FISHERY REGULATIONS.

Draft of the Rules Proposed to be Put in Operation in British Columbia.

Practical Suggestions Desired by the Department of Marine and Fisheries.

1. Fishing by means of nets or any other apparatus whatever, without license from the Minister of Marine and Fisheries, is prohibited in all the waters of the Province of British Columbia.

2. Provided always that the Indians may at all times have liberty, upon application to the Inspector of Fisheries, to fish for the purpose of providing food for themselves and families, by any means other than spearing, trapping or penning fish on their spawning grounds, but not during the close season, or in places set apart for that purpose, or in such other places as may be set aside by law.

3. Meshes for nets used for capturing "Quinnat" or Spring salmon in the tidal waters of British Columbia may be used from the 1st of March to the 15th of August, and shall not be less than 7½ inches, extension measurement.

4. The meshes of nets for capturing salmon, other than spring salmon in the tidal waters, shall not be less than 5½ inches extension measurement to be used only between the 1st. of July and the 1st. of October in any year, and nothing shall be done in either case to practically diminish the size of these meshes.

5. The use of seines for the purpose of catching salmon is prohibited in the waters of British Columbia.

6. Drift nets only shall be used for capturing salmon and shall be confined to tidal waters, and no net of any kind shall be used for capturing salmon in the inland lakes and fresh or fluvial waters of rivers or streams. But Indians may nevertheless use dip nets for their own purposes in any such waters, by first getting permits from the Inspector of Fisheries.

7. Drift nets shall not be used so as to obstruct more than one-third of the width of any river, branch or channel thereof.

8. The use of seines or other nets for capturing salmon is wholly forbidden within the distance of 500 yards from any point in any direction whatever from the mouth or any part or outlet thereof of any river or stream in British Columbia.

9. Fishing for salmon shall not be permitted from Saturday morning at 6 o'clock until the following Sunday at 12 o'clock midnight. All nets and other fishing gear set or used, and all fish caught during this period shall be deemed to be illegal, and liable to seizure and confiscation, and the person or persons so violating the laws shall also be liable to the fines and penalties under the Fisheries Act.

10. The regular annual close time in which salmon shall not be taken in the lakes, rivers and streams of British Columbia shall be from the 1st of October to the last day of February (inclusive) following in every year.

11. The tidal limit in which net fishing for salmon may be carried on for commercial purposes on the Fraser river in canning, freezing or exporting fish, shall terminate at a point across the Fraser 100 yards below Whannock Creek, and at a line across Pitt river 100 yards below the railway bridge. Above these points on the Pitt and Fraser rivers, netting or fishing for commercial purposes is forbidden.

12. The Minister may direct that fishing for salmon with nets, or other means whatever, may be wholly prohibited in such lakes, rivers and streams, tidal or otherwise, in which from their size or other circumstances it may be found that netting therein would seriously interfere with the migration of salmon to their natural breeding grounds.

13. Before any salmon net, fishing boat or other fishing apparatus shall be used, the owner or person interested in such net, fishing boat or fishing apparatus, shall cause a memorandum in writing, setting forth the name of the owner or person interested, the length of the net, boat or other fishing apparatus, and its intended location, to be filed with the Inspector of Fisheries, who, if no valid objection exists, may, in accordance with instructions from the Minister of Marine and Fisheries, issue a fishery license for the same, and any net, fishing boat or fishing apparatus used before such license has been obtained, and any net, fishing boat or fishing apparatus used in excess or evasion of the description contained in such license, shall be deemed to be illegal and liable to forfeiture, together with the fish caught therein, and the owner or person using the same shall be also subject to fine and costs under the Fisheries Act.

14. All salmon nets and fishing boats shall be numbered to correspond with the number of the license, and shall also have the name of the owner or owners legibly marked on two pieces of wood or metal attached to the net, and such marks shall be preserved on such nets or fishing boats during the fishing season, in such manner as to be visible without taking up the net or nets; and any net or fishing boat used without such marks shall be liable to forfeiture.

15. The following shall be the manner and disposition in which fishing licenses shall be granted for catching salmon in the Province of British Columbia:

16. Each *bona fide* fisherman being a British subject and actual resident of British Columbia shall be entitled to obtain a license to fish for salmon.

