WILL MOVE TO AGINCOURT.

New Home of the Magnetic Work of Toronto Observatory—Brief Description of the Building.

It is now definitely settled that the peaceful hamlet of Agincourt, far removed from the disturbance of street cars, is to be the new home of the instruments which do the effective work of the magnetic observatory new in Queen's Park. Mr. William Menzies will be in charge and is now moving his household goods to the spot.

The building to be erected will consist of a circular stone underground chamber of some 30 feet in diameter, topped by a brick structure for the making of absolute determinations. In the underground room in profound darkness, only relieved by two tiny jets of gas, the needles of vertical force, horizontal force, and the declinator will make photographic pictures of the earth's magnetic currents. These records come back to Queen's Park, where Professor Stupart will develop them and use their facts in his study of meteorology.

The new building, it is estimated, will cost in the neighborhood of $4000, and that the utmost care will be exercised in its erection can be seen from the fact that every stone put into its walls must be tested to ascertain that it contains no iron matter to disturb the delicate working of the magnetic instruments within.

The completion of the new quarters this summer will see big changes in Queen's Park, for the meteorological offices will likely be pulled down, and their work carried on at the main building.

A Society Announcement.

New York, April 28.—The Press says: Society's most interesting announcement of the year has just been made. It is the engagement of Miss Edith Dresser, daughter of Capt. George Dresser, United States Navy, to George W. Vanderbilt. George W. Vanderbilt is the youngest son of William H. Vanderbilt.

For the Aged and Infirm Poor.

A meeting of the Toronto Local Council of Women to discuss the housing of the aged and infirm poor and the establishment of associated charities will be held in the theatre of the Normal School on Monday evening at 8 o'clock.

IT IS THE SEASON OF STRIKES

Nine of J. D. King Co.'s Dissatisfied Men Have Been Summoned

On Charges of Intimidating Workmen—Mr. E. F. Clarke, M. P., Will Again Bring the Alien Labor Question Before the House—Garment Workers Also Strike—Latest re the Upholsterers.

The striking upholsterers met in Temperance Hall yesterday morning and afternoon and prepared a statement of their position.

Word has been received from Waterloo stating that the trade there sympathizes with the men here, and that they have gone out until the same demands which the Toronto men are making are given them. Fifty Toronto men are out on strike and fifteen in Waterloo. The upholsterers in Guelph have conceded the demands which the union has made. Ingersoll men have had the rates asked for right along.

"Ten years ago," said one of the strikers, "the minimum price paid was 22½c, while as high as 25c and 27c per hour was paid. The union was very strong then, and there was no trouble, so the men got careless and did not properly look after their interests.

"At the present time some of our men get as low as 15c an hour, the same as is paid workmen on the streets, and they have to work much harder in the present day to get this.

"Everything is going up; we found it hard enough to live formerly, but with bread and sugar and other provisions steadily rising in price, we find it unendurable. The advance we ask for is only 2½c on selling prices.

"At Guelph the contract system has been done away with, and piece work now prevails.

"In some of the papers it is stated that we were offered $11 a week all the year round, steady work, and as high as $13. There has only been one case in two years where a man made $13 a week. The average, counting the time we laid off, is nor more than $6 per week. As for being offered steady work at $11, well, we don't get steady work and can't make $11 a week at the present wages. One of the managers of the firms whose men are out has been offering as high as $15 per week since the strike."

The World saw a present foreman of a firm who are not in the strike, who was offered $15 a week.

"No, sir," said he, "I'm not a union man, but I will stick to the union. As I told the manager who spoke to me, I wouldn't work for him for $5 a day under the present conditions."

Three men came in from Woodstock yesterday, in response to the advertisements, but refused to go to work on hearing the facts. Two of them have returned.

The question of alien labor and the enforcing of the labor law will come up again in the House, according to a letter written by Mr. E. F. Clarke, M. P., to the J. D. King strikers, as no action has been taken since the matter was last brought up. It is expected, however, that the King strike will now be of short duration.

Prosecution This Morning.

This morning nine of J. D. King's striking shoemakers will have to answer in court to the charge of intimidating and interfering with the operation of the works. They are: Charles Whitfield, Alfred Glocklin, James Hackett, John McFadden, Ed. McCamus, James Taylor, Hiram Cleary and two others. The complaints come from several sources, one being men at work in the shops now.

And Now the Garment Workers.

The nine employes of R. B. Love, clothing maker of 73 Adelaide-street west, went out on strike yesterday morning at 8 o'clock. The strikers have only one grievance and that is the discharge of two workers, who were off work on account of illness the first three days of this week, and when they returned to work yesterday morning, their places were filled by two men from Hamilton. The nine employes immediately went on strike, the men from Hamilton going back. The workers are all union men and members of the United Garment Workers' Local Union, No. 89. A meeting will be held to-night at 8 o'clock in Shaftesbury Hall in reference to the matter.

