## LENINE HINTS THAT REDS' NEXT MOVE MAY BE AGAINST INDIA

London, Nov. 13.—Nicolai Lenine, the Russian Bolshevik premier, has sent a letter to Turkestan Communists, in which he says that the restoration of communication between Bolshevist Russia and Turkestan "opens the way for a struggle against universal imperialism, headed by Great Britain."

The message is interpreted here as a hint at operations in the direction of British India.

## ALLIES TO SEND EMPHATIC NOTE TO RUMANIA

### Evasive and Unsatisfactory Reply From Bucharest Displeases All.

### MUST LEAVE HUNGARY

### Sir George Clerk Reports the Hungarian Political Situation Much Improved.

Paris, Nov. 13.—The supreme council today discussed the note to be sent to Rumania in response to Rumania's recent note. The allied reply, it is forecasted, will be very firm in tone, the Rumanian note being regarded as evasive and unsatisfactory—notably so as concerned the demand for evacuation of Hungary by the Rumanians. The allied note was not completed today, but it will be put into shape very shortly, and forwarded to Bucharest within two days.

The report received from Sir George Clerk, the allied commissioner to Budapest, was considered as showing that political conditions in Hungary were much improved, and that there were indications of a coalition government being organized shortly in Budapest with which the conference would deal.

Another subject taken up by the council was the elections recently held in Silesia. A note to Germany was framed, advising it to disregard these elections. A note also was sent to Germany warning the Berlin Government that the sale of German aviation materials constitutes a violation of the armistice, and will not be tolerated.

The municipal elections in Upper Silesia, it has been shown by other dispatches, went heavily in favor of the Poles, giving rise to expressions of hope in Polish quarters that the Allies would regard them as showing the sentiment of the district, and as obviating the necessity for a plebiscite to determine whether the region should go to Poland or remain German.

## SEVERAL INJURED IN BUFFALO HOTEL FIRE

### Majority of Guests Escape With Aid of Firemen.

Buffalo, N.Y., Nov. 13.—One guest was seriously burned and eight others were slightly injured or overcome by smoke in a fire at the Vanderbilt Hotel, at Exchange and Washington streets, early today. William Pauling of Watertown may die. Among those less seriously injured was Albert Marcotte of Quebec.

About forty guests were in the hotel when the fire started on the second floor and started up the wooden stairways to the roof. Most of them escaped unaided by way of fire escapes. Firemen carried Pauling and others from third floor rooms.

Bordeaux, Nov. 13.—An attempt was made early this morning to assassinate Georges Mandel, Premier Clemenceau's chief confidential secretary, who is a candidate on the Nationalist ticket for the department of Gironde.

At 2 o'clock this morning, as M. Mandel was entering his automobile at the conclusion of a public meeting his car was surrounded, and he and his friends were assaulted with canes and sticks. A revolver shot was fired at M. Mandel, shattering the door of the automobile. Mandel escaped unhurt. His chauffeur started the car at full speed to escape the crowd.

They refused to recognize the court, and each was sentenced to two months imprisonment.

Among those arrested in the raid were John O'Mahoney, John Hayes and Frank Lawless.

## ONLY THREE DAYS MORE

Saturday, November 15, is the closing day of the Victory Loan campaign. There are still many Canadians who have neglected to become possessors of Victory Bonds.

They are grateful for Victory, which crowned the valiant efforts of Canadian arms. They have shared in the good times which have been the good fortune of Canadians in the period following the war. They wish prosperity to continue; but they have omitted to do their part in insuring that there will be jobs and prosperity for all in days to come.

They should not let another day pass—or another hour—without discharging their debt to the soldiers who died that they might live; to the warriors who are being restored to civil life.

Let the slogan of the last days of the campaign be: "Clean up the war job once for all."

The most you can scrape together is the least you can afford to subscribe to the Victory Loan.