17. Each firm, company or person actually engaged in the business of freezing and exporting salmon, shall be entitled to obtain not exceeding seven licenses.

18. Each resident company or person actually engaged in the business of shipping or exporting salmon in ice, not in the manner of freezing or canning, shall be entitled to obtain not exceeding seven licenses.

19. Each firm, company or local trader dealing in salmon for home consumption in cities, towns, villages or country places, actually engaged in such traffic, shall be entitled to obtain not exceeding three licenses.

20. Each company or person carrying on the business of salting, curing or smoking salmon for the domestic or foreign market, and not engaged in the fishing business in any other way, shall be entitled to obtain not exceeding two licenses.

21. Each firm, company or person actually engaged in carrying on the industry of canning salmon within the Province of British Columbia shall be entitled to obtain not exceeding twenty licenses. The company or individual shall give a satisfactory statement as to the extent and capacity for work of the cannery, before the license shall be granted.

22. Each firm, company or person referred to in the foregoing six sections to be entitled to obtain licenses shall be bona fide incorporated companies registered in Canada or resident British subjects, and the actual owners or proprietors of the specified business and fishing gear for which the licenses are to be obtained.

23. Each and every license so obtained shall in no case be transferable under any conditions whatever, without the consent, first obtained in writing, from the department.

24. The fee payable for every license by the companies or individuals referred to in the foregoing sections, shall be alike throughout the Province—namely, ten dollars each—and the license shall be called a Commercial License, and the size and extent of the net to be used under any such commercial license shall not exceed in length three hundred yards.

25. Every settler or farmer actually residing on his land or with his family, and is a bona fide British subject, shall be entitled to obtain one license free of charge, by applying therefor to the Inspector of Fisheries, to fish in any of the waters of the Province except in any prescribed limits at the mouths of rivers and streams or during any close time set apart by the Department of Marine and Fisheries. Such license to be called a domestic license. The net to be limited in length not to exceed three hundred yards, with meshes the same size as in the commercial license and to be used only for family purposes and not for trade or barter.

26. The young of the salmon at the different stages of their growth, as fry, parr, and smelt, shall not at any time be caught, killed or had in possession by any one in the Province of British Columbia, but if caught by accident in the nets lawfully used, they shall be liberated alive, at the cost and risk of the owner.

27. Salmon trout and white fish may be netted in the lakes in the interior of the Province, under license to be first obtained from the Department of Marine and Fisheries, which license shall cover gill net fishing, with a limit of net not to exceed 2,000 yards, with meshes not less than five inches extension measure. But salmon trout and white fish shall not be fished for or caught by any means during the months of October and November in any year in British Columbia. The fee for a license to catch salmon trout and white fish shall be $5.

28. Brook trout of any kind and speckled trout, shall not be fished for, caught or killed in the Province from the 15th of October to the 15th of March, both days inclusive, and by no other means whatever than by hook and line or angling, provided that Indians may at any time kill these trout for their own use, but not for the purposes of traffic or sale.

29. The use of firearms of any kind or of spears of any description, torch-light or use of any explosive materials, to catch or kill fish is prohibited in the waters of British Columbia.

30. The above regulations shall supersede and revoke all former regulations heretofore made under the Fisheries Act which relate to the fisheries in the waters of British Columbia, and the above regulations shall come into force and effect on the day of , 189 , when all former regulations will become repealed.

31. All materials, implements or appliances and gear of any kind used, and all fish caught, taken, killed, bought, sold or possessed in violation of any of the above regulations shall be seized and confiscated, and any person, persons or companies violating any of the above regulations shall also incur the penalties provided by the Fisheries Act.

NOTE.—The above draft is subject to changes in the phraseology, and will be revised by the Department of Justice ultimately. Meanwhile it is hoped that practical suggestions by those interested will be made, so that the Minister of Marine and Fisheries may bring them to the attention of His Excellency the Governor General in Council.

THE CITY.

EDWARD WARD, who stole and pawned a telescope belonging to a friend in order that he might indulge his taste for "Black Jack," was sentenced yesterday morning to two months' imprisonment at hard labor.

