McDONALD & WILDRIDGOT,
Guelph, March 5, 1873. dtf

MARRIEN
Blacksmith Shop and Wagon Factory

J. CLEMENTS, Practical Carriage and
Wagon Maker, begs to return thanks to
the public generally for their kind support
the last three years, and to inform them
that he has now on hand a large stock of
Wagons, Harrows, of different patterns,
Sawyers, Horse rakes, field rollers, and all
other kinds of Agricultural implements,
which he offers cheap.

He would call special attention to his
slewing department, which is conducted by
a first-class shoer, who has had large experi-
ence in Canada and the United States. All
work done at the old charges; no rise in
prices.

In the repairing department he is prepared
to give perfect satisfaction, as nothing but
the best material is used, and the best me-
chanics employed.

JOHN CLEMENTS,
Feb. 25, 1873. w4

For Hamilton; 4:55 p.m.
Going North—11:45 a.m. for Clifton; mixed
1:15 p.m. for Clifton; 4:55 p.m. for Fergus;
5:15 p.m. for Fergus.

Guelph Evening Mercury

FRIDAY EVENING, MARCH 7, 1873

Town and County News.

Be not the first to break with a friend.
Sorrow gnaws the heart of him who hath
no one to advise with but himself.

SOCIAL.—A social was held in the Pri-
mative Methodist Church here, on Thurs-
day evening, which was well attended.
The entertainment consisted of singing,
recitations and dialogues. A pleasant
evening was spent.

HEAVY ON VESTS.—Mr. G. B. Fraser is
great on vests. Yesterday he sent by
mail several of these useful articles of
wear, specially ordered, to Mr. D. Macdonald,
late of Puslinch, to British
Columbia. Mr. Macdonald gets a much
better and cheaper article from Guelph,
after paying all expenses, than he can
get in British Columbia.

LAW SOCIETY.—We are glad to learn
that Mr. Andrew Lemon, Barrister, of
this town, has been elected a Benchor of
the Law Society in Toronto. This well
deserved honor has been conferred on the
oldest practitioner in Guelph, who is
justly entitled to it, not only on account
of the prominent position he occupies at
the local bar, but from his sterling in-
tegrity and high moral character.

THE WEATHER.—The snow is disap-
pearing to-day like mist before the sun.
Underground operations are lively. We
dig good eyes to the white marble with
the greatest pleasure imaginable, and
hope it may be long ere we see its like
again. Our streets and back yards pre-
sent an appearance the reverse of clean,
and call loudly for the interference of our
newly appointed Board of Health. Wake
up, gentlemen, and show your fitness for
office.

KEEP YOUR CHIMNEYS CLEAN.—In view
of the fact that several large fires have
recently taken place in Wellington, and
adjoining counties, some of which could
be traceable to dirty chimneys, it would
be well for our townspeople to avoid
similar calamities by securing the services
of a sweep without delay, particularly at
this season of the year when high winds
prevail.

"GIRLS," said a worthy old lady to her
granddaughters, "whenever a fellow
pops the question, don't blush and stare
at your foot. Just throw your arm
around his neck, look him full in the
face, and commence talking about the
furniture. Young fellows are mighty
nervous sometimes. I lost several good
chances before I caught your foot dear
grandfather, by putting on airs, but I
learned how to do it after a while."

HOP-GROWER'S MEETING.—A meeting
of hop-growers was held at the
Wellington Hotel, Guelph, on Saturday,
the 1st of March inst., for the purpose
of discussing the different methods of
hop culture, and other matters relative to
the hop business. George Moore, Esq.,
Waterloo, was appointed President,
pro tem, and James Matthews, of Aton,
Sec. and Treas., pro tem. The next
meeting will be held at Burnett's Hotel,
Georgetown, on Thursday, March 27th
inst., at one o'clock sharp. It is the in-
tention to form a Hop-grower's Associa-
tion of all the Dominion. We hope hop-
growers will see the importance of this
movement, and attend the meetings.
—James Matthews, Sec. and Treas.

PERSONAL.—We notice by the adver-
sment in another column that a change
has taken place in the firm of Messrs.
Nelles, Romain & Co., Commission Mer-
chants and Shippers, Chicago, by the re-
tirement of Mr. Nelles, and that the
senior partner in the new firm is our old
townsman Mr. J. H. Romain. We are
glad to learn that the old firm have met
with a large measure of success in their
widely extended and constantly increas-
ing business, and we trust that the new
firm will continue in the same prosperous
career, and steadily extend the range of
their operations. Their Canadian busi-
ness has now assumed large proportions,
which is largely due to the energy and
business tact of Mr. J. H. Romain, and
to the confidence reposed in him and his
house by our millers and other shippers.

