NOTICE

To Property Owners in re Jarvis-street Improvements

Is will aid the Property Owners' Committee in seeing that the improvements are properly carried out if the residents and proprietors themselves will carefully read the following circular, which we requested the City Engineer to send out, viz.:

April 15, 1889.

As it is the intention shortly to pave Jarvis-street with Asphalt pavement laid on concrete, all householders, proprietors and others who require or may soon require connections made with water, gas or sewer mains, are hereby notified to have such connections made within six weeks from date, in order to save expense. After the street has been paved, no person or corporation will be permitted to break into it for any purpose, without making a deposit and payment of $2 per square foot of surface to be broken, to cover expense of relaying and damages."

(Signed) CHARLES SPROATT, City Engineer.

The Committee's Appeal.

It is now over a month since the above circular was sent out, and very few connections have been made.

It will be a considerable saving and will certainly add to the durability of our street, if the openings and connections are made at once, before grading commences; so the contractors commence work next week.
