### A GREAT ISSUE.

Mr. Morgan has at last spoken on the strike question, and his statement shows that he intends to back up his million-dollar-a-year president and manager, Mr. Charles M. Schwab, in a fight to a finish. Mr. Schwab's announcement a short time ago that he was opposed to trades unionism in toto was taken as a challenge by union men all over the country, and the present situation is the result. The contest will be watched with interest. A great concentration of capital is met by a great concentration of labor. Both sides are losing money, and those who have figured it out say the companies are losing the most. Were it possible for the men to hold out long enough they could cripple even the billion-dollar trust by making the enormous plants useless—always provided that workingmen generally would stand with the strikers and keep the plants from moving. Railroad and ship building would have to stop, and commerce generally would be paralyzed for want of the products of the steel mills. Building operations also would be tied up to a large extent. But the problem of getting food for themselves and their families will have to be faced by the workmen, and while they may be able to inflict great loss on the companies their own necessities will be serious. Mr. Shaffer, the strike leader, threatens to order out all the employes of the National and Federal Steel Companies, if necessary, and says he intends to win the fight. The strike is not for hours of work or rates of pay, but it is a straight fight for the existence of unionism. Mr. Morgan is not given to talking much, but when he takes a stand he rarely gives way, and it is pretty certain that, with his almost limitless resources, he will see the controversy thru on the lines drawn, no matter how many millions may be sunk in the operation. It is a pity that some means of amicable settlement cannot be reached. Surely laboring men have as much right to combine as capitalists. Trades unionism has much to commend it. Workingmen assist each other in times of trial, altogether apart from disagreements with employers, and this feature is very commendable. On the other hand, an employer cannot be expected to allow his workmen to dictate his manner of conducting his own business. Mutual consideration of the one for the other appears to be the only solution of such difficulties as are constantly coming up. Corporations are said to be soulless, and in some instances there is ground for the assertion. The coal barons furnish an instance. They grind the miners down to starvation wages and restrict the output, making the consumers pay the piper. If coal mining were unrestricted the people of Toronto should get coal for $5 per ton at most. Under the system of manupulation practised by the mine owners we have to pay $6 a ton or more.

Meanwhile the steel strike is to be deplored, and it is very desirable that a settlement shall be reached very soon. Those who are neither partial to one side nor prejudiced against the other will hope for an outcome beneficial to labor, creditable to capital and discouraging to unreasoning agitation. But if there is to be combination of capital on a gigantic scale there must be a corresponding combination of labor. If labor could not organize under such circumstances serdom and vassalage would return. The twentieth century is not for a new serfdom.

### THE LIBERALS AND THE WAR.

It would be interesting were some member of the British Opposition to tell the public how the government can stop the Boer war short of the surrender of the enemy. Kruger and his colleagues brought on the conflict and invaded British territory. The war has been fought and the Boer forces have been scattered. Is it reasonable to suppose that, after all the sacrifice of life and money, Britain can cease fighting before the Boers have been conquered? It is inconceivable that any British statesman can take such a view. To abate the demand of unconditional surrender would be to repeat the mistake the late Mr. Gladstone made in 1881. Once the surrender has been made, liberal terms might be given the vanquished, and by degrees the people might be brought to experience the same freedom enjoyed by Canada.

The split among the British Liberals has been over the war issue, and Lord Rosebery's late manifesto has about completed the disintegration of the party. But the former Premier's support of the government's war policy will doubtless give him a strong following. The vaporings of Henry Labouchere and the disloyalty of Redmond and Dillon were to be expected, but these go for little. It is astonishing, however, to find a politician of the acknowledged strength of Sir Charles Dilke joining in the unreasoning clamor against the government for not stopping the war. He and other party leaders must know that nothing short of complete victory for the British arms will satisfy the British people, and it is surprising that, for the sake of party capital, they would keep up an agitation against the government, which is doing more than any other influence to prolong the deplorable conflict. The war would soon be stopped if it were shown to Kruger, Leyds, Steyn, Reitz and their colleagues that the British people were united in a determination not to yield an iota; and a further impetus to that end would be the acceptance of the truth that no continental power will intervene. Ex-President Steyn's expressions, as shown in the captured papers lately made public, reveal the fact that the hopes of the burghers have been kept up on the fallacious supposition of complications in Europe. With this fallacy exploded, there would probably be a general surrender in short order. In any case, the Boers must be conquered. A recession from the original policy would mean a loss of prestige which Great Britain cannot afford.

