The Weekly Monitor.

WEDNESDAY, OCT. 17TH, 1883.

BIG OFFER. — New subscribers who will accompany their order with $1.50, if sent in before the 1st of November, will receive the MONITOR from that date until the 1st of January, 1885, together with a copy of "Kendall's Treatise on the Horse and his Diseases. This offer remains open during this month only.

THE WHIPPING POST.

For the first time in a long period in the history of our Province, recourse has recently been had to the whipping-post as a means to supplement the punishment awarded by a judicial tribunal to an individual person guilty of a gross violation, of not only the Municipal law, but also the moral law.

It will be remembered by many of our readers, that not long ago a notorious profligate in the city of Halifax, was arrested and convicted for trial at the Supreme Court of that County, for a gross and violent assault on a female of tender years. This had not been his first offence,—in fact he was an old offender,—and the indignation of the public was roused to a high pitch in consequence of the glaring outrage.

The cause came on in due course for trial before His Honor Chief Justice McDonald, at the last April term of the Supreme Court for the County of Halifax, and the prisoner being duly indicted, was, by a jury of his countrymen, found guilty of the offence alleged against him. In passing sentence upon the prisoner, the learned Chief Justice, in addition to the statutable punishment, super-added that of the lash, which punishment was duly administered in accordance with the terms of the sentence.

For a long time past, it has been felt by a large portion of the better thinking element of our population, that some harsher punishment should be inflicted upon offenders of this class, and the present case afforded a most ample and just opportunity for adopting an additional remedy in pursuance of this idea.

From the Metropolitan press we gather that the infliction of the lash had infinitely greater terrors for the offender than the period of imprisonment the sentence imposed upon him to undergo. We do not wish to be understood as being the advocates of a brutal system of corporeal punishment; but when what may be fairly termed the brutal instincts of a man's nature become the eminent subjects of gratification, the ordinary punishments pointed out by our laws, do, in our judgment, fall far short of the end they were designed to effect.

We believe the strong common sense that prompted this additional method of punishment in the minds of our Judiciary for offences of a similar character upon criminals of a like kind will be heartily approved of by the better portion of our population, and will have a salutatory effect upon the offenders.

—Apparently, judging by the tone of the Halifax press, a moral cesspool has been unearthed and discovered in our Metropolis. Some time since, the Halifax press was loud in its denunciation of a certain clergyman in that city for expressions indulged in by him, touching the morality or immorality of an influential social element in our capital.

Recent developments have, however, disclosed the fact that the sentiment embodied in the expressions referred to, were not entirely without foundation.

One of the most painful circumstances that has been developed for some time past, has just been the subject of investigation before a coroner's jury in Halifax, resulting in a verdict whereby one of the most respectable citizens of the metropolis, and a man standing high in professional circles, has been considered wilfully culpable of contributing — by the use of his professional art — to the death of a citizen.

The facts of the case are about as follows, but we wish our readers to understand that we entirely disapprove of publishing particulars of so disgusting a nature in the columns of a family newspaper; yet, at the same time, so much publicity has been given to the matter in the Halifax leading papers, that rumors of the case must have reached the ears of a large number of our readers who do not take these papers, we therefore deem it as well to satisfy the inquiry thus excited.

The facts, as brought out at the inquest, are: —

A young widow woman, of property, named Bridget O'Connor, the mother of several legitimate children, became criminally intimate with a married man who has a family of four children, a policeman named Louis Heffler. As the result of which intimacy, the woman soon found herself *enceinte*, and to hide her shame (?) and disgrace, called in a hitherto respectable physician, named Dr. Archibald Lawson, and requested him to give her medicine that would produce abortion. This the doctor told her could not be done; but said as she was a strong healthy woman the crime could be performed by means of instruments, which the woman consented to have done, and did have done. Mark the sequel:—Holy Writ says: "The wages of sin is death." In due time the woman was delivered of a dead child; but inflammation set in, from the effects of which she died. Before dying, however, she made a deposition, embodying the facts above, which was produced at the inquest of her remains. There, the jury found Dr. Lawson, after a long and careful investigation,—his interests being guarded by eminent counsel,—to have caused the death of Bridget O'Connor by abortion practised with criminal intent. Dr. Lawson has fled to parts unknown. Unless he returns he must forever be an exile and a wanderer, with the shadow of a dreadful crime hanging over him; he has stained and disgraced his noble calling, and brought sorrow and shame upon all who are near and dear to him. The woman is dead, but her children must ever after bear the burden of her shame. Her paramour is still in Halifax, but he, his wife and children are disgraced. What a bitter commentary on sin and its results!

