VATICAN IMPLICATED IN DESTRUCTION OF ITALIAN WARSHIPS

Austrian Secretary to Pope Named in Plots.

40 UNDER ARREST NOW

Grave Political Aspect Given to Sensational Revelations at Rome.

Rome, via Paris, Jan. 8.—More than forty persons are now imprisoned as a result of the investigations into the destruction in September, 1915, and August, 1916, respectively of the Italian battleships Benedetto Brin and Leonardo da Vinci. The latter was blown up in Taranto Harbor and 248 men perished.

Lieut.-Gen. Count Cadorna, chief of staff, came to Rome on Thursday to attend a meeting of the cabinet, which was held for the purpose of deciding upon the disposition of the prisoners, but the question has become a political one from the introduction into the case of the name of one of the officials of the Vatican.

An Italian named Ambrogetti, who was among those charged with being implicated in the destruction of the warships, claims to be the financial agent of Monsignor Gerlach, Pope Benedict's private chamberlain.

Monsignor Gerlach is an Austrian, and according to information here, was once a cavalry officer, who became a priest and won the favor of the present pope when the latter was a cardinal. He was the bearer of the red hat from the pope to the three French cardinals who were appointed at the December consistory.

It has been learned that Monsignor Gerlach, previous to Italy's entry into the war, was interested in a pro-Austrian paper at Vittoria, of which Ambrogetti was manager.

The Italian authorities have learned details of the plot which ended in the destruction of the two battleships from the Italian author, Archita Valente, who was arrested some months ago.

Suspicions that the explosions on the ship were due to a conspiracy originated from the fact that certain naval machinists were aboard the ships at the time of their destruction and on each occasion escaped uninjured. They were followed to Valente's house in Rome and were there arrested.

SMALL SENTENCED TO DIE ON SCAFFOLD ON JAN. 15 OF NEXT YEAR

Convicted New England Murderer is Given More Than Year Before Expiating Crime.

Ossipee, N. H., Jan. 9.—Frederick B. Small today was sentenced to be hanged on January 15, 1918, for the murder of his wife, Mrs. Florence A. Small, at Mountain View on September 28 last.

Judge Kivel asked Small if he had anything to say why sentence of death should not be pronounced in accordance with the verdict of the jury, which was returned last night.

"I have, your honor," said Small. "I know no more about the crime than you do. I am an innocent person."

The clerk then read the sentence, in which Small was ordered by the judge to be confined in state prison until January 15, 1918, when he is to be hanged. The law in this state requires at least a year and a day between the passing of sentence and its execution.

PEACE TERMS STATEMENT HAS BEEN MISINTERPRETED

This Is Alibi Presented in Andrassy's Apology.

Amsterdam, Via London, Jan. 9.—The Koelnische Zeitung says that Count Julius Andrassy, the Hungarian opposition leader, has expressed regret that his statement regarding the communication of Germany's terms to President Wilson has been misinterpreted.

A recent cable dispatch reported Count Andrassy as saying that President Wilson was in a position to communicate Germany's peace terms to the Allies. Subsequent dispatches corrected this statement, making the Hungarian statesman say that the president would receive the German terms, with the inference that this step depended on similar action by the Entente powers. There has been considerable doubt as to the exact language used by Count Andrassy.

ENEMY DIPLOMATS AWAIT WILSON REPLY

Significant Statement by Berlin Paper Shows Trend.

Amsterdam, Via London, Jan. 9.—The Berlin Lokal Anzeiger, discussing the visit of Count Czernin von Chudenitz, Austrian foreign minister to Berlin, says that no final decision could be taken in regard to the general political situation as the Entente's reply to President Wilson's note was as yet unknown.

The paper adds that it has reason to believe that the questions discussed at the conference between Count Czernin and the German emperor included Polish affairs, and the possibilities of direct river communication between Middle Germany and the Black Sea, created by the opening of the Danube.

WAS WITH LIGHT BRIGADE.

