GATHERING OF THE CLANS.

On Wednesday last, agreeably to previous announcement, the third annual gathering of the Caledonian Club, for competition in Highland Games, came off in a delightful field on Government House Grounds, kindly appropriated for the purpose by His Excellency the Lieutenant Governor. The ground was all that could have been desired, being surrounded on all sides by thick groves of trees, and forming a sort of amphitheatre. On the grounds were erected large edifices, one denominated the "Grand Stand," for the accommodation of the "fair sex," His Excellency the Lieut. Governor and suite, visitors, &c., &c., the others for Refreshments. The day was exceedingly fine, and, as a consequence, a large number of people were on the ground, from the neighboring Provinces and all parts of this Island. The Caledonian Club assembled at Masonic Hall in the morning, at about 10 o'clock, where they were soon after joined by the Officers and Members of the Benevolent Irish Society of the City. From the Hall they proceeded to the grounds, in marching order, preceded by a number of pipers, flags, &c., &c., &c. Arrived at the grounds the games soon after commenced; and at the close in the evening all departed, evidently well pleased with the day's amusement. The prizes were distributed as follows:—

TEA PARTY AT MONTAGUE.

This Tea Party came off on the appointed day, and it was certainly a splendid success. The sky at early morn wore an unfavorable aspect, but the brightest day at noon is often that ushered in by a clouded sky, was truly verified in this case, as by midday the sun shone forth sufficiently bright to still the fears of the fair sex as to the prospect of rain.

The beautiful grounds of Mr. P. Gaul were kindly given for the occasion. The site for the tea tables, saloon, &c., was admirably chosen on a piece of elevated ground, from which the landscape presented to the view was beautiful in the extreme.

At an early hour, the people began to arrive from the surrounding country, and some from a considerable distance, and, by the time tea was served, there was a large assemblage of persons on the grounds, that, it was pleasing to observe, represented all denominations. The tea tables were set out with much uniformity, and so plentifully supplied with the choicest kinds of cake, that they attracted the attention and won the admiration of all present; and the tea, which is often deficient at occasions of this kind, was such as to please the most fastidious. There was a refreshment saloon on the grounds, where cool and refreshing drinks were vended during the day, which played no unimportant part in the day's proceedings.

The tea being over, the people betook themselves to the various sports set apart for the day's amusement; some shook the 'light fantastic toe' in the old and favorite dance, while others took part in the more athletic pastimes—leaping, throwing the hammer, &c. There were two of Her Majesty's war-ships in the harbor of Georgetown, the officers of which were in attendance at the Tea Party, and they contributed not a little, by their genial urbanity, to the day's amusement.

It would be unfair to say nothing in praise of the conduct of the people who attended the Tea Party, for seldom do we find the conduct of people characterized by so much sense as that which characterized the conduct of the people on that day; there was not the slightest approach to a quarrel, and peace and contentment ruled everywhere. Too much cannot be said in favor of those who had the management of the Tea Party, for everything was carefully managed, and they are certainly entitled to the lasting gratitude of those persons for whose spiritual welfare the Tea was originated. The amount realized, we were unable to ascertain, but it is sufficiently large, we believe, to encourage the Catholics of Montague to go on with their good work.—*Ex.*

A telegram from Ottawa says:—"In discusssing the Fishery question, the Attorney General said the concession recently made to American fishermen was necessary to prevent war with the United States." If it was necessary in order to prevent war this year, it will be equally necessary in every future year, and therefore we may regard our Fisheries, which we and the United States once valued so highly, as surrendered forever. This certainly is not what we were assured would be the consequence of our accepting the Confederation Scheme. Was ever swindle more monstrous!—[St. John Freeman.

The report that an attempt was made to blow up the Houses of Parliament at Westminster requires confirmation, which later telegrams do not give it. Such a dreadful crime would retard the cause of Reform in England for many years, and set class against class, so that a reconciliation would be impossible. The leaders of the Reform agitation are incapable of sanctioning such a crime, and the revolutionary spirit which curses the Continent of Europe, and renders men fit to perpetrate any atrocity, has not yet taken such a hold of the English masses. In all probability this story was manufactured to increase the sale of the New York "Herald!"

