Leslie's Stove Varnish.

A Valuable discovery by which all *Stoves, Pipes, Grates, Franklins, Iron Railings*, and every description of Iron work, (where an intense heat is not required,) whether exposed to the weather or not, may be kept a splendid Jet Black with as beautiful a polish as a Coach Body and with one third the labour bestowed on other preparations.

This is a valuable preparation on account of its anti-corrosive properties; all Stoves and Pipes which are put away during the summer should have an application of the Stove Varnish which would effectually prevent the rusting or corroding of the Iron.

The Varnish is strongly recommended to Families and the Public in general, from three facts; First, its cheapness brings it within the reach of all; Second, from its high polish and durability, two applications during the year being at all necessary for a Franklin; and lastly, from no labour being required in its application, this last fact justly entitles it to the name of "SERVANT'S FRIEND."
