The HAMILTON Sale

June 25th, 1918

—by—

One Sire (fit for service) a brother of

Toitilla of Riverside

"former R.O.P. Champion of Canada"

—and—

Three Tested Daughters

—of—

King Johanna Pontiac Korndyke

The sire of 27 tested daughters, averaging around 4 per cent. A grandson of Colantha Johanna Lad and Pontiac Korndyke and a brother of Pontiac Lady Korndyke butter, 38.03. His breeding is hard to equal.

J.W. Richardson, Caledonia, Ont.

Mr. Good Breeder

Do You Know

That last season, owing to our not having a sire of our own, good enough to breed on the daughters of King Segis Alcartra Spofford, whose dams were daughters of the great Count Segis Walker Pietertje, we shipped them all to Brockville and had them bred to Champion Echo Sylvia Pontiac, May Echo Sylvia's 44-lb. son, whose brother last week sold for $106,000. The result is we have 4 young bulls from our best heifers. One of these will be retained here to be bred on the daughters of our new sire, King Sadie Vale Vieman. The other three are for sale. Their dams have all been tested and they have lived up to their royal breeding. The young bulls are beautiful individuals and nicely marked. This is the first of them I have offered. So take a day off and come and look them over—also their dams and great dams. Decide to put yourself on the map by securing one of them. While here, you will also have the opportunity of seeing our young $5,000 sire, King Sadie Vale Vieman. Anyone responsible, wanting one of these youngsters may arrange terms to suit.

ED. B. PURTELLE

Old Orchard Farm Bloomfield, Ont.

HOLSTEINS

Our grand bull, "HECTOR DEKOL OF CRYSTAL SPRINGS," for sale. This fellow is backed by the most excellent breeding on both sire and dam's side. He is a beauty; a regular show animal, and guaranteed O.K. in every way. He was 3 years old on April last. Write or come and see him.

John M. Montle, Prop. SUNNYSIDE STOCK FARM, Stanstead, Que.

A ROYAL PAIR

Both sired by the $2,000 World's Record Bull

Prince Waldorf Segis

whose dam gave 115¼ lbs. in a day, 31 lbs. butter in a week.

BULL CALF 7 months old, straight and beautifully marked, nearly ready for light service. Dam gave nearly 22 lbs. butter in 7 days, 70 lbs. milk in a day.

HEIFER CALF, born Jan. 1st, 1918, ¾ white, perfect type. Dam gave 20 lbs. butter in a week, 75 lbs. of milk in a day. We guarantee this pair will please you. Will deliver them in Ontario or Quebec for $200.

Write NOW! Don't wait till the other fellow gets them.

8m. 15d.; 438.0 lbs. milk, 16.20 lbs. fat, 20.25 lbs. butter. David Caughell, St. Thomas.

6. Victoria Helen, 33826, 3y. 11m. 13d.; 457.6 lbs. milk, 14.19 lbs. fat, 17.74 lbs. butter. Joseph Peel.

7. Nancy Colantha Wayne, 35092, 3y. 11m. 3d.; 430.8 lbs. milk, 12.95 lbs. fat, 16.57 lbs. butter. David Caughell.

(Continued next week.)

MANOR FARM OFFERING AT HAMILTON SALE.

