KEATING'S FIGURES STAND.

HIS ESTIMATE IS $310,000 FOR A CIVIC LIGHTING PLANT.

These Figures Preferred By the Fire and Light Committee To Those of Mr. Bertram—Many Proposed Improvement Shelved Pending Bringing in the Estimates.

The second clause in the Fire and Light Committee's report to the Executive Committee read at the fortnightly meeting recommended that the City Solicitor prepare a bylaw to provide for the issue of general consolidated loan debentures to the amount of $——, for the installation of a civic electric lighting plant, and that the vote be taken thereon at the same time as the bylaw to provide for new water mains.

The amount was left blank, and enquiry showed that Mr. Keating had written two letters to the City Clerk. The one gave his own estimate of the cost of such a plant as $310,000. The other letter, as an alternative, called attention to the Bertram offer, which meant an expenditure of $277,000 to the city if accepted. The Engineer said he could not recommend the offer, while still awaiting the City Council's decision upon it.

McMurrich Scores Keating.

Ald. McMurrich, chairman of the Committee on Fire and Light, grew angry over this, and used strong words on Mr. Keating's inability to make up his mind and Mr. Keating explained that he could take no definite stand. His estimate of $310,000 he would stick to; he could not recommend the Bertram offer at the present time. It did not rest with him to decide the matter; the City Council must decide which scheme it preferred.

Ald. McMurrich did not withdraw his statements, and Ald. Lamb said the chairman of the Fire and Light Committee was trying to load upon the City Engineer a responsibility which his committee had shirked.

Keating's Estimate Stands.

To settle matters Ald. Graham moved that the clause go through to the council with the amount blank, to be filled out there, but the proposal was lost. Ald. Scott then moved that $310,000 be inserted, and this was carried.

Fire Brigade Matters.

The appointment of John Thompson, as Deputy Chief of the Fire Department, and William Villiers as Assistant was ratified. All the recommendations for better equipment of the different fire halls were laid over until the estimates are considered.

New Pavements.

The report of the Committee on Works recommended the construction of an 18-foot asphalt pavement in Selby-street, and a 24-foot pavement in St. Joseph-street.

Overcrowding Cars.

The City Engineer's statement as to the overcrowding of street cars was unanimously adopted. It required that the number of passengers on closed cars be limited to 50 per cent. above the seating capacity, and on open cars to the seating capacity.

The C. P. R. Rental.

There was some wrangling over the committee's recommendation that the C.P.R.'s old offer of $750 per annum rental for the eastern entrance be accepted. As, however, Mr. C. R. W. Biggar and Mr. Christopher Robinson had given their opinion that an arbitration would yield nothing better, the recommendation was adopted.

The City Engineer's recommendation that $7500 be expended in improving the furnaces at the Waterworks Department with smoke-consuming appliances was allowed to stand over until the estimates come up, and the expected saving in fuel can be estimated.

The Property Committee's report was adopted providing for the immediate advertisement of tenders for the lease of all city docks and 300 feet of cribbing between Bay and York-street on the waterfront at a cost of $600.

Dr. Barrick and a number of members of the Ratepayers Association waited on the committee once more to urge their old scheme of equalized assessment Dr. Barrick was attentively listened to.

$560 For the Horse Show.

A deputation composed of George W. Beardmore, Robert Davies, Alf W. Smith, John K. Macdonald and Stewart Houston, representing the Country and Hunt Club, together with Henry Wade, secretary of the Agriculture and Arts Association, waited on the committee to ask for a grant to the horse show, to be held in the new Armory on April 18, 19 and 20, on the lines of the great New York horse show. Mr. Wade was heard and the request was granted.

Iron Bridge For the Island.

The Parks and Gardens Committee met at 2 o'clock yesterday and adopted the report of the City Engineer recommending the offer of the Central Bridge and Engineering Company of Peterboro to build an iron bridge 164 feet long across the long pond at Island Park for $3660.

THE STATE OF TRADE.

A Slight Improvement in Certain Lines of Wholesale Business.

The Bulletin (R. G. Dun & Co.) says: Montreal wholesalers report that there has been no appreciable increase in the movement of merchandise since a week ago, and collections, which are never expected to be very good in February, are described as almost poorer than the rule. Grocery travelers, writing from off rail points, report the country roads as still badly drifted, and business consequently slow. Some of the millinery openings were held this week, attracting a fair number of buyers. Some dry goods men from the Northwest, British Columbia, have also been in town, but have made only moderate selections.

