Two errors by Spill and a muff by Morrison in centre field gave Syracuse the game yesterday.

The Queen City Driving Club.

The Queen City Driving Club held its annual meeting yesterday afternoon. Mr. J. J. Weicher occupied the chair, and Mr. Tom Best acted as secretary. The officers elected were: President, Thomas Taylor; Vice-Presidents, John Elliott and J. J. Weicher; Treasurer, John F. Scholes; Hon. Secretary, T. R. Taylor; Secretary, Tom Best. In addition to the officers the other directors elected were: Geo. H. Briggs, John Fleming, sr., and Joe Duggan. The first event of the season, under the club auspices, will take place on to-morrow afternoon at Woodbine, when C. Burns' John L. Sullivan is matched to trot J. J. Burns' Larry. Other matches will probably be arranged. The club is in a prosperous condition.

The Ten Best Horses of the Century.
From the Sportsman.

Lord Falmouth gives it as his opinion that the ten best horses of the century have been Plenipotentiary, Bay Middleton, Priam, West Australian, Flying Dutchman, Surplice, Harkaway, Touchstone, Cremorne and Gladiateur. Mather Dawson thinks the ten best were Touchstone, Flying Dutchman, Voltigeur, Stockwell, West Australian Thormanby, Blair Athol, Gladiateur, St. Simon and Ormonde. John Porter, one of the most successful trainers in the world, says Teddington, Virago, West Australian, Fisherman, Gladiateur, Rosicrucian, Jeanny, Robert the Devil, St. Simon and Foxhall were the best of the century. Hon. Francis Lawley, a well-known turf litterateur, includes Foxhall among the ten best which he has ever seen. So does Mr. James Smith, owner of Rosebery, winner of the Cesarewitch and Cambridgeshire; so, of course, does William Day, who also names Plenipotentiary, Bay Middleton, Mendicant, Priam, Blue Gown, Touchstone, Surplice, West Australian and Crucifix as the best he ever saw. John Nightingall includes Foxnall in the best he ever saw. T. Jennings, jr., includes Vermuil (by Mortemer) in the best he ever saw. John Dawson names absolutely the best horse he ever saw as Prince Charlie. All are more or less influenced by their close connection with the best horses they name, yet for the benefit of posterity, their opinions may be well worth preserving.

Dangers of Delay.

—If we were allowed to look into the future and see the fatal consequences that follow a neglected cold, how differently would our course be; could we realize our danger, how speedily we would seek a cure; but with many it is only when the monster disease has fastened its fangs upon our lungs that we awaken to our folly. What follows a neglected cold? Is it not diseases of the throat and lungs, bronchitis, asthma, consumption and many other diseases of like nature. It is worse than madness to neglect a cold, and it is folly not to have some good remedy available for this frequent complaint. One of the most efficacious medicines for all diseases of the throat and lungs is Bickle's Anti-Consumptive Syrup. This medicine is composed of several medicinal herbs, which exert a most wonderful influence in curing consumption and other diseases of the chest. It promotes a free and easy expectoration, soothes irritation, and drives the disease from the system.

It Acts Like a Charm.

—Ex-Ald. George Evans, 449 Queen street west, testifies to the efficacy of "Hallamore's Expectorant" as follows: "It is undoubtedly far superior to all other advertised remedies for coughs and colds, especially in the case of children, with whom it acts like a charm." edx

Discretion of a Highlander.

