Four Days Later.

ARRIVAL OF THE ARABIA AT NEW YORK.

NEW YORK, SEPT. 30.

Arabia arrived last night.

Steamship *Hammonia* from Hamburg, 15th, exploded powder magazine, and wounded several. Put back for repairs.

Atlantic Telegraph Stock had fallen, owing to reports from Valentia.

Political news unimportant.

The Mails from India and China bring no additional news.

Consols closed Saturday at 97¼ a 97½.

Money very abundant, and bullion largely increased in the Bank.

MARKETS.—Sugar steady and prices firm. Teas firm; Common Congou 10½d. Liverpool Breadstuffs quiet with a decline of 6d. on flour, and a 1d. on wheat—very little doing; provisions unchanged.

VENTILATED CARS.—Five cars ventilated on the system of ex-sheriff Rattan, are now running on the Grand Trunk Railway. The writer had the pleasure of a trip on one of those lately. It was all that could be desired on the score of coolness, pure air and comfort. No matter how hot, close and dusty the other cars may be, the air in the ventilated cars is as pure and refreshing as the first breeze of spring. A current of air regulated in quantity, continually passes into the car, being first purified from dust, by passing over the water in the receptacle beneath the car. Old fogies influenced by experience dearly bought in the other cars, persist in raising the windows, which at once disturbs the ventilation. A remedy will be provided for this by fastening the windows. Six more cars are now being fitted up, which will be ventilated on this system, and it is expected that in time, all the cars on the road will partake of the benefit of the improvement, and the Grand Trunk will then be the most complete road, in point of safety, durability and comfort, that has yet been built in America.—*Coburg Sun.*

A Liverpool paper contains the following remarks on a railway scheme that has been submitted to the Secretary for the Colonies:—

THE GREATEST RAILWAY YET!—The grandest inter-oceanic railway scheme yet conceived has been submitted to the Colonial Minister. It is the plan of a line from Halifax to Vancouver's Island. The importance of thus connecting the Atlantic and Pacific Oceans is enforced by a newspaper correspondent, and his figures are calculated to arrest attention. It is the least argument in favor of this gigantic proposal that the line will pass entirely through British Colonies and possessions. The advantages of the railway would be felt in both hemispheres of the world; and all Europe, with a considerable portion of America, would gain by it. This line of communication would considerably shorten the distance between England and Vancouver's Island, China, and Australia.—A calculation shows that the route proposed is much shorter and quicker than the shortest hitherto considered practicable—than *via* Panama. The distance to be traversed by the Inter-Oceanic Railway would be 2,300 miles. Such a line of communication, if now available, would save passengers to Fraser river 22 days; but it must be borne in mind that at present the new colony can only be reached via San Francisco. But the writer proves that under any circumstances, that the route he proposes to British Columbia, China, and Australia, is better than that by Panama. The former route would, he calculates, be quicker by ten days than the latter.

THE LEVIATHAN.—The Emperor Napoleon is in treaty for the purchase of the Leviathan. The negociations for the purchase was interrupted by his declarations that the purchase might possibly offend the Queen of England. Her Majesty is, however, understood to have replied that the Leviathan was purely a commercial transaction, with which the Government had nothing to do. The negociations were then renewed by the Emperor, who is extremely desirous to possess the big ship, which would be used as a tremendous sea battering ram; the bows would be reinforced by stupendous iron beams, and girders of immense size and strength, and sharpened so that she might cut down any ship by a collision. Thus armed, propelled by the combined force of 2,400 horses, her broad acres of canvas spread forth to catch additional impetus from the winds, the sea Titan would rush forth into the ocean in search of prey; and where is the ship that could either elude or resist a foe of such magnitude?—It is said, however, that the French ministry is opposed to the purchase, pleading that the price asked (600,000, or about two-thirds of the sum believed to have been expended on the Leviathan) would suffice to construct three or four frigates *'cuirasses' i.e.* frigates covered with enormous plates of polished steel, which are thereby rendered invulnerable to shot and shell, and of which six have already been ordered. The Emperor left for Biarritz without coming to any decision on the subject.

The *Times* of Thursday, the 9th inst., says—"The condition of the Atlantic telegraph is unaltered. Signals continue to be received, but they are too uncertain and faint to be intelligible.—Occasionally an entire word is given but never anything approaching to a sentence. The experiments made still lead to the belief that the injury is near the coast—probably within two or three miles. The strong portion of the cable manufactured expressly for the shore has now been shipped from Plymouth for Valentia, and will be substituted immediately on its arrival in place of the ordinary wire, which, however well adapted for undisturbed depths, is totally inadequate to resist the liability to accident on a rocky coast. Transactions in the shares have taken place to-day at 485 to 500, the latter being the closing quotation.

