GRAIN MARKET ACTIVE RALLY FOLLOWS BREAK

May Wheat Was Centre of Speculative Interest—Big Foreign Demand Is Predicted.

CHICAGO, Jan. 15.—Wheat and corn found an active market to-day, particularly in the last hour, when they advanced a cent and assisted in boosting oats and provisions. The range of wheat was nearly two cents.

At the opening wheat sold a trifle over yesterday, but the advance tempted profit-taking and other selling, under which May declined 7-8c. An influence was the failure of Continental markets to reflect an advance at Liverpool, the mainland being attentive to a decline of 1 1-8c at Buenos Ayres. At this concession important buying developed, shorts covering until the reaction had run 1 3-4 for May. Business was exceedingly active, and the close was only 1-4 under the top.

Canada reported an active export business, and an English authority submitted figures purporting to show that importing nations have been running 2,000,000 bushels a week behind requirements for the last six weeks, and from these the conclusion was drawn the exportable surplus of all countries except those of Europe would be needed this crop year. These items, and the strength of corn, were influential in the advance.

Heavy Corn Exports.

Altho detailed information was not available in the corn pit, the traders were convinced that a large export business is being transacted in the coarse cereal. This consideration is said to have been the impulse which moved recent important sellers to reinstate their lines. There was a report that the export transactions were due to a cut in prices to a basis of 3 1-2c over Chicago May prices c.i.f. to Baltimore. The rise in futures drove shorts to cover, and the close was strong.

Oats played a me-too role, with reference to wheat and corn, and May closed at a net advance of 5-8 to 3-4c. Shipping business was moderate.

The continued shortage in hog receipts at important packing points and an advance in hogs lent strength to provisions, which were bought both for the speculative and the investment account. Corn strength also was a factor.

LIVERPOOL GRAIN EXCHANGE.

LIVERPOOL, Jan. 15.—The disappointing American cables yesterday were offset here by the unfavorable political situation, and prices at the opening were higher. Following the opening there was further covering, and prices showed an additional advance. Support at this time was attributed to the sharp advance in Rosario markets, notwithstanding the decline at Buenos Ayres, firmness of Plate offers and fewer Australian offerings. Advices from India are unfavorable, and the continent is bidding freely for cargoes on passage from Argentine. Argentine shipments this week are expected to be light, as indicated by private advices.

Corn opened unchanged to ¼d higher, with the strength in Plate, and following the opening there was a further advance of ½d. The strength in Buenos Ayres, drought in Argentine and fewer American offerings caused shorts to cover.

CHICAGO GOSSIP

Neill, Beatty & Co. from Logan & Bryan:

Wheat—Best action for the week, if not for the month, was recorded in wheat futures today. The last hour brought some important bull news from abroad, as well as claims of export business at Duluth. The biggest buying flurry of the week carried prices up to 95¾c May, and close to 92c July. What was regarded as the most bullish feature for the day was the weekly international review of wheat conditions cabled by Broomhall of Liverpool. This authority takes the position that world's shipments of wheat have been light for several weeks past, that Europe feels the need of milling supplies at present, and that the surplus wheat of this and other exporting countries will all be required during the balance of the crop year.

Erickson Perkins & Co. (J. G. Beaty) wired:

Wheat—We feel more than friendly to wheat, but think the advance has been rather too rapid, and certainly prefer to wait for some setback in the market before taking the long side.

Corn—Notwithstanding the trend of the market, we cannot consistently feel that all of the advance which has taken place during the past two weeks is warranted by conditions.

Oats—Cash prices were about steady.
