ESSENCE OF SMOKE

FORMERLY manufactured at the Chemical Works, Hampton, by Mr C Riley, now by the subscriber, who presents it equal to its former merits—Its wonderful Antiseptic properties in the preservation of Meat and Fish, together with the economy, simplicity, and expedition in applying it, have caused it to become an indispensable article in every respectable family in the Province.

Beef, Pork, Mutton, Fish &c. may be preserved for any length of time by simply washing them over twice, with the Essence of Smoke; then hang them up to dry. In very large, repeat the process three times, allowing 24 hours to elapse between each washing. Shortly after, upon examination it will be found that the Essence has penetrated through every part of their substance, imparting a most delicious flavour.

N. B.—Apply the Essence of smoke to the meat or Fish, &c. while it is moist, as the liquid does not penetrate so effectually when the surfaces of those substances are dry.

The Curative properties of the Essence of smoke are not less remarkable than those of its Antiseptic—It is now extensively used in the Cure of the following Diseases and Accidents, which are incident to Horses and Cattle, viz. wounds, bruises galling or chafing of the harness, sprainings of every kind, sprains, sore backs, broken knees, windgalls, blood spavins, and inflammations of every description.

For the cure of these diseases, it is applied warm, rubbing it in well with the hand. For wounds, galls, &c. it is very efficacious in healing the lymphatics, stopping the worms, &c.

Farmers, Proprietors of stations, carriers and stage drivers would do well to have it constantly on hand in their stables.

Sold in every Town and Village in the Province by respectable Merchants and Traders in Five Shillings per Gallon.
