It was proposed in this note that Station "N" of the Pacific Ocean chain be moved from its present location, 33° North-135° West, to 32°30′ North-135° West; and that Station "U", now located at 28° North-145° West, be moved to 27°40′ North-145° West.

The Canadian Government is glad to agree to these changes being made.

E. R.

Ottawa, February 22, 1952
