AMONG THE PATRONS.

Special Session of the Grand Association in London.

The special session of the Grand Association of Patrons, held in the City Hall, London, was continued on Tuesday and Wednesday, two sessions each, and on Thursday and Friday, three sessions each, last week, an adjournment being made at 11:30 p.m. on Friday, and most of the delegates returning home on Saturday, a few having left on Friday. In the closing sessions a large amount of business was transacted. The list of delegates and members of special and regular committees, together with the introductory business transacted, have already been published in these columns.

Grand President Kennedy reported the circumstances of his trip to Manitoba and the Northwest. He had acted upon the wishes of the trustees, who authorized him to promise the brethren there that a Dominion charter would be applied for at once. Subsequently, however, they were advised by their solicitor that a charter could not be obtained until asked for by this Grand Association at a regular or special meeting.

After the adoption of the minutes of the Sarnia meeting of the Grand Association, the following is the gist of the most important

RESOLUTIONS PASSED, ETC.:

Resolved, that T. J. Leahy, Huntington county, Quebec, be invited to a seat within the bar, and that he be admitted to all the privileges of this Grand Association.

Resolved, that at this meeting the first order of business at each session be the confirmation of the minutes of the previous session, verified by the signatures of the grand president and grand secretary.

Resolved, that the platform be passed upon clause by clause, as reported by the grand secretary, and as voted upon by 313 subordinate associations.

The platform adopted after discussion will appear in next number.

Resolved, that the thanks of the Grand Association are due to the London ADVERTISER and all other papers that have spoken kindly of the work of the Patrons.

Resolved, that the Executive Committee be instructed to take immediate steps to secure a Dominion charter of incorporation, acting in conjunction with Patrons in the other Provinces wherever they already exist.

Resolved, that the report of the Committee on Compensation and Mileage be adopted as read, $1 per day and actual expenses being the recommendation of said committee.

Resolved, that the question of prohibition be referred to the subordinate associations for their approval or rejection.

Resolved, that this Grand Association extend greeting and the hand of fellowship to Patrons in Quebec, Manitoba and other Provinces in which organization has already commenced, and that all such Patrons be invited to affiliate with the Grand Association of this Province until they are warranted in the formation of other grand associations in their respective Provinces, or until a Dominion charter is obtained.

Resolved, that Grand Vice-President C. A. Mallory be instructed to proceed to Quebec Province to give brethren there his assistance and to take such steps as are necessary to place the order there on a substantial footing; also that thanks be tendered to County President T. J. Leahy for his attendance at this meeting.

The names of Messrs. McCoy and Nisbet were added to the Committee on Constitution.

Resolved, that the speakers at this meeting be limited to five minutes each, except when permitted otherwise by this Grand Association, the mover and seconder of a resolution to be allowed to speak a second time.

A printed draft of the proposed amended constitution was presented by the trustees, and it was resolved that the amendment of the constitution and bylaws adopted at Sarnia be considered without regard to the draft submitted by the trustees.

The amendments to the constitution agreed upon will appear in next issue.

Resolved, that the portion of the constitution referring to the duties of the grand officers, as now revised by this Grand Association, be binding forthwith; but that no revised constitutions be printed in full until after the next annual meeting.

Resolved, that the platform as adopted and the amended clauses of the constitution be printed in sheet form, and that copies be sent by the grand secretary to every member of this Grand Association and to all the subordinate associations under this jurisdiction.

Resolved, that Wm. Nisbet, F. Kennedy, C. A. Mallory, L. A. Welsh and H. Winter be a committee to make any further necessary amendments to the constitution and bylaws, and that they report such amendments at the next annual session of this Grand Association for adoption or rejection.

The trustees having presented a verbal report as recommended by the Finance Committee, and the grand president and grand secretary having also reported as to the manner of conducting the work of the Grand Association by the trustees and grand officers, it was resolved that the sum of $200 be paid to the grand secretary in addition to the $500 named as his salary in Sarnia, the said amount being voted to compensate him for assistance required in his office in Strathroy.

Resolved, that the Executive Committee be empowered to complete the formation of a joint stock company for the purchase and working of a salt well, shares to be limited to $1 each and the stock to be not transferable.

Resolved, that no action be taken in the matter of the division of counties into two or more associations, as applied for by the delegates from Elgin county, it being deemed impracticable to follow the outlines of the electoral districts, either as provided by the Dominion or Provincial Parliaments.

