WILL BLOW UP SPANISH FORTS.

Cuban Insurgents to Use Dynamite on Sea and Land.

New York, June 25.—Lieut.-Col. Jose Rodriguez, a Cuban engineer and a participant in the last revolution, is now in New York making a scientific investigation of the latest discoveries in the use of high explosives. He said last night: "The object of my mission to America is to learn all that is new in explosives. I want to know everything that has been discovered up to this time in Europe and America.

"When I get perfected in every detail I shall return to Cuba, and, with a corps of competent engineers, begin operations on the Spanish forts and cities. I need make no secret of this matter. The resources at our command are so terrible that we know pretty well what we can do. We will begin with Havana and give the Spanish a few lessons in the art of modern warfare that will not only surprise those who escape destruction, but all Europe as well. When we return to Cuba, I will not go to the trouble of running away from gunboats or evading the torpedo boats that may be patrolling the coast. I will quietly meet them on their own ground and blow their ships out of the sea. And all the while I will keep the Cuban flag flying from my little dynamite despatch boat."

War Correspondent Arrested.

Captain Donovan of the British steamer Ely, from Banes, Cuba, brings a report of the arrest by the Spaniards of Frank R. E. Woodward, the correspondent of The New York Morning Journal. Woodward had in his possession at the time of his arrest a large bundle of manuscript notes detailing the strength and movements of the rebels. The Spaniards took possession of these papers. He intends to secure the protection of the British consul in case he cannot reach the American consul.

GERMANY LEARNS FROM BRITAIN

Emperor William Entertained by the British Squadron at Kiel.

Kiel, June 25.—Emperor William, wearing the uniform of a British admiral, was the principal guest at a dinner given last evening on the warship Royal Sovereign, the flagship of the British squadron, that participated in the fetes here in connection with the opening of the Kaiser Wilhelm Canal. Prince Henry of Prussia, the Emperor's brother, and several German admirals were also guests of the British admiral. The Emperor responded to the toast to his health offered by Admiral Kerr. Among other things he said: "Since the German navy began to exist we have always tried to form our ideas and to learn from the British."

Christian Endeavor.

The favorite West Shore Railroad via Suspension Bridge, Rochester, Syracuse, Utica and Hoosac Tunnel has been made the official route for the Toronto union. Niagara boats from Toronto connect with trains from Lewiston. The rate, Toronto to Boston and return, will be $12.05, good going July 8, 9 or 10. Apply to Charles E. Burns, 77 Yonge-street, third door above King-street.

Fireworks at the Point.

A large and meritorious display of fireworks will be given by Hand & Co. of Hamilton in the Toronto Ferry Company's new park at Hanlan's Point on next Monday evening, July 1. As a number of new designs in set pieces will be introduced, including a likeness in fire of the Earl of Aberdeen, the coming exhibition cannot help being very interesting. The price of admission to the park has been placed at ten cents, with no extra charge for the grand stand. No doubt many thousands will avail themselves of this opportunity of showing their appreciation of the company's enterprise in providing such a first-class entertainment at the extremely low price of admission charged.

Out of Sorts.—Symptoms, Headache, loss of appetite, furred tongue and general indisposition. These symptoms, if neglected, develop into acute disease. It is a trite saying that an ounce of prevention is worth a pound of cure," and a little attention at this point may save months of sickness and large doctor's bills. For this complaint take from two to three of Parmelee's Vegetable Pills on going to bed, and one or two for three nights in succession and a cure will be effected.

They Met on the Roof.

In spite of the elements, the opening entertainment given at the Roof Garden Musicale on Monday evening was a numerical, artistic and financial success. The artists gave universal satisfaction and among the special features we wish to note the De Grays in their marvelous exposition of the work of the "White Mahatmas;" Mr. and Mrs. Summers in their sketch, "Matrimonial Music," introducing local hits, which thoroughly aroused the risible faculties of the listeners. Mr. George Maurice, whose musical imitations from the operas, enraptured, and Messrs. Rich and Ramsay, who, in their new effusions, proved their conscientious endeavor to please as well as their versatility. And we must not forget to mention the decorations, floral and electrical, which all enhanced the beauty and enjoyment.

