BANK OF ENGLAND RATE UNCHANGED THIS WEEK

New York Stocks Are Generally Strong—Mackay the Feature in Local Market.

World Office.
Thursday Evening, Sept. 21.

The local stock market saw more activity yesterday, but this was brought about chiefly thru the operations in one issue. The fact that the Bank of England did not advance its rate yesterday was construed as favorable to the larger markets and was so read tho in a minor sense here. This constituted the whole of the day's market news, and prices in the majority of issues failed to be impressed by new purchases. The Mackay shares were the only active stocks, transactions in the common running into 1400 shares. The price of this issue opened up ¾ of a point higher than yesterday, advanced a point further and then lost the principal portion of the gain. A little manipulation was all that traders could observe in to-day's transactions, but there is a favorable sentiment towards the stock that might be utilized in working the price somewhat higher. C.P.R. made another small advance at London and New York, but did not prove attractive in the local market. Large earnings for the second week of September left an opening to bull Twin City and of which advantage was taken to the extent of a point. The small interest taken in this security now is, however, evidenced by the business which only amounted to 25 shares. Sao Paulo sold ex-dividend at ½ below parity with yesterday's price. Transactions in investment issues were made at steady prices.

I think the market opened too strong to hold, and look for some further reaction. The big banking interests will do what they can to prevent indiscriminate speculation until the money market is more settled. Call money is firmer to-day, but time rates are easier. There is nothing in sight to cause any marked declines, and I think safe to buy on further recessions for moderate turns.—Charles Head.

American Locomotive—Those who have means of knowing the extent of the orders already booked by American Locomotive Company say they would not be surprised if the company earned better than 20 per cent. on the common stock this year. Some observers who are aware of the great earnings are comparing it with American Smelting, and they believe Locomotive common will gradually move upward regardless of any dividend that the management may declare.—News.

Joseph: All things favor bull side from present market conditions. Corn crop absolutely assured and easy money is now being discounted. Brooklyn Rapid Transit absorbs last opposition lines and should be a purchase for quick and substantial profits. Reading report shows over 10 per cent. on common stock. These large earnings should be reflected in higher prices for Erie, Canadian Pacific Railway is approaching the 200 mark. Buy Wabash; it will have a quick rise before the meeting.

* * *

The sharp upward movement in prices in the first hour represented aggressive manipulation on the bull interests, but in the second hour the market acted rather tired and stocks were coming on the market in a manner suggestive of rather liberal profit-taking, if not selling in anticipation of a rather good reaction. The upward movement has not had the approval of some rather important interests and the manner in which closely held stocks like Louisville & Nashville, Atlantic Coast Line, St. Paul, Delaware & Hudson, Great Northern preferred and Northern Pacific were marked up did not bring a proportionate response in the other standard stocks, such as the Pennsylvania group, the Steel shares, nor did it stimulate any amount of buying in the lower priced stocks.

Wm. A. Rogers, Limited, directors, have declared the regular quarterly dividends of 1¾ per cent. on the preferred stock and 1 per cent. on the common stock of the company, being at the rates of 7 and 4 per cent. per annum respectively. The dividends are payable Oct. 2 next to shareholders of record on the evening of Sept. 21 at close of transfer books. The transfer books remain closed until the morning of the 2nd prox.

* * *

The directors of the Carter-Crume Company, Limited, have declared the usual quarterly dividend on the preference stock of the company of 1¾ per cent., being at the rate of 7 per cent. per annum, and the usual half-yearly dividend on the common of 1½ per cent., being at the rate of 3 per cent. per annum, both payments to be made Oct. 2. Transfer books close this afternoon, and remain closed until date of dividend payment.

On Wall Street.

Marshall, Spader & Co. wired J. G. Beaty (King Edward Hotel), at the close of the market to-day:

The market showed satisfactory strength during the early trading and advances were secured of a substantial character in some issues, but a rather wide distribution of selling orders followed the advance and during the late trading the market eased off under this pressure, tho without loss in tone and no special weakness.

While Reading was strong, Erie showed evidence of exhaustion of supply and this was also true of the trunk lines during the afternoon and to a certain extent in the grangers.

The market appeared to be a waiting one, without evidence of desertion on the part of interests identified with the recent support.

The result of the week's money movement at this writing would suggest a much better bank statement than recently thought possible and the advance in money rates to-day to 4½ per cent. for call money was probably a restriction on call loans by the banks and an effort to force a distribution elsewhere to the relief of those institutions which are members of the clearing house and thru which the sentimental effect of the financial changes would be felt by the public.

The advance since last Friday has been important enough to justify caution in trading and some discrimination in making selections, and this is all that can be said of the market at this time, which would be justified in the forecast.