YOUNG MEN, LOOK MOST TO YOUR
SENDING.—No matter what comes in,
if more goes out you will always be poor.
The art is not in making money, but
in keeping it; little expenses, like nice
in a barn, when they are many make
great waste. Hair by hair goes bald;
straw by straw the thatch goes off the
outage; and drop by drop the rain
comes into the chamber. A barrel is
soon empty if the tap leaks but a drop
a minute. When you mean to save begin
with your mouth; there are many
thieves down the red line. The ale jug
is a great waste. In all things keep
within your compass. Never stretch
your legs farther than the blanket will
reach, or you will soon be cold. In
clothes choose suitable and lasting stuff,
and not tawdry fineries. To be warm is
the main thing; never mind the looks.
A fool may make money, but it needs a
wise man to spend it. Remember, it is
easier to build two chimneys than to
keep one going. If you give all to back
and board, there is nothing left to the
savings' bank. Fare hard and work
hard while you are young, and you have
a chance to rest when you are old.

Local and Other Items.

AN OLD SHIP.—There is an old ship
sailing from Holland which was built in
1658. She passed the Cape of Good
Hope in October, 1864, being at that
time 224 years old.

A BILL for the suppression of the trade
in and circulation of obscene literature is
now before the American Congress and
will, it is expected, become law.

ROBERT.—An unfortunate boarder, in
St. Catharines, was robbed of \$500 on
Wednesday night. The News says a
suspected party is under arrest.

OUT OF DEBT.—We are pleased to hear
that the congregation of Knox Church
Harrison, by a united voluntary subscrip-
tion has swept off a debt of several
hundred dollars on Manse and Glebe.
The next effort will no doubt be for a
new brick church.

TIMBER CASE.—Mr. A. Wilkinson, of
Minto, charged Mr. D. Brady, of the same
place, with taking trees off his premises
for the purpose of making square timber.
The case came before R. Caldwell, Esq.,
Defendant was fined \$25 damages, and
\$20 fine with costs, amounting in all to
\$52.

CAN FISH HEAR?—The question which
is at present exciting the Oswego news-
paper men is whether fish can hear. An
authority on the subject writes:—"Fish
cannot hear for the very simple reason
that they have no ears. It is not necessary
that a fish should hear. They feel a
jar very distinctly, and have a very
keen eye."

RAISING THE DEAD.—The medical
world on the other side of the Atlantic is
somewhat excited over the success of a
remarkable operation performed by Dr.
Joux, a Belgian gynecologist, on an ap-
parently drowned man. The victim had
been dead seemingly for three hours, but
the doctor resuscitated him by placing
three iron plates heated to a white heat
over the vital parts in the upper part of
the body.

DESTRUCTIVE RUNAWAY.—A double
team owned by Mr. Hastings, of Cross-
hill, becoming frightened at a passing
train, on Wednesday, in Galt, ran off and
did a terrible amount of damage. The
Reporter sums up the loss as follows:—
Verandahs, 81 feet at \$1.25 per foot,
\$102.25; losses on windows, \$20, and the
killed horse, which was valued at \$200.
Mr. Hastings having been offered \$400
for the team a few days ago. Total,
\$370.25.

BONDED CAR ROBERT.—The London
Advertiser says that a bonded car lying
on one of the sidings of the Great West-
ern, was broken into on Sunday night
and robbed of a quantity of dry goods.
Several robberies of this sort have taken
place within the past year, and the par-
ties connected with one of them are now
lodged in the Michigan State Prison, but
the perpetrators of the latest robbery are
unknown.

"HAND ORGANS, BANISHED."—Balti-
more is to be no longer bored with street
music. The discoursing of sweet music
by peripatetic professors thereof is no
longer to be endured in the public
thoroughfares. The "airs from heaven"
of the German bands are stigmatized by
the Baltimore folks as being more like
"blasts from"—the other place, and
therefore they are banished. The hand-
organ player will be prosecuted, and the
"sweet warbling of the dulcet lute"
must be heard no more.

