WITH THE FARMERS

THE FARMER'S MARKET.

Edmonton, Thursday, July 14—Hay is still very plentiful on the market but the demand is good. Two loads of sheaf oats were sold at $7 per ton the latter part of the week. Butter and eggs are steady. There is no change in the price of live stock. No potatoes were offered on the market this morning.

Grain and Feed.

New oats 26 cents to 30 cents per bushel; oats at elevator 24cents to 26 cents per bushel; feed wheat 60cents to 6 cents per bushel; timothy hay $14 per ton; upland hay $10 to $12 per ton; slough hay $8 per ton; sheaf oats $7 per ton.

Dairy Products

Dairy butter 25 cents per lb.; eggs 25 cents per dozen.

Live Stock.

Choice hogs, 150 to 250 lbs., 9¾ cents rough and heavies, 7½ to 8½ cents; good fat steers, 1,200 lbs., 5 to 5½ cents; good fat steers, 900 to 1,000, 4 to 4¾ cents; good fat steers, 1,000 to 1,200, 4¾ to 5 cents; extra good fat heifers, 1,050 lbs., 4½ to 5 cents; medium quality fat heifers, 900 to 1,050 lbs., 4 to 4½ cents; medium quality fat cows, 900 lbs. and up, 3½ to 4 cents; extra good fat cows, 1,000 lbs. and up, 4 to 4¼ cents; bulls and stags, 2½ to 3 cents; good calves, 125 to 200 lbs., 5 to 5¼ cents; good calves, 200 to 300 lbs., 4 to 5 cents; choice killing lambs, 6½ to 7 cents; choice killing sheep, 5¾ to 6 cents.

Vegetables.

Potatoes 30 cents per bushel.

MONDAY'S GRAIN MARKETS

Winnipeg, Man., July 12.—There was a very sharp reaction to higher levels in the wheat pit, due in some measure to the sensational reports of the Canadian western crop which appeared in the Chicago Record Herald. Trading was again light, but rather aggressive and there was little or nothing new in the gossip. The advance in Winnipeg was 1¼ for July. Chicago July was up 1¼, September 1¾ to 2 cents, and December ¾ to 1 cent. Receipts were heavy, being 272 cars against 115 last year.

Winnipeg cash prices: No. 1 Northern 1.09¾; No. 2 Northern 1.06¾; No. 3 Northern 99¾. Oats—No. White 34¾. Barley—No. 3, 38; No. 4, 43¾.

Winnipeg options: Wheat—July opened 1.09, closed 1.09½; October opened 99¾, closed 1.02¾. Oats—July closed 35¾; October opened 36¾ closed 37¼. Flax—July opened 2.06, closed 2.00; October opened 1.75, closed 1.82.

American markets. Chicago—July opened 1.03¾, closed 1.05; September opened 1.01¾, closed 1.03¾; December opened 1.02¾, closed 1.04¾. Minneapolis—July opened 1.14, closed 1.16¼; September opened 1.08¾, closed 1.11; December opened 1.07¼, closed 1.09¾.

CHICAGO LIVE STOCK.

Chicago, Ill., July 12.—With a fresh supply of 1,840 carloads the live stock markets were oversupplied today. It was a dry run here. Thousands of thin cattle arrived. On the outside account cattle trade opened on a 10 to 15 cent lower basis. Hogs closed 20 to 30 cents lower. Trade in the sheep house was stagnant. Cattle receipts 24,000. Choice to prime steers 8.00 to 8.50, good to choice beef cows 4.75 to 5.00, good to choice heifers 5.75 to 6.75; good to choice calves 8.25 to 8.75; selected feeders 5.25 to 5.70.

Hog receipts 37,000. Choice 8.60 to 8.85; butchers 8.85 to 9.25; light mixed 8.80 to 9.10; choice light 9.10 to 9.20; coarse packing 8.00 to 8.25; heavy packing 8.15 to 8.50; good to choice pigs 9.00 to 9.20.