On Tuesday night, as the Vigilance Committee of Ward No. 1, were going their rounds, between 11 and 12 o'clock, the captain of an American fishing vessel, who objected to being watched or followed, drew a six-barrel loaded revolver, and presented it at one of the Committee, but fortunately was knocked down before he had time to fire. On being brought to the Police Court next morning, he was fined twenty shillings, which he immediately paid. This punishment is not severe. The pistol being returned to him, the man was then discharged. A thoughtless thirsty fellow who happens to get drunk and disorderly, considers himself lucky if he is let off with less than a 10s. fine.—*Pat.*

Some idea of the enormous resources of the United States may be gathered from the fact that between the 1st August, 1865, and the 1st August 1866, a reduction of $124,153,999 took place in the national debt; and some idea of the enormous nature of the debt itself may be gathered from the other fact that on the 1st August, 1865, it was $2,757,253,278; and that on the 1st of the present August it was $2,633,099,276.

The "Opinione Nationale" says that the health of General Garibaldi is very bad. It remarks:—"His legs are so thin and weak that it is painful to see them. He is pale, and bears on his countenance the traces of suffering. His rheumatic pains have returned at the very time he got his second wound. He can only move about in a carriage, and is only sustained by the energy of his will. All this explains the slowness of the operations of the volunteers."

Miss Swan, the Nova Scotia giantess, was on exhibition at the Temperance Hall, on Wednesday evening. She is certainly a tremendously big woman. The tallest person in the room seemed small alongside of her. We do not know what success she had, but it is pleasant to note that before leaving the Island, she left a present of eight dollars for the relief of the fire sufferers.—*Ex.*

The "Royal Gazette" of last week, somewhat tardily, to be sure, contains a proclamation offering a Reward of Three Hundred Pounds to any person or persons who will give such information as will lead to the discovery, apprehension and conviction of those who have recently been guilty of acts of incendiarism in Charlottetown. The proclamation recites that there is reason to believe that the several fires which have occurred in the City since the 1st July last have been caused by incendiaries.

We are pleased to learn that our neighbor, Finlay McNeill, Esquire, has been appointed United States Consular Agent for Summerside. We think the selection a good one, and have no doubt that Mr. McNeill will discharge the duties of his office with satisfaction to all parties.—*Sum. Progress.*

The fishing business, we understand, has been very dull so far on the North Shore. The Summerside Fishing Company's Schooner, at last accounts, had only a few in excess of 75 barrels of mackerel. Codfish cannot be purchased on the shore for anything less than $3.50, gold, or about 22s., Island currency, per quintal.

A Mr. Joseph McVane, of Bothwell, in this Island, informs the "Islander" that the schr. "Sirocco," of Nova Scotia, Capt. Sterling, was wrecked last Fall at Cape St. George, on the Western coast of Newfoundland, and that her whole crew was murdered by the brutal inhabitants of that locality. Another vessel, name unknown, was wrecked at the same time and all hands lost.

The Tea in aid of the funds of the Presbyterian Church at Dundas, came off according to announcement, and was very successful. The amount realized being over £40.

A good deal of dissatisfaction prevails in reference to alleged exclusiveness in the composition of the classes receiving drill instructions in Charlottetown.

The Corporation have passed a Law against vagrants and street-beggars. Imprisonment is the penalty attached to both offences.

The Summerside Bank has declared a dividend of four per cent., being the net profits of its first half year's operations.

NEWS BY TELEGRAPH.

PARIS, Aug. 15.—The Emperor received the Prussian ambassador to-day, who delivered the reply of Prussia to the French note, asking an extension to the frontier of France, which Prussia declares to be inadmissable. Napoleon replied that the demand was made to satisfy the public opinion of France. He deemed it just, but acknowledged the fairness of the argument of the Prussian Cabinet. He also said that the present relation should, in no case, be disturbed, and hoped that Prussia would not overstep the boundaries of the Main.