Another Explosion in Russia.—Accounts just in from St. Petersburgh, dated Sept 1, talk of sad reverses. Another powder magazine has exploded seven miles from the capital; near 40 000 pounds of that combustible killed 100 workmen and shattered all the vicinity. This occurred at Ukhta. Pulouski, a village and villa of Due Constantine, had taken fire, and all was in ashes. Hundreds of houses had been burnt at Moscow by clandestine fabricators of lucifer matches, that industry having been so highly taxed that contraband factories had been set up with this result. Forests were still in flames, and the smoke was intolerable in the streets of St. Petersburg.

An accident has occurred to the Atlantic Cable, preventing the transmission of intelligible signals. Mr. Edward O. Whitehouse, formerly one of the electricians of the Company, but who has recently been superseded in his office, writes to the Times, complaining of the treatment he has received from the Directors, and declares "that the force of the Atlantic swell on the west coast of Ireland is sufficient to endanger the thin deep sea cable near the shore; that it requires protection there; that he had to raise and repair the faulty part of the cable prior to the transmission of the Queen's and the President's messages, and thus restore the free intercommunication which had ceased. The sum is, that the defect is in the part most easy to repair and that it cannot be very difficult to so protect the line as to obviate the present danger, which may be fatal at any hour to the electrical communication.

The reinforcements for the 8th Hussars, 17th Lancers, 28th Royal Irish, 33d (Duke of Wellington's) Regiment, 51st (King's Own) Light Infantry, 56th, 57th, 71st Highlanders, 72nd Highlanders, 72d Highlanders, 86th, 89th, 92d Highlanders, and 95th Regiment, to the number of 430 men of all ranks, embarked at Gravesend on the 7th inst. for Bombay.

The three regiments in the Mediterranean now under orders for India will be an augmentation of upwards of 2700 well drilled soldiers fully up to their work. The 48th regiment and the 1st battalion of the 1st regiment of foot are ordered to embark for Calcutta; the 28th proceeds to Bombay. All those regiments are to go by the overland route.

HOLLAWAY'S OINTMENT AND PILLS.—By a specific *ukase* of the late Emperor of Russia, these medicines have been admitted into the public hospitals throughout the Empire. The Pills are used in the Russian army as a specific for cholera and diarrhœa, and the Ointment as the best dressing for wounds.

Sold at the manufactory No. 80 Maiden Lane, New York, and No. 244 Strand, London; and by druggists, at 25c., 62 1-2c., and $1 per box.

Married.

At St. John's Church, on Tuesday 28th instant, by the Rev. George Armstrong, assisted by the Rev. John Armstrong, Frederick de St. Croix Brecken, of Prince Edward Island, Esquire, Barrister at Law, to Helen Leith Boyd, daughter of the late Capt. Emslie, H. M. 33d Regiment.

Died.

On Wednesday morning, Mary Ann, wife of Mr. Charles G. Allan, aged 21 years.

At Sussex Vale, on the 25th ult. aged 63 years, Anna Maria, wife of Thomas Smith, Esq., formerly of this city, and sister of Major General Sir F. W. Williams.

Supreme Court, IN EQUITY.

KEATING'S COUGH LOZENGES.

FOR HALF a CENTURY this WELL-KNOWN REMEDY for Pulmonary disorders has successfully stood the test of public approval, and their usefulness has been extended to every clime and country of the civilized world. They may be found alike on the gold-fields of Australia, the back-woods of America, in every important place in the East or West Indies, and in the palace of Pekin. During this long period they have withstood the pretensions of numerous inferior rivals, and are now the acknowledged favorite for Coughs, Colds, Asthma, &c. Prepared in boxes and tins of various sizes, by THOMAS KEATING, Chemist, 79, St. Paul's Churchyard, London. Retail by all Druggists and Patent Medicine Vendors in the World. N.B.—To prevent spurious imitations, please to observe that the words "KEATING'S COUGH LOZENGES" are engraven on the Government Stamp of each Box, without which none are genuine.

FINE HEAD OF HAIR.

THE BEARD, WHISKERS, AND MUSTACHIOS.

ROWLANDS' MACASSAR OIL

Is now universally known as the only article that can be depended upon for

The Growth, Restoration, and for Improving AND BEAUTIFYING THE HUMAN HAIR,

Proved beyond question by its successful result, for more than HALF A CENTURY past, and when every other specific has failed. It prevents it from falling off or turning grey—strengthens weak hair, cleanses it from Scurf and Dandruff—and makes it beautifully soft, curly, and glossy. Its operation in cases of baldness is peculiarly active; and in the growth of Whiskers, the Beard, and Mustachios, it is unrivalled in its stimulative operation. For Children it is especially recommended, as forming the basis of a beautiful head of hair. Its invaluable properties have obtained the Patronage of Royalty, and the Aristocracy throughout Europe; while the high esteem in which it is universally held, with numerous testimonials constantly received of its efficacy, afford the best and surest proofs of its merit.—Price 3s. 6d., and 7s. Family Bottles (equal to four small), 10s. 6d.; and double that size, 21s.