One day at Blair Athol, the Duke of Athol, having entertained a large party at dinner, produced in the evening many curious and interesting family relics for their inspection, among them a small watch which had belonged to Charles Stuart, and had been given to him by one of the Duke's ancestors. When the company were on the point of departing the watch was suddenly missed, and was searched for in vain upon the table and about the apartments. The Duke was exceedingly vexed, and declared that of all the articles he had exhibited, the lost watch was the one he most valued. The guests naturally became uncomfortable and eyed one another suspiciously. No person was present, however, who could possibly be suspected, and courtesy forbade any further step than the marked expression of the noble host's extreme annoyance and distress. The guests departed for their homes in an unenviable state of mind, and the mysterious disappearance of the royal relic was a subject of discussion for several months in society. A year afterward, the Duke being again at Blair Athol, while dressing for dinner, felt in the breast pocket of a coat which his valet handed to him something which proved to be the missing watch. "Why," exclaimed his grace, "here's the watch we hunted in vain for everywhere last year!" "Yes, sir," replied the valet gravely; "I saw your grace put it in your pocket." "You saw me put it in my pocket and never mentioned it! Why didn't you speak at once and prevent all that trouble and unpleasant feeling?" "I didna ken what might be been your grace's intentions," was the reply of the faithful and discreet Highlander, who saw everything, but said nothing unless he was directly interrogated.

—Mr. J. R. Allen, Upholsterer, Toronto, sends us the following: "For six or seven years my wife suffered with dyspepsia, costiveness, inward piles and kidney complaint. We tried two physicians and any number of medicines without getting any relief, until we got a bottle of Northrop and Lyman's Vegetable Discovery. This was the first relief she got, and before one bottle was used the benefit she derived from it was beyond our expectation."

The Flower Garden and Lawn in June
From the American Agriculturist.

Run the lawn mower as often as once a week, or oftener if the rapid growth of grass requires it. In a dry time mow less frequently. It is a good plan to have the edges of beds in the lawn cut sloping, as this will allow them to be kept in order more easily. Annuals sown now, will make a fine display late in the season. Coleuses and similar "foliage plants," may now be planted in beds in the lawn. Cannas and tuberoses should now be planted. "Everlasting flowers," so called, will be needed at Christmas, and it will be well to provide for the demand by sowing seeds of helichrysums, rhodanthes, and others. Weeds, whether in the lawn or on the border, must be kept in subjection. A sharp, stiff knife, that will cut the roots well below the surface, is a most useful implement for weeding in the garden. Green-house plants, as a rule, are set out of doors, but they should not be given over to neglect. If the pots are not set upon a pavement, provide a layer of coal ashes, that worms may not enter. Plants thus placed for the summer must have all needed water; they must not be overrun by insects, nor should their roots be burned by the heating of the sun against the pots. Indeed, plants that are set out require as much, if not rather more, care than if they had been left inside. Guard against injury by dogs.

—A. D. Noyes, Newark, Michigan, writes: "I have enquired at the drug stores for Dr. Thomas' Eclectric Oil, but have failed to find it. We brought a bottle with us from Quebec, but it is nearly gone and we do not want to be without it, as my wife is troubled with a pain in the shoulder, and nothing else gives relief. Can you send us some?"

Sir Walter Scott.

—A fact, not generally known, is that Sir Walter Scott was the first President of the Scottish Union and National Insurance Company of Edinburgh, and to show that his memory has not suffered by the Company it is only necessary to point out that the assets of the Company have accumulated to $5,000,000, and at this moment no Company occupies a higher position for prompt or liberal treatment of its patrons. Their representatives in Toronto are Medland & Jones, Equity Chambers, 20 Adelaide east. Telephone No. 1067. 246

Public Notice.

—All testimonials in favor of Hallamore's Expectorant are from well known residents of Toronto. Mr. S. J. Willcock, 129 Spadina avenue, says: "I have used Hallamore's Expectorant for coughs and colds for thirteen years, and would not be without it. It never fails to cure me." edx

"By a thorough knowledge of the natural laws which govern the operations of digestion and nutrition, and by a careful application of the fine properties of well-selected Cocoa, Mr. Epps has provided our breakfast tables with a delicately flavored beverage which may save us many heavy doctor's bills. It is by the judicious use of such articles of diet that a constitution may be gradually built up until strong enough to resist every tendency to disease. We may escape many a fatal shaft by keeping ourselves well fortified with pure blood and a properly nourished frame."—"Civil Service Gazette."
