THE PEACE TERMS MOST GENEROUS

(Continued from page 1.)

have lost nothing except—which is a great and terrible exception—their diminution by losses in the field.

LORD KITCHENER.

There is practical unanimity of opinion that Lord Kitchener, now a full general, deserves all and more than all the rewards he has received. Lord Kitchener not only completed a campaign of a most arduous and exhausting kind, but he concluded it with an honorably and satisfactory peace. His qualifications to the command of the army in India or any other army are indisputable, but his departure from South Africa will be deeply deplored, for he has won the confidence of Boer as well as Briton. His influence would be more efficacious in the restoration of order than forty thousand men. The cabinet, of course, is constitutionally responsible for the peace, but it is generally recognized as "Kitchener's peace." It has the good fortune to meet with the almost universal approval of those who disbelieve in the original necessity of the war. Since the days of the Great Duke, who operated, though with smaller numbers, upon a larger and more impressive stage, there has been no British general who so thoroughly combined the tact of the diplomatist with the authority of the commander as did Kitchener. It is not his fault, but the fault of politicians and civilians, that peace has been too long deferred.

LINDSAY—JOHNSTONE.

On Wednesday, says the Goderich Star, Mr. Fred J. Lindsay, of the Smallman & Ingram establishment, London, and Miss Mertie Johnstone were joined in wedlock's bonds by Rev. J. W. Robinson, pastor of Victoria Street Methodist Church. The ceremony was performed at the residence of Mr. George Barry, Elgin avenue, only relatives and close personal friends of the contracting parties being present. The house was nicely decorated with flowers and Miss Mary Walters played a pretty wedding march just before the ceremony. The bride was assisted by Miss Lizzie Thompson and the groom by Mr. Anderson, of London. The bride wore her going-away dress of Venetian cloth of a pretty castor brown shade, a silk waist of biscuit color, a charming hat to match, and carried bridal roses. The bridesmaid was prettily gowned in cream silk, wore a lovely picture hat and carried a bouquet of pink roses. After the ceremony the party partook of a sumptuous wedding breakfast, and Mr. and Mrs. Fred J. Lindsay left by the 3:15 train for their future home, London, a large number of friends being present to give them a good send-off, which unfortunately included that diabolical farce, throwing rice. The bride was the recipient of many valuable present, the groom's gift being a valuable gold watch, and among the many was a silver tray from the Bible class and choir of Victoria Street Methodist Church, of which she was a member.

A VERY BAD SITUATION, SAYS MR. JOHN McCLARY

The Well-Known Manufacturer Terms Council's Action in Sifton Matter "Scandalous."

No action that has been taken by the city council this year has aroused such interest among local manufacturers as its direct attempt to throttle the competition that the Sifton Company seeks to offer the London Electric Company.

Public opinion, so far as The Advertiser has learned, is directly opposed to the majority of the aldermen in this matter, and expression is freely given to the astonishment caused by the course that the council has taken.

Nowhere is this feeling more pronounced than in the office of the largest business concern in the city—the McClary Manufacturing Company. The McClary firm is already getting power from the Sifton Company, and getting it at one-half or less, of the cost imposed by the London Electric Company. Ald. Jolly now proposes to force the Sifton Company to remove the wire by which this electric power is conveyed to the McClary plant. The questions are now being asked: Will the city council—the majority that are playing into the hands of the wealthy London Electric Company—will they compel McClary's to pay double the price for power that is necessary, or will they acknowledge the weight of unanimous disapproval of their action, and reconsider the whole matter in a more just and public-spirited manner?

Mr. John McClary said to The Advertiser this morning that he could not understand why the city council should act as it is doing.

"It is a very bad situation," he said. "I do not understand what the council means.

"It is scandalous," he declared, "that the council should give one company the exclusive right to supply light and power in this city. It is directly against the city's interests.

"We manufacturers have disadvantages enough to contend with here," he added, "without having to meet unnecessary obstructions.