ELKTON, Md., Jan. 8.—August A. Brown, who served in the famous Light Brigade of the British army at Balaklava, died here today. He was 92 years old.

Reply of Entente to Wilson Is Amended

LONDON, Jan. 8.—The reply of the Entente nations to President Wilson's note may go forward within 24 hours, but its publication is not expected until 48 hours after its receipt, on account of the plans for simultaneous publication.

The delay in the preparation of the note is taken here to mean that it has undergone considerable changes from the first draft, and the near eastern question is expected to figure more largely in the completed document than in any previous discussion of it had been considered probable.

BRITISH FOOD CONTROLLER FIXES PRICES FOR 1917

LONDON, Jan. 8.—Baron Devonport, the food controller, has fixed the following prices which home-growers may charge for their 1917 crops:

Wheat, 60s per 504 pounds; oats, 38s 6d per 336 pounds, and potatoes a varying price of 115s to 130s per ton.

The minister of munitions, under the defence of the realm act, has forbidden any manufacture or assembling of internal combustion engines, except under Government permit.

POPE HAS NO ANSWER FOR PRESIDENT WILSON

ROME, via Paris, Jan. 8.—The Vatican denies a statement which has appeared in the press that the pope is about to answer President Wilson's note in approximately the same terms as Spain. It is pointed out that as there are no diplomatic relations between the United States and the Holy See, the pope has no official communication of President Wilson's note, and thus could not answer in any form, although it is said that he strongly sympathizes with the intents and aims of the president.

CHICAGO'S POLICE CHIEF ARRESTED IN A VICE RING RAID

Is Charged by State's Attorney With Graft.

MANY OFFICERS ACCUSED

Majority of the Captains and Lieutenants Alleged To Be Involved.

Chicago, Ill., Jan. 9.—Further arrests were promised today by States Attorney Hoyne in his investigation into an alleged police ring, whose vice manipulations, he charged, have netted thousands of dollars annually. Mr. Hoyne charged that "a great majority of police captains and lieutenants of Chicago" are involved in a scandal which resulted in the arrest late last night of Charles C. Healey, chief of police; Martin White, a police lieutenant, and three others on warrants charging extortion, conspiracy and bribery.

Following Healey's arrest and subsequent release on bonds of $100,000, Mr. Hoyne and several of his assistants worked until almost daylight interrogating police witnesses and examining documents said to contain evidence.

In the early hours of the morning several persons were taken into custody in connection with the investigation, among them four women, said to be keepers of resorts. Warrants were issued also for the arrest of three police officers—Lieut. Edward Grady, Lieut. J. Hartford and Sergt. J. Naughton, the latter being confidential secretary to Chief Healey.

Evidence in "Green Book."

Mr. Hoyne declined to make public any of the alleged evidence he had seized, but asserted that he attached much significance to a green-covered book said to have been found in the possession of Lieut. White. This book contained a carefully-kept index of several hundred vice resorts, gambling houses and saloons in the Lake street police precinct. Opposite some of the names were figures and opposite others notations. Among these notations were "can be raided," "chief's," "three ways."

"The 'Green Book' will play an important part in our investigation," Mr. Hoyne said. "We had known of its existence in some form or other for some time, but did not expect to get it. To me 'three ways' means the division made of moneys."

Chief Had Resigned.

Chief Healey, whose resignation was presented to the mayor last month, effective January 1, the date being extended until January 11, that he might be in office over New Year's Eve, when violations of the saloon-closing law were expected, said today he had placed the entire matter in the hands of his attorney.

THREE WEEKS BEFORE B. C. KNOWS PROHIBITION FATE

Overseas Ballots Will Decide Situation That Is Still Unsettled.

Vancouver, Jan. 8.—The question of whether prohibition for British Columbia has passed is unsettled today, and probably will not be known for certain for three weeks, when the overseas ballots will be counted in London.