He Has Tried It.—Mr. John Anderson, Kinloss, writes: "I venture to say few, if any, have received greater benefit from the use of Dr. Thomas' Eclectric Oil than I have. I have used it regularly for over ten years, and have recommended it to all sufferers I know of, and they also found it of great virtue in cases of severe bronchitis and incipient consumption."

Ontario Medical Council.

The sessions of this body were resumed yesterday in their hall, Bay and Richmond-streets. On assembling the council resolved itself into committee, and this occupied the entire of the afternoon and evening. When council resumes this morning the reports of the respective committees will be presented and considered.

Infringers Beware.

Mr. J. M. Fortier, the celebrated cigar manufacturer of Montreal, publishes a warning to infringers on his trade mark, "La Fayette." All infringers will be prosecuted to the full extent of the law. The notice applies to all who copy his labels, bands, etc., and also extends to lithographers, box-makers, designers, etc. The "La Fayette" is a fine, popular cigar and has a big sale throughout the Dominion.

SIFTON'S BRUTAL INDICTMENT

SENATOR BERNIER DEFENDS THE MANITOBA MINORITY.

The Former Superintendent of Catholic Schools in Manitoba Denies the Charges of Inefficiency and Opposes the Proposal for a Commission—National Only a New Name for Protestant Schools

Ottawa, June 25.—Senator Bernier, formerly Superintendent of Catholic Schools for Manitoba, spoke for over three hours to-day to show that the charges of inefficiency of the Separate schools were not correct. He regretted the necessity he was under as an exponent of the case of the minority of that province to again discuss the much-talked-of school difficulty. The new ground taken by the Manitoba Government in its refusal to obey the Remedial Order involved serious charges against the system of education in the Roman Catholic schools, which were never heard of before the Acts of 1890 were passed. If these facts now alleged were true, he thought the Roman Catholic minority ought to have been apprised of them before, and he held further that it was the duty of the local Government to have legislated and so amended the system as to eradicate the inefficiencies complained of.

No Opportunity to Improve Them.

The Roman Catholics, he said, were not given the alternative to improve their schools or lose them, and he maintained that the Acts of 1890 were not designed to improve the educational system, but to destroy the system of Separate schools in the province. He quoted from the public utterances of Hugh John Macdonald and a Protestant newspaper published in Morden, Man., to show that the Acts of 1890 were passed with brutal ruthlessness and designed as acts of political vengeance.

A Simple Question of Right.

The question now, he said, was not one of political expediency, but a simple question of right, and he appealed to the Protestant majorities in all the provinces to grant the small minority in Manitoba the rights awarded them under the judgment of the highest tribunal in the British Empire.

The idea of having an investigation now, he said, was only an afterthought designed to delay the settlement of the question. The Roman Catholics of Manitoba had suffered injustice too long already to be again put off, and looked to the enforcement of the judgment of the Privy Council, promised by the Premier in the opening days of the session.

Not Abolished for Inefficiency.

Dealing with the charges of inefficiency, made against Separate schools in Manitoba, he quoted the utterances of Joseph Martin, M.P., the author of the acts of 1890, introducing the measures in the Local Legislature, to the effect that the dissatisfaction existed with the system of Separate schools, and not with the way in which the schools were conducted. This showed that it was not because the schools were inefficient that they were abolished, but because of a determination on the part of the local Government to have the system of Roman Catholic schools done away with. The stand now taken by the Manitoba Government, he said, was nothing more than a put-up job. He produced samples of the work done by the pupils in the Roman Catholic schools of the province, and placed them on the table for examination. Attorney-General Sifton's indictment against the Roman Catholic schools he characterized as utterly untrue, slanderous, brutal and wholly unworthy of a Provincial Minister. Even if every word in that scandalous indictment was true, it was simply an admission that the local Government had failed in its duty in not taking measures when the schools were under its control, to make them efficient. It certainly is not a reason why the whole system of Separate schools should be abolished.