Sheep receipts 38,000. Good to choice lambs 6.75 to 7.50; good to choice yearlings 5.00 to 5.25; good to choice wethers 4.40 to 4.60; good to choice ewes 4.10 to 4.35.

CHICAGO GRAIN MARKETS

Chicago, Ill., July 12.—New wheat has commenced to move in earnest in the southwest. This was one of the chief bearish influences in the Chicago market today. The general rainfall over a good portion of the spring wheat country and the talk of improved conditions up there helped no little as a weakening factor also. Both the Northwest and the Southwest sold wheat here liberally. They sold July, September and December. While there were comparatively few unfavorable crop reports received from the northwest those that did come forward said that the rains that had fallen in the past few days would be of benefit to sections which would have been entirely burned out by the high temperature and the long drawn out dry spell. While the public keeps a close watch upon the changes in wheat, the outsider is only an onlooker. The average commission man has said all along that with damage claims on wheat there would come an avalanche of buying orders from all sections of the country. Northwestern reports have been the worst in years but they have been countered mainly in North Dakota, the public has refused to "Sign." There were losses of 1½ to 2½ cents in wheat. The selling was at all times spirited, and quite influential. It was noticeable that the Wall street line of long support was on sale during the day, and that long July and long December were to be had as the price sagged lower and lower. Those wanting wheat displayed considerable caution in taking on their cereal. The demand came mainly from shorts and there was investors in the weak spots today. There were losses of ¾ to 1¼ cents in corn, the ideal weather being the leading influence. Corn reports were more favorable and the country was a freer seller of the cash. The interior was also a seller of futures. Local professionals were buyers around 60 and attempted to bring about a rally but in this they were unsuccessful. A message from Omaha told of great improvement in crop prospects. Oats declined ¾ to 1 cent. Cooler weather and beneficial rains over the entire oats country made a lower start after which the market was very small and narrow. There were more hogs received at Chicago this morning than looked for and prices were 10 to 15 cents lower. Resting spots for the day showed losses of 5 to 25 cents in pork; 10 to 12½ cents in lard; and 10 to 15 cents in ribs. The start was lower coupled with declines in the grain market. Outside packers led in the selling and professionals were sellers of October futures.

Teething children have more or less diarrhoea, which can be controlled by giving Chamberlain's Colic, Cholera and Diarrhoea Remedy. All that is necessary is to give the prescribed dose after each operation of the bowels more than natural and then castor oil to cleanse the system. It is safe and sure. Sold by all dealers.

A CENTURY OF PEACE.

Treat yof Ghent to Be Recalled by Ceremonies of 1914.

New York, July 9.—It is announced that preparations for a celebration in 1914 of the centennial of the Treaty of Ghent, marking a hundred years of peace between this country and Great Britain will be begun at once. A joint celebration is proposed in which all nations will be invited to participate.

The celebration was first discussed by President Roosevelt at Harvard commencement last year. Hon. W. L. King, minister of labor of Canada, urged that a memorial be erected upon the frontier at Niagara. As a result the matter was discussed at the Mohonk Peace Conference last May, and later a temporary committee on organization afterwards chose Andrew Carnegie as president; William A. Short as secretary, and J. S. Stewart as chairman of the executive.

The committee will be composed of 250 or more men and women from every state, territory and dependency of the Union. The executive committee will be composed of one hundred, with a committee of twenty-five. State governors are being asked to join as vice-presidents, and an advisory committee of twenty-five citizens will be chosen. President Taft will be asked to serve as honorary president of the national committee, and vice-President Sherman as honorary vice-president. The first meeting of the general committee will take place late in the fall, and in the meantime a special committee will go abroad to discuss the plan in England and in Canada.

No plan of celebration has been decided upon, but it has been suggested that the programme include the erection of a monument, preferably a bridge over the Niagara river, carrying out the idea of Minister King.

TO BE SHOWN IN MONTREAL

Mayor Guerin Will Take no Action to Bar Fight Pictures.

