SPIRIT OF LATEST DESPATCHES.

The Railway Syndicate get $25,000,000 cash, and 25,000,000 acres of land for building the Canada Pacific. The government retains 25,000,000 in alternating blocks. The road will be built without any expense to the country because the 25,000,000 acres retained by the Government will pay the cash grant, and recoup money expended.

Parnell says British prosecutions will only give energy to the Land league.

Usual election echoes throughout the Republic. The defeated party charge the Republicans with bribery and corruption. Bosh.

There is a lull in the East.

EDITORIAL NOTES.

THE PRESIDENTIAL ELECTION.

The Democrats have been badly beaten this time. The cause of their great defeat was that they proposed in some measure to abolish the Protective Tariff of the nation; and rather than submit to this, thousands upon thousands who look upon the Republicans as reckless and corrupt, voted to sustain them in power.

It must be borne in mind however, that even the Democrats were not unanimous in asking for a change of tariff; and those who did ask it, by no means wanted Free Trade. This will give our readers some idea of how protection "takes" in the Republic.

The following table shows the complexion of the electoral college, or the body which is to elect the president.

REPUBLICAN. State.	Electoral vote.	DEMOCRATIC. State.	Electoral Vote.

The Democrats felt sure of New York State and also of Indiana; but in the former beside their obnoxious proposals of a change of tariff, the disgraceful John Kelly, the Tammany sachem was against them by splitting the party. In the latter state the trade question operated against them, as it did all over the union. We have never had any sympathy with one side or the other but now since the question between both parties, turns in a measure upon protection and Free Trade we say, Long live the Republicans.

THE DOMINION REVENUES..

None of us forgets the prophecies that have been made on every stump in Canada: that if the people voted for the National Policy, trade would wither away and die; and the nation would become bankrupt. The people however voted for the N. P. and carried the N. P. Then because it did not make apples grow on cherry trees, and beget figs on thistle stalks, in a quarter of a growing season, it was abused and ridiculed; every man who left the country whether he was fleeing away with a bride or with a stolen horse, was driven forth by the National Policy—it was cartooned in the little picture papers, and reviled in those which twisted with hunger, their patronage stopped.

Now, however, a change has come, and a change which has stricken the slanderers of the Government dumb as sticks. The Custom Houses now are beginning to speak up, and give us nines—which no sophistry can twist into sixes. Each month shows an increase of home made goods; while the exports are far in excess of the imports. Let us take the returns from the Finance Department for October just passed.

The receipts in the Finance Department for October, 1880, are $2,484, 824.

The receipts for October 1879, were $2,035,769.

Giving for the month past an increase of $448,855! Sir Richard Cartwright also had similar amounts at the end of each month, but they were on the deficit side. And he told the Commons, before the last election, he saw no remedy for it, *unless direct taxation.* A nice Finance Minister; wasn't he!

Here then is a summary of the four months, of the present financial year as compared with the corresponding months of last year:

1880	
July,	$1,989,729
August,	2,569,630
September	2,606,232
October,	2.484,624
	$9,650,215

1879	
July,	$1,151,926
August,	1,970,089
September,	1,913,067
October,	2,035,769
	$7,070,851

Showing an increase for the four months of $2,579,364!.

The probabilities are that Sir Leonard will have a surplus of about *five millions* at the end of next June!

CHATHAM MATTERS.

Taxpayer sends us a letter which we would as lief he had not sent, for the reason that we are quite satisfied with Mr. Lawlor. We have cut out a portion of the letter, in which it was stated that Mr. Lawlor had allowed himself to be made a cat's paw by a certain party here, that this party are trying to "puff Mr. Lawlors vanity by slapping him on the back, and telling him he is the most consistent man in the county," that "they do not care a snap for Lawlor but only want him as a tool to defeat Adams;" that "they know full well he never can be elected to the Local Legislature, but they tell him *he can* and he believes them;" that "every vote Lawlor gets will be one taken from Adams," and finally after talking many other things that "when Mr. Lawlor wanted a friend he found one in Adams, and not among those to whom he had given his support." We may say, we know nothing at all, nor do we care, about what the intentions of "a certain party" here are, as it makes precious little matter what they intend. They rule the gutters of Chatham now and that is all, but after they are this time hurled out of this miserable power, it will be a long time indeed before they will rule any thing public again. As for Hon. Mich'l Adams, it matters little who they may bring against him: he will be elected and that with a sweeping majority. There is not today in England, not to say in Chatham, pork enough to defeat *him* in Northumberland.

We regret to have to use Mr. Lawlors name so freely, because he is a gentleman for whom we have a high regard. We do not believe he will take the field two years hence against Hon. Michael Adams, because he has too much good sense to attempt the impossible. No man in Northumberland can keep Mr. Adams out of the Local Legislature at next election, and Mr. Lawlor could no more secure his own election, than he would secure Mr. Adam's defeat. There would only be one chance for Mr. Lawlor, and that would be if Mr. Adams ran for the Dominion Parliament, something he has no notion whatever of doing. The Conservatives of Northumberland have a veteran leader, and he is Hon. Peter Mitchell. *He will be elected next time, and Hon. Michael Adams for the four years following the coming two will be Surveyor General.*

As to Mr. Lawlor's qualification for his present office, that is a matter which little concerns us; that he would suffer himself to be made a "cats paw of," from our knowledge of the man we do not believe; though we must frankly tell him we do not at all like the company he keeps.