### JUMP IN LAND VALUES.

Small holders of real estate, such as workingmen who own their homes, will rejoice to see that the Assessment Commissioner has been paying attention to property in the central district of the city, especially on Yonge-street. The benefit to the city treasury from the repeal of the Scrap Iron Assessment Act is shown in the jump of over half a million dollars in the Gas Company's assessment, and the Bell Telephone Company will have to pay toll on $565,000, instead of $90,000, as last year. The Street Railway Company is also hit hard by the repeal, and its rolling stock is taxed on $700,000 estimated value. With increases of from $100 to $500 per foot on Yonge-street property below Shuter-street this will yield a large revenue next year, and should allow a lower general rate than this year, besides producing an increased revenue. The Court of Revision will probably have its troubles, however, before the new valuations are confirmed.

### TOPICS OF THE DAY.

It took the United States three years to conquer the Philippines after thrashing Spain in less than three months, and the British people need not be discouraged if it requires three years to conquer the Boers and restore peace and prosperity in South Africa.

If the garment workers of New York and Newark succeed in their efforts to kill the sweatshop system they will have accomplished something in the interest of humanity. Over 50,000 workers have gone on strike to that end.

Once in a while a little of the truth regarding treatment of Boer prisoners in Africa comes out. Authentic reports show that the Boer refugees at Pretoria are well fed, while loyal Britishers of the poorer class of refugees are enduring much suffering.

The nose-biter is the latest Parisian development. Fancy a man inviting a young lady to go for a promenade, and, on the plea of whispering something in her ear, or soliciting a kiss, grabbing her nasal organ and biting off a piece of it. Yet that is what is reported to have occurred frequently of late in the gay capital. Such conduct will tend to a curtailment of the osculatory practice so universal in the French republic.

General sympathy will be expressed for Mr. Kruger in the loss of his wife. It is to be hoped the stubborn old dictator will be softened by the incident and open his eyes to the hardships his countrymen are suffering because of his unreasoning obstinacy.

It is too bad that the exciting and scientific game of lacrosse cannot be made less dangerous. The breaking of a player's arm in the Toronto-Cornwall match, and the smashing of a player's jaw, with loss of ten teeth, to an Ottawa man at Montreal on Saturday, are incidents calculated to keep young men from going into the game. A severe penalty should be inflicted for rough play.

Len. Marsh, who rowed second to the best man that could be found in the United States on Saturday at Philadelphia, is entitled to as much credit as any of the victorious Canadian oarsmen. Marsh rowed a plucky race, and altho not victorious, is entitled to full credit, having done good work in fast company.

The decision to have only the English language taught in the schools of the Orange River Colony is a good one. Within a generation that colony will be thoroly British, whereas, if the Dutch language were perpetuated, the race feeling would surely remain.

### Bigger Men Wanted.

Editor World: Anent the Avenue-road car extension referred to in your columns recently and several other neglected civic matters of importance, the remedy, I fancy, lies in the caption of this article.

The majority of the men we have in Council seem to be very much of the weathercock variety, and every wind blows them where it listeth.

Ald. Lamb has a hobby—radial railways—yet he is apparently so dense that he cannot see that the extension of this line is a step in his program, or because he did not originate it, tho the citizens desire it, he cannot countenance any other member of the Council having an idea on the subject of street car service at all, the convenience of the people or the necessities of the times having no weight with him whatever.

Ald. Crane also has a hobby—Dupont-street car extension. Perhaps some of his friends or relations have land in the goose pasture section of Dupont-street, or the more aristocratic quarter called "The Annex," which would be increased in value by the Dupont extension, but in the eagerness of his all-absorbing "one idea" he altogether overlooks, or, is regardless of, the tremendous burden of debt to be saddled on the citizens generally on this head, and for fear his pet scheme of extension might be frustrated or jeopardized, he opposes most bitterly and denies Ward 3 residents and the citizens generally the extension of the Avenue-road cars to the city limits, which would not cost the citizens one cent.

More business ability and economy are required of our aldermen. An almost complete reconstruction will one of these days have to take place in the management of our affairs, and the now hap-hazard, happy-go-lucky style of doing business done away with, at the big pile on Queen-street, or the citizens will awake one of these mornings, when a cyclone of disaster bursts upon them, and no one will be found on whom the blame rests, and then they will wonder how it all happened. Progress.

The above topic is a live one and interests an important section of the city. There appear to be two sections of residents in the northwestern part of the city who desire street car facilities, and The World can see no reason why both should not be accommodated. The Avenue-road extension to Upper Canada College is a necessity, and there is no reason why a loop should not be built by way of Dupont-street, to connect with the Bathurst-street line. Thus all parties would be served.