"What is there in it for the city if the council is going to act this way?" Mr. McClary asked. "It is not helping the city. Their action is hurting it. It is directly against the advantage of the whole city.

"Everything that tends to increase competition of that kind adds to the value of labor and of property, and the city council takes a very strange way of looking after the interests of London when it gives one company a monopoly of any kind."

Col. Gartshore expressed similar opinions when spoken to on the subject, and said that his company would look into the question more closely before they would quietly submit to being denied the right to get their power as cheaply as possible.

DEATH DUE TO ACCIDENT

Particulars of the Sudden Demise of Mrs. Wilkie.

Was Prominent in Social Affairs at the Queen City.

The Toronto Globe gives the following account of the death of Mrs. Wilkie, formerly of this city, notice of which appeared in Saturday's Advertiser:

Mrs. Nellie Wilkie, widow of the late Robert Grant Wilkie, died Saturday morning at the residence of Mr. Frank Yeigh, 667 Spadina avenue, from the effects of an accident that occurred on May 24. On that date Mrs. Wilkie, in company with Mr. and Mrs. W. H. Peterson, was driving along Queen street west. On attempting to cross the street car tracks at Brewery Hollow the carriage was struck by an eastbound car and overturned. The occupants were thrown out and all were badly shaken up. It was not thought that Mrs. Wilkie had sustained any serious injury, but she lapsed into unconsciousness soon afterward and remained in that state until Saturday morning, when she suddenly and unexpectedly passed away. Her death is directly due to concussion and laceration of the brain.

Mrs. Wilkie was a sister of Mrs. Frank Yeigh, and during her life was an active member of many Toronto societies. She had been secretary of the High Park Golf Club, an officer of the Highlands Golf Club, an honorary member of the Toronto Whist Club, and was one of the lady whist champions of the city. Mrs. Wilkie was also interested in the Woman's Art, Woman's Council and the Woman's Historical Society.

The interment will be at London on the arrival of this morning's train there. A funeral service was held at the residence of Mr. Frank Yeigh, 667 Spadina avenue, Sunday evening.

IRISH NINE BEAT PERRINS

Lucan Sluggers Too Much for Wholesale Leaguers.

Pitcher Ury Knocked Out of the Box in the Fourth.

Perrins club of the London Wholesale League went down before the Irish nine here on Saturday. Although Lucan had the game won in the second inning, the interest never lagged. Both teams played a good game throughout, but the splendid batting of the Irishmen won the contest. Ury was in the box for the visitors, backed up by the good reputation he made here on May 26, with the Anchors. Saturday he was batted for doubles and singles, and was quite willing to be relieved by Summers in the fourth, who pitched a steady game, with six hits against him. McFalls was in the box for Lucan, and showed remarkable coolness and control on two occasions, when he retired the side with the bases full. McNeil, the heavy hitter, who batted Joe McLachlan, of the Carlings, last Saturday for two two-baggers and three singles, did not get a single hit off McFalls and struck out twice. Harry Stewart umpired the game. The score:

KING EDWARD VII. HEARTILY CHEERED

By the Boers Who Are Laying Down Their Arms.

CAPE COLONY REBELS COME IN

Relations Between the Two Classes of Boers May Be Long Embittered.

London, June 9.—Lord Kitchener, in a dispatch from Pretoria, under today's date, announced the surrender on Saturday and Sunday of 2,500 rifles, of which 448 were handed in by Cape Colony rebels. The remainder were principally from Gen. Dewet's men. The British commander added that the cheers given by the Boers for King Edward were hearty.

A STRONG CONTRAST.

Bloemfontein, Orange River Colony, June 9.—A strong contrast to the good feeling between Boer and Britain is the bitterness existing between the burghers who are surrendering under the peace terms and those Boers who surrendered during the campaign. When the Boer leaders came to Bloemfontein previous to the conclusion of peace, they curtly refused to shake hands with those who had previously surrendered. The general belief is that relations between these two classes of Boers will be embittered for a long time.