A YOUNG man named Kerward had his leg broken in a practice game of Association football, at Beacon Hill, yesterday afternoon. The unfortunate player was taken to the Jubilee hospital, where the leg was set.

"GRIP," the funny paper of Toronto which achieved great popularity while Bengough was the artist, but languished and died after he left, is to re-appear under new ownership, with J. W. Bengough, the originator, again as editor. With him will be associated as business manager J. J. Bell, formerly editor of the News in this city, and those who knew Mr. Bell here will realize that the two gentlemen named constitute a team who ought to make the new venture go.

JOSEPH NUCCI, who was arrested late Sunday evening for cutting an Italian friend, was charged with felonious wounding in the Police court yesterday, the case being remanded for eight days, as it would be extremely dangerous for the victim of the assault to leave the hospital sooner. He is, however, not likely to die, as was at first feared. Nucci has been remanded on $800 bail. Stabbing affrays have become unpleasantly common during the past few weeks, the offenders generally being the lower class Italians. Another victim of the knife is an elderly man named Daniel Sheehan, who was stabbed on Christmas day by one Michaelo Mullock, whom Officer Smith placed behind the bars.

DUNCAN CRAWFORD and F. H. Vernon, the one a hard working machinist and the other an industrious boiler maker, were arrested on board the San Francisco steamer Christmas morning, and locked up with a charge of larceny recorded against them. The information was sworn to by Bartender Campbell of the Rock Bay hotel, who accused the two of stealing his valise. Crawford and Vernon have for some time past been employed at the Victoria Iron Works, and have boarded at the Rock Bay hotel. Two or three weeks ago they spoke of leaving town, and Campbell made them a present of the valise in question; later they contracted a small bill for liquors, which they did not pay. It was to recover this that Proprietor Carter had them arrested on board the steamer on which they had taken passage. The facts were very clearly brought out in the Police court yesterday, and the magistrate expressed himself very strongly in regard to the matter, dismissing the case. Messrs. Crawford and Vernon have been assured they have good grounds for an action for damages against Carter and Campbell, and will probably proceed against them for false imprisonment.

OUR FAMILY PHYSICIAN.

DEAR SIRS—I was troubled with eczema (salt rheum) for about two years, but I did not bother with it until it began to itch and spread over my hand. I then took four bottles of B.B.B., which completely drove it away. It was by my son's advice I took B.B.B., as B.B.B. is our family physician.

J. S. MILLS, Collingwood, Ont.

BOARD OF ALDERMEN.

Discussion About the Cause of the Impassable Condition of the Streets.

Tenders to be Called for Extension of the Menzies Street Sewer.

The regular meeting of the Council was held last evening, Monday having been a holiday. Mayor Beaven presided, and Ald. McKillican, Styles, Bragg, Baker, Henderson, Munn and Robertson were also present.

Several reports from the Finance committee were adopted after discussion.

A requisition from the Board of School Trustees for $3,136 for special educational purposes was agreed to.

Mrs. Margaret Winter wrote transmitting a bill for the repair of the shafts of a buggy broken on Marvin's hill on December 11, owing to the neglect of the persons working on the street to place a lantern on the barricade erected there.

The matter was referred to the School Trustees, by whom the work on the street was being done.

H. Dallas Helmcken wrote reporting that he had fallen into the ditch dug for drainage purpose on Marvin's hill, in consequence of its not being properly lighted or guarded when open, and that he had thereby been caused much injury and loss of time. He asked for compensation from the corporation.

Referred to the School Board and City Engineer.

A letter from F. B. Pemberton, reporting the bequest of $3,000 by his father the late J. D. Pemberton, for the purpose of improving the school grounds on Fort street and erecting a gymnasium there, was read, and a resolution of thanks was passed.

Tenders for placing granite stone crossings on Broad street, across Fort street on the east side and across Cormorant street were opened. These were from Jos. E. Phillips at $2.95 per running foot, and Frederick Adams at $3. As at this rate the cost will be a good deal more than the amount of the requisition already adopted the tenders were referred to committee, to award one if possible before a further requisition is put in for the added amount necessary.

