IRISH PICNIC TO BE HELD ON AUGUST 15

At a meeting of the Irish Benevolent Society held last evening in the Tecumseh House it was decided to hold the annual Irish picnic on Thursday, August 15.

It was not definitely decided to hold the picnic at Port Stanley, as in former years, or to hold it at Springbank. Many members of the society favored holding the picnic at Springbank Park this year.

The following committee was elected to go to Springbank and Port Stanley and find out what arrangements can be made for the annual picnic: Dr. W. M. Shoebottom, M. J. Donohue, E. J. Carty, B. C. McCann, J. Laughlin, S. B. Pocock, Frank Hughes and E. J. Ryan.

E. J. Ryan of the band committee gave a very satisfactory report. It was decided to only have one band at the picnic this year.

Reports were received from the various committees.

FORMER LONDONER DIES OF PNEUMONIA

PETROLEA, July 16.—Mrs. Archibald Rodgers received word today that her husband died last week of pneumonia in a hospital in France. Word of his serious illness was received a few days ago. Sapper Rodgers previous to his enlistment was an electrician at the Perfection Stove Works in Sarnia. His parents reside in London. Mrs. Rodgers is a daughter of Mr. and Mrs. Robert Gauld of Petrolea, and has lived with her parents since her husband went overseas.

LONDON TP. FARMER TERRIBLY INJURED

William Golding, a farmer residing on the Proof Line at the 12th concession of London Township, was terribly injured last evening by falling from the top of a big pile of hay in his barn. He lost his balance and fell backward, alighting on the barn floor on his neck. He has been partially paralyzed ever since. Dr. McNeill of St. Johns was called, and while Mr. Golding's injuries are very serious, it is expected that he will recover.

HOW TO LEARN TO SWIM

Simple Instructions Given For First Attempts.

The following instructions for learning how to swim were handed to The Advertiser today by Joseph Pevler of this city, who expressed the opinion that were a few simple rules, such as those he has outlined, followed, many cases of drowning would be avoided.

First, learn to stroke perfectly. This can be done easily in shallow water—say about to the hips. Keep the feet on the bottom while doing this, as it is almost impossible for a person to stroke and kick at the same time (the motion that keeps one afloat) when first learning to swim. In this the hands should always be kept flat.

After learning to stroke, raise the feet occasionally and kick back, and keep time with each stroke of the arm. One can in this way accomplish the task of learning to swim easily, and with little practice.

RESULTS OF V. A. D. TESTS ANNOUNCED AT LAMBETH

LAMBETH, July 16.—Miss Tena Milne, teacher of the V. A. D. class of ladies, has announced the results of the examination in the first part of the course. The standing was high, most of the students receiving over 90 per cent. Those who have passed are: Miss Agnes McArthur, Miss Alice Carley, Mrs. Meek, Miss Bessie Norton, Miss Lilian Robinson, Miss Christena Filden, Mrs. Newton Howlett, Miss Ethel Winters, Miss Bernice Walker, Mrs. Laura Clement, Miss Doris Ead and Miss Pearl Page.

Dr. Roy Routledge, accompanied by Thomas Meyers, is in Montreal. They will visit Ottawa before returning.

Miss Bernice Walker is holidaying at Thorndale and St. Marys.

Rain is greatly needed. Fruit and vegetables especially are showing the want of a shower. Raspberries must have rain or there will be a very great shortage in this section.

The fields are being cleared of hay. Clover is nearly all in, and the yield has been quite satisfactory.

Loses Eye When Tack Flew From Piece of Harness

Young London Township Farmer Victim of Peculiar Accident.

Rufus McNaughton, aged 17, a farmer residing on con. 8 of London Township, had his left eye removed at Victoria Hospital yesterday as a result of being struck by a tack. He had repaired the overcheck of his horse's harness by fastening it with a couple of tacks, and was driving into St. Johns when the horse stumbled. The jolt caused the overcheck to give way, and in swinging back quickly one of the tacks flew with great force, the head of the tack being embedded in Mr. McNaughton's eye. Dr. McNeill of St. Johns was called, and at once had the young man removed to Victoria Hospital. Everything was done to save the optic, but as complications were feared it was found necessary to remove it.

LONDON WOMAN DRAWS PRAISE FOR HER BUSINESS ENTERPRISE AT COBOURG

Up-to-Date Establishments, Including Theatre, Replace Old Hotel.

Mrs. Florence Sutherland, a London woman, is being highly praised in Cobourg for her business acumen, which resulted in an old, discarded hotel property being utilized and transformed into a series of up-to-date business offices, including a theatre, storage warehouse, newspaper office, general store and coal and wood yard.

The Cobourg World says the change was wrought "through the business ability of an enterprising lady, Mrs. Florence Sutherland of London, Ont."

Mrs. Sutherland purchased the property in question less than two years ago, and has since sold off portions, as she had it remodelled, retaining a large portion of the land to the rear. Here she erected a 40x100 brick theatre, with an up-to-date street entrance. "It compares well with such places of attraction in the cities," says the World. When equipped the theatre was leased for ten years to the Allen enterprises. To the rear of the theatre, Mrs. Sutherland has still more property, and this she has leased to a coal and wood merchant.