THE ten head to be offered by Gordon S. Goederham, Clarksons, Ont., in the big combination Holstein sale to be held at Hamilton, Ont., on June 25, comprise a bunch of excellent breeding and individual quality. One has only to look into the breeding of the Manor Farm to be convinced of this fact. King of the Pontiacs stands out as one of the great bulls in the Holstein world. Mr. Goederham is offering three mature cows sired by this great bull. Manor P. H. Flower, a six-year-old, at five years of age has a record of 30.592 lbs. of butter and 601 lbs. of milk in seven days. She is a great show cow, as well as a producer. The five years old Manor P. H. Belle is another of the K. of P. matrons. At four years and four months she made a record of 28.015 lbs. butter and 522 lbs. milk in seven days. The third K of P. cows, Manor P. H. Maud, just five years old, has a five year old record of 24.65 lbs. of butter and 495 lbs. of milk. Among the offering are two 2-year-old daughters of King Segis Pontiac Posch. Manor K. S. Segis, a beautiful heifer, the first of this bull's daughters to be sold, has a 2-year-old record of 21.39 lbs. of butter and 424 lbs. of milk. The other Manor K. S. Nicolo, has a record of 16.52 lbs. of butter and 323.5 lbs. of milk, taken in a test when she was suffering from a broken shoulder. Agnes Pontiac Walker, another 2-year-old, is out of a 30-lb. cow, and has a junior 2-year-old record of 20.77 lbs. butter and 393.4 lbs. of milk. Then there is Manor Segis Lady, a yearling heifer by King Segis out of a 26-lb. cow, a fine individual. In the sale also is Manor Pontiac Calamity, a yearling heifer, bred to a son of Lulu Keyes, with a record of 36 lbs. of butter and 761 lbs. of milk, and best day's milk 132.8 lbs.

Mr. Goederham has two bull calves in the sale. A six months calf by King Korndyke Sadie Keyes, with an average for sire's dam of 29.55 lbs. butter in seven days and 106 lbs. milk in one day, average for dam and sire's dam. The other calf, a fine individual, is a grandson of Pontiac Korndyke, one of the greatest sires of the breed. Average for dam and sire's dam at three years, 30.90 lbs. of butter in seven days.

THE PASSING OF C. M. WINSLOW.

CHARLES M. WINSLOW, Secretary of the Ayrshire Breeders' Association in the United States, succumbed to an attack of acute indigestion on June 11th, at Brandon, Vt. In the passing of Mr. Winslow, the United States loses one of its pioneer dairymen. He was a national figure and his advice was sought after by many of his friends. He was a charter member of the Ayrshire Breeders' Association of the United States, organized in 1817, only one of whom survives.—H. R. C. Watson of Brandon, Vt. Mr. Winslow was responsible for the incorporation of the Association in 1884, and has been annually re-elected since. For 36 years he has steered the association through stormy times until to-day it is out in the clear and headed forward. Mr. Winslow was a keen breeder of Ayrshires and his exhibits at St. Louis and other national expositions were always to be reckoned with.

For many years Mr. Winslow was president of the New England Agricultural Society. He was also secretary of the State Board of Agriculture for a time as well as being president of the New England Ayrshire Club and the Vermont State Ayrshire Club.

Dairy cattle breeders will miss his kindly greeting on the show circuit this year. The Ayrshire Association in the United States will miss his guiding hand. His was a life of service.

THE RIVERSIDE CONSIGNMENT TO HAMILTON.

THE animals consigned by J. W. Richardson, of Riverside Farms, Caledonia, to the Hamilton Consignment Sale, on June 25, 1918, are all sired by that noted herd sire, King Johanna Pontiac Korndyke, whose breeding is already so well known to Canadian Holstein breeders, that it is unnecessary to comment further upon him, except to say that in type, production and individuality his sons and daughters are all that can be desired. Fifty-27 tested daughters average around 4% butter fat. The offering includes a yearling bull, Riverside Johanna Pontiac, a brother of Toitilla of Riverside, 24094 lbs. milk, 1057.6 lbs. butter one year, former Canadian R.O.P. champion. His dam is a 29-lb. daughter of Johanna Rue 4th's Lad. For a show animal this calf is hard to equal. His twin brother is being retained as junior herd sire in the Riverside herd.

The three females are also show animals, and have been tested. Johanna Korndyke Lauraine as a junior 4 year-old has just produced 26.12 lbs. butter, 561.1 lbs. milk in 7 days, 48.90 lbs. butter, 1070.7 lbs. milk. Her dam is sister of Johanna Rue Lauraine 2nd, butter 30.39 lbs. 7 days, and over 100 lbs. milk one day out of three quarters of her udder. Toitilla DeKol Sarcastic as a junior two-year-old gave 14.09 lbs. butter in 7 days. She is out of Toitilla Sarcastic Rue, butter 28.81, a full sister to Toitilla DeKol Sarcastic, butter 29.42, the dam of Toitilla of Riverside.