A report from the Streets committee being presented, Ald. Munn called attention to the impassable condition of many of the streets where sewerage works have been barried on. He expressed the opinion that the contractors should have been forced to leave the streets in better shape.

ALD. BRAGG held it was not possible for the contractors to leave the streets in better shape when they had to carry on the sewerage construction in wet weather. Another difficulty was that, until a few weeks ago, there was no rock crushed ready to be used on the streets.

ALD. STYLES said it was part of the agreement of the contractors to put back the streets in the condition in which they found them, and until this was done the City Engineer could not accept the streets and no corporation work could be done on them.

ALD. BAKER asked why the rock crusher had not been set to work at the rock quarried out of Blanchard street, at the corner of Pembroke. He criticized the operations on Belcher street, which he said he felt sure cost, when crushed, at least $5 per yard.

ALD. STYLES said the crusher would be at Pembroke street in a few days.

ALD. MUNN moved, seconded by Ald. Henderson, that plans for that purpose having been prepared, the City Engineer be authorized to call for tenders for the extension of the surface drain on Superior street to Menzies and Michigan streets, and also to prepare plans for the extension of the Cook street drain to the sea.

THE MAYOR said he was informed that there was not money enough to carry on both these works.

ALD. MCKILLICAN therefore moved in amendment, seconded by Ald. Styles, that tenders for the Cook street extension be called for at the same time.

ALD. HENDERSON contended that the Menzies street drain should be finished first, as the houses on that street were now being flooded, while at the end of Cook street there were no houses at all. The Sewerage committee, however, were of the opinion that there was money enough to finish the two. If there was not, the extra money required could be found next year.

ALD. MUNN advised also that a tender be called for the drain on Oswego street, for which an appropriation has been made.

ALD. HENDERSON said this work had been done by the day, so far as the Oswego street part was concerned, but the outlet along San Juan street had been left over until the spring because of the wet weather.

The amendment was lost on division—Ald. McKillican, Styles and Robertson alone voting yes.

The original motion was then carried, Ald. McKillican and Styles voting against it.

The Council adjourned at 9.50 p.m.

CURIOSITIES OF SAVAGE LIFE.

After another season spent in the collection of the implements, images and other curiosities of savage life peculiar to the Indians of Bella Coola, P. Jacobsen has returned to Victoria, and will remain here a few weeks before going to the West Coast to carry on a similar search there. He brought down several boxes of stuff, the greater part of which is to be consigned to the Swedish Government, on whose behalf Mr. Jacobsen has been collecting for the past season. The first and main shipment was made to them some months ago, and this supplementary lot will be forwarded as soon as packed. It includes several very curious objects. One of these is a mammoth image, more than life size, of A-la-coot-la, the man-eater, crowned with the cedar bark rings peculiar to his dance, arrayed in bearskin and painted and otherwise got up so as to present a most ferocious aspect. A-la-coot-la bears in his huge arms what by tradition should be a "mummy" or human carcase, but in deference to popular prejudice the skeleton of a bear has been substituted. There are also large curious looking masks, representing the spirits. Hal-hok-sus, a two-faced character who tempts the Indians to eat mummies, and Bek-bek-koolla-nuse, whose taste being more moderate the temptation he offers is only to bite pieces out of folk's arms. In addition to these there is a box full of stone implements and another of masks. The work Mr. Jacobsen has undertaken for the Swedish government is done by direction of Professor Gustav Retzius, one of the most noted anthropologists of Europe, who paid a visit to Victoria early in the summer and went up to Bella Coola, intending to stay there several months to study the traditions of the Indians. He was, however, unexpectedly called home, in consequence of the death of one of his learned associates. In a letter just received here Prof. Retzius tells of the great interest which the first shipment of Indian curios has excited, and expresses surprise that the Canadian governments and people make no effort either to get a good collection or to gather and preserve the weird traditions of the British Columbia Indians.

Mr. Jacobsen brought a number of masks, which he has presented to the Provincial museum, and also the skins of magnificent specimens of the grizzly bear, wolf and cariboo, which also were intended for the museum, but not being wanted there, are now to be otherwise disposed of. He has besides these a great collection of drawings in colors, made by the Indians in illustration of their traditions and customs.