Protestant Schools Renamed.

The national school system was simply the old Protestant school system under a new name. In order to show that the local Government was fully aware of the condition of the Roman Catholic schools prior to 1890, Mr. Bernier pointed out that from the time the Liberal Government came into power, a member of the Cabinet occupied a position on the Board of Education, and a Protestant member of the Legislature and a supporter of the Government occupied a seat on the Roman Catholic Board. Four-fifteenths of the members of the Legislature, he said, were totally ignorant of the working of the old law when the acts of 1890 were passed. The passage of these acts in the face of the pledges given by Premier Greenway and his Government proved that religious prejudice had been appealed to for the abolition of the Separate school system.

Public Opinion Opposed.

He, the speaker, admitted that even if the question was now fairly put before the people of Manitoba, the verdict would be against Separate schools, but attributed the reversal of public opinion to the appeals made to the prejudices of the majority. The speaker quoted from the reports of School Inspector Somerset to show that denominational differences did not exist prior to 1890, and said that it was the duty of the Federal Government to take into consideration the fact that a calm, dispassionate judgment of the people of the province before prejudice was aroused would have been very different from the judgment which would now be given. The statement of Attorney-General Sifton that in business and professional life there was scarcely a single man who had been educated in the Roman Catholic schools he characterized as patently false. It was true that the disposition of Roman Catholic youths in Manitoba was to remain on their farms and this was a praiseworthy disposition. An honest tiller of the soil was much to be preferred to a philosopher who used his intellect to blaspheme his God. The National school system was patterned after the Public school system of the United States, and utterances of American public men showed that the tendency of the system in that country was to make the pupils despise honest labor. He pointed out the difficulties attendant upon educating the French half-breeds, and quoted from the reports to show that the percentage of attendance at the Roman Catholics schools prior to 1890 was within 6 per cent. of that at the Protestant schools.

Illiteracy in the Provinces.

Dealing with the charge that the teachers in the Roman Catholic schools were incompetent, he gave a description of the examination they had to pass, and pointed out that more than one-half of the teachers of the Protestant schools held third-class and provisional certificates. He quoted the census returns to show that the percentage of illiteracy in New Brunswick had increased during the past twenty years, while in Quebec it had been considerably reduced, and New Brunswick had abolished Separate schools.

After recess, Senator Bernier, continuing his speech, denied the charge that portions of the grants to the Roman Catholic schools in Manitoba had gone to the priests. He also pointed out that the accommodation and equipment in the Separate schools of the province were quite as good as those in the Protestant schools. In conclusion, he denied the charges that the Separate schools received more than their due share of the school taxes and Government grants for educational purposes.

Senator Angers, after congratulating the hon. gentleman for his able and exhaustive exposition of the case, said that he was not aware that the Government had any correspondence on the subject referred to, but if any existed it would be brought down.

SCHOOL QUESTION SOLVED.

Continued from First Page.

tained in Council later than usual, and Mr. Speaker took the chair without receiving any intimation from the leader of the House that business might be commenced. The result was that prayers were over and the House ready for business on a Government day without any member of the Government being in his place. There was some good-natured chaffing across the floor while the members were waiting. Mr. Haggart was the first Minister to make his appearance. It was 3.25 p.m. and the members had then been waiting for about 10 minutes.

The Minister of Railways got a tremendous ovation from both sides and mentally wondered what it all meant. No sooner had the applause died away than Mr. Ouimet made his appearance, and he was greeted with a salvo of applause.

At 3.30 Mr. Foster entered and a like reception was accorded him. After these few pleasantries the House got down to business.

Mr. Lavigne introduced a bill to amend the Criminal Code, by providing that at preliminary investigations the magistrate might extend the time of adjournment from 8 to 15 days.

Several Government measures were advanced one or more stages.

Our National Wards.

On motion to go into Committee of Supply, Mr. Mills entered at some length into various items of departmental expenditure, dealing especially with the Indian Department.