WALLACE REID in "The Firefly of France"
A Paramount Picture

At the Majestic today and Thursday. In this thrilling photoplay the deeds of an intrepid airman is the basis of the story, which concern more particularly the saving of certain important papers that the Firefly has captured from the Germans. Wallace Reid and Ann Little have the leading roles and Raymond Hatton is the Firefly.

A Lonesome Luke comedy, "Somewhere In Turkey," and an interesting scenic weekly film complete the screen program. In vaudeville Bert Ferte and Hilda Barr will continue to entertain with popular and high-class songs.

"BOYLESS" FARMERS IN LONDON TP. GET THEIR HAY CROPS IN

Co-operation Is Secret of Success When Help Is Scarce.

An Ilderton correspondent writes as follows:

The scarcity of farm help is so much of a problem at the present time that I thought I would tell of how three "boyless" farmers on the 12th concession of London Township have solved the problem of taking off their hay.

The farmers in question, namely: Leslie Scott, Charlton Calvert and John Hord have respectively 200, 50 and 150 acres of land each. The former, who has a large dairy, has J. Trowhill working for him. Altogether they have about seventy-two acres of hay to take off. Three mowers, all cutting at once, soon level a field of hay. While one field is being cut one man is using the tedder on another field, thus doing away with the labor of coiling up the hay. It is then raked into windrows with a side-delivery rake. The field now presents the appearance of a huge comforter. The hauling in is done with two teams, one on the first row going right around the field, and one on the next inside row, with a hay-loader behind each wagon.

Margaret Scott, aged 8, and Mabel Calvert, aged 14, each drive a team, leaving two men on each load to load, manage the hay-loader and keep an eye on the horses in case they get unruly. After the field is cleared of the hay it is raked with a common rake and hauled in, and in a short time the field is cleared.

Enjoy Their Work.

They are a hilarious crowd and judging by the sounds of mirth which come from the fields at every pause and at the noon hour, are firm believers in the old adage, "All work and no play makes Jack a dull boy."

The machinery used was bought before the present boost in price. If the duty was taken off farm machinery it would mean a great deal to the average farmer. Would not some such scheme of neighborhood co-operation be of use to the farmers whose boys are fighting? Two or three farmers working on "a business basis," and with a little "give and take" might make a success of it. With the aid of a good man or two, or possibly two or three farmerettes, they might get along fairly well.

However, this talk of women doing the work on a Canadian farm is all "moonshine." In England and France conditions are altogether different, and there they are just growing what they can, but here, where our land must be kept in the best condition to grow the best crops to feed the peoples of the world and especially our soldiers and Allies, experienced help is necessary.

Farmerettes Can Help.

I dare say the farmerettes can do a great deal—all honor to them—but to say that they will even begin to fill the places of our experienced men is as ridiculous as it would be for a farmer to go into a munition factory to show the experienced hands how to make shells.

In fact it would be more so, for if making shells is a complicated business, farming is also, and then conditions are constantly changing. Up to the present the farmer has received little save good advice, and that has not been wanting by any means. In fact we have received so much written advice from the city people on the subject of farming it fairly warms our hearts. I think it a great pity at a time like the present, when the Empire should be united as "one," that there should be so much misunderstanding.

It looks to me that the women of our towns and cities who are neither wage-earners nor farmerettes, are the proper persons to do the greater part of our Red Cross work, especially in the summer time, and I haven't any doubt the great majority are doing so. It is scarcely necessary to state that there are few farmers' wives who will not go out and do what they can to help, but the city woman does not seem to realize that there are some things on a farm no woman can do.

Duties of Farmers' Wives.

In addition to the ordinary duties of a farmer's wife, which include gardening, poultry raising, milking cows, etc., a good many women drive the horse on the hay fork. Then, of course, when the men are busy at the hay no well-regulated potato-bug would ever dream of appearing on the potatoes, no water trough was ever known to get empty, (thus giving the farmer's wife or daughter a chance to do a physical culture stunt by filling it), no weeds would ever think of growing at a time like that, lawns never have to be mowed, the fruit picks itself as well-bred fruit should, cows and horses were never known to open gates or jump fences, and so the farm woman hasn't such a hard time of it after all!

We hear a great howl about patriotism these days, but I sometimes think that the man or woman in either city or country who is quietly doing day by day the necessary humdrum, and often tedious duties which come to his or her hand, is the best sample of those who "fear God and honor the king," and that they are upholding the hands of the brave boys at the front who are fighting for us, for the sanctity of the home and for civilization.

A Baby's Skin

What is so beautiful as baby's soft, smooth, velvety skin? And how is it to be kept free from chafing, irritation and distressing eczema? This is every mother's question.

Many have found the answer in the use of Dr. Chase's Ointment. Applied after the bath, this soothing, healing ointment overcomes irritation of the skin and prevents the development of eczema and other annoying skin diseases.