### SOUTH AFRICAN MEDALS.

Ottawa, July 22.—Lieut.-Col. Biggar and E. F. Jarvis of the Militia Department will have charge of the distribution of South African medals. They will be at each place visited by the Duke of York. Each applicant must present himself to Mr. Jarvis or Col. Biggar and be identified. He will get a ticket and next day will receive the medal from the Duke.

### Mr. Torrington Says.

Mr. Torrington wishes to say that so many inquiries are 'phoned that it cannot be clearly understood, that all applications for admission to the chorus must be written, stating full name, part sung and what choir or society is represented. In case they do not belong to any choir or society, a recommendation by some recognized musician must accompany the application, or a call be made upon Mr. Torrington, who is always at his residence, 12 Pembroke-street, in order to test any voices. The lists are filling up so rapidly that the prospects are that they may be closed by the end of this week.

### Read End Collision.

A little after 6 o'clock last evening a motor ran into the trailer of a Parliament-street car, which was stationary at King and Church-streets. The platform of the trailer was badly smashed, as was also a baby carriage hanging on the back of the trailer. No one was hurt. It was said that the brakes of the motor were not in working order.

### Formerly of Toronto.

Niagara Falls, July 22.—Matthew Martin, one of the oldest residents of the town died last night, aged 73. He was born in Carlisle, England, and came to Canada in 1850, settling in Toronto. He came here in 1854.

### Small Fire on York Street.

A lamp exploded at 10.30 o'clock last night in the home of Joseph Kazel at 123 York-street, causing a fire which did damage to the extent of $5. The building is owned by Casseis Brock.

## LIVING AT GRIMSBY PARK.

Boy Preacher Jack Cook of Manchester, England, Spoke to Large Audience Sunday.

SATURDAY EVENING CONCERT.

**Bowling Games Arranged for This Week at Kew Beach—How Summer is Spent.**

On Saturday evening the second concert of the season under the direction of E. B. Jackson, assisted by Miss Grace Awrey, proved a very enjoyable affair for the large number present.

In addition to the large ladies' choir, which provided several very excellent selections, W. N. Shaver, Hardy Awrey and Miss McCoy furnished solos, which were well received and in every case very heartily encored. Mr. McMichael helped to give variety to the program by furnishing several recitations. A very interesting part of the program was the presentation of a fine large Canadian ensign, which will hang gracefully from the lofty dome of the auditorium. Just before the conclusion of the program a large number of the gentlemen summering at the park came to the platform and their spokesman, J. Pearson, in a few appropriate remarks requested the president, W. C. Wilkinson, to accept the flag, which they had great pleasure in presenting. Just as his remarks were concluded, the flag was hoisted into view, and the gentlemen sang with great spirit a verse each of "The Maple Leaf Forever," "Rule Britannia" and "God Save the King."

Mr. Wilkinson, as president, in an appropriate speech, gracefully accepted the gift.

On Sunday a large audience assembled at 11 a.m., notwithstanding the excessive heat, to hear the boy preacher, Master Jack Cook of Manchester, England. His brother, J. Hadyn Cook, was present and assisted in conducting the opening exercises. Master Jack has just turned 15 years of age and was dressed in an Eton coat, collar and knickerbocker trousers. From the text, Heb. ii., 5, "For unto the Angels hath He not put into subjection the world to come, whereof we speak," he preached a sermon which for cogency of reasoning and fluency of utterance could not be surpassed by many a doctor of divinity. At the evening service a new method was adopted. The audience was invited to propound any question on biblical subjects—save those which had been matters of denominational controversy in times past—and he would forthwith proceed to solve the difficulty, whatever it might be. Some hard questions were asked, and full and satisfactory answers were given without any opportunity being afforded for consideration. Another novelty in the evening service was to ask persons in the audience to suggest texts for addresses. Four texts were received from the audience. Jack proceeded to read them aloud, and then at the request of his brother the congregation gave a standing vote as to which of those four texts the preacher was to make his sermon upon. The greatest number of votes was for the last text, which was Rom. viii., 10, "And if Christ be in you, the body is dead because of sin, but the spirit is life because of righteousness." From this a discourse was given that would bear very favorable comparison in a scripturalness, spiritual power and breadth of view, with many a sermon on which much midnight oil had been laboriously spent.

### KEW BEACH.

The card party held last night, under the auspices of the Kew Beach Association, proved most successful, and was largely attended. The hall was delightfully cool.

The bowling green will present a busy appearance this week, as three matches with outside clubs have been arranged. To-morrow evening a three-rink match will be played with the Prospect Park Bowling Club. On Thursday evening a rink skipped by Frank Mutton will play a rink from the Canada Club, and on Saturday a match has been arranged with the St. Matthew's Bowling Club.