On September 14, when the general election occurred, prohibition was carried by the civilian vote and a part of the soldiers' vote by a majority of six thousand. Since then the soldiers in England and France have been voting. Officials of the "wet" organization in British Columbia went to England, and enlisted an elaborate organization, and have now cabled home to Vancouver that the total vote polled since September 14, is 8,500. Before the date mentioned the soldiers were voting at the ratio of five to two against prohibition. The wets claims that the late vote has been at the ratio of five to one. If that is true prohibition is defeated, but the actual counting of the balloting will not occur until February, in the office of the agent-general for British Columbia in London.

U. S. CENTRE OF PLOTS FOR INDIAN REVOLUTION

Court Investigating Conspiracy Cases, Declares German Agents Busy There.

LONDON, Jan. 8.—Seventeen of the accused persons in the supplementary trial held in connection with the Lahore conspiracy case were sentenced last week, says a Central News dispatch from Calcutta today. Six received death sentences, one was sentenced to deportation for life, and the others were given terms of imprisonment.

In delivering the judgment, the court, says the dispatch, indicated that Manila was still an active centre of revolutionary activity, but that the United States remained the chief centre of the movement, it being fostered, it was said, by German consular agents.

"We are fully satisfied that the United States has become the chief centre of the movement," declares the court's opinion as quoted in the dispatch. "The overthrow of the British Empire in India was planned and discussed when the European war broke out, and many Indians sailed from the United States. The enemy's plan was to bring about a war of murder and rapine."

How Zam-Buk Saved me a lot of money

For the benefit of others who may be similarly situated, Mr. R. Howard, Sr. of Bracebridge, Ont., requests that we publish the following narrative. He says: "If people only knew the great healing power of Zam-Buk, they could be saved much unnecessary suffering and expense." He continues:

"Four years ago I sustained a scratch on my leg, which turned to an ulcer. I was confined to my bed for six months under doctors' treatment, during which time I did not earn a cent, and, in addition, spent dollars upon dollars before a cure was effected.

Recently I sustained a scratch on my other leg. It became very inflamed and swollen, and finally turned to an ulcer. This time, I knew about Zam-Buk, and I acted very differently from what I did in the previous instance. I used Zam-Buk alone, with the result that not only was the ulcer healed in much shorter time than the previous one, but I was able to go to work all the time it was healing, and I did not lose a single day's pay. Zam-Buk is certainly a wonderful ointment, and should be in every home."

1. This offering is before thousands of investors throughout Eastern Canada and the United States today.

2. Many thousands of investors are today looking for just such a proposition.

3. It is, therefore, reasonable to expect that this offering will be over-subscribed.

4. The Murray-Mogridge is already widely known as a high-class property, with every indication that it will develop into one of the biggest mines of Northern Ontario.

THE MURRAY-MOGRIDGE property is located in the Township of Maisonville, in the Kirkland Lake area, recognized as the most consistently mineralized township of the North Country.

The property is composed of ten forty-acre claims, and sufficient development has been done in the past three years to demonstrate and establish the fact that the Murray-Mogridge property is one of exceptional merit, on which is reputed to be the longest known unbroken gold-bearing vein in Northern Ontario. Careful channel samplings by competent engineers show it to contain milling ore of a high average. The property as developed to date indicates that it is destined to rank with Ontario's greatest gold mines, and in the opinion of many, at its present stage of development, it offers as good assurances of becoming a big mine as did the Hollinger when first offered to the public at $3.50 a share. According to the engineer's report: **"Development to date consists of the sinking of two fifty-foot shafts on the main vein at a distance of 2,000 feet apart. From the South shaft 65 feet of drift has been opened all through ore, channel sampling of which gives an average of $10.05 per ton. Approximately 65 feet of drifting done. Width of vein from 3 feet 6 inches to 30 feet."**

5. The wide demand that seems bound to result should put the stock considerably higher.

6. The associates and management are of the best.

7. Some properties, through what is usually termed a miracle, sometimes become a mine. Prominent mining men who have visited the Murray-Mogridge express the opinion that it will be a miracle if Murray-Mogridge does not develop into one of the biggest gold mines in the country.

6. Application will be made to list the stock on the Standard Stock and Mining Exchange, Toronto.
