local Grain, Produce and Live Stock—Notes and Gossip of the Day.

World Office.
Tuesday Evening, June 11.

In Liverpool to-day wheat futures declined a half penny per cental and maize ½d to ¼d.

Chicago wheat futures to-day declined 1½c for the July delivery and ⅝c for the Sept. option. July corn fell off ⅞c per bushel.

Liverpool receipts of wheat during the past three days 179,000 centals, including 106,000 American.

Receipts of American corn during the past three days 110,000 centals.

Bycroft says: The government crop report suggests a crop of 400,000,000 bushels winter and 265,000,000 bushels spring wheat, but since this report was made conditions have improved materially, especially spring wheat, and to-day's prospects fully warrant a crop of over 700,000,000 bushels. I don't see anything bullish, but regard a crop of even 665,000,000 bushels bearish.

The Daily Trade Bulletin says that the supply of wheat and flour in the United States and Canada on June 1 was equal to 76,188,000 bushels, compared with 93,394,000 bushels on May 1 and 89,579,000 bushels on June 1 last year.

Leading Wheat Markets.