CHRISTMAS TREES.

Nearly every boy and girl who attended the Sunday school festival in the Metropolitan Methodist church last evening received either a doll, book or some other little gift from the big Christmas tree which had been placed just behind the pulpit in a position where the electric lights added all their brilliancy to the scene. The evening's programme came to a pleasant conclusion with the distribution of the presents, when enthusiasm among the children was at its highest. Mr. E. Lewis occupied the chair during the evening and announced in the following order the appended programme: Selection, orchestra; recitation, Laura Simpson; recitation, Ethel Eyre; song, Miss M. Wilson; recitation, Lillie Wier; violin solo, Noel Barker; recitation, Ernest Maynard; trio, the Misses and Master Hampson; recitation, Eddie Creed; song (with violin accompaniment), Miss Barker; recitation, L. Hosking; selection, orchestra; piano duet, Misses Fryan; recitation, Jennie Stratham; recitation, Elsie Wier; recitation, Mrs. Carlson's class; recitation, Miss A. Mugford; recitation, Teressa Rogerson; and song, Miss Renfrew. Among the presents distributed was a handsome piece of plate for Mrs. Siddall from the Sunday school.

CEDAR HILL CHRISTMAS TREE.

The residents of Cedar Hill district celebrated Christmas in their customary jolly style on Monday evening, when a largely attended entertainment was held independent of any sect or creed, in the public school house. Tea was provided in the school from 6 until 8 o'clock, when a programme, including eight recitals, two choruses, a farce and several dialogues was furnished, principally by children, and in a manner very creditable to Miss Irvine, the organist, who superintended the affair, and also to Miss Seath. The farce, entitled "Christmas Eve," was a well chosen one for the occasion, and its production was well conducted by Misses White, Pollock and Miller, and the Masters Greeves, Geritry and McRae. The central attraction of the evening's entertainment, however, was the Christmas tree, which bore presents for old and young.

STABBING AFFRAY.

An Italian named Rafael Pulltan, a resident of Humboldt street, caused the police some trouble Christmas eve. During the evening he got into a quarrel with a fellow-countryman named Joe Nucci, the particulars of which he could not well explain, the result being two cuts underneath his left shoulder blade, one on his left arm a little below the elbow, and another on the right hand. Pulltan first found his way to Morrison's drug store after he emerged from the row, where the police were communicated with. Sergeant Hawton immediately had the unfortunate man removed to the city police station, where his wounds were unofficially examined, the cuts showing signs of having been inflicted by a small penknife.

In order to make sure that the wounds were not dangerous the sergeant then had the man removed to the Jubilee hospital, where the injuries were properly attended to. Pulltan says that he was stabbed with a long dagger knife, and that his assailant has been threatening to kill him for some time past under no provocation whatever. As the man was considerably under the influence of liquor, however, a clear story of how his trouble occurred could not be obtained. The police are nevertheless well acquainted with Nucci, having parted him and Pulltan in fights before.

When the wounds were examined in the hospital by Dr. Richardson, they were found to be of a much more serious nature than was at first supposed, one of the cuts in his back reaching to his lung and may result fatally. Nucci was arrested late in the evening by Officers Mowatt and Abel, on a charge of assaulting Pulltan with intent to do grievious bodily harm.

MARINE MOVEMENTS.

Two more of the sealing fleet, the Casco and the Arietas, "spread out their white wings and sailed far away" yesterday. Both are bound for the Japan Coast, where they will spend the coming season in pursuit of fur seals. The Casco, in command of Capt. Buckholz, and with a crew of 21 white men, is on her second sealing cruise and was towed out of port by the steamer Lottie. The Arietas was taken out by the steamer Alert. She is captained by A. Douglas and carries a crew smaller by three than that of the Casco.

FOR SAN FRANCISCO.

The steamer City of Puebla, which sailed Christmas morning for San Francisco, had the following passengers from Victoria: A. J. De Louza, H. L. O'Brien, wife and family, J. E. Gilmore, W. A. Wadhams, William Downie, J. F. McWilliams, P. Bourchier, P. L. Linen, T. B. Henry and wife, Mrs. Lecuyer, Miss Reynolds, Miss S. Robinson, J. Anderson, wife and child.