CAUTION.—On the wrapper of each bottle are the words—

ROWLANDS' MACASSAR OIL, &c.,

in white letters, and their signature, "A. ROWLAND and SONS," in Red Ink. Sold at 20, Hatton Garden, London, and by Chemists and Perfumers.

CURTIS ON MANHOOD.—SHILLING EDITION. A MEDICAL ESSAY ON NERVOUS AND GENERATIVE DISEASES.

Just Published, the 77th Thousand, with numerous plates, in a sealed envelope, price 1s., or sent post-paid by the Author, to any British possession for 14 St.

MANHOOD; the CAUSE and CURE of PREMATURE DECLINE, with plain Directions for perfect Restoration to Health and Vigour; being a Medical Review of the various forms and modern treatment of Nervous Debility, Impotence, Loss of Mental and Physical capacity, whether resulting from Youthful Abuse, the Follies of Maturity, the Effects of Climate, or Infection, &c.; with Observations on a new and successful mode of detecting Spermatorrhœa, and other Urethral Discharges, by Micro-scopic Examination; to which are added, Curious and Interesting Cases, with the Author's recipe of a Preventive Lotion.

By J. L. CURTIS, Surgeon, 15, Albemarle-street, Piccadilly, London.

"CURTIS ON MANHOOD.—The professional reputation of the author, combined with his twenty years' experience as medical referee in the treatment of nervous debility, &c., fully accounts for the immense reputation which this popular and 50th edition medical treatise has obtained."—Sunday Times, 23rd March, 1856.

"CURTIS ON MANHOOD.—It is the duty of all men to study the laws of their body, no less than those of their mind. In no piece of this work will be found golden rules for regulating the one and preserving the other."—Mark Lane Express, 24th March, 1856.

"We feel no hesitation in saying that there is no member of society by whom the book will not be found useful—whether such person hold the relation of a parent, preceptor, or a clergyman."—Sun, Evening Paper.

Sold also by PIPER & Co., 23, Paternoster-row, London.

A BEAUTIFUL COMPLEXION,

AND SOFT AND FAIR HANDS AND ARMS,
Are fully realized and sustained by the use of

ROWLANDS' KALYDOR,

An Eastern Botanical Preparation, perfectly free from all mineral or metallic admixture. It is distinguished for its extremely bland, purifying, and soothing effects on the skin; while, by its action on the pores and minute secretory vessels, it promotes a healthy tone, at the same time allaying every tendency to inflammation, and thus effectually dissipates all redness, tan, pimples, spots, freckles, discolorations, and other cutaneous visitations. The radiant bloom it imparts to the cheek, the softness and delicacy which it induces of the hands and arms, its capability of soothing irritation, and removing cutaneous defects, render it indispensable to every toilet.

It obviates all the effects of Climate on the Skin, whether with reference to cold and inclemency, or intense solar heat, and affords immediate relief in cases of sunburn, stings of insects, or incidental inflammation. Gentlemen after shaving will appreciate its soothing and ameliorating properties.

Its purifying and refreshing properties have obtained its selection by Royalty and the Aristocracy of Europe, and it is universally in high repute, from the sultry climes of India to the frozen realms of the Czar.

Price, 4s. 6d., and 8s. 6d. per Bottle.

CAUTION.—The words "ROWLANDS' KALYDOR" are on the wrapper of each bottle, and their signature, "A. ROWLAND & SONS," in red ink, at foot. Sold at 20, Hatton Garden, London, and by Chemists and Perfumers.

Bryan Lister,

A BRITISH SUBJECT, OR IF DEAD, HIS CHILDREN.

PURSUANT to an oder of the High Court of Chancery, bearing date the 22nd day of June, 1858, and made in the Matter of the Trusts of the Will of William Lister deceased, *Bryan Lister* if living, and if dead, his legal pesonal representatives, and if he died leaving children, such children or the legal personal representatives of any deceased children, are on or before the 1st day of January, 1859, to come in and prove their identity and relationship, & make out their representation at the Chambers of Vice Chancellor Sir Richard Torin Kinderdley, No, 3, Stone Buildings, Lincoln's Inn, in the County of Middlesex in England, or in default thereof they will peremptorily be excluded from the benefit of the said Order—Tuesday, the 11th of January, is the day appointed for adjudicating upon such claims at the Vice Chancellor's Chambers, at 12 o'clock at noon of this day.

The said Bryan Lister was the son of Timothy Lister and Mary his Wife, both late of Bingley, in the County of York in England. Bryan Lister was born at Bingley some time about the year 1784, and resided with his parents at Bingley until the year 1816, when he left his native place, and, as far as can now be ascertained, never returned. It is believed that he left England at this time and settled in some foreign country or British dependency, but of this no satisfactory evidence has yet been furnished. It is supposed that he assumed another christian name, but it is not known what.

Dated this 23rd day of July, 1858.
CHAS. PUGH, *Chief Clerk*
BENJ. BEANLANDS,
4, Raymond Buidings, London,
Solicitor. 3i (aug 13, sep28, oct28)