### AMERICAN COMPANY SUBSCRIBES MILLION TO VICTORY LOAN

Toronto, Nov. 13.—Proctor, Gamble & Co. of Cincinnati have subscribed $1,000,000 to the Canadian Victory Loan, it was announced through the special subscriptions committee this morning. The subscription goes to the credit of the Hamilton loan organization. Only four divisions in Ontario are now below their objective in special subscriptions. They are Ottawa with 95 per cent. Niagara 90 per cent; St. Lawrence 83 per cent; Georgian Bay 74 per cent.

Thames-Grand division has almost doubled its objective in special subscriptions, having 186 per cent. London leads the big cities. Toronto is next with 130 per cent of its objective, which is the same as the average for all Ontario.

An odd situation exists in Georgian Bay division. It is behind the entire province in the collection of special subscriptions, but in its percentage of team canvassers objective it leads Ontario. It is the only division in the province that is behind its time objective in the matter of special subscriptions.

According to returns up to Wednesday night, Ottawa is the only one of the sixteen divisions of the province that is behind its time objective, in combined team subscriptions and special subscriptions. London is leading with a percentage of 125.45. Four of the sixteen divisions are behind their time objective in the team members' competition.

Monday, November 17, at 5 p.m. is the hour at which all competition ceases. All honors will be based on the regults which are in Ontario headquarters at that time

The Pan-German organ of Upper Silesia, Katowitzer Zeitung, comments: "Upper Silesia is lost to us."

Polish organs express the hope that the Entente will consider the municipal elections, which were organized by the Germans, as final, and that a plebiscite is now unnecessary. Polish opinion expressing itself in spite of what the newspapers term "unsatisfactory voting conditions."

## BELGIUM AND HOLLAND MAY SEVER DIPLOMATIC RELATIONS

Paris, Nov. 13.—Alarmist reports of high tension and possible rupture of diplomatic relations between Belgium and Holland, which have been current for the past few days in Brussels and in diplomatic and peace conference circles here, have their source in the interior politics of Belgium, and are fostered by the political party favoring an energetic policy toward Holland, according to a member of the Belgian peace delegation at Paris.

Recurrence of these reports, which have sprung up from time to time, the Belgian says, has been caused by the flag-burning incident at Breskens, where Dutch sailors hauled down the Belgian flag, trampled and burned it, and also by the sinking of the Belgian yacht Java in Brouwershaven harbor by a few drunken rowdies.

## STOCKS DEPRESSION HAS RUN ITS COURSE, MARKET IS STRONGER

### General Motors Made Decided Gain at Today's Session.

New York, Nov. 13.—Stocks were strong at the opening of today's session, indicating that liquidation had run its course, for a time, at least. It was generally recognized, however, that the market's future was wholly dependent upon money rates.

General Motors, the central feature of the recent depression, made an initial gain of 15 points and Texas Company and Mexican Petroleum, other conspicuous features of the recent decline, rose six and nine points respectively.

In other divisions of the stock list, rallies of one to four points were made. Trading was on a moderate scale with signs of substantial support, especially in the high-grade shares.

New York, Nov 13.—The market failed to hold its early gain, trading during the forenoon being attended by alternate reactions and moderate rallies. Heaviness overtook the list again before noon, mainly as a result of the higher initial rates quoted for call money. Renewals were fixed at 15 per cent but 16 per cent was exacted for new loans.

During the mid-session new low prices for the current movement were made by industrials and specialties. General Motors fell back to yesterday's closing price, and Crucible and Republic Steels developed fresh weakness with other steels and equipments.

American Tobacco was the weakest of the high priced specialties, losing 11 points after its 5-point rally of the morning, and showing a loss of 60 points thus far this week.

In view of the higher rates for call money, traders were mystified by the statement that money was in fair supply and light demand.

## BELIEVE CREW MAY HAVE BEEN RESCUED BY SAILING VESSEL

### Hope Entertained That Men From the Polar Land Are Still Alive.

New York, Nov. 13.—Search by four destroyers and a coastguard cutter with a broadcast wireless alarm repeated daily, are among the means being used by marine authorities of Canada and the United States to locate or learn the fate of the officers and crew of the steamer Polar Land, abandoned November 9, 70 miles off Cape Breton.