Mr. Daly remarked that Mr. Mills had devoted most of his time to the Interior Department, over which Mr. Mills presided 16 or 17 years ago. Mr. Mills seemed to be under the impression that nothing had happened since then, and that everything had stood still, because, like Rip Van Winkle, the hon. member for Bothwell had been asleep.

Mr. Daly then showed how the work of the Indian Department had increased, and gave particulars of the strength of the staff and salaries paid then and now. He also gave statistics showing how the Indians had progressed, and that the policy pursued by the Government towards them had had good results.

After recess, Mr. Daly continued his review of the operations of the Indian Department, in reply to Mr. Mills. He showed that the average cost per head for Indian maintenance last year was $32.75, against $56.30 in 1878. The Minister defended the Indian agents from the charges of mismanagement, and said if Mr. Mills wanted to prevent immigration into the Territories he could not do it in a more effective way than by such utterances he had given expression to.

Mills' Amendment Defeated.

Mr. McDonald (Huron) followed on the same lines of Mr. Mills' speech. He strongly condemned the building of the Trent Canal, which was of no national utility.

The House then divided on Mr. Mills' amendment, which was defeated on a straight party vote. Yeas, 57; nays, 87.

The House went into Committee of Supply, and passed several items, and adjourned at 12.45 a.m.

Lake Manitoba Railway Bill.

Mr. Taylor, M.P., sought to have the bill to revive the Lake Manitoba Railway Company's charter and paralleling the line of the Hudson Bay Railway sent back to the committee for consideration.

It will be remembered that the bill was thrown out last week by a majority of one. At Mr. Haggart's request the question stood over until to-morrow.

Leasing Racetracks to Foreigners.

The bill of which Mr. Graves has given notice provides that no racetrack in Canada shall be leased by any foreign racing association for more than six days. Betting and pool-selling are illegal, in some of the States of the Union, with the result that the operations of the Racing Associations are being greatly curtailed. It is reported that one track in Ontario has been been leased for 60 days by an American Association, implying the influx of certain elements in the community which generally congregate at race tracks. Mr. Grieve is anxious, therefore, to limit the residence in Canada of this class of gentry by restricting the duration of the racing.

Military Bands Can Play in Uniform

A misapprehension appears to exist as to the right of military bands to play in public in uniform on occasions other than when they are with the regiment. Two years ago General Herbert issued an order forbidding such action, but the order was cancelled by Mr. Patterson, and has been endorsed by Mr. Dickey, so that bands may now play in public in uniform, with the permission of the commanding officer of the battalion.

Public Accounts Committee.

The Public Accounts Committee had a three-hours' session this morning, when the "Soo" Canal enquiry was resumed. Engineer Thomson was again under examination, and Mr. Hugh Ryan for a short while. The latter gave as reasons for the increased prices allowed him for extra work, decided upon after the original contract was entered into, that the increase of wages of not only mechanics, but also of laborres, was 25 to 40 per cent. Increased cost of stone-cutting was on account of requisite changes in the form, etc. Mr. Ryan said that the $90,000 he got from the Government for finishing the work a year sooner than required by contract did not compensate him for the expenses he incurred in rushing the work. For extra grant alone he paid $35,000. Wages of laborers, etc., also went up, the men being independent, because they knew the work must be finished within the year.

The rigors of the life of a Capuchin Monk were more than Edward Breboeuf or Bro. Edward, as he was known in the Monastery, could stand, as the other day the friar threw aside the flowing robes of the monastery and donning the clothing of a civilian walked out of the building. To a friend he gave his reasons for leaving the monastery. The mode of living, he said, was too severe. Many times they had been brought almost to starvation. The devotions were a serious strain upon the system. The midnight devotions and the service at break of day were quite beyond his endurance, and having lived this habit of life for several years he was now tired of it, and determined to see some of the world. Breboeuf entered the Monastery only seven or eight months ago, but previous to this time he had been for several years one of the Trappist Fathers at Oka.

Mr. T. G. Shaughnessy, Vice-President of the C.P.R., was in the city today.