LOADED SHIPS AT HASTINGS.

The Norwegian ship Germanic and the American ship Benjamin Sewell have finished taking on cargoes at the Hastings mill, and will sail for the United Kingdom probably to-day, the former having on board 1,021,624 feet of rough lumber, valued at $13,135 46, while the latter has 910,483 feet, or $9,973.14 worth of the same.

PHILANTHROPIST DEAD.

YONKERS, N.Y., Dec. 26.—Robert C. Fisher, millionaire and philanthropist, aged 57 years, died suddenly in the parish house of Trinity Episcopal church, New Rochelle, this morning. The deceased attended the Christmas services in the church yesterday in apparently excellent health. At the conclusion of the services he took a position at the door of the auditorium and handed each of the poorer members and the attendants of the church with a $20 gold piece as a Christmas gift, when they passed from the building. He had just completed this charity when he suddenly reeled and was assisted by friends to the parish house, where he died. He leaves a widow and four sons.

Ask Your Friends

Who have taken Hood's Sarsaparilla what they think of it, and the replies will be positive in its favor. Simply what Hood's Sarsaparilla does, that tells the story of its merit. One has been cured of indigestion or dyspepsia, another finds its indispensible for sick headache or biliousness, while others report remarkable cures of scrofula, catarrh, rheumatism, salt rheum, etc.

Hood's Pills are purely vegetable.

SPORTS AND PASTIMES.

Victoria's Footballers Win the Match and Are Hospitably Entertained at Portland.

Progress of the Six Days' Bicycle Race—The Championship Skating Races.

PORTLAND, Dec. 25.—(Special)—The football match to-day, Victoria vs. Multnomah, was a victory for Victoria by three points to nil. Great enthusiasm was evinced at Portland over this match, there being quite a number of spectators on the grounds at 2:30, when Captain Blyth started the leather for Portland. The ground being exceedingly heavy, the game was mainly a forward one, neither side scored during the first half. Victoria pressed during the latter part of the second half, but did not succeed in scoring until within a few minutes of the call of time, when their forwards rushed the ball over the Multnomah's goal line. The visitors were royally entertained during the visit, a grand banquet being given them at the Hotel Portland.

MONTREAL'S CHAMPION RACES.

WINNIPEG, Dec. 26.—The announcement that championship skating races would be held in Montreal, this winter, on January 25, nearly a month earlier than last year, may materally alter Champion McCullough's plans, and there is a possibility that he may not be able to attend.

CRICKET.

HOPELESSLY INSANE.

TORONTO, Dec. 26.—Information has reached here that Rev. F. W. Terry, the great cricketer, has exhibited symptoms of great mental weakness since his return to the London asylum, and that there are no hopes of his permanent recovery.

BICYCLING.

SIX DAYS GO-AS YOU-PLEASE.

NEW YORK, Dec. 26.—The six days go-as-you-please bicycle race at Madison Square Garden promises to be one of the best of the kind ever seen in this country. The first man will capture $1,200, second $800, third $500, fourth $350, fifth $250, and sixth $150. A quarter of the net profits will also be divided among the winners. Only twelve out of the eighteen who started in the six days' bicycle contest remained in the race this morning. At 8:30 a.m. Schock was 106 miles and one lap ahead of the 1891 record for that time. The score at 3 p.m. stood: Schock, 607 miles; Walter, 606; Martin, 589; Albert, 535; Hosmer, 507; Meixell, 488; Golden, 458; Van Emberg, 444; Ashinger, 434; Barron, 391; Fuller, 335. Miles and Fuller are now out of the race.

At 9 o'clock the score stood: Schock, 692 miles; Martin, 661; Walter, 690; Albert, 592; Hosmer, 573; Meixell, 545; Van Emburg, 517; Ashinger, 496; Barton, 459; Forster, 437; Golden, 572. Fuller withdrew at 7 o'clock.