Patents Recently Granted.

Below will be found the only complete weekly, up-to-date record of patents granted to Canadian inventors, which is furnished by Messrs. Fetherstonhaugh & Co., patent barristers, experts, etc., head office, Canadian Bank of Commerce Building, Toronto. English patents: J. H. K. McCollum and R. Emsley, inflating tyres; G. S. Bingham, reaping and harvesting machines.

What Is a Charity?

Chief Justice Armour reserved decision yesterday as to the construction of the will of James Robinson, Brampton, who left an estate of $25,000, chiefly to relatives, and a residuary estate of $3300, which he directed his executors to give to such Protestant institutions as they thought proper. The question for the court to determine was whether the House of Refuge at Brampton comes under the above category. Deputy Attorney-General Cartwright contended that it did not.

Hoffmann's Piano Recital.

Young Josef Hofmann, the pianistic idol, who has captured the musical and cultured in New York, Boston and Chicago, gives his only recital in Canada in Massey Hall on Tuesday, May 10. Toronto music loving people may well congratulate themselves that this event has been secured for this city. A subscribers' list was opened yesterday at the box office, and a large number of musical people secured their places.

..OUR..

CLOTHING

IS THOROUGHLY TAILORED

No matter what price suit you buy here you are getting more real value for your well-earned money than elsewhere. PHILIP JAMIESON

THE ROUNDED CORNER. QUEEN nnd YONGE STREETS.

ANGLO-AMERICAN ALLIANCE.

"A Canadian Militia Officer" Who is Apparently Not Enamored of the Idea.

London, April 28.—(Telegram Cable.)—A letter appears in The Morning Post to-day, signed, "A Canadian Militia Officer," in which, commenting on the advocacy of an Anglo-American alliance, he says the most unpopular act of Sir John A. Macdonald's life was his consenting to the Canadian claims for the Fenian raid being wiped out in the settlement arrived at by the treaty of Washington. Concluding, he asks Englishmen to contemplate the situation, and they will observe that it is the Radicals, Anarchists and Irish Nationalists who are shouting for the success of the Yankees.

The Globe to-day says editorially that if Congress authorizes President McKinley to appoint commissioners to parley with the Canadian and British ones on the outstanding questions of an irritating character, a good opportunity will be furnished to exactly delimit the Canadian-American boundary in the Yukon.

Address by the International President.

Edward J. Lynch, International President of the Metal Polishers, Buffers, Platers and Brass Workers' Union of North America, addressed a fair representation of these trades last evening in Occident Hall. In his address Mr. Lynch pointed out the benefits to be derived from the organization, specially emphasizing those of sanitary conditions, wages and hours of labor. The union is composed of 115 lodges and 16,000 members.

UPPER CANADA TRACT SOCIETY.

Proceedings at the Sixty-Fifth Annual Meeting Last Evening—Review of the Year's Work.

Last night about one hundred persons assembled in Jarvis-street Baptist Church at the sixty-fifth annual meeting of the above society. The president, J. K. Macdonald, occupied the chair, and on the platform were: Rev. Dr. Thomas, Rev. John Kay, Rev. Dr. Robinson, Rev. Dr. Moffatt and others.

The president in his address compared this society to a system of irrigation, fertilizing a barren waste.

The secretary's report showed a wide and varied range of work done, for the most part with great success. The work undertaken embraced religious tracts, book and Bible distribution, missionary colportage work, lumber camp and sailors' missions, and Chinese colportage work. The missionaries of this society in Ontario and Manitoba during the last year traveled 13,015 miles, visited 19,590 families, sold 2875 Bibles and Testaments, and also 10,825 volumes of the best religious books.

Resolutions of thanks for God's blessing upon the society, of recommendation of the work to the sympathy and support of the church, and of thanks to the officers were moved and carried. Rev. Dr. Robinson, Rev. Dyson Hague, M. A., Wycliffe College Rev. Dr. Moffatt and Messrs. J. J. Woodhouse, J. S. Potter, J. Knowles, jr., and E. J. Joselin spoke briefly to the motions.

WILL BEAT THE WIND.

Mr. Knapp Says His Improved Roller Boat Will Travel One Hundred Miles an Hour.

Mr. Knapp has given his roller boat another spin, testing the amount of slip occasioned by the present faulty truck, the wheels of which are made of paper, and, as the water reaches them, instead of working freely, and allowing the huge cylinder full play, they have a tendency to climb, thus reducing the actual power obtained.

Mr. Knapp never expects to get any speed out of his present boat, as the engines are put in on an out-of-date principle, as Mr. Knapp calls it. He will build a large model, 180 feet long, embodying all his ideas, with the paddles running the whole length of the boat. On the ocean he expects to attain a speed of 100 miles an hour, to utilize wave-pressure in rolling the boat along, and if a wind is troublesome, "why," said Mr. Knapp, "we can simply run away from it."

AT THE POLICE COURT.