We most earnestly and sincerely trust that the law will be allowed to pursue its legitimate course, irrespective of selfish or pecuniary motives.

— The Western Union Telegraph Co. has scored an important point in its favor since its victory over the striking operators, by making a number of advantageous concessions to the latter. Hours of night work have been shortened to seven and a half; and the requirement of service on Sunday without extra pay has been waived, and all work on that day will be henceforth paid for extra,—the regular working days will thus number twenty-six instead of thirty as before. As these were about the most important of the operator's demands, they may be considered as a fair compromise.

— Our farmers are not alone in their short apple crop this season, as so far as we can learn by our exchanges in all the important apple centres in this hemisphere the crop in the aggregate is the shortest ever known. The United States will hardly have enough to supply the local demand — New England has a very short crop; Michigan, Ohio and the central Western States have hardly any at all, and on the Pacific coast the supply is very small. In Canada the crop is well known to be below an average one.

— The American Sunday-School Union have recommended that Sunday, 21st, and Monday, 22nd insts., be observed as days of Special Prayers for Sabbath-schools. The following has been arranged as a suitable plan for carrying out the recommendation in this place: —

Sabbath, 21st, 7, a. m.—Private prayer by teachers, parents and members of churches generally, for God's blessing to rest upon Sabbath-schools. 9 15, a. m.—Prayer by S. S. teachers in the Baptist Church. 9 45, a. m.— Baptist S. School, to which parents and teachers of other churches are earnestly invited. 11, a. m.—Sermon in Baptist church. 1.30, p. m.—Prayer by all S S. teachers in Methodist school-room. 2, p. m.—Methodist Sabbath-school, to which parents and teachers of other churches are earnestly invited. 7, p. m.—Sermon in Methodist Church.

Monday, 22nd, a. m.—Private prayer by teachers, especially for members of their own classes, for one hour. 3, p. m.—Meeting of female S. School teachers for prayer in the Baptist Church. 7, p. m.—Mass meeting in the Methodist Church.

Local and Other Matter.

— The potato crop in P. E. Island is reported scarcely up to the average.

— Owing to the temporary indisposition of the Rector, no service was held in St. James' Church on Sunday last.

— Counterfeit two dollar notes of the Union Bank of P. E. Island are in circulation in St. John.

—J. W. Beckwith has one of the finest assortment of Dress Goods ever displayed in this county. Inspection invited. It will pay you. 1i

JOURNALISTIC.—The name of the Windsor *Mail* has been changed to the Hants *Journal*.

—The Concert to be given in Court House has been postponed for a week. Further particulars in our next issue and in hand-bills.

— Francis Bowie, of Antigonish, has been found not guilty, at his trial for murder, concluded on Thursday night last.

—Regina Division No. 501, Paradise, will hold a social in the Division Room on Tuesday evening, Oct. 23rd. See advt.

— Don't you want a good, comfortable Overcoat? J. W. Beckwith can supply you on the most advantageous terms. 1i

PORT GEORGE.—On Tuesday last Mrs. Robert McKenzie, had her leg broken between the knee and the ancle by a kick from a horse, she was leading from pasture.

— Fur goods just received in larger assortment than ever at J. W. Beckwith's. Gentlemen, ladies, misses and children can all be suited with Muffs, Caps, Tippets, etc. Also, 1 case Black and Grey Spanish Goat Robes. 1i

—The new Governor-General will probably reach Quebec on Monday, the 21st instant, where he will be met by the ministers of the Crown and sworn in.