ST. PETERSBURG, Aug. 15.—The officers of the United States Squadron have been received at the Imperial Palace at Trarskoelro. Twenty of the officers dined with the Governor at the Palace at Paulaffski; the entire population was in the gardens of the Palace, which were illuminated. There was also a display of fireworks, and United States national airs were played by the band. The officers visited the Emperor's Palace and public buildings yesterday.—Gold 151.

HASTINGS, 15th.—The little ship "Red White and Blue," two and a half tons, from New York, with two men, passed here to-day,—37 days passage. All well.

NEW YORK, Aug. 16th.

A Toronto, C. W., special says 30,000 volunteers have been ordered to Fort Erie, to watch the movements of the Fenians at the Buffalo pic-nic. The volunteers manifest a very mutinous spirit, a part of them refusing to obey the order. Inadequate pay and bad treatment are the ostensible causes of their action. Three gunboats have arrived at Toronto, and others are expected.—Gold 151.

BUFFALO, N. Y., Aug. 17.—There are some indications of another Fenian excitement on the basis of the proposed Pic-Nic to come off in this city and not at Grand Island, in Niagara River, as wrongly reported in Canada. There appears to be no real foundation for alarm, and the Fenian Circles are chuckling over the scare in Canada.

LONDON, 17th.—Peace between Prussia, Austria and Italy regarded as certain.

Aug. 18.—Fifteen hundred Irishmen, under General Dick Taylor, will attend the Fenian Pic-Nic on Grand Island.

PARIS, Aug. 18. Napoleon denies having design of annexing any Belgian territory to France

NEW YORK, Aug. 18, P. M.—A Herald despatch from Troy says an immense Fenian demonstration took place here last night. Col. Roberts, President of the organization, and others, made addresses. The administration interpretation of the new treaty laws was sevely criticised.

A special despatch from Buffalo says it is believed there that the announcement through the cable of the plan of the Canadian Confederation being settled is an error.

The Quebec scheme was not accepted by the other Provinces. Nothing can be consummated this year.—Gold 149 1-2.

WASHINGTON, Aug. 20.—President Johnston has issued a proclamation declaring Maximilian's blockade of Matamoras as null and void, so far as the United States are concerned.—A peaceful political revolution took place in Matamoras on the 12th inst., resulting in the overthrow of the Government of Carajaval, who escaped to Brownsville, Texas. Gen. Pedro Jose Juarez was commander of the military forces in the city.—Gold 150 7-8.

NEW YORK, Aug. 20.—Canadian authorities continue preparations to resist Fenians. Quebec troops ordered to be in readiness.

Medical Notices.

Holloway's Ointment and Pills.—Sciatica, Rheumatism.—The very sound of these names carries terror to the minds of all who have once experienced the torments of these dire diseases, though Holloway has pointed out a method of relief that should give the most despondent sufferer renewed courage and refreshing hope. After the afflicted parts have been duly fomented with tepid brine and carefully dried, this Ointment should be patiently and perseveringly rubbed upon the skin thus prepared for its reception, and these Pills should be taken in doses as prescribed in the "Instructions." This simple course will conduct the severest forms of tic, neuralgia, rheumatism, and gout to any resolution, reduce the accompanying swelling, relax the tightened tendons, and strengthen the nerveless limb.

Asthma or Phthisic.—A spasmodic affection of the Bronchial Tubes which are covered with a dry tenacious phlegm.—Brown's Bronchial Troches will in some cases give immediate relief.

If life and health can be estimated by dollars and cents, Mrs. WINSLOW'S SOOTHING SYRUP for all diseases with which children are afflicted, is worth its weight in gold. It relieves the child from pain, invigorates the stomach and bowels, cures wind colic, and carries the infant safely through the critical period of teething.