Branding of Cheese Popular.

An analysis has been made of the replies to the circular sent out by the Committee on Agriculture, asking for the views of dairymen on Major McLennan's bill for the compulsory branding cheese. Ontario returned 345 replies, 261 being in favor of the bill, 53 against and 31 doubtful. Quebec sent 430 replies, of which 409 are in favor of compulsory branding, 11 against, 10 doubtful. Of the total number received, 670 are in favor of the bill, 64 against and 41 doubtful.

Senator Wark, the Nestor of the Upper House, encouraged by the reception which his remarks on the Newfoundland question obtained last week, is going to bring up another matter in the Senate. He will call attention to the unprofitable system of cultivating the soil so prevalent over much of the continent, and ask the Government whether the Experimental Farms, especially in the Northwest, might not be advantageously used in introducing valuable improvements in the system. The dear old gentleman has evidently not seen the Experimental Farm reports.

Notes.

Hon. Mr. Ouimet gave a large dinner party to-night.

Hon. John Costigan, Mr. Cochrane, Mr. Fraser, Mr. Dupont and other members of the House attended the church picnic at Calmet Island in Mr. Bryson's constituency, Pontiac County.

It is said that Hon. Mr. Ives will not likely be in the House this session. His health is far worse than most people realize. On his way to Sherbrooke he consulted specialists who prescribed absolute rest.

Mr. F. T. Shutt, Chief Chemist of the Dominion Experimental Farm, leaves for Quebec to-morrow, to attend the united meeting of mining associations of Quebec and Nova Scotia, and will read an important paper on "Phosphoric Acid in Agriculture." Mr. Shutt delivered an interesting address before the Committee on Agriculture this morning.

The address of condolence which the Conservative members of Commons are sending to Lady Thompson has been beautifully illuminated and engrossed, and to-day was signed by most of the members of the House on the Conservative side.

Senator Power has given notice that on the third reading of the bill to incorporate the Bankers' Life Association of Canada he will move that the title be "The Mutual Life Insurance Association of Toronto."

Don'ts for Swimmers.

Don't show off.
Don't get drowned.
Don't kick a barnacle.
Don't annoy the fishes.
Don't monopolize the ocean.
Don't be afraid of the water.
Don't hesitate about going in.
Don't get broiled by the sun.
Don't chew gum in the water.
Don't bathe in a bicycle suit.
Don't pretend you saw a shark.
Don't dive in two feet of water.
Don't go in with a full stomach.
Don't try to cross the Atlantic.
Don't wear a tight bathing suit.
Don't stay under water too long.
Don't stick your legs above the sea.
Don't stay in after you get a chill.
Don't fool with a dog in the water.
Don't push anybody in the water.
Don't fool with a buoy in the water.
Don't wear jewelery. It is bad form.
Don't drink too deeply of sea water.
Don't be hasty in climbing into a boat.
Don't boast of your prowess in the water.
Don't imagine everybody is looking at you.
Don't drink too much when you come out.
Don't leave your bath room key on the sand.
Don't go in swimming more than once a day.—New York World.

To the Summer Girl.

Don't wind your ivy affection around the oaken heart of the boy who spends money on you recklessly or beyond his means.

Mistrust the young man who quotes poetry. Tie up to him who without affection quotes the latest price of eggs.

Don't wear tight boots. A plain, sunburned girl, with a natural waist and good broad soles on which she can jump is the choice of the youth worth having.

The man who can play the guitar and sing "Thy Face Shall Ever Lead Me On," is not necessarily a better match than the husky youth with steady work.

Do not marry for money, but don't marry to prove that you care nothing for gold. Don't think seriously of any young man who cannot make at least a decent living.

If you are not beautiful and have wit cultivate that. Read about Mme. de Stael. She was never, strictly speaking, a summer girl, but her life is full of useful suggestions to you.

Just dress yourself in nice, fresh frocks, and say all the nice things you can think of about the prettier girls. You will be engaged to the son of a merchant prince before you know it—perhaps to the sons of two merchants princes.—New York World.