—During September, 16,368 immigrants arrived in Cadada. Total for nine months, 154,652 against 143,258 last year. Of these 91,778 remained in Canada, against 76,378 in 1882.

— Mr. Andrew Gow, of the Merchants Bank of Bridgewater, who received injuries by a carriage accident about two weeks ago, died from the effects on Friday last. He leaves a widow and five small children.

— Owing to troubles in the East, as per advices from Peake Bros., London, tea has advanced in price a penny a pound. London dealers have about three months' stock on hand.

— Our correspondent "X" says, in reference to the Nictaux and Atlantic Railway, that the money deposited to pay the claims of Messrs. Walker, Clark & Roberts, has been to a considerable extent paid out. This, if correct, will remove all doubt of the *bona fide* intentions of the company.

— A bear killed a sheep on Thursday night last, belonging to Mr. Edgar Bruce, of Centreville. Mr. E. tracked the bear some distance back to the mountain, and reports the tracks as those of a large animal. A trap has been set.

— A mass meeting of the Liberal party was held under the auspices of the Eastern Annapolis Liberal Association, according to notice given, on Monday night last. A good attendance was present. Speeches on the various political questions of the day from the party standpoint were made by W. H. Ray, M. P., J. W. Longley, M. P. P., H. Munro, M. P. P., J. M. Owen, J. G. H. Parker, J. W. Croskill, and others.

SHIPPING NOTES.—Sch. *Adah*, Foster, cleared for Boston on the 13th instant, with wood.

Schr. *Jessie Ray*, Lewis, arrived on the 14th inst. from Yarmouth. Cleared for the same port 15th.

Schr. *A. M. Holt*, Graves, from St. John on Monday last.

A New York despatch of the 12th inst. says: "Barque *Granville Belle*, which arrived yesterday from Boston, while proceeding under the Brooklyn Bridge in tow to day, broke fore and maintopgallantmasts."

The *Granville Belle* is owned at Granville Ferry.

SUPREME COURT.—The following is a copy of the Supreme Court Docket of the October Sittings at Annapolis from which several omissions were made in our last issue:—

The Queen vs. Harper. Parker on behalf of Crown, obtained on order of escheat.

Wasson vs. Orde, Wasson vs. Orde. Both of these actions were for trespass to land. In the first, judg. was given for Pltf. for $30 damages and in the second for $40. Owen for Pltff. in both cases. Cowling and Mills for Deft.

Spinney vs. Bank of Nova Scotia. Settled by Deft. Owen for Pltf. Mills and Gillis for Deft.

Uhlman vs. Harnish, continued. Owen for Pltf. Mills and Gillis for Deft.

— The total value of exports from the port of Annapolis Royal last week were $2,603.

— The U. S. debt, less cash in treasury, is now $1,521,811,535; and was reduced $15,000,000 in September.

SHERIFF OF YARMOUTH.—Mr. Thomas B. Flint has been appointed Sheriff of Yarmouth, *vice* the late Mr. Durkee.

—The Canadian Pacific Railway Company has now 119 engines in service on the western division of the line, and daily additions are being made to the number.

—Annapolis County received $311.50 by the Provincial exhibition, divided as follows: — Fruits, $41.50; Roots and Vegetables, $6; Cattle, $199; Sheep, $23; Poultry, $9; Dairy Produce, $23.

—The Militia Department is preparing a new edition of regulations for the Militia, and is framing regulations for the government of the new infantry schools of instruction, which are to open during the winter.

—At the Lunenburg election held last week, Mr. Kaulbach, the Liberal-Conservative member, was returned to the Dominion House of Commons by a large majority. The contest was a most exciting one.

—At the Yarmouth Agricultural and Industrial Exhibition held at Yarmouth last week, J. B. Reed, Esq., of this town, took first prize for the best Parlor Suite Furniture, and first prize for the best Bedroom Suite.

