Vapo-Cresolene

Established 1879.

Whooping Cough, Croup, Bronchitis Cough, Grip, Asthma, Diphtheria

Cresolene is a boon to Asthmatics

CRESOLENE is a long established and standard remedy for the diseases indicated. It cures because the air rendered strongly antiseptic is carried over the diseased surfaces of the bronchial tubes with every breath, giving prolonged and constant treatment. Those of a consumptive tendency, or sufferers from chronic bronchitis, find immediate relief from coughs or inflamed conditions of the throat.

Vapo-Cresolene is sold by druggists or sent prepaid on receipt of price.

A Vapo-Cresolene outfit including a bottle of Cresolene $1.50. Send for free illustrated booklet.

The Great Canadian Hog.

I used to sing fully many a song
That I've forgotten now,
About the splendid virtue of
The Great Canadian Cow.

Full many a man has crossed the stream
That drains the Northern Zone;
Pound prints of butter, fresh from cream,
Each formed a stepping stone.

I used to sing full many a song
Enthusiastic then
About the virtues of
The Great Canadian Hen,

She furnished tea and sugar when
We looked at money twice
Before we let it go; the hen
She always had the price.

And now Pegasus old and stiff
I resolutely fling;
I want to sing a song about
The Great Canadian Hog.

In foreign lands a travell r
He sets the world agog,
All nations are acquainted with
The Great Canadian Hog.

Wheat may be failure, but
He never slips a cog;
Our corner-stone is bacon from
The Great Canadian Hog.

I am the farmer's chosen bard,
In front in shine or fog;
I pray the fates may spare, O lard,
The Great Canadian Hog!

The Khan.

The Mould of Form.

An old Englishwoman of exceeding stoutness was making efforts not immediately successful, to enter the rear door of an omnibus. The boy on the box leaned down and cried genially: "Try sideways, mother, try sideways!" To which the old woman responded; "Lord bless ye John, I ain't got no sideways!"

THE FLAGGING ENERGIES REVIVED.—Constant application to business is a tax upon the energies, and if there be no relaxation, lassitude and depression are sure to intervene. These come from stomachic troubles. The want of exercise brings on nervous irregularities, and the stomach ceases to assimilate food properly. In this condition Parmelee's Vegetable Pills will be found a recuperative of rare power, restoring the organs to healthful action, dispelling depression, and reviving the flagging energies. m

Weak Kidneys Bright's Disease and Diabetes

Use Dr. Shoop's Restorative to Cure the Cause, If You Suffer From These Symptoms.

Here are the symptoms of Kidney complaints: Urine laden with sediment, brick dust in urine, highly colored urine, greasy froth or blood in it, stringy mucous in urine, unusual desire to urinate, pain in passing water, pain in the back and over the kidneys, hot, dry and itching skin, hair dry and brittle, painful joints, legs feel weight, chilly sensations, loss of dullness, loss of memory, general debility, irregularity of eyesight, heart disorders hearing, waxy trouble with skin, fever, shifting from one foot to the other in standing. An improper treatment is often worse than none. Most Kidney medicines get their effect from remedies called diuretics. These are practically kidney physics, acting as cathartics act on the bowels. They excite the kidneys to unusual action, they cause over-strain. These diuretic remedies are themselves the frequent cause of serious kidney disease. Don't try to doctor the kidneys themselves, for you will only harm them. Their only strength is nerve power. Dr. Shoop's Restorative (Tablets or Liquid) vitalizes the nerves that operate the Kidneys. Sold and recommended by

LOCAL OR OTHERWISE.

THE best way to get satisfaction out of of a garden is to forget what you planted.

IN his search for knowledge, Bill
Fell into a sausage mill,
His folks with fortitude divine
Said, "Goodness! doesn't Bill look fine!"

SCHOLARS and teachers are considerably buoyed up by the fact that the summer holidays are not very far away. Only six weeks more of labor.

SAMMY stopped a trolley car,
By standing on the track,
Which gave his system quite a jar—
Sam's sister now wears black.

"TOMMY, did you give your brother the best part of the apple as I told you to?" Tommy: "Yessum; I gave him the seeds. He can plant 'em and have a whole orchard."

THE Education Department has issued the time-table for the July examinations. These include the examinations for junior and senior teachers; junior, honor, and scholsrship matriculation; commercial specialist, and art specialist. The only centre for the art specialist examination will be at the Education Department, Toronto.

THE month of June comes next and the usual matrimonial stir is anticipated. The GUIDE is prepared for any emergency and will be glad to have a share in such joyful events, no matter how small. The stationery should be neatly and correctly printed in the manner fashion decrees, and this is where the GUIDE comes in. We have also a nice line of wedding cake boxes which can be had in any quantity.