At 11 o'clock, 47 hours from the start of the race, Schock was 139 miles, eight laps ahead of the 1891 record. In that year 579 miles were made by Martin, while Schoch had covered 718 miles, eight laps. The record for the first 48 hours of the six day race was broken to-night by Schoch, who made 733 miles, one lap. This is 143 miles and four laps over the record of 1891, which was made by Martin.

At 1 o'clock this morning (Wednesday), the score stood: Schoch 745 miles, Martin 714, Waller 743, Albert 638, Hosmer 612, Meizell 573, Vanemburg 540, Ashinger 539, Barton 500, Forster 485, Golden 544.

CHICAGO'S SENSATION.

CHICAGO, Dec. 26.—This was a day of sensational developments and incidents in the trial of Dan Coughlin. The prisoner was self-possessed and apparently indifferent to it all; but the lawyers on both sides, Mrs. Andrew Foy and other persons who participated, became nervously excited. Outbreaks among the lawyers were numerous, and recriminations were indulged in and bitterly resented. The defence succeeded in making a sensational climax to the cross-examination of Mrs. Foy by presenting her to the jury in a far less favorable light than she appeared when she left the witness stand last week. She admitted receiving money and substantial presents of clothing, turkeys and carpet from Mrs. Conklin since she became acquainted with her late last year. Two letters which Mrs. Foy admitted had been written by her to W. S. Forrest, leading counsel for the defense at the first trial, showed that "the star witness for the prosecution," as Attorney Wing called her, had not been actuated solely by a love of justice and desire to undo a great wrong in remaining silent while the first trial was in progress. The best that can be said for her judging from these compromising letters, was, he said, that she wanted her husband to stop drinking and mend his ways, and believed that Coughlin and the lawyers could bring about a change. Her letters contained threats of "going to see the State Attorney," unless she got some "reward for all I have suffered." Her sufferings were not dwelt upon much when she was examined by the prosecution. Still the woman's nerve and self-possession never deserted her. After recovering from the shock and surprises incident to the quick plays made by the defence with their trump cards, she turned upon Attorney Wing and practically cross-examined him in regard to the conversation which took place in Forrest's office between them. The lawyer did not expect to be placed in such a position, but the witness at that time was in the hands of the prosecution again. The best point she made for the State was to bring out the fact, undenied by Attorney Wing, that he and Forrest told the woman to go home and give her husband a further trial or probation of six months, which she did. The attorneys for the prosecution say they are satisfied with the ending of Mrs. Foy's cross-examination and the defendant's lawyers said the woman's story would be rendered worthless when all their impeaching testimony was heard.

BRITAIN AND JAPAN.

LONDON, Dec. 26.—Strained relations with the Empire of Japan have shown themselves within the last forty-eight hours, and are causing concern to Mr. Gladstone and his ministry. Six years ago the Conservative administration acceded to the request of the Japanese Government that a naval officer of distinction should be assigned to duty in behalf of that Government as a special naval adviser. Capt. Ingles, of the Royal Marines, was selected as the best man in the United Kingdom to fill the requirements of the position. The six years expire on Saturday, and the British Government refuse to extend the term, on the ground that special privileges of the character in question are calculated to create dissatisfaction and ill-will in the ranks of the British navy. On the 1st of the current month Capt. Ingles received official notification concerning the fact that he would be required to return to his command in one month, and that in the event of a default his connection with the British service would be regarded as severed. Capt. Ingles, true to his old-time faithfulness and loyalty, has accepted the alternative, and will in a few days arrive in this city. It is understood that he will not be assigned to active duty until spring. The lack of courtesy manifested towards the Japanese Government is being very strongly discussed in diplomatic and parliamentary circles, and the general opinion is expressed that an estrangement between the two empires is likely to be on the tapis.

HARRISON FOR PRESIDENT.