The winners of last Saturday's games, in connection with the tennis tournament, were not made public, owing to the umpires not turning in the score cards. The games will be continued every night until they are all played off.

At a committee meeting of the Kew Beach Association, held on Saturday night, it was decided to discontinue the Thursday evening hops, and in future to hold the regular weekly hop on Friday evening, also that two experts be employed to improve the bowling and tennis greens.

The first boat to finish in the sailing race of last Saturday, held under the auspices of the Beach Sailing Association, was the varnished dinghy owned by James Bird, which finished at 4.39, and not a boat from the Harriers, as was stated.

W. E. Blackie is a guest at the Y.M.C.A. cottage, "Villa Marina," on the lake front.

Arthur Lynn, Harry McConnell and Harold Smith are summering at the Beach.

W. Spencer Jones is the guest of President Frank Mutton on the lake front.

William Lyons and Robert Burns are spending their holidays at the Beach.

The boys of Solid Comfort camp will hold a social evening on Friday, Aug. 2.

On Saturday evening, the Church of England will hold a garden party at the residence of Mr. C. R. Watts, for the benefit of the fresh air fund.

The last of the series of limelight services, entitled "Wops, the Waif," will be held in the Pavilion on Thursday evening.

### HANLAN'S AND ISLAND PARK.

Police Constables Mils and Johnston, who do duty on the Island, are spending much of their time in attempting to put a stop to scorching on the bicycle track and swimming in the lake without bathing suits. Eight bicyclists have already been fined $5 and costs each by Magistrate Kingsford. The penalty will be increased until the scorching is stopped. P. C. Miles has also his eye on a man who rides a bicycle attached to which is a big lamp, at breakneck speed every night at Island Park.

There was an enjoyable dance at the Royal Canadian Yacht Clubhouse at Island Park last night. The attendance was large, among those present being a number of residents from Hanlan's Point.

Mr. and Mrs. A. L. Massie are summering at Island Park.

The Central Soefil Club will hold a dance in Wilson's Pavilion, Island Park, to-morrow night.

The regular weekly sports of the Island Amateur Aquatic Association will be held to-morrow evening on Long Pond, Island Park.

SUNNY WOMEN.

Who has not known the woman whose disposition is described by that one word "sunny?" There's always a laugh lurking on her lips. Her cheeks are ever ready to dimple in smiles. Her household influence is as brightening and stimulating as the sunshine. Nothing can be crueler than to have this sunshine blotted out by disease. But this is a common cruelty. The young wife who was the sunshine of the home becomes its shadow. Every young wife should know the value of Dr. Pierce's Favorite Prescription in the protection and preservation of the health. It promotes regularity, dries the drains which enfeeble body and mind, and cures inflammation, ulceration and female weakness. It nourishes the nervous system and gives to the body the balance and buoyancy of perfect health. It is a strictly temperance medicine.

"I can say that your medicine cured me," writes Mrs. Maud Pearce, of Stoutsville, Fairfield Co., Ohio. "I had suffered about twelve years from female weakness and I had almost given up, thinking there was no cure for me. Then I heard about Dr. Pierce's medicine and thought I would try it, and can say that seven bottles of your 'Favorite Prescription' made me well. I am now able to do my own housework. I took about twelve bottles in all of Dr. Pierce's medicines. Took some of the 'Golden Medical Discovery,' 'Favorite Prescription' and some of the 'Pleasant Pellets.'"

Dr. Pierce's Pellets cure constipation.

### LAST DAY AT BISLEY.

**Earl Roberts Spoke Indivdually to Each Member of Canadian Team.**

Bisley Camp, July 22.—The scores of the four Canadians competing in the final stage of the Queen's were as follows:

| | 800 Y'ds. | 900 Y'ds. | 1000 Y'ds. | Total. |
|---|---|---|---|---|
| Gunner A. Fleming | 44 | 33 | 25 | 102 |
| Sgt-Major McDougall | 32 | 30 | 28 | 90 |
| Lieut. John Ogg | 42 | 38 | 40 | 120 |
| Sergt. A. Wilson | 37 | 33 | 43 | 119 |

Lieut. Ogg will reach about 15th place and Sergt. Wilson about 18th place in the prize list.

Earl Roberts, on his visit to the Canadian hut, spoke to each member of the team and enquired if they had been with the troops from the Dominion in South Africa.