Riverside Toitilla Daisy is out of Daisy DeKol of Riverside, butter 27.35, a sister of Jemima Johanna Wayne, butter 32.32, Johanna Rue Lauraine 2nd, butter 30.20 and Toitilla of Riverside. This heifer gave 14.05 lbs. butter at exactly two years of age.

It will pay you to look up this consignment.

AYRSHIRES SELL WELL.

THE annual consignment sale of the New England Ayrshire Club was held at Chester Oak Park, Hartford, Conn., on June 11th and 12th, and was largely attended. The bidding was brisk and competition keen, there being many purchasers for each animal. The average price for all animals in the sale was $400 and the highest price paid for a single animal was $4,200.

The Canadian Ayrshire breeders were well represented. R. R. Ness, Howick, Que., consigned 6 head which averaged $390. "Burleigh Right Kind" (imp.) selling for $1,205. Hunter Bros., Grimsby, Ont., also consigned 6 head which averaged $1,300, among them "Lochfergus Cherry" (imp.) $3287—selling for $3,750, and "Lady May" 32766—bred by D. A. Macfarlane, Kelso, Que., selling for $1,200.

Gilbert McMillan, Huntingdon, Que., consigned 3 head, which averaged $1,100, "Garmuiller's Flora" (imp.) selling for $875. (A fuller report of the sale will appear in a later edition.)

AMERICAN HOLSTEIN MEN MEET.

THE annual meeting of the Holstein-Friesian Association of America was held in Milwaukee, Wis., on June 5th. As we go to press a report of the proceedings has not come through. Preliminary reports, however, have been received from the Secretary and Treasurer. Mr. F. L. Houghton, secretary of the association, reports an increased membership during the year of 1,196 and the decrease caused by death, dissolution of partnership, resignations, etc., of 85. The actual total membership on April 3, 1918, was 10,739, coming from every state in the union, Canada, Cuba, Hawaii, the Philippine Islands, South America and Switzerland. This makes the Holstein-Friesian Association the largest in membership of any of the dairy cattle breeders' associations, in fact greater than all others combined.

The total number of registration certificates issued for the year, reached 34,278 of which 26,730 were males and 10,548 females. The percentage of increase for the year is 15.5. The total number of cattle registered to date is 690,688. Transfers for the year number 92,465 of which 31,296 were for males and 60,169 for females.

The total administration expenses for the year ending April 1st, 1918, were $60,700.52; a total of $323,179.31. The total earnings of the year, including interest on investments, were $247,553.95. Registration fees accounted for $192,492.75 and membership for $18,575. The total assets of the association are figured at $385,498.75. Bond investments alone total $267,651.25.

The latest report is that the Kellar amendment has been defeated. This amendment was to give the Board of Directors the power to elect and discharge the Secretary and other officers of the advanced registry. The vote was a case where proxy votes turned the scale. The members who were present were strongly in favor of the amendment, but the number of voters who were not present, and whose votes were cast by proxy, were sufficient to carry the balance.

Another amendment which was up for discussion, was entered by Mr. Gardner, the Secretary of the Association. This was to permit the entry of cows into the advanced registry on semi-official records alone, without mention of short time official tests. The idea of this is to give greater prominence to long time work.

So far no report has been received on this amendment, but full particulars of the meeting and the discussions will be given in next week's issue.

SWEET CONDENSED MILK BOUGHT IN BIG LOTS.

A despatch from Ottawa, dated June 16, reads as follows:—

Ottawa, June 16.—The Dairy Produce Commission has just completed the purchase of 100,000 cases of sweetened condensed milk for June delivery at $6.45 per case of forty-eight 14-ounce tins. This price is considerably lower than the price which has prevailed for some time past.

There has been some accumulation of condensed milk in the factories since the opening of the season, but the adjustment of this quantity will very materially reduce the stocks.