Officials here of the West India Steamship Company, operators of the Polar Land, said today they had not abandoned hope that the men had been picked up by some sailing vessel or other craft not equipped with wireless. This view is strengthened, they said, by the fact that several ships have searched the vicinity where the ship was abandoned. None of the searching craft have found wreckage or abandoned lifeboats.

The number of boats launched is not known, but it is believed that at least two were used. If the men have been picked up by some sailing craft it is assumed that the lifeboats would be taken up with them.

## PRINCE WILL VISIT PRESIDENT WILSON THIS AFTERNOON

### Royal Visitor Will Be Received At White House Today.

Washington, Nov. 13.—The Prince of Wales, as one of the last acts of his official visit to Washington, will see President Wilson late today. He expects to call at the White House for an informal visit with the president and Mrs. Wilson at 5:30 p.m. Mr. Wilson probably will entertain his royal guest while seated in an invalid's chair, his condition having improved since the visit of the King and Queen of Belgium, when he was forced to receive them reclined in bed. During his visit at the White House he will take tea with Mrs. Wilson. A trip to Washington's tomb at Mount Vernon by motor at 2:30 o'clock this afternoon, was another event on the day's program. Vice-President Marshall and Secretary of State Lansing are among those in the party to accompany him.

The only formal function arranged was the conferring of decorations on 80 officers and enlisted men of the American army and navy and seven nurses at the Belmont home, the prince's residence here, at 11:30 o'clock this morning.

He went on to say that he had been much impressed with the evident desire of Mr. Drury to promote efficiency and economy in the new government, and to advance the interests of the people. He said he had nothing but sympathy and good wishes for the new premier.

## Burning Old Boots To Prevent Families Dying From Cold

### Fuel Situation in Saskatchewan Has Reached Critical Stage.

Saskatoon, Sask., Nov. 13.—So acute has the fuel problem become in many sections of Saskatchewan that farmers are burning scrap lumber, fence-posts, and even old boots to save their families from freezing.

Admiral Sir William Kingsmill is accompanying Viscount Jellicoe on his tour of Canada, and Commander Stevens of the Canadian naval staff, is attached to his staff during the visit. While in Ottawa it is expected that Viscount Jellicoe will address the Canadian Club, but the details have not yet been arranged.

### NATIONALIST MEMBER IS SUSPENDED FROM BRITISH PARLIAMENT

London, Nov. 13.—In the House of Commons today, Jeremiah McVeagh, nationalist member for Southdown, Ireland, was suspended because he told James Ian McPherson, chief secretary for Ireland, not to be "impertinent" when the secretary replied to a question with a remark which Mr. McVeagh considered as insinuating that he was a Sinn Fein sympathizer.

The member refused to withdraw the expression, declaring that before many months had passed the entire House would have the same opinion that he had regarding Mr. McPherson.

## LLOYD GEORGE DECLARES THAT NO EFFORTS HAVE BEEN MADE TO SECURE PEACE WITH REDS

### British Premier Announces That It Is Proposed, Though, To Call International Conference Soon At Which This Question Will Be Considered.

London, Nov. 13.—Premier Lloyd George declared in the House of Commons today that no person at any time, on his behalf or with his consent, had interviewed Bolshevik representatives in order to learn whether negotiations for peace might be opened, and upon what terms.

The premier announced that it was proposed to call, at an early date, an international conference, at which the ministers of the Allied and associated powers might consider the various problems which the peace conference had as yet found itself unable to settle, among which was the problem of Russia.

Referring to the so-called peace advance by the Bolsheviki, Mr. Lloyd George said the Allies had always declined to take action on communications purporting to come from hostile countries through responsible agencies, and he thought it inadvisable to depart from this practice.

The premier admitted that the Bolsheviki were rapidly approaching Omsk. Admiral Kolchak was still there, however, and the fate of the place would only be decided as the result of battles that might be fought shortly in front of the city.

The premier announced that John H. MacKinder, member of the House of Commons for the Calmachie division of Glasgow, had gone as a special commissioner to open trade and commerce with Southern Russia.