At the distribution of prizes on Saturday afternoon Col. Tilton, commandant of the Canadian team, occupied a most conspicuous seat on the platform, sitting directly facing Earl Roberts. When the commander-in-chief began to speak Col. Tilton stood up and uncovered his head and remained in this position until the Earl concluded his speech.

Not a single Canadian received a prize at the hand of Earl Roberts, tho some of them should have, but the adjutant, who was at most entirely ignorant of his duties, neglected to notify those members who had won prizes. The Earl expressed surprise that no Canadians were amongst those who received prizes.

### Sergeant Proctor's Win.

London, July 22.—(By A.P.)—In the rifle shooting competition held at Bisley, under the auspices of the National Rifle Association, Sergt. Proctor of the Seaforth Highlanders won the Dominion of Canada Grand Aggregate Challenge Trophy, with an aggregate score of 354. In the same competition Canadians divided the Corporation of the City of London Aggregate Prize as follows:

Pte. C. S. McDougall, £25 sterling; Bodeley, £15; Graham and Gilchrist, £10; Richardson and Fleming, £7 10 shillings; Swaine, Murphy, Bayles, Mason, C. V. Spencer and Wilson, £5. The scores ranged from McDougall with 336 to Wilson with 320.

### TOLD TO DOUBT THE DELUGE.

**"Chronology Given in the Bible Margin is Absolutely Worthless."**

Chicago, July 22.—Children are being taught by regularly accepted lesson books in the Sunday Schools of Chicago that the Bible account of the creation is not historical and scientific, and that the story of the fall of man may be allegorical rather than literal.

The last edition of the "Pilgrim Series" of quarterlies in general use in the Sunday Schools of the Congregational Church announces this innovation. On the first page is printed:

"Nothing is more certain than that the chronology given in the Bible margin is absolutely worthless."

In the lesson on Noah it says:

"The monuments of ancient peoples also prove that the date assigned to the deluge by the Bible margin is many hundreds, if not thousands, of years too late.

"There is every indication in the facts known to science that men never have lived to so great an age as the literal interpretation of this record asserts."

The story of the flood is also treated as a universal tradition, and not from the viewpoint of the Bible alone.

Charles L. Hammond says that a year ago Dr. M. C. Hazard, editor of the "Pilgrim Series" of lesson books, asked in the teachers' lesson book this question:

"Who can account for the great annual decrease in the number of scholars in the Sunday Schools?"

Mr. Hammond wrote Dr. Hazard that it was because the Sunday School lesson books did not teach the truth.

### At Munro Park.

A very large crowd and a splendid show was the description of Munro Park last night. Eckert and Heck made a great hit with their violin, cello, guitar and songs, Tom Shea was cheered to the echo in his sketch and dance, Bancroft got a treble encore with his musical instruments, and Alfred D. Sturrock was also trebly encored in his excellent songs. Billy Daley made a fine hit, and the beautiful moving pictures were a fit closing to one of the best shows ever seen in the park. The crowds went away delighted.

### Cable Notice.

New York, July 22.—The Commercial Cable Company to-day issued this notice:

"Owing to heavy delay on the Siberian land lines, messages for Japan routed via Northern, are only accepted at the sender's risk. The Eastern is working with only normal delay."

Remember The Daily and Sunday World is delivered to any address in the city or suburbs before 6 a.m. Phone Main 252.

Granut

The Great Life-giving BREAKFAST FOOD.
No COOKING REQUIRED.

Ten claims for Granut which are vouched for by eminent chemists and medical authorities as being true:

1. Granut is a perfect food, capable of maintaining life for an indefinite period without the aid of any other food substance.
2. Granut freely used produces normal action of the stomach, bowels and other digestive organs.
3. Granut is sweet, because it contains Maltose, produced by the digestion of starch. It is not flavored or doctored in any way.
4. Granut contains no cane sugar, glucose or other cheap sugar made from corn by chemical process.
5. Granut is crisp, toothsome, appetizing and strengthening to a surprising degree, and will digest more quickly in the stomach than any other cereal food.
6. Granut is adapted to all classes and all ages, and will strengthen the muscles and nerves, and will enrich the blood quicker than any other cereal food known.
7. Granut is a thoroughly sterilized food, and should be used instead of oatmeal, cracked wheat and other farinaceous substances served in the form of porridge or mush.
8. Granut is the best of all breakfast foods, and is the perfected product of years of research and investigation at the expense of many thousands of dollars.
9. Granut is made by new and original processes, without the use of yeast or chemicals of any sort.
10. Granut is thoroughly cooked, and is always fresh, tasty and ready to be served at once.

Manufactured by the Battle Creek Sanitarium Health Food Co.
