# AMERICANS TO PATROL NEW YORK'S HARBOR

New York, Nov. 27.—Patrol of the waterfront zones forbidden to alien enemies will be taken over immediately by United States troops. This decision was reached today at a conference of representative of the army, the United States marshal's office, the police and transportation officials. Local authorities will cooperate with the military in guarding the harbor property.

Barriers of barbed wire are to be erected, beyond which no one can pass without proper credentials. There will be two series of wire barricade, and even if any one should succeed in eluding the outer sentries, officials believe he could not pass the inner line. Fences will be built in front of the piers, with gateways at intervals.

At present the barbed wire fences will close only wharves, but later they will be extended to include the entire zone of 100 yards fixed by presidential decree as the boundary of the area forbidden to enemy aliens.

# Live Stock Market

There was a light run of cattle at the Union Stock Yards yesterday (707 head) and the market held steady to strong at Monday's prices. There were no outstanding features, butcher cattle, as on Monday, being scarce and strong, with all offerings taken at the market, and more would have commanded ready sale. Feeders of quality were in demand, while canners were steady at the advance. Milkers and springers were steady, but the backward ones are a drug on the market; not that so many are offered for sale, but they are not wanted and hard to sell. Good milkers and springers will command steady prices.

### Sheep and Lambs

There was a fair run of sheep and lambs for a Tuesday, about 2400 head all told. Lambs were decidedly weaker, good lambs selling off from 50c to 55c per cwt., and heavy lambs 75c. Sheep were steady and to were calves.

### Hogs.

The hog market was weaker and the weakness was reflected in the price, from 20c to 25c lower; 17 3-4c to 18c, fed and watered, with an odd sale for choice lots at $18.15.

## CALGARY CATTLE MARKET

Calgary, Nov. 27.—Traders are higher in their price ideas on prime beef today, and are asking as high as 12c on the best of the offerings at the local market. Buyers are reluctant to go the pace, and as a result little business was done at this morning's session. Receipts are light, totaling only eight cars. A heavy week's business is looked for and prices will undoubtedly be steady. Some of the A. E. Cross cattle from Willow Creek sold on the Chicago market this week at $13.50. This is a record price, but it is considered high for these cattle, for they are looked upon as the best in Alberta. Hogs and sheep are steady.

# CANADIANS BEAT BEST FORCES OF GERMANY

## Fight Six Engagements With Elite of Kaiser's Army— Stewart Lyon Speaks.

Montreal, Nov. 27.—A plea that the heroic men at the front should be sent reinforcements was made by Stewart Lyon, Toronto, Canadian Press correspondent, in the course of an address he made to the Canadian Club today.

Mr. Lyon told graphically of the deeds at the Canadian front which had come under his notice, and reminded his audience that the army had fought six engagements with the elite of the German army, any one of which in former wars would have been considered a first-class engagement.

"I would ask you to remember that not a few of these men, who are making the name of Canada known thruout the world, have been for almost three years and a half without seeing their families and friends.

"Is it not reasonable that the people of Canada should make an effort to send to these heroic men immediately the adequate reinforcements that they require? Children have been born they have never seen; parents have died and wives have passed away. How much longer shall we say that the Canadian people do not understand how great have been the sacrifices of these men, and that they are not willing, voluntarily or involuntarily, to do everything possible to fill up the ranks and keep the name of Canada as high as it has been placed by the valor of her immortal sons?"

# WEEKLY REPORT ON FARM CONDITIONS

## Heavy Rain Followed by Cold Snap Holds Up Fall Plowing.

## SOME ROOTS CAUGHT

## Fall Wheat and Rye Go Under Snow With Small Top This Year.

Following is a summary of weekly crop reports made by district representatives to the Ontario Department of Agriculture:

Ontario farm activities, which were at high pressure for the first two days of the week, were slowed up later, and in many cases entirely stopped, by heavy rain followed by severe cold.

A large acreage had been plowed during the preceding two weeks, as very favorable weather was then prevailing, and most farmers were able to finish their allotted task in this line, but owing to the heavy freezing of the latter part of the week those who were behind with their plowing had to quit, and may not be able to turn up any more land this season, altho a few tractors are trying to do a little plowing where the ground is not frozen too hard.

Tiling and corn husking have also been halte din Essex, and other Lake Erie counties.

### Some Threshing Yet.

Considerable threshing remains to be done. One machine in North Oxford has yet about fifty barns to clean up, and another about thirty.

Some turnips were caught in the ground by the cold weather, but the main crop of roots has been stored under favorable conditions. Turnips are now selling at 22c a bushel, with prospects of a rise.

The potato situation is getting much attention. The yield is large, both as to average per acre and total, and their general condition so far is satisfactory. Prices appear to be strengthening.

Buyers of hay, both Canadian and American, are beginning to get more active thruout the province. In most districts the market price per ton, delivered, runs from $12 to $14, and from $7 to $9 in the barn.

Clover promises to winter well, but both fall wheat and rye still go under the snow with a smaller top than is desirable. The sudden cold weather, which hit these young crops at the end of the week, will also be very trying to the fields.

### Live Stock Report.

Live stock generally are in good health, and have excellent prospects before them this winter, as all kinds of fodder, but corn, are in good supply. The animals also are likely to get better attention owing to the present and probable future demand for all kinds of meats. Feeding cattle on hand are said to be more numerous than last year, and carloads of stock are even yet being shipped into various counties under the free freight policy of the federal government.

Milk is up to the normal early winter flow. According to the Oxford report some of it formerly going to factories is being diverted to the milk routes of Toronto.

A number of sheep are also being brought in. The Dundas representative reports that a carload of breeding ewes came into Morrisburg this week from the Montreal stock yards; they were a fair lot, and were purchased for $20 a head.

Hogs are reported as having an increase in numbers compared with a year ago.
