Good hotel accommodation is available and in no district can finer fishing be obtained. Write for full particulars, advertising matter, etc., to C. E. Horning, D.P.A., Toronto, Ont.

The C. P. R. has taken an interest in furthering a stampede or frontier day at Banff this year. A big arena has already been built and a grand stand capable of accommodating 1,000 people is about ready. The best riders and racers have been secured;and a picturesque spectacle is promised the summer tourists, who will see a bit of western life fast disappearing before the ruthless march of civilization and stucco.

Three years ago there was a stampede arranged for the delectation of the Duke of Connaught,and it was a huge success. It is hoped to surpass that exhibition by the forthcoming frontier day at Banff, where the natural amphitheatre of the hills lends itself to the spectacle which cannot much longer be repeated, under the changed conditions of life, which reduce all to an unbending uniformity.

Germans are Making Big Effort Nom

By Special Wire to the Courier.

London, July 17.—A new German offensive of nuge proportions with Riga, a great Russian seaport and the seat of the governor-general of the Baltic provinces, as its objective, is revealed in the latest official statements issued at Petrograd and Berlin. Military experts here construe the offensive to be a vast envelopment movement in which the Germans are making herculean efforts to destroy the Russian army.

Both the German and Russian communications agree that the German forces are at the Windau River near Goldingen, which is only 80 miles from Riga, the great strategic commercial metropolis in the Gulf of Riga and on the upper Baltic.

An official statement received this morning from Petrograd adds details of the sanguinary fighting all along the new line in efforts to hold back the German advance which is now being concentrated on Riga, and on Warsaw, while the Austrian-Hungarians are moving northward from the Dniester River.

Advices reached London to-day that the Germans left a trail of desolation along the Baltic Sea from Memel to Libau, where the villas, hotels and casinoes are alleged to have been destroyed, about the only exception, it is said, being the palace of a Polish nobleman. The palace now is being used as a military headquarters in which Prince Henry of Prussia and Field Marshal Von Hindenburg recently conferred on the new offensive towards Riga.

Crown Prince Frederick William's drive in the Argonne forest now is accepted as a small success, in gaining a few hundred yards of terrain, but as a failure in attaining its real object—a decisive penetration of the French line.

The ominous attitude adopted by the Welsh coal miners causes serious apprehensions. The miners now have increased their demands by asking the government to withdraw the royal proclamation making the coal mines subject to the munitions act. President Runciman of the Board of trade rejected this proposal at a conference last night, and a meeting held in London to-day failed to secure any ground for an adjustment. The extremist leaders declare, however, that it is a question no longer of a 5 per cent. increase in wages, but the abrogation of the royal proclamation which subjects the miners to a fine of $15 for striking.

No effort yet has been made to enforce the fines against the 150,000 strikers which the miners construe as a evidence of the virtual impossibility of carrying out the plan.

Reports received this morning from all the Welsh centres show that the strike continues to cause much agitation but no disorder.

New Russian Batteries in Action

By Special Wire to the Courier.

Geneva, Switzerland, July 16, via Paris, July 17—The Tribune prints the following despatch from its correspondent at the front:

"The Austro-Hungarian forces which attempted to dislodge the Russians from positions along the Vistula river have been repulsed with heavy loss. The Russians, attacking in turn, occupied a mile of the Austrian trenches.

"Fresh Russian batteries which have arrived and which have been posted on the Sereth River have begun to bombard the passage across the Dniester river, south of Zaleszczyky, obliging the Austrians to recross the river, Their retreat is being converted into a rout by Russian bayonet attacks.

SWISS TAKE ACTION

By Special Wire to the Courier.

Paris, July 17.—The Swiss Federal Council has decided to prohibit the exportation of gold in any form, says a Havas despatch from Berne. Another Havas despatch from Berne states that the editor of a newspaper, Neufchatel, France, now occupied by the Germans, has been ordered before a court martial for publishing an article in which he violently attacked Germany.