— The Liverpool *Advance* understands that Mr. Vossnack has succeeded in obtaining from the merchants and others of Queen's county the required amount of capital to ensure the building of the pulp and paper mill at Milton.

— The plant and business of the *Christian Visitor* office, St. John, has been sold out to Messrs. Powers & Weeks by Rev. Mr. Hopper, who will devote himself entirely to the editorial work of the paper, which will still be issued from the office.

—A troopship sailed from England on Tuesday with two companies of engineers and the 87th regiment for Bermuda. Thence she will bring the Royal Irish Rifles to Halifax and take home the Royal Munster Fusilers. The latter will leave about the 25th, and go home *via* Gibraltar.

THE EARTHQUAKES IN JAVA. — The earthquakes about the Straits of Sunda did little damage to property except by tidal waves. Later advices in Batavia confirm the reports of extensive disasters on the southern coast of Sumatra and the south-west coast of Java.

— Rev. W. H. Warren, pastor of the Baptist Church of this town, drove a splinter of wood entirely through the middle of his right hand on Thursday last, inflicting a painful wound for the time being. Prompt measures, however, prevented any inflammation, and the wound is now healing nicely.

— The herring fisheries of Scotland employ nearly 500,000 people, one-seventh of the population. The boats represent a money value of $3,600,000. The annual yield of cured fish has risen from 90,000 barrels early in the century to 1,290,000, and has trebled in fifty years, while in the same period the value of the nets has increased seventy-five per cent.

— Strange to say, the frightful catastrophe which has just taken place at Java was predicted two years ago by a scientist of the name of Delaunay in a memoir presented by him to the French Academie des-Sciences in 1881. M. Delaunay indicated Aug. 2, 1883, as the probable date of the cataclysm, and thus made a mistake of two days. In the same memoir he states that another and much more terrific convulsion of nature will take place in the same spot in 1886.

—Governor Butler, of Massachusetts, is quoted as saying that he is quite certain that there will be three strong Presidential candidates in the field next year. There is every indication, he said, that a strong third party movement is organizing, and the politicians in making up the slates must not leave this out of their calculations. Two million workingmen will demand a voice in the government. In his opinion they will nominate a candidate for the Presidency next year.

— T. S. Lindsay, of Antigonish, made the experiment of planting potato seed in dead eel grass. The result was that when the potatoes were taken out of the bed they proved to be large and just as great a yield as the potato planted in the ordinary way. Mr. Lindsay intends planting a large plot of potatoes in eel-grass next spring. No hoeing, digging or manuring required. This is a wrinkle for some of our fishermen who live on the rocky coasts, and where the land is bad. The potato keeps as well, and when cooked is dry and mealy.

— In reference to an item published in our issue of the 3rd inst., stating that Mr. Thomas Fullerton, of Hopewell, N. B., had been fined and imprisoned for selling liquor to Indians, the *Maple Leaf*, of Albert, Albert Co., from which the news originated, wishes us to correct the impression thereby conveyed that a point was thus made in favor of the Scott Act or of temperance, as the imposition of the penalties mentioned was simply made to satisfy a feeling of spite on the part of the informer; and further says that no fine has yet been paid by Mr. Fullerton, nor is he in prison, and doubts if the law can be construed into either of the penalties under the circumstances of the case.

— When the Exchange Bank of Montreal suspended a few weeks ago a rose colored view of its affairs was given to the public. The directors would wind up the institution, there would be no loss, etc. Now comes the usual story of mismanagement and appropriation of funds. Thomas Craig, president and general manager, is indebted $250,000 which he made use of in his own speculations without the knowledge of the directors until after the bank collapsed. Craig was supposed to be wealthy, as he had just finished an elegant mansion in the most aristocratic portion of the city. It is feared the affairs of the bank will result badly for the shareholders, who will lose all, and may be called on for double liabilities. The directors hold half or more of the stock.

—The prize list for this County at the Dominion Exhibition was incomplete in our last issue. Following are the additional prizes taken:—

APPLES.

20 varieties, 6 each correctly named, 2nd, Robt. Marshall, Clarence.