YES, our garden beds we rake and all manner of pains we take, to have them slick and nice and neat, in fact they simply can't be beat. We turn our backs and walk away and view them on the coming day—Horrors! those beds so span and spick are clawed and wallered—we raise a kick; our neighbor's chickens running loose and garden making's little use, and those old hens our garden looting, may tempt us yet to do some shooting, and to alleviate our wrath we'll make our dinner on chicken broth.

MRS. JAS. GIFFEN, of Amiens, formerly of Warwick, has received a letter from her brother, Dr. T. I. Janes, of San Francisco, conveying the glad news that the lives of himself and his family were spared, the great fire going within a block of his residence. He states that more than 250-000 people are homeless. He intended leaving San Francisco on the 2nd of May on a long trip to Europe and the continent with expectation of visiting Canada on his return, but since the disaster his plans have been some what changed. Dr. Janes is an expupil of the Strathroy Collegiate Institute.

MARY had a little lamb, its fleece was white as snow; it strayed away one day, where lambs should never go. And Mary sat her quickly down and tears streamed from her eyes; she never found the lamb because she did not advertise. And Mary had a brother John who kept a village store; he sat him down and smoked a pipe, and watched the open door. And as the people passed along and did not stop to buy, John sat still and smoked his pipe and blinked his sleepy eyes. And so the sheriff closed him out, but still he lingered near, and Mary came to drop with him a sympathetic tear. How is it, sister, can you tell, why other merchants here, sell all their goods so readily and thrive from year to year. Remembering her own bad luck the little maid replies: "These other fellows get there, John, because they advertise.

Success and Failure.

Toronto Saturday Night says: The trouble with this country is that it is full of people who are running out work that they consider "plenty good enough." From the man who cuts the grass on your lawn or builds you a shed, up to the men who sit in parliament and rule the country, nearly everybody is aiming to render such service as will be good enough to answer the purpose. The carpenter who is botching his job in the way easiest for himself will tell you that it is good enough, but those whose makeshifts are not so readily detected will inform you that their way is best and the other way would not answer at all. Through the ranks of these good-enoughers, whether they be laborers, mechanics, clerks or professional men, the one man in a hundred who makes a staunch, copper-rivetted job of anything he undertakes, drive straight to success just as if he had a track under him exclusively his own, and a trolley overhead. The good-enoughers call him lucky, but the secret of his presence has been that he has not jarred the nerves of everybody he has rendered service to by loose handiwork calling for that shudden producing remarks, "I guess it will do." He is a man who delivers the goods neatly packed, at the right place, and on time. There is a kind of man who wonders why he does not succeed, and yet he never owned a jack-knife without breaking its blade trying to take out screw-nails—the kind of man who never has the right tool, nor the right answer, nor the opinion, nor the information that will serve anybody's purpose at the right moment. If the manager is in a tantrum, in this man walks and gets the storm. When any thing drops, this man loses a finger or toe. If the house burns, you know without asking that his insurance lapsed a week before.

BY-LAW NO. 8, 1906.

A By-law to provide for drainage work in the Township of Bosanquet in the County of Lambton, and for borrowing on the credit of the municipality of Warwick the sum of $383.50 the proportion to be contributed by the Township of Warwick for completing the same. Provisionally adopted the thirtieth day of April, A. D., 1906.

Whereas the municipal council of the Township of Bosanquet have caused an engineer to examine the south boundary drain in said Township and whereas said engineer has pronounced said drain in need of repair and that the Township of Warwick should contribute a certain portion of funds for completing the same. Report of the said engineer being as follows:

To the Municipal Council, of the Township of Bosanquet.

GENTLEMEN:—In accordance with instructions received from your Hon. Body I beg to state that I have made an examination of the South Boundary Drain in your municipality with a view to putting the same in a proper state of repair. This drain consists of a main drain and branch and both will require repair and I would recommend such work to be done in accordance with the profile herewith submitted.

The plan shows the course of the work and the lands affected by the proposed work. Over the course of the drain and branch I have planted stakes at intervals of two chains or eight rods numbered with even numbers and have taken levels from which the profile has been prepared.

I estimate the cost of the work to be as follows:—

Excavation and spreading main drain.

St. o to st. 1, 24 cu. yds. at 16 cts	$ 3 84
" 1 " " 30, 694 cu. yds. at 16 cts	111 04
" 30 " " 60, 1067 cu. yds. at 16 cts	170 72
" 60 " " 90, 726 " " " " " "	116 16
" 90 " " 112, 490, cu. " " " " "	78 40
Branch.	
St, o to st. 37, 646 cu. yds. at 15 cts	96 90
" 37 " " 38, 17 " " " " "	2 55
Total for excavation and spreading	579 61
To repair culvert on Townline at head of branch	8 00
To deepen G. T. R. culvert	30 00
Clerk's fees, Warwick, $6.00, Bosanquet, $10.00	16 00
Assistance on Survey	4 00
Plans, profiles, etc., (in duplicate)	39 00
Letting, superintending and other expenses	41 39
Total estimated cost	718 00

This sum I assess and charge against the lands and roads in any way liable to assessment under The Drainage Act as per the annexed Schedule of Assessment.