FOOD SOURING IN STOMACH CAUSES INDIGESTION, GAS

"Pape's Diapepsin" relieves stomach distress in five minutes.

Wonder what upset your stomach—which portion of the food did the damage—do you? Well, don't bother. If your stomach is in a revolt; if sick, gassy and upset, and what you just ate has fermented and turned sour; head dizzy and aches; belch gases and acids and eructate undigested food; breath foul, tongue coated—just take a little Pape's Diapepsin to help neutralize acidity and in five minutes you wonder what became of the indigestion and distress.

Millions of men and women today know that it is needless to have dyspepsia. A little Diapepsin occasionally keeps the stomach sweetened and they eat their favorite foods without fear.

If your stomach doesn't take care of your liberal limit without rebellion; if your food is a damage instead of a help, remember the quickest, surest, most harmless relief is Pape's Diapepsin, which costs only fifty cents for a large case at drug stores. It's truly wonderful—it stops fermentation and acidity and sets things straight, so gently and easily that it is really astonishing.

MILITARY NOTES

MAY PURCHASE INSTRUMENTS.

Authority has been received at military headquarters here, for the use of canteen funds to purchase band instruments, subject to the concurrence of the mess committee. It is suggested that arrangements might be made with such trustees as are in possession of instruments that have been returned from overseas to either loan or purchase the same at reduced cost.

DISCHARGES GRANTED.

Camp orders today authorize the following discharges from the 1st Battalion, Western Ontario Regiment: Ptes. Harold F. Good, Joseph C. Wilson, Chester W. Routledge, Edmund G. Minielly to re-enlist in the Royal Air Force, and Pte. Harry Cook, erroneously ordered to report under the military service act.

ARRANGING SPORTS.

A meeting of the military athletic sports committee will be held in the office of Major C. O. Fairbank, Wolseley Barracks, today at 4:30 p.m. to arrange for the military field sports to be held on July 24. A representative from each unit in training at Carling Heights will be present.

GIVING HYGIENE LECTURES.

Capt. Oswald C. Withrow, M. B., of the Canadian Army Medical Staff, who has been lent to the Y. M. C. A., is delivering lectures at Carling Heights Camp on hygiene. The lectures are supplemented by a film entitled "Fit To Fight," and 600 soldiers in camp attend each lecture. These are put on in the Y. M. C. A. hut at 9, 11, 2, 4 and 7 each day, and Capt. Withrow will conclude his visit to Carling Heights Camp tomorrow night.

OFF WITH UNIFORM.

According to information received at headquarters here, draftees on 30 days' leave and who have applied for indefinite leave, are wearing their uniform while at their homes. At present, men granted such leave must turn in their uniforms before proceeding on leave, but previously this arrangement was not carried out.

Many are wearing their uniforms who do not expect to go overseas. Men on leave of absence without pay should not wear their uniforms, and the camouflage must stop. All such cases should be reported to headquarters here, and the offenders will be punished.

TWO VOLUNTEERS

Two volunteers and four draftees appeared before the medical board at the local mobilization centre Tuesday. The two volunteers, who were given A2, were D. Brown and S. Halliday, the former being attached to the W. O. R., and the latter to the Canadian Engineers.

The four draftees, two of whom were men apprehended under the military service act, and two defaulters were all attached to the W. O. R., three being classed as A2, while one was found to be in Category B2.

Two New York men were sent to the medical board by the British and Canadian Recruiting Mission of that city, and will be examined today.

VOICE OF THE PEOPLE

AFTER SOLDIER'S MONEY.

To the Editor of The Advertiser:

I was walking at Clarence and King streets with another soldier, and was grabbed by a fellow and made to come in a store to sell me a brass watch, and he as much as wanted to dig into my pocket for my money. It's a shame for a city like London to allow this to go on. It seems they grab anybody that goes past, especially the soldier boys. Yours truly,

ROY GRAY.

REV. PERCY G. BUCK, B.A., IS INDUCTED AT FOREST

Rev. Percy G. Buck, B.A., was ordained as pastor of the Forest Baptist Church before a large congregation as well as a number of delegates and ministers from this city last evening. Mr. Buck was a member of the Baptist foreign missionary board for many years, but owing to war conditions it was decided to make him pastor of the Forest Baptist Church.

Rev. J. G. Brown, B.D., secretary of the Baptist foreign mission board, preached the ordination sermon; Rev. H. H. Bingham of Talbot Street Baptist Church delivered the ordination prayer.

LEMON JUICE TAKES OFF TAN

Girls! Make bleaching lotion if skin is sunburned, tanned or freckled

Squeeze the juice of two lemons into a bottle containing three ounces of Orchard White, shake well, and you have a quarter pint of the best freckle, sunburn and tan lotion, and complexion beautifier, at very, very small cost.

Your grocer has the lemons and any drug store or toilet counter will supply three ounces of Orchard White for a few cents. Massage this sweetly fragrant lotion into the face, neck, arms and hands each day and see how freckles, sunburn, windburn and tan disappear and how clear, soft and white the skin becomes. Yes! It is harmless.