Resolved, that Wm. Nisbet, Lambton, and Capt. John Robinson, Haldimand, be commissioned to act as lecturers under the supervision and direction of the grand president.

Resolved, that the ritual of the order be published in larger form and with bolder type as soon as it is found necessary to procure a new supply.

A report having been presented setting forth the nature of the agreement making the Patron and Co-operator the official organ of the order for one year ending next spring, it was resolved that the Executive Board be empowered to arrange for the publication of a weekly journal that shall advocate the cause of the order and be strictly non-sectarian and non-political.

Resolved, that none but farmers be granted commissions by the grand president to act as organizers in rural districts.

Resolved, that the trustees be instructed to place a card in the official organ defining section 12 of article 4 of the constitution as including all persons whose interests do not conflict with those of farmers and laborers, except those especially specified as ineligible.

Resolved, that the thanks of the Grand Association be tendered to his worship the mayor and corporation of the city of London for the free use of the City Hall in which to hold the meetings of this special session, and that $4 be handed to the janitor for his courtesy and attendance.

Resolved, that a hearty vote of thanks be tendered to Brother George Wrigley for valued assistance given to the officers and members of this Grand Association from time to time.

Resolved, that the thanks of the Grand Association be tendered to Grand President F. Kennedy for the efficient and courteous manner in which he has presided over this meeting.

Resolved, that the minutes of this meeting be printed and that a copy of the same be forwarded by the grand secretary to each of the presidents and secretaries of the county and subordinate associations in the Province, and to organizers and others requiring the same.

Resolved, that this Grand Association do now adjourn until the date of the Annual Session in Toronto, or until the call of the Grand President in case of emergency.

THE PEOPLE'S FORUM.

A Remarkable Discovery.

To the Editor of the ADVERTISER:

The following discovery will interest teachers, inspectors and land surveyors. Every number can be equaled with a triangle having rational sides. For example, we want a triangle whose area is seven square chains, and whose sides are rational numbers. The sides are:

25 951 9,919

6 275 1,650

The formula, which I discovered recently, after six months' labor, will give other sides. The applications of the formula are numerous and useful. For instance, any square can be equaled with a triangle having rational sides. It also follows that if we have a triangle whose area is known we can find another of equal area, having rational sides, whether the sides of the former are rational or not. It is possible to inclose an acre with a triangle. In 40 years reading mathematics I never met with the formula. I therefore assume the discovery to be original. I should mention that the process is voluminous and abstruse, one of the unknowns running into the fourth power. JOHN IRELAND,

Dracon P. O., county Wellington.

P. S.—I wish exchanges would copy this. J. I.

The River Thames.

To the Editor of the ADVERTISER:

I read the article in your paper of last evening, "Keep the Water Up," and would head this communication, "Keep the Sewage Out," as in duty bound, and as the judgment of the Court of the Queen's Bench in the Queen vs. the City of London requires. Let all citizens who value health and dislike bad smells (especially if fond of boating) write in the expression of their sentiments so publicly, urgently and persistently as to enforce upon the City Council, the Government of Ontario and all others standing in the way, the reality and beauty of the doctrine, that cleanliness is next to godliness, and that nastiness even combined with cheapness is at least a delusive advantage, but when associated with and leading up to disease and death it is criminal on the part of those who have the preventive power and yet fail to exert it. I believe we have in Ontario the best Government in the world, but in matters of this kind it apparently needs some stiffening of the backbone, which the citizens could supply if they had the mind to. Yours truly CHARLES HUTCHINSON.

"German Syrup"

A Throat and Lung Specialty. Those who have not used Boschee's German Syrup for some severe and chronic trouble of the Throat and Lungs can hardly appreciate what a truly wonderful medicine it is. The delicious sensations of healing, easing, clearing, strength-gathering and recovering are unknown joys. For German Syrup we do not ask easy cases. Sugar and water may smooth a throat or stop a tickling—for a while. This is as far as the ordinary cough medicine goes. Boschee's German Syrup is a discovery, a great Throat and Lung Specialty. Where for years there have been sensitiveness, pain, coughing, spitting, hemorrhage, voice failure, weakness, slipping down hill, where doctors and medicine and advice have been swallowed and followed to the gulf of despair, where there is the sickening conviction that all is over and the end is inevitable, there we place German Syrup. It cures. You are a live man yet if you take it.