All of which is respectfully submitted.

I have the honor to be, Gentlemen,
Your obedient servant,
R. STANLEY CODE, Bos. Tp. Engr.

Dated at Alvinston this 11th day, Nov., 1905.

SPECIFICATION.

The work to be done under this specification comprises the repair of the South Boundary Drain and Branch.

2. The centre of the present drain shall be taken as the centre of the proposed work except where sloping may be required where the banks are sodded when all sloping shall be done from one side only.

3. The depths shown on the profile are to be measured from the surface of the ground at the foot of the planted and numbered stakes. These stakes are planted two chains apart and are numbered 0, 2. 4, etc.

The bottom excavations shown on the profile do not govern the work in any way but are given for estimating quantities.

The bottom of the drain must be brought to a regular and even grade between the points of change shown on the profile so that no water will stand in the bottom. The bottom widths shall be those shown on the profile and the side slopes one to one cut straight from top to bottom.

4. The earth excavated from the drain is to be cast in about equal quantities on both sides of the drain except along a fence when all the earth shall be cast to the side opposite. The earth is to be spread back not deeper than one foot and none shall be left nearer than three feet from the edge of the drain. Should the crop be in at the time of construction the contractor shall after the removal of crop spread the earth. All ditches, runs or water-courses entering the drain must be kept open their full size. No earth is to be cast against fences along the drain.

5. Any culverts, bridges, crossings or fences which the contractor finds necessary to remove must be replaced immediately upon completion of that portion of the drain.

6. The whole work is to be done in a good and workmanlike manner to the satisfaction of the Commissioner in charge and the Engineer making the final inspection.

And whereas the said Council of the said Township of Warwick are of opinion that the drainage work so described is desirable.

Therefore the said Municipal Council of the Township of Warwick enacts as follows:

1st. The said report, plans, specifications, assessments and estimates are hereby adopted, and the drainage work as therein indicated and set forth shall be made and constructed in accordance therewith

2nd. The Reeve of the said Township may borrow on the credit of the Corporation of the said Township of Warwick the sum of $383.50, being said Municipality's proportion of the funds necessary for the work, and may issue debentures of the Corporation to that amount in sums of not less than $50 00 each and payable within 5 years from the date thereof with interest at the rate of 4 per centum, per annum, that is to say in 5 equal annual payments. Such debentures to be payable at the office of the Township Treasurer and to have attached to them coupons for the payment of interest.

3rd For paying the sum of $42.40, the amount charged against the said lands for benefit, the sum of $234.15, the amount charged against said lands for outlet liability, and the sum of $49.90, the amount charged against the said lands for injuring liability apart from lands and roads belonging to or controlled by the Municipality, and for covering interest thereon for 5 years at the rate of 4 per centum, per annum, the following total special rates shall be assessed, levied and collected upon and from the undermentioned lots and parts of lots and the amounts of the said total special rates and interest against each lot or part of lot respectively shall be divided into 5 equal parts and one such part shall be assessed, levied and collected as aforesaid in each year for 5 years after the passing of this By-law during which the said debentures have to run.

Con.	Lot or part of lot.	Acres.	Benefit.	Out'et liability.	Injuring liability.	Total.	To cover interest.	Total special rate,	Each annual assessment.

	Total					$383 50			

4th. For paying the sum of $57.05, the amount assessed against the said roads of the Municipality and for covering interest thereon for 5 years at the rate of 4 per centum per annum, a special rate on the dollar sufficient to produce the required yearly amount therefor shall over and above all other rates, shall be assessed, levied and collected, (in the same manner and at the same time as other taxes are collected) upon and from the whole rateable property in the said Township of Warwick in each year for 5 years after the final passing of this By-law during which the debentures have to run.

5th. This By-law shall be published once in every week for four consecutive weeks in the GUIDE-ADVOCATE newspaper, published in the village of Watford, and shall come into force on the final passing thereof, and may be cited as the McGill Local Drain By-law.

———Reeve. ———Clerk

NOTICE.

I, W. H Stewart, Clerk of the Township of Warwick, hereby certify the above to be a true copy of a By-law provisionally adopted by the Municipal Council of the Township of Warwick, and a Court of Revision will be held on the same in the Town Hall, Warwick Village, on Monday, 4th day of June, at one o'clock p. m.

And take notice that any one intending to apply to have the By-law or any part thereof quashed must not later than ten days after the final passing thereof serve notice in writing upon the Reeve and upon the Clerk of the Municipality of his intention to make application for that purpose to the High Court of Justice during the six weeks next ensuing the final passing thereof.

W. H. STEWART, Clerk.
