THE INTERNATIONAL BRICK AND TILE CO.
Bridgetown, Annapolis Co.
HAVE NOW ON HAND A LARGE QUANTITY OF
Beautiful Hard-Burnt Brick,
which are manufactured by the most approved modern machinery, from a superior clay, thoroughly mixed with sand; have smooth surfaces, square edges, and
ARE GUARANTEED TO STAND THE WEATHER.
Our selected stock brick will look as well in the front of a building as some of the so-called face or repress brick, nor are they liable to chip or split with the frost. So far as tested they have not shown any of the *WHITE SUBSTANCE*, which so disfigures some brick buildings, and we believe them to be entirely free from this ingredient. We aim to keep on hand a large quantity, so that the trade can always rely upon being supplied with good brick.
Having a good wharf on our property and a siding of the W. & A. Railway, we can ship either by vessel or rail.
For the information of builders we publish herewith a certificate from a well-known architect.
YARMOUTH, N. S., February 16th, 1891.
The International Brick and Tile Company:
GENTLEMEN,—I took one of your stock brick promiscuously from a lot shown me and put it to a severe weather test, having boiled it in hot water and put it out to be frozen at once, and often in an open atmosphere, but have not yet seen the least change in the surface. I consider them first-class in all respects. Yours truly,
J. B. KINNEY, *Architect.*
