Precocious Villainy.—Three little girls passing along a street in Baltimore, a few days since, were met by a boy not twelve years of age, who asked one of the girls to give him a flower from a bouquet, which she held in her hand. While she was selecting one to give him, he stooped down, and with a lucifer match set fire to her clothes. The child ran, but was caught by gentlemen, who extinguished the flames, but not until a considerable portion of her dress was destroyed, and she and the gentleman who caught her, much burnt.

Everett, our new Minister to China, goes out in the Columbus, with the ratified Treaty negotiated by Mr. Cushing. The Columbus will return by way of Cape Horn, touching at several ports in the Pacific. She is expected to be gone about 15 months. She has a crew, including officers, 870 men.

A law was passed at the recent session of Congress, restricting the President from employing beyond a special number of seamen. The object was, to prevent Capt. Tyler from making war upon Mexico without the authority of Congress.—Circumstances have since changed, and there *may* be a sudden call for a greater force than the maximum specified in the law. The maximum, however, is not reached,—the return of the Congress, the Macedonian, the Vandalia, and the Lexington, having left a considerable margin yet to be filled, at the President's discretion. The St Louis and Perry are on their return from the East Indies. If the three vessels above mentioned as fitting out, are destined for the Gulph of Mexico, they will increase the number of guns on that station to 213, rating the Princeton and Mississippi at 10 guns each.—*N. The deceased was much respected among his neighbours, and filled every office he held with credit to himself and satisfaction to the people of the county.