10 varieties, 6 each, 1st. Henry O. Walker, Granville.

5 varieties, 6 each, 1st, Henry O. Walker.

Greatest variety for table, 2nd Robt. Marshall. Do. for winter, 2nd, Robt. Marshall.

Ribston Pippin, 2nd, Henry O. Walker.

Baldwin, 1st, Frank H. Willett, Tupperville; 2nd, Byron Chesley, Bridgetown.

Nonpariel, 1st, Robt. Marshall; 2nd Henry O Walker.

King of Tompkins, 2nd, Byron Chesley.

Rhode Island Greenings, 1st, Frank H. Willett; 2nd Byron Chesley.

Hubbardson's Non-such, 1st, Henry O. Walker; 2nd Frank H. Willett.

MISCELLANEOUS.

Fruit canned, F. C. Nutt, Bridgetown, highly commended.

White crested Black Polish fowls, 1st and 2nd, F. H. Willett.

—The time for receiving Bridge Tenders has been extended to Monday 22nd inst.

— At Chicago, on Tuesday, the pacing gelding Johnson paced a mile in 2.10, thereby making the fastest harness record ever known.

— Splendid lines of ladies' Sacques, Ulsters and Ulsterings at J. W. Beckwith's. Good value and fashionable patterns. 1i

— Fruit culture is extending so rapidly in California that there is already an over-production in some varieties, and the outlook for the future is not promising.

— Shawls, Mantles, Scarfs, etc., can be purchased at J. W. Beckwith's, to better advantage than elsewhere in the town. 1i

— The Halifax *Chronicle* of Saturday last says:— Cyclones along the Atlantic coast are predicted, and danger to shipping for the next ten days.

— The Grand Division, Sons of Temperance, of New Brunswick, was held last week in St. John. The report showed an increase of over 25 per cent, in the membership in that Province. The membership in New Brunswick is in the vicinity of 3,000.

—J. W. Beckwith will pay the highest prices for turnips, potatoes, and eggs. He has made a great advance on the latter this week. 1i

—We have received Nos. 19 and 20 of Picturesque Canada. The standard of excellence as a work of art seems to have reached the highest point in this suburb publication.

— Montreal Board of Trade favours the assumption by the Government of the telegraph lines, and wishes for an amendment to the Insolvent Act.

— The rumor that Warren Smith, the oarsman, as well as other members of his father-in-law's vessel, who have been missing since the great gale of August 29th had been rescued, cannot be traced to a reliable source.

SEAMEN'S WAGES.—The latest quotations of seamen's wages read as follows: Monthly, for the United Kingdom and Continent, $20; run, same course, $40; coast, $20; West Indies, $2.—*St. John News*, 11th inst.

—J. W. Beckwith does not believe in high prices and long credits, but in quick sales and small profits. Customers will find in his store complete assortments of goods in all departments advertised, obliging salesmen, and the most polite attention. 1i

—An Ottawa despatch says: Frederick Mann, who murdered the Cooke family, was hanged on the 12th inst. at L'Orignal. He has shown the most callous unconcern, and went to his doom smiling and indifferent. He made no speech or other expression, except that he died a Christian.

-- Notwithstanding the predicted hard times, J. W. Beckwith has laid in a larger stock than ever, in all lines, for his fall and winter trade; but at the same time he informs all his friends and customers that prices will be placed so that a little money will buy a great deal at his establishment. 1i

A TIMELY WARNING.—A person named Quinn, representing himself to be an agent of the Canada Pacific Railway Co., has induced a large number of men belonging to St. John and the North Shore to leave the Province, offering, we are informed, $2 per day for earth work, $2.25 for rock work, and constant employment for some time. I was informed on Saturday that a gentleman of Bathurst, acting in the interests of the workmen, and feeling that they were deluded by false promises, telegraphed the facts to Mr. Drinkwater, Secretary of the C. P. R. Co., who replied that they knew no such person, that he was not authorized to hire men, and that no such wages were being paid.—*Editorial Cor. in Newcastle Advocate.*

