BRITANNIA
LIFE ASSURANCE COMPANY.

No. 1, Princess Street, Bank, London.

CAPITAL—ONE MILLION STERLING.

Empowered by Special Act of Parliament, 4 Vict., Chap. 9.

REDUCED RATES OF PREMIUM—HALF CREDIT RATES OF PREMIUM.

THE great and decided success which has attended this Institution, has induced the Directors to REDUCE the RATES originally required in British North America, to the ordinary European Rates. The result of such Reduction is to enable parties to avail themselves of the important benefits to Life Assurance at *much lower Rates of Premium than those of any other Assurance Company transacting business in Canada.*

The Directors have also resolved to extend to British North America the advantages afforded by the HALF CREDIT RATES of PREMIUM which have been so highly approved, and are so generally adopted by Policy Holders in the United Kingdom. The most liberal conditions are likewise offered to the Assured in the limits to which they may proceed by sea or land, to other parts of North America without affecting their interest in their respective Policies.

PETER MORRISON,
Resident Director.

London, January 1, 1847.

£100 REWARD.

WHEREAS some malicious person or persons have circulated a REPORT that SEVERAL HUNDRED CHESTS OF DAMAGED TEAS, *bad in every quality*, and (from the effects of salt water) *poisonous in their nature*, lately sold in this City, were purchased by me, I hereby offer a *REWARD of £100* to any person who will bring to conviction the author or authors of such a slander, as such report is false, malicious, untradesmanlike, and intended to injure my reputation.

It is well known that I and I alone have been the regenerator of the Tea and Coffee Trade in Canada, that mine (the Canton House) is the only establishment for the exclusive sale of Tea and Coffee in either the Upper or Lower Province, and, by my untiring exertions, has been placed in the proud position which it now holds, notwithstanding the immense amount of malicious opposition I had to encounter. It is also well known that I have never interfered with others; that I have never exposed the known fact of the utter impossibility of keeping Teas in a proper condition where turpentine, codfish, oil, soap, molasses, candles, snuff, tobacco, &c., &c., are kept; but when my good name is so cruelly and wantonly assailed, as in this case, I cannot overlook it, and have only to say, that should this calumnious slander be persisted in, the Public may have a list of the names of the purchasers of the Damaged Teas, above referred to, which is now in my possession, as I again repeat, no man shall sport with my hard-earned reputation with impunity.

LUXURIANT HAIR.

BOGLE'S HYPERION FLUID.—One bottle of this truly valuable liquid is worth more than its weight in gold. There is no quackery in its composition; but healthy and efficacious ingredients, calculated to effect all that it professes. Baldness will at once depart, and a luxuriant growth of hair take its place. Grey hair will return to its pristine brilliancy—weak hair become strong and vigorous, and the skin take a proper and healthy action by the use of the inestimable Hyperion. As an article for giving softness to the hair, and a brilliant gloss, it cannot by any compound be equalled.

The following is from the New York *Evening Mirror*, May 25, 1849:—

"WISTAR'S BALSAM OF WILD CHERRY.—Among all the Pulmonics advertised for the cure of human ailments, there is none in which we have more confidence than 'Wistar's Balsam of Wild Cherry.' We regard it as one of Nature's own preparations—simple, safe, pleasant to take and almost certain to cure all bilious and pulmonary affections. We have witnessed its wonderful effects in cases that were regarded as hopelessly desperate, and we can conscientiously recommend it as one of the best medicines in the world."

The following is from a very respectable source:—

BOSTON, November 27, 1848.

Mr. S. W. FOWLE—DEAR SIR,—Although averse to having my name public in the newspapers, I make this unsolicited statement, and you are at liberty to make use violent cold, which brought on a severe cough that lasted through the Winter and Spring, and caused me to spit blood and phlegm continually, day and night, which greatly reduced me in flesh and strength; I tried several kinds of medicine, with little or no effect; I had become feeble and emaciated, and began to despair of ever getting relief, when, by advice of my friends, I was induced to try Dr. Wistar's Wild Cherry Balsam; and after having taken five bottles, I found myself nearly, or quite well, and to this alone I think I owe present existence. I shall be happy to give further information to any one who will call on me.

Respectfully yours,
WILLIAM WHEELER, Grocer.

Latest from Toronto.

The following opinion of the beneficial effects of the Plantagenet Water, is from the last number of the *British American Medical and Physical Journal*, edited by Dr. Hall. The Doctor recommends the employment of this water to the special attention of the Profession, both in Canada and the United States. Nothing further is required to ensure their general use by all classes of our citizens:—

Remedial nostrums, or matters professing to be such, and depending for their employment upon the extensive use of the circulation of laudatory advertisements, and the amount of money consequently paid by their proprietors for these, have at no time, since we undertook the management of a Journal intended solely for the advancement of medical science, found favor in our eyes. For shell shops, We have always adhered to the old maxim, "Ne ultra crepidam." We have always thought, and are daily more confirmed of the truthfulness and correctness of our opinion, that all the world was never intended to practice the medical art, inasmuch as all sick—eyes, and all women too—are unable to make themselves masters of the science of medicine; and it must be admitted, without a doubt, that without a foundation there can be no superstructure. But that we would dare to question the qualifications of all to become, perhaps, even scientific practitioners of the Healing Art—far from it; but seeing that different gifts have been assigned to different individuals, from the foundation of our world, and that one class is necessarily dependent upon another for its comfort and support—the rich and poor, the educated and illiterate, the professor of science and the simple mechanic—we hold, that the public should be directed, under God, in the main instance and preservation of health, by men who have given, and continue to give, the best energies of their mind to this particular study. It is under impressions of this kind that we direct the attention of our professional brethren to the advertisement of Mr. Lescoupe on the cover. We have, in common with our medical friends in this city, taken occasion, from time to time, to prescribe, in fitting cases, the Plantagenet Water, derived from a spring on that gentleman's property, in the Ottawa District. Commendatory certificates from medical men, perfectly well known to us, have been published in the daily newspapers of this city; our own has appeared among the number. But we now have much pleasure in recommending the employment of this Water to the special attention of the profession both in Canada and the United States. Mr. Hunt's analysis, as to its purity, is satisfactory. We consider the key of Mr. Lescoupe's establishment a sufficient guarantee for supply. Our own conviction has really been, that the Plantagenet Water throughout our own Province and the United States, by the establishment of necessary depots and the appointment of proper agents.

These waters are to be had only from the Agent, A. MANN, at the Depot of *Place d'Armes*, also from Dr. Picault; Mr. Mercier, Quebec Hotel; Mr. Berlais, St. Paul Street; and at the principal Hotels in the City.

A fresh supply of the above Waters have just been received, and for sale by the above Agents.