DEATH OF A VETERAN.—The Listwell
Banner says that Mr. Samuel Leslie, of
Wallace, who moved to that township
about fourteen years ago, from the town-
ship of Albion, died on Saturday last
at the ripe old age of 98 years. The de-
ceased was at the battle of Waterloo, and
was one of those who gallantly fought
for the honor of the good old flag of
England, and in his Canadian home was
much respected. Up to a few weeks
ago he was active to an extraordinary
degree for a man of his age. Old
Waterloo veterans are becoming scarce.
The deceased leaves a large and respected
family to miss his counsel and mourn his
loss.

DO HORSES VOMIT.—A correspondent
of the Mail, Mr. James King Cameron, of
Cobourg, who was present when a bet
was taken up that a horse was so consti-
tuted he could not vomit, says that some-
time afterward Mr. Hamilton brought over
to Toronto from Queenston by the steamer
Canada, a pair of carriage horses which
he had sold to some resident there. The
passage across was a very rough one, so
much so, that one of the horses vomited.
The party who lost the bet paid it. The
same correspondent is prepared to prove,
if necessary, that tobacco water, which is
much given for colic, will cause a horse
to vomit. What say our veterinary col-
leges now to the explosion of the old
theory? Don't all speak at once.

SURVIVED THE CALAMITY.—A former
subscriber, who discontinuing his Times,
because he could not make it say such
things as he thought ought to say, has,
we learn, recently expressed considerable
surprise to his friends that the paper
should keep running—since he has with-
drawn his patronage. It was pretty close
work for a while, we confess; but by
submitting to put sugar in our tea, and by
buying a cheap grade of paper collars and
reversing them for the second and third
times, we managed to rub along until a
new subscriber came and took the place
of our respected but disgruntled friend—
and then Richard was himself again.
Nothing but rigid economy will carry one
safely over such a calamity as the loss of
a subscriber.—Hamilton Times.

THE REGULAR MONTHLY CATTLE FAIR
was held in Hamilton on Thursday, and was
a decided success. The demand, however,
was greater than the supply. A large
number of cows with calves were sold at
prices ranging from \$23 to \$45, and many
more might have been disposed of at re-
munerative prices.

THIS MORNING'S DESPATCHES

**Joint Note to Spain from
European Powers.**

The Trouble in New Orleans.

Another Fire in Boston.

The Madoc War.

Peace Commission a Failure.

The Fighting to go on.

**The Carlists Recognized by
France.**

Madrid, March 6.—Senor Olozoga, the
Spanish Minister of France, has notified
Senor Castelar, Minister of Foreign
Affairs, by telegraph, that the represent-
atives, who have decided to send a collec-
tive note to the Government of Spain,
declining their belief that their respec-
tive Governments will cease to hold diplo-
matic relations with it in the event of the
proclamation of a general Republic.

The debate upon the bill for the abo-
lition of slavery in Porto Rico was re-
sumed yesterday in the Assembly.

London, March 6.—A Madrid despatch
states that there is intense excitement
there, and a conflict is expected between
the Government and the citizens. The
latter crowd the streets, the Government
buildings are guarded, and the troops are
stationed at various points. It is stated
if the Cortes refuses to dissolve the en-
tire Cabinet that President Figueras will
resign.

President Thiers has recognized the
belligerent rights of the Carlists in Spain.
The impression grows in London that
Don Carlos will succeed. It is rumored
that the Carlist leaders intend to raise a
loan.

Advices from Gibraltar state that 200
carabineers attached to the Spanish pris-
on at San Roque, a city of Andalusia, 7
miles northwest of Gibraltar, attempted
to create a rising in favor of Don Carlos,
but the insurrectionary demonstration
was suppressed, and the offenders im-
prisoned.

London, March 6, 4 p.m.—It is rumo-
red that the Marquis of Lorne and the
Princess Louise have separated because
of an incompatibility of temper, that the
Princess is in a religious retreat near
Windsor, and the Marquis has gone
abroad. No authority is given for the
report, and it remains to be confirmed.

New Orleans, March 6.—The members
of the Fuscon Legislature, who were ar-
rested this afternoon by the police, were
released soon afterwards. The Fuscon
Legislature met this afternoon and pas-
sed resolutions protesting against the in-
terference of the military army of the
United States Government in capturing
State troops, and in again supporting the
city police in the seizure of the State
House at the close of its session, and in
debarring therefrom members of the
General Assembly, and in violently seiz-
ing and imprisoning members of their
body. At this hour the city is very
quiet.

Boston, March 6.—A fire occurred in
Woburn Centre this evening, destroying
six or seven dwelling houses and stores,
together with one church completely and
another partially. Entire damage \$75-
000 to \$100,000.