**Settlement Essential.**

The settlement of the Russian problem, said the premier, was most essential to the reconstruction of the world. The conditions in that country, he declared, were contributing cause to the prevailing high prices. Likewise, he said, the German reactionaries were already using the present strife in Russia to strengthen their influence.

Mr. Lloyd George detailed the difficulties of the position of Gen. Denekine, anti-Bolshevik leader on the southwestern front, declaring that Gen. Denekine was holding, with a small army, a front of 1,300 miles, with marauding bands in his rear—a territory of such vastness that Denekine was unable to administer it properly.

The premier offered to give the House an opportunity on Monday next to discuss the Russian situation, but he pointed out the dangers of a public debate on such a delicate subject. Meanwhile he assured the members that the Government would not inaugurate any policy or burden the country with any fresh commitments.

## NO COMPROMISE WITH REDS' GOVERNMENT TO BE MADE BY U. S.

Washington, Nov. 13.—There is to be no compromise with the Bolshevik Government in Russia by the United States, and no movement is contemplated which could be considered as offering to confer with the Bolshevik elements in that country, it was learned today at the state department. Officials said there had been no exchange of notes between the Omsk Government and the British nor any other government concerning suggestions that a conference with the Bolsheviki be undertaken.

This country's attitude is the same now, it was said, as it was last year, when Secretary of State Lansing appealed to the civilized nations of the world to declare the Bolshevik outlaws. Emphasizing that there could be no compromise with the Bolsheviki, officials said social outbreaks in the British States were largely due to Bolsheviki influences.

## FRANCE SUFFERING BECAUSE U. S. HAS NOT RATIFIED PACT

### Paris Editor Points Out the Necessity of Immediate Action.

Paris, Nov. 13.—France is described as the chief sufferer from the failure of the United States so far to ratify the German peace treaty, in an editorial by Alfred Capus, editor-in-chief of the Figaro, published last night in the combined journal of the Paris newspapers, La Presse de Paris. The editorial asserts that France is directly interested in having the treaty ratified and put into effect immediately after the election, so that France may be enabled to buy raw materials at better prices than at present. It says that the Americans seem to take no account of this, and to view the treaty as a thing to be dealt with purely on terms of American policy, "without concerning themselves with the serious manner in which delays over the treaty jeopardize our interests."

## 300 SMALLPOX CASES THROUGHOUT QUEBEC

### Disease Is Reported To Be of Non-Virulent Character.

Montreal, Nov. 13.—Three hundred cases of smallpox are scattered over the Province of Quebec all of a non-virulent character, a number not above the ordinary, said Dr. J. A. Beaudry of the superior board of health yesterday, when questioned regarding precautions being taken against the spread of the disease from Ontario.

There are only five cases in the city infectious hospital at the present time.

Dr. Beaudry laid stress upon the enforcement of the provincial bylaw as to vaccination. The bylaw, he said, has for the most part been well observed, but there are still some schools in which it has to be carried out.

That it would be completely carried out, he had no doubt, for two reasons—first, that the board is decided that it shall be carried out and second, but equally important, the majority which has obeyed the bylaw is determined that the minority which has neglected it shall be brought to book.

## ABSCESSED TOOTH IS CAUSE OF VISCOUNT GREY'S BLINDNESS

### American Specialist Expects To Fully Restore Ambassador's Eyesight.

Halifax, Nov. 13.—The Canadian Press learns on the most reliable authority (a passenger on one of the great liners coaling here) that the cause of the blindness of which Viscount Grey, British ambassador to Washington, is afflicted, has been diagnosed by an eminent American specialist, Dr. Wilmer, of Washington. The origin of the affliction is said to have been found in an abscessed tooth which has impaired the optic nerves. Viscount Grey, it will be recalled, was obliged to withdraw from political life on account of this affliction, and it was only for reason of the vital principle bound up in the appointment, that he accepted temporarily the position of ambassador. The hope is now entertained that the discovery of the cause of blindness does not come too late and it is even believed that sight may be fully restored.