Some parties have written to us complaining that if even a horse is employed to do town work here he must "neigh Snowball;" that every hog reeve, street cleaner, and other official must be a Snowball man; that the very deals used in the sidewalks must be "Snowball spruce." Now is it really as bad as that? If it is, it will not be much longer that way. The "courtesy" of the County Council which vests the appointment of parish officials virtually in the councillors from that parish will this time give way to justice. A wretched political faction have been running this town long enough, and persecuting those who differ from them in politics. But they have lived to the end of their triumph. We want a middle district man appointed road commissioner; he must if possible be neutral in politics, certainly not a Grit. We want a man who is able, and not afraid to do his duty, who will give all the mills a chance when ordering side-walk deals; who will see that the nuisances and the poison existing in the town be purged out; and that the policemen who now kill time and draw their pay, be either made to do their duty or be dismissed. We ask this of every councillor elected; and when we ask it, we express the wishes of three fourths the people of Chatham.

OUR MINERALS.

Mr. Wallace Broad has spent the summer on a geological survey of York county. He is now preparing a map of the same at the Crown Land office, Fredericton. We may say half enough attention is not given to our minerals, and the time is near at hand when the Crown Land Department should be called the "Department of Lands and Mines". The day is not far either when the vast stores of minerals abounding in this Province, will be turned into use.

Carleton county can supply iron for half the nation if smelters only would work. Hitherto these mines were comparitively useless, because of the phosphorus abounding through the iron; but now that a successful method of dephosphorizing has been discovered there is no longer any reason why capitalists should look at the iron wealth of Carleton with their hands in their pockets. On this more anon.

OUR CHATHAM SCHOOLS.

There is a Free School house situate on Cathedral Street. Can the teacher of that institution tell us if there is any reason why the boys attending that school, at recess hours should stand in a row and insult ladies by shouting and making offensive remarks as they pass? One instance of this conduct was at the afternoon recess yesterday.

This reminds us that nowhere before have we seen the public streets, used as play ground for pupils at recess, as they are used at Chatham. This is a disgraceful state of affairs, and should not be tolerated by the trustees.

CHATHAM TRADE.

Behold how the N. P. ruins Chatham. The imports for—

October, 1880, were	$10,771
do. 1879, "	5,469

or *double* for this year!

The exports for—

Octobor, 1880, were	$179,770
do. 1879, "	92,253

or nearly *double*! This is how Chatham is "going to the dogs" undea the N. P!

THE SHOOTING IN ST. JOHN.

Coroner Rugby seems a little too anxious, we think, to have Malone hanged. A coroner may be a most efficient officer, and still keep within the lines prescribed him. There was no excuse for Coroner Rugby calling the jury who first sat upon Malone, "a lot of asses," and for sitting with the second jury and no doubt advising them, during their deliberations.

What do the Grits think of the City Council in Bowmanville, a town in the centre of Mr. Blake's constituency, inviting Sir Leonard Tilley to a banquet, and to make speeches for them? This is the way the Government is falling into disfavor.

The quantity of lumber cut this winter will be, roughly estimated, about 30 per cent in excess of the quantity cut last winter.

We think the newspapers should allow the juries and the judges to either hang or acquit policeman Malone.

The Judases of our public departments, and their neglect of duty for another issue.

We hope the Conservative Club is not forgotten.

Have any steps been taken about that weekly fair for Chatham?

POOR SITTING BULL.

Sitting Bull has sent word to General Miles that he wants to have a twelve days' talk. He says he is weary now of hunting in a land where there is little buffalo, and that he wants to be at peace with the Southern pale faces.

But he says he will not tolerate Major Walsh to exhibit him through Canada and the United States, and this they must guarantee him. The prospects are that Dakota and Montana will soon be free from Indian raids.

Shipping for the season is about at an end on the Miramichi.

Our Newcastle budget came too late for publication today.

THE FLORENCE NIGHTINGALE OF THE NURSERY

The following is an extract from a letter written to the "German Reformed Messenger" at Chamberburgh, Penn:

A BENEFACTRESS.

Just open the door for her, and Mrs. Winslow will prove the American Florence Nightingale of the Nursery. Of this we are so sure, that we will teach our Susie to say, "A blessing on Mrs. Winslow" for helping her to survive the griping, colicking and teething seige. MRS. WINSLOW'S SOOTHING SYRUP relieves the children from pain, and cures dysentery and diarrhœa. It softens the gums, reduces inflammation, cures wind colic, and carries the child safely through the teething siege. It performs precisely what it professes to perform, every part of it—nothing less. We have never seen Mrs. Winslow—knew her only through the preparation "Soothing Syrup for children teething." If we had the power we would make her, as she is physical saviour to the whole infant race.