NO SECRET COMPACT.

The suggestion that Lord Kitchener, with the connivance of the government, entered into a secret compact with the Boers to induce them to surrender, was denied by the government leader, A. J. Balfour, in the House of Commons today. Mr. Balfour declared that so far as the government was aware no pledges and no assurances were given by Lord Kitchener which had not been published.

The colonial secretary, Joseph Chamberlain, answering a question regarding the agitation for the suspension of the constitution of Cape Colony, said he had received a petition from 42 members of the Parliament of Cape Colony in favor of its suspension and had awaited the observations of the Cape Ministry on the subject. An act of the Imperial Parliament, he added, was required before the constitution could be suspended.

DICTATORSHIP ABOLISHED.

Berlin, June 9.—The reichstag today passed the third reading of the bill abolishing the dictatorship in the reichstag (Alsace-Lorraine).

THE POPE AND THE PRESIDENT.

London, June 9.—A dispatch to the Pall Mall Gazette from Rome says the Pope was highly delighted with President Roosevelt's gift of a complete set of the latter's works, and affirms the report that the pontiff issued orders that Mosaics of St. Peter's and the Vatican be transmitted to the president, with his thanks. These Mosaics are magnificent specimens of this branch of art, and are made at the Vatican workshops.

COURT OF REVISION.

The court of revision will meet on Friday for the confirmation of frontages, the recording of changes of ownership and other work in connection with the assessment of properties affected by the construction of 103 proposed public works.

L. E. VICTORIAS' MISHAP.

The London East Victorias ball team have met with a serious drawback. Since practice on Thursday night some person has broken into their room in Queen's Park, where they kept their outfit, and stole about $7 or $8 worth of gloves, bats and balls. This will keep them from playing some of their games dated for this week.

CHILDREN SHOULD ALL GO

Union School Picnic Will Be a Great Event.

Preparations for Friday Are Being Completed.

Energetic committees are still working upon plans for the monster school picnic that will be held next Friday, and there is every reason to believe that it will be a splendid success. Every trustee on the board is doing his utmost to make sure that Friday will be a day to be remembered by the school children, and parents should assist them by letting their children go to Springbank to take part in the first picnic of this kind. They will be well cared for, and are bound to enjoy the day hugely.

Each of the children will be given a box of candies upon the cover of which will be the following inscription: "London union school picnic. Signing of the declaration of peace in South Africa celebration, Springbank, June 13, 1902."

Prizes will be given to the children. A committee has been appointed to canvass the merchants for subscriptions to the prize list.

The children will be given tags to attach to the baskets. If parents send the lunch baskets to the schools, they will be taken in drays, provided by the trustees, to a special car that will take all the baskets to Springbank. The names of the owners and schools should be written on each tag. In this way the bother of carrying the lunch baskets will be avoided.

USED INDIVIDUAL COMMUNION CUPS

Congregation of Knox Church Made the Departure.

Individual communion cups were used for the first time at Knox Church yesterday. They were passed among the pews upon trays, each member removing a small cup and then placing it in a little holder adjusted to the pew. Afterwards they were collected from these.

A nugget weighing over ninteen pounds, the biggest recorded in the Yukon, was found in Bonanza Creek. Its estimated value is $3,000.

A HIGHLAND CADET CORPS

A Project on Foot to Form One in Forest City.

Scheme Could Be Carried Out With Little Difficulty.

As indicated in an advertisement in another column a meeting is to be held at Mr. J. W. Jones' auction rooms for the purpose of forming a company of Highland cadets. Montreal has its 6th Royal Scots and cadet corps, and Toronto its 48th Highlanders; and the question has been asked, Why cannot London have a kiltie cadet corps in connection with St. Andrew's Society?

The promoters of the idea are solid business men, and they are of the opinion that the project could be carried out successfully.

It is hoped that the parents of lads between the ages of 12 and 16 will give the matter serious consideration, for it is only by their hearty co-operation that it can be made a success.