George S. Appleby, pleaded not guilty to the charge of swinging Bromleigh Moore of $30 on York-street. The police credit the prisoner with several aliases, and claim that he has a long record as a confidence man. He was remanded until Monday.

Two young men named Armatage and Terrant were each fined $5 and costs or ten days for being drunk and driving furiously on the Lake Shore Road. They were caught by a policeman on a bicycle after a hot chase.

William Hunter was sent down for 60 days for stealing a watch and chain from G. D. Ruthven, Richmond-street west. Hunter borrowed the watch to improve his personal appearance when he went out to look for a job. He was arrested in London, having sold the watch and chain.

The Children at the Show.

There will be a special children's morning at the Canadian Military Tournament and Horse Show, and Saturday has been set apart for the amusement of the little ones with a special program for the special admission of 10c each. A cavalry melee will be the military piece de resistance to gladden the hearts of the juveniles, while the ponies will be in the ring, and two exciting jumping contests will please the most appreciative and demonstrative audience that gathers during the course of the whole show. The seats for the afternoon and evening performances are being rapidly disposed of at Treble's new store, King and Yonge-streets, and so attractive is the program that no matter which evening is selected one is sure to see some picturesque military feat or some splendid display of fine horses.

Big Bargain Bombardment.

Messrs. F. X. Cousineau & Co., of the Bon Marche have purchased the Boisseau Bros. bankrupt stock in the city of Montreal. The stock, which consists of 222 cases of a value of $84,313.70, is one of the largest retail purchases of dry goods ever made in Canada, and was bought for spot cash. Boisseau Bros. catered to the best trade in Montreal, so this stock naturally comprises a most magnificent assortment of high-class and fashionable dry goods, which Messrs. Cousineau & Co. now offer to the ladies of Toronto at 50c to 75c on the dollar. Mr. Cousineau confidently states that this shall be the most sensational cut price sale in the history of Toronto.

W. C. T. U. Notes.

The monthly district meeting was held at headquarters yesterday afternoon. Mrs. Bascom, president, was in the chair. Reports were received from the treasurer and Girls' Shelter, which showed that 16 girls have been in the house during the month; situations were secured for eight of them and nine girls have signed the pledge. Mrs. McKee, from Barrie, was present and addressed the meeting on "Narcotics."

The Willard Union will take charge of the monthly devotional meeting on Monday next, at which the annual opening of the mite boxes will take place.

Weigh Yourself before Taking Them.

GAINED 22 POUNDS.

I have more faith in Dr. Ward's Blood and Nerve Pills than anything else I have ever used. Since using them I have recommended them to several of my friends who were troubled as I was, and now they are in splendid health. I had been a sufferer, like a great many other women, with a disease peculiar to my sex. I tried everything I could read or think about to help me, but was getting worse instead of better. My condition was terrible—I was losing flesh and color and my friends were alarmed. I consulted a doctor of this town and he said I would never get better; that I would always be sickly and delicate, and that medicines were of little use to me. Hearing what Dr. Ward's Blood and Nerve Pills had done for others, I determined to try them myself, and to-day I weigh one hundred and forty pounds, while before I weighed only one hundred and eighteen pounds, and now I have a constitution that is hard to beat. I have not suffered any pain in months, and earnestly hope that Dr. Ward's Blood and Nerve Pills will reach every woman suffering as I did. Sincerely yours, MAY COLE, Simcoe, Ont. Dr. Ward's Blood and Nerve Pills are sold at 50c. per box, 5 boxes for $2.00, at druggists, or mailed on receipt of price by THE DR. WARD CO., 71 Victoria St., Toronto. Book of Information free.

Ground Floor Proposition.

Pooled Shares in the Lardeau-Coldsmith Mines, Limited.

The property consists of the Ophir and Oregon mineral claims, in the Lardeau mining division. Vein 50 feet wide, traceable for several miles; paystreak 4 to 18 inches; average assays 1008 oz. silver, 18.9 per cent. copper, .28 oz. gold, values $600; 364.4 oz. silver, 11.8 per cent. copper, .30 oz. gold, values $230 to the ton. Good facilities for getting out ore and shipping. The promoters offer a limited number of pooled shares at 3c per share for the purpose of developing the properties and placing them on a shipping basis, before selling any of the treasury shares, which should then command par.

Capitalization of company only $200,000, of which one-half is reserved for working capital.

Those who know the celebrated Lardeau district, in which the Gold Cup and other well-known shipping mines are situated, will require little further information than is contained in the above, and will act promptly. Others can obtain further information by letter or wire. As a few applications will exhaust this opportunity, orders, accompanied by cheque, will have precedence.

S. THORNTON LANGLEY & CO., ROSSLAND, B.C.

Established March, 1895.

London Register.

The Wildhorse Gold Mining Company have decided to establish a Register in London, England, for transfers of Wildhorse shares. Price in Canada, 15c; London quotation, 1 shilling.