Ennis & Stoppani wired to J. L. Mitchell, McKinnon Building:

The market was strong to-day on the failure of the Bank of England to advance its discount rate and the consequent better feeling in London. Foreign houses were liberal buyers, taking considerable Canadian Pacific, L. & N. and St. Paul. There was some good buying of the Steel stocks, based on legitimate conditions affecting the steel industry and the earnings of the Steel Corporation. The advance in the official selling price for steel billets to $25 per ton is a bull card on the Steel stocks. There is no foundation in the report of an early dividend on the common stock, however, and it is asserted in quarters having good source of information that there will be no dividend on the common stock for a considerable time. While the general consensus of opinion in the "street" is that new commitments should be conservatively made, it is noteworthy that for a long pull they are uniformly bullish.

W. F. Dever & Co. to Heron & Co.: The stock market was again strong all day, there being no selling pressure to speak of. The buying was more aggressive than for some time past. The money is about all there seems to be in sight to prevent a rampant bull market, but as a whole it is probably much better for every body that the market is on what might be classed "a gradual bull market." Among the active list which has been very much neglected of late is A.C.P.; it has not moved in proportion with the other active issues. If the Boston crowd were on top of the market it would be different, but they are heavily short. This reminds us, what has become of Lawson? He has been silent now for 10 days, but he has a singular genius of knowing when to keep still. His bear campaign of three weeks ago has turned out to be a little premature, but if he put the market down for the purpose of buying as cheap as possible, then he succeeded in good style. Good tips were out to-day on L.N., and it begins to look as if it will be run up like Can. Pacific.

Relieve St. Paul, U.P., R.I., O.W. Co., N.Y.C., Sugar and Copper should all be bought on slightest recessions.

Money Markets.

The Bank of England discount rate is 3 per cent. Money, 1¾ to 2 per cent. Short bills, 3 per cent. New York call money, 2 to 4 per cent. Last loan, 2 per cent. Call money at Toronto, 4½ to 5 per cent.

Cotton Gossip.

Marshall, Spader & Co. wired J. G. Beaty, King Edward Hotel, at the close of the market to-day:

The market was dull and featureless today with very little reflection of the strength displayed by the Liverpool market or the southern spot markets.

The trading was not enough in volume to indicate general interest on the part of the public or more than ordinary professional transactions.

Southern spot markets are more active and stronger and the New York market is filled very near a parity with the eastern interior markets.

Weather news and conditions continue favorable for picking and marketing and while receipts are falling behind last year, the movement continues in excess of expectations.

The market is not showing activity, but the tone is excellent and aided by rather steady southern markets, the pool in October cotton may force a higher level, the it is reported that large amounts of cotton are pointed this way for delivery on contract.

The present stock would not seriously inconvenience a pool of determined operators, but the character of recent selling would lead us to believe that the market might take a sudden run upward at any time.

ADDITION TO SANITARIUM.

Corner Stone of Institution is Laid at Guelph.

Guelph, Sept. 21.—(Special)—The city proposes to install a new system of filteration at the waterworks and have practically closed a deal with the Roberts Filter Manufacturing Company of Philadelphia, for a mechanical gravitating filter. But when the expenditure of money is affected all matters must receive a two-thirds vote of the council. This is lacking by one. In the meantime the plans will be laid before the provinical board of health.

Hon. W. J. Hanna, provincial secretary, to-day laid the corner stone of the new public buildings at the Homewood Sanitarium. The addition to the sanitarium is a large one, costing over $100,000.

A large platform had been erected around a big tree and was gaily decorated with flowers and bunting. On the platform were, Hon. W. J. Hanna, J. W. Langmuir, president; Robert Jaffray, vice-president; and Dr. Hobbs, superintendent of the institution, F. C. Jarvis and E. Galley, directors; Rev. S. E. Marshall; J. P. Downey, M. L. A., J. M. Bond, H. W. Patterson, Dr. Brock, G. M. Miller, F. Dowler and others.

Mr. Hanna referred to the work of the asylums, applauded the fact that heads had joined together to work out a more successful scheme for the caring of the insane.

Mr. Langmuir reviewed his fifteen years' experience as provincial inspector of asylums, prisons and charities. The higher classes of patients he said were going to the United States for treatment. This incurred greater expense both in transportation and confinement. Then again the wealthier classes did not feel inclined to send their friends to public institutions, hence their needs had to be looked after. In 1882, when Mr. Langmuir relinquished his position as inspector, and in order to keep in touch with his work, he united with several other gentlemen and founded the Homewood and the applications for admittance had grown so greatly that an enlargement was necessary.

Will Race Thanksgiving Day.

The Central Y. M. C. A. boy's harriers will hold their 2 1-2 mile race on Thanksgiving Day, starting at 9.30 a. m. All those wishing to enter are required to leave their names with G. Walker, secretary, at once.