San Francisco, March 6.—The follow-
ing telegram has been sent to the Secre-
tary of the Interior, from Fairchild's,
dated 4th:—The Madocs emphatically
reject all offers and propositions. They
propose to meet in full force Meacham
and Applegate, with six unarmed men,
in the lava bed. This undoubtedly means
treachery. We are still willing to meet
them in conference, but not upon their
terms. They have an accession of 24
warriors, not Madocs. We will send a
message of protection to all who come
out. The Commission is a failure.
Signed, A. B. Meacham.

The terms offered by the Commission
were that the Madocs should go on
Klamoth Reservation, where they have
been before. Rather than do this the
Indians determined to fight. The com-
manding officers are now determined to
accept no terms but unconditional sur-
render. It is now believed that nothing
but fighting will satisfy.

HOW TO DO BUSINESS.—A and B both
go to the city at the same time and buy
a similar stock of goods. On returning,
A changes the advertisement, which
reads:—"Will be received in a few days,
a new assortment," etc., to "Received,
a new and fresh assortment, just from
New York," etc., which is offered for
sale at lowest cash rates." The adver-
tisement comes out the next day, and in
a town of 5,000 inhabitants, 2,000 will
know of A's stock of fresh goods before
they hear of B's arrival. In fact, B not
being an advertiser, they will be likely to
doubt if he really has a fresh stock at
all. The consequence is apt to be that A
is off to the city for another stock before
B has half unloaded, and the public be-
lieving already supplied he may have to
carry over a part of it. These are very
different ways of doing business, but any
one who understands advertising would
be apt to say that the results work in
about that way.

AGRICULTURAL MEETING.—A meeting
of the Directors of the Centre Wellington
Agricultural Society was held in the
Dalby House on Tuesday last. Mr.
Monger in the chair. All the directors
present. It was resolved to hold the fall
Exhibition on Thursday and Friday in
the week immediately preceding the
Guelph Central Exhibition, and to give
\$700 in prizes. A committee was form-
ed to prepare the prize list and to draw
up the rules for the show. It was resolved
to hold a Baby Show in connection with
the exhibition.

The Royal Institute of Great Britain
congratulated Professor Tyndall upon
the success of his visit to the United
States.

Massie's Biscuit and Confectionery

Establishment.

There is nothing gives us more un-
alloyed pleasure than to notice, from time
to time, the progress of the manufactur-
ing interest of the good town of Guelph.

With this idea uppermost in our mind,
we visited the steam biscuit and con-
fectionery establishment of Mr. James
Massie, on the afternoon of Thursday,
and were conducted through each de-
partment by Mr. Meredith, the gentle-
manly and obliging overseer.

THE BAKE HOUSE.
The bake house is in the lower story,
and is a hive of industry. Here we found
a powerful and admirably finished engine
from the works of Messrs. Robertson &
Sons, Guelph, with which the machinery
of the establishment is driven. A large
machine for mixing dough, two
smaller ones for rolling it out, and
another for cutting the biscuits and carry-
ing them to the oven are here in constant
operation. Eight hands are employed in
this department. The old-fashioned
ovens are in use, but the proprietor in-
forms us that he contemplates, at no dis-
tant day, erecting a mammoth rotary
oven, by which biscuits are baked at each
revolution. With the present machinery
and staff, about one hundred boxes of
biscuits are daily made, baked, packed,
and made ready for the market. When
the contemplated improvements are made
the number of boxes per day can be ex-
tended to almost any extent desired. The
bake room is well lighted and ventilated,
and kept remarkably clean and tidy.

THE BOILING ROOM.
In this department are four men em-
ployed in the manufacture of candies of
every description. Particularly notice-
able is a beautiful and costly machine by
the aid of which clear sugar "fancy toys"
are made. The apparatus cost \$300 in
the city of Philadelphia, and is well
worth the outlay. In every part of this
large room are piles of sugar sticks, bull-
eyes, &c., enough to make the mouths of
a regiment of little folks water.

THE PAN ROOM.
Next to the boiling room is the pan
room, where all the smaller class of can-
dies are manufactured. Here two hands
are busy as millers providing for the
wants of the rising generation. So great
is the demand for this class of goods that
a much larger oscillating pan is required,
and which will be driven by steam power
so soon as it is in readiness.

THE LOZENGEE ROOM.
This department is under the manage-
ment of a practical English lozenge
maker, and the article manufactured is
of first class quality. Massie's Cough
Lozenges are worthy of special mention,
and are highly spoken of by those