The Difficulty of Saving Money.

"Talking about saving money," said a veteran millionaire last night, "it is 100 times harder now to keep cash in your pockets than it was when I was a young fellow and didn't spend a cent. I tell you it's hard for them to save in these times. Every young man wants a bicycle, and it's mighty hard to stand on the streets and see your friends spinning by on wheels and not invest yourself. Again, it's a great privation for a young fellow not to be well-dressed. The distinction between good clothes and poor is so sharp nowadays that it's galling to be conspicuous by cheap attire. Again, there is the theatre, the excursion boat, the races, and a score other inducements to spend money which hardly existed in my day, and I'm glad they didn't, for if they had I honestly think I would have been a poor man now."—Buffalo Enquirer.

A Modern Instance.

Mother—Yes, I know you and George are very devoted now, but are you sure that after marriage you won't tire of each other?

Daughter—Well, if we do, we can go into society and I can join all the charitable associations, and woman's clubs, and then we'll never see each other, you know."

Uncle Si Was in Doubt.

"I kin almost make out this feller's poem," said Uncle Si, laying down the magazine his niece had brought to the "'Low in the West there sullen lies
A cloud portentous, black, with tongue of flame;
A strange thrill brings the teardrop to my eyes,
A subtile feeling permeates my frame."

"Well, what is there you do not understand? It seems a clear exposition of moods produced by a coming storm."

"Oh, I understand the storm part of it all right, but what I can't git at from his verses is whether he feels it comin' in his rheumatics or his corns. Some folks feels it one way and some the other, you know."

Spain Will Retain the Grain Export Tax.

Madrid, June 25.—The Chamber of Deputies has rejected by a vote of 99 to 53 a proposal to abolish the export duty on grain.

LOST OR FAILING MANHOOD,

ERIE MEDICAL CO., Buffalo, N.Y.

SURE SIGN THAT TIMES ARE GOOD.

Manufacturers Voluntarily Increase the Wages of Employes.

Loraine, Ohio, June 25.—The Johnstone Steel Company to-day posted a notice of a 15 per cent. increase in the wages of the men in the converting, dry house and machine shops, in all about 200. The men employed in the shape mill had their wages increased last week. The raise is entirely voluntary. There will be an increase in all departments by July 1. The mill is rushed with orders, and every branch is running to its full capacity.

Lowell, Mass., June 25.—The weavers employed by the Merrimac Woolen Co. have been granted an increase of six per cent. in wages.

Philadelphia, June 25.—The Delaware rolling mill has notified its 300 employes that a 10 per cent. increase in wages will go into effect July 1.

Bicycle Sidewalk for the Island.

The question of bicycle riding on the Island sidewalks was brought before the Police Commissioners yesterday by a petition signed by several Island residents, asking that the commissioners take action to stop the practice. As an offset to this, several of the offending residents had individually written letters setting forth their side of the controversy. The commissioners decided they had no authority to act in the matter, but will recommend that a bicycle sidewalk, 18 inches in width, be laid at each side of the present walks. Tenders for a police boat will be asked for at once.

Cholera and all summer complaints are so quick in their action that the cold hand of death is upon the victims before they are aware that danger is near. If attacked do not delay in getting the proper medicine. Try a dose of Dr. J. D. Kellogg's Dysentery Cordial and you will get immediate relief. It acts with wonderful rapidity and never fails to effect a cure.

Crispi Has a Majority of 332.

Rome, June 25.—In the Chamber of Deputies to-day the Radicals introduced a motion declaring want of confidence in the Crispi Government. This was rejected by a vote of 383 to 151. When the result of the vote was declared there was a scene of considerable excitement, the Radicals shouting "Vive Cavalotti!" and the Government supporters responding with cries of "Vive Crispi!"

Miss Violet Mortimer, daughter of Dr. Montizambert, St. George-street, was married in St. Stephen's Church yesterday to Mr. Charles Walker. The ceremony was performed by the Bishop of Niagara, assisted by Rev. A. J. Broughall.