The millinery openings and more spring-like weather have had a stimulating effect on millinery and similar lines at Toronto. The volume of business is said to be satisfactory, but profits are restricted by keen competition.

The movement of staple dry goods is small. There is some anxiety as to how settlements will be made on the 4th, but a large number of wholesale merchants seem to expect a general improvement in trade in the near future.

Steam Fire Engine Fake Yarn.

Editor World: I have just seen Monday's World, reporting dispatch from Winnipeg about a Merryweather fire engine, in which flues had burst, that a man had been arrested for tampering with the engine, as a result of much opposition—and a hatched conspiracy of rival manufacturers! This is a fake story, hatched by Merryweather sympathizers, to enlist public sympathy. Our firm was the only opposition, all done by telegrams and letters, offering a better engine for much less cost; but Winnipeg would not allow competition upon merit—the old Montreal way of doing civic business in fire engine purchases. The facts are, if any flue was injured, it could not have raised steam at all; the probabilities are that they were trying to get up steam as quick as we can, and used too little water in boiler, upper rows of horizontal tubes became bare of water and collapsed; which can't happen with our engines. They will have a high old time to repair; the whole inside of the boiler will have to come out, and perhaps have to send to England for new flues of right uniform kind; whereas, when any of our flues need repairs, we can do it in a few minutes. Such facilities were shown Toronto men, besides scores of other similar good points in our steamer not in others. But, alas! there were no eyes to see any good points in the Canadian engine. Time and practice are telling, and will further tell, who makes the best steam fire engine.

London, Feb. 28.—William Henry Wellesley, second Earl Cowley, is dead. He was born in 1834.

Count Up

the number of times you have to rub a garment to get it clean; multiply it by the number of garments washed in a year.

Then you can see just how many **back-breaking** rubs **Pearline** will save you, annually. You don't do the washing yourself? That doesn't make any difference. You need **Pearline** just the same. Every one of these tiresome rubs is wear and tear on the things that are washed. They suffer, even if you don't. Hundreds of millions of packages of Pearline have been consumed. Think of the number of useless and harmful rubs that have been saved to the women of America.

Beware Peddlers and some unscrupulous grocers will tell you, "this is as good as" or "the same as Pearline." IT'S FALSE—Pearline is never peddled, if your grocer sends you an imitation, be honest—*send it back.* 364 JAMES PYLE, New York.

Long stock of N.Y.C came out to-day. The failure of the coal sales' agents to do anything about production or prices creates an idea that further trouble in the trade is inevitable. Reading for January shows an increase in the deficit of $180,000. Pennsylvania for the same months, however, has gains of $518,000 gross and $366,000 in net.

The American Tobacco Co. has acquired the plant of two tobacco concerns, bought without increasing capital stock, and paying for them out of surplus.

Pork—May	10 15	10 33	10 15	10 33
Lard—May	6 45	6 50	6 42	6 47
Ribs—May	5 22	5 30	5 22	5 27

McIntyre & Wardwell (John J. Dixon) received the following despatch from Schwartz, Dupee & Co., Chicago: Wheat—Foreign cables easier to-day and brought selling orders both here and at New York. Our market eased off at the start, rallied again on local buying, influenced by report of lower temperature, closing finally at 53 3-4c. Total volume of business was small. The clearances from the seaboard was equal to 340,000 bushels. Cables from the Argentine in regard to the quality of their crop were but a reiteration of that we have previously had. The Orange Judd Farmer estimates the farm reserves at 154,000,000 bushels; corroboration of these figures by the Government would be regarded as a bullish feature. Corn easier. Cables lower. Seaboard clearances were liberal, 216,000. Speculative demand to-day was very light and the selling largely by local traders, who had loaded up in the expectation that soft roads would give the market a boom. Sample lots were a shade easier. Provisions opened higher and advanced on rather free buying by a leading packer. When this buying was over the market became dull and sagged off in sympathy with grain markets. The cash demand was light and speculative trading was mostly local. Local sentiment is bullish and favors a higher market in March, which will be natural if receipts of hogs fall off materially.

Fancy Pant Prices Off Their Feet.

Our pants are not burdened with a big price. While we don't do much business just for fun we admit we are not making barrels of money out of the pant trade. Our profit though is a reasonable one, and with that we are content. Try us on a pair the first you require.

While we talk pants and pants more than anything else we can't help it. The prices are so easy and the values so great we don't tire of telling you of a good thing. Just think of it yourself. Perfect pants to order at $1.99, $2.50, $2.99, $3.50 and $4.00, and if not content your money back.