NEW YORK, Dec. 26.—The Daily America this morning says: "It has just leaked out that friends of ex-President Harrison have perfected an organization and have formally gone to work to make him Republican standard bearer in 1894. Major E. J. Rathbone, of Ohio, is in charge of the movement. He was postmaster-general under the last administration, and was one of Harrison's lieutenants at the Minneapolis convention. 'We have consulted the ex-president about the matter,' said the informant, 'but we have gone ahead on our own responsibility and have mapped out a plan of campaign. We are willing he should believe the people are clamoring for him, if he wishes to. There is no use in disturbing his peace of mind; at the same time we are doing all we can in a practical way to pave the way for the "clamoring" which will secure his nomination, which can be accomplished only by thorough and complete organization. Of course we are relying on the old Harrison office-holders to form the nucleus of our strength, but we hope to gather in many new converts. We are thoroughly organized in Indiana already. The South is a promising field. In that section, you know, there are very few Republicans outside of the office-holding class. The expartisan officials scarcely dominate the party organization of the Southern States; therefore I think we can count with reasonable certainty on a majority of the Southern delegates for Harrison."

B.B.B CURES SICK HEADACHE.

GENTLEMEN,—Having suffered for a number of years with sick headache I concluded to try B.B.B., and by the time I had used two bottles I was cured, and have not had any symptoms of it since. I can safely recommend B.B.B. for sick headache.

MRS. A. A. GAMBEY, Otono, Ont.

O. or to Chisholm & Logie, Barristers, Hamilton, Ontario. mc10-8-tfw

Estate of John Dowling, Deceased.

TO BE SOLD BY TENDER,

Pursuant to an order made in the County Court of Cariboo, holden at Ashcroft on the 20th day of July, A.D. 1893, the following freehold property:

Lots 782 and 789, Group 1, Kamloops Division of Yale District, containing 330 acres, more or less.

The property is situated about ten miles from Ashcroft, on the north side of the Thompson River, the lots adjoining each other.

There is a good house on Lot 782. Water records with good supply of water for irrigation go with each lot. The property is eminently suitable for fruit growing.

Tenders will be received by the undersigned (from whom further particulars can be obtained) up to the 15th day of January, 1894.

Terms—One-third cash; balance in two months thereafter, on execution of conveyance to purchaser.

Dated at Kamloops, B.C., this 28th day of November, A.D. 1893.

FRED'K J. FULTON,
Kamloops, B.C.,
Official Administrator, Yale District.

GRATEFUL—COMFORTING.

EPPS'S COCOA.

BREAKFAST—SUPPER.

"By a thorough knowledge of the natural laws which govern the operations of digestion and nutrition, and by a careful application of the fine properties of well-selected Cocoa, Mr. Epps has provided for our breakfast and supper a delicately flavored beverage which may save us many heavy doctors' bills. It is by the judicious use of such articles of diet that a constitution may be gradually built up until strong enough to resist every tendency to disease. Hundreds of subtle maladies are floating around us ready to attack wherever there is a weak point. We may escape many a fatal shaft by keeping ourselves well fortified with pure blood and a properly nourished frame."—Civil Service Gazette.

Made simply with boiling water or milk. Sold only in half-pound tins by Grocers, labelled thus: JAMES EPPS & Co., Ltd., Homœopathic Chemists, London, England. no25

Dr. J. COLLIS BROWNE'S CHLORODYNE.

Vice-Chancellor Sir W. PAGE WOOD stated publicly in court that Dr. J. COLLIS BROWNE was undoubtedly the inventor of Chlorodyne that the whole story of the defendant Freeman was literally untrue, and he regretted to say that it had been sworn to.—*Times*, July 13 1864.

DR. J. COLLIS BROWNE'S CHLORODYNE IS THE BEST AND MOST CERTAIN REMEDY IN COUGHS, COLDS, ASTHMA, CONSUMPTION, NEURALGIA RHEUMATISM, &c.

DR. J. COLLIS BROWNE'S CHLORODYNE is prescribed by scores of orthodox practitioners. Of course it would not be thus singularly popular did it not "supply a want and fill a place."—*Medical Times*, Jan. 12, 1885.

DR. J. COLLIS BROWNE'S CHLORODYNE is a certain cure for Cholera, Dysentery, Diarrhœa, Colics &c.

CAUTION—None genuine without the words "Dr. J. Collis Browne's Chlorodyne," on the stamp. Overwhelming medical testimony accompanies each bottle. Sole manufacturer. J. T. DAVENPORT, 33 Great Russe St., London. Sold at 1s. 1½d., 2s. 9d., 4s. ap28

(Special to the COLONIST.)