—A Washington despatch says yellow fever is still raging in Mexico and is said to be travelling Northward up the California Gulf. President Gonzales, in a recent message to Congress referring to the unhealthy condition of the capital, recommended a loan of two million dollars to improve the sanitary condition of Mexico. Advices from Mazatlan were that 2,000 people were sick on Sept. 16th, some of whom were dying of yellow fever and others for want of attention or on account of a prevailing famine. There were but two inexperienced doctors in the city and they were worn out from overwork. At Manzanilla, cartloads of dead bodies have been buried in one common receptacle.

—The New York *World* of Monday last contained a list of the millionaires of New York. They number over 300, and it is perhaps safe to say that in no other city of the world could there be enumerated so many men of wealth aggregating a sum so enormous as the added worth of these 300 persons. What is most interesting, however, is that with very few exceptions the list is composed of self-made men, whose great good fortune has been achieved by their own energy and sagacity. Included in the list are two Canadians. One of these is Sir Roderick Cameron, well known as the head of the firm of Messrs. R. W. Cameron & Co., who was knighted for his success in building up a great trade between America and Australia. The other Canadian is Erastus Wiman, a native of Toronto, who commenced life as a printer on the magnificent sum of one dollar and twenty-five cents per week! To-day he is at the head of a great agency business extending over a continent, the chief spirit is a vast telegraph combination, and though named among the millionaires of the metropolis, has not failed to do a good work for his native city, Toronto, in the free baths which he has presented to the citizens.

NEW CUSTOMS REGULATION.—An order-in-council has been passed admitting spirits in octaves from Great Britain, the continent of Europe, the British colonies and the West India Islands. Under the former regulations not less than 100 gallons could be imported from the countries above mentioned.

—The round house of the C. P. R. at Rat Portage, was burned on the 14th inst. Loss $100,000, partially insured.

LONE JACK, Mo., Sept., 14, 1879.
I have been using Hop Bitters, and have received great benefit from them for liver complaints and malarial fever. They are superior to all other medicines.
P. M. BARNES.

FOR SALE.—One stove for sale at this office. It is suitable for coal or wood.

IMPROVED
Electro Magnetic
APPLIANCES.
A POSITIVE CURE
—FOR—
ANY DISEASE
Caused by
SLUGGISH CIRCULATION OR IMPURE BLOOD.
In wearing them you have a moderate, but continuous current of electricity passing through your system, which quickens the circulation, drives out all impurities, and builds up your general health.
THE WAIST BANDS
will cure the
WORST CASE
—OF—
LAME BACK OR KIDNEY TROUBLE.
We will refund the money in every case where they fail. The
LUNG PROTECTORS
cure any Lung or Bronchial Trouble.
THE LADIES' SUPPORTERS,
CURE FEMALE WEAKNESS AND KIDNEY TROUBLE. THE
INNERSOLES
prevent cold feet and cure rheumatism in the feet and limbs. Send stamp for circular and price list. Our circular contains names of prominent persons who have been benefited, and we have thousands of testimonials besides. Ask your druggists for them.
Orders by mail will receive prompt attention. Address,
Kingston Station, Kings Co., N. S.

Take Notice!
—THE—
Averill Paint
is still in the market. The sales have more than doubled this season. And all are satisfied.
All we ask is a trial, as it will speak for itself when applied.
S. N. JACKSON,
General Agent for Nova Scotia.
LOCAL AGENTS:
A. W. CORBITT & SON, Annapolis;
IRVINE & TROOP, Granville Ferry;
R. H. BATH, Bridgetown;
N. F. Marshall, Middleton;
W. H. JACKSON, Kingston;
T. H. MILLER, Bear River.
TESTIMONIAL.
I have used the Averill Paint, and carefully examined it on buildings. Have no hesitation in recommending it to the public—it is as cheap as lead—not a particle of waste—and gives a beautiful body and gloss which cannot fail to make it durable.
JOHN Z. BENT, Bridgetown.