Montreal, July 10.—Mayor Guerin stated yesterday that he would make no move toward preventing the moving pictures of the Jeffries-Johnson prize fight being exhibited in the city. The mayor said that as long as there is no general law prohibiting prize fight films, he sees no reason for singling out this special affair, which was chiefly a wrestling match, for such action. In fact, his worship intimated that a lot of pictures were being exhibited with an immoral tendency which might cause infinitely more harm than any fight presentation.

The Future of Tariff Reform.

London, July 9.—Mr. Balfour, who is suffering from a cold, wrote to the Women's Tariff Reform Association regretting his inability to address them on tariff reform, especially the imperial side, which, he says, is becoming daily more urgent. He adds it is of the utmost importance that overseas states in framing their policy of commercial treaties should be assured that ideas and convictions of the Unionist party will remain unalterably fixed.

HAS NO POWER TO STOP FIGHT PICTURES

The Attorney-General's Department has decided that no departmental action can be taken in the matter of stopping the exhibition of prize fight pictures in this province, for the reason that there is no legislation in force in the province authorizing such action on the part of the government, or providing any means for dealing with a matter of this nature. The department is prepared whenever possible to enforce existing legislation, but in this instance an order-in-council would not meet the case.

Mayor Lee on being asked by the Bulletin last night as to his attitude on the showing of the fight pictures in Edmonton, said he had taken the matter up with Premier Sifton, who had expressed the opinion that the province had no power to prohibit.

Personally I am opposed to their being shown here," said the mayor, "but I don't know if we have any power to stop them. I have consulted our solicitor, Mr. Bown, and he had expressed that opinion. If anything can be done to stop them being exhibited in Edmonton I will take action."

OPPOSE CHANGE IN KING'S OATH

(Continued from Page One).

would like to join the Masonic order, then get into the courts somehow and say to the judge: "You have committed yourself in advance and I refuse to be tried by you."

It was to be regretted that Orangemen did not live up to the high principles of their order, but it must be remembered that neither did church members. Probably as large a percentage of Orangemen were true to their profession as church members.

Rev. Mr. Duclos Speaks.

Rev. J. E. Duclos spoke briefly of the growth and solidarity of Canada. "We must sink our racial and provincial proclivities in the interest of our common nationality," declared Mr. Duclos. In order to do this sentiment had to be sacrificed to principle.

The speaker was glad to observe that only cold water had been drunk at the celebration. It was a sign of progress. He had been at Orange celebrations in days gone by when a good many bottles were broken.

Mr. Duclos did not intend to enter on a discussion of the subject of "Solidarity." He was writing a book on the subject which would soon be placed before the public.

Although not an Orangeman, he had always been a friend of the order. He had found its greatest principle to be, "Equal rights to all and special privileges to none."

Strathcona Minister's Address.

Rev. H. E. Gordon, of Strathcona, spoke of the danger which lay in the rapid settlement of Western Canada by foreign peoples. There were only two solutions to the problem, either the foreigners were going to assimilate the native-born Canadians or the native-born Canadians were going to assimilate the foreigners. The public schools were the greatest factor in the breaking up of the settlements of foreigners. The child educated by the church schools were the most poorly educated of all.

A great work lay before the true Orangemen. The speaker was afraid that there were many twelfth of July Orangemen, as there were many mealy-mouthed Christians. Ministers were to blame for not speaking out. "There are ministers who would be afraid to stand on this platform for fear they might offend their Roman Catholic friends, and there are some people who would mortgage their souls for popularity," said the speaker. Orangemen would never have to fight again with bullets, but they would assuredly have to fight again with ballots.

A short historical address of the Battle of the Boyne was given by Bro. Rev. R. Cooper of Ministik Lake.

Coronation Oath Resolution.

On the conclusion of the addresses, a resolution affecting the "Coronation Oath," now passing through the British House of Commons, was moved by James Mundy of Leduc and seconded by Wm. Lake of Wetaskiwin. The oath amended and now passing through the British House is as follows:

"I do solemnly and sincerely in the presence of God profess, testify and declare that I am a faithful member of the Protestant Reformed Church, by law established in England, and I will according to the true intent of enactments to secure the Protestant succession of the throne of my realm uphold and maintain said enactments to the best of my power and according to the law."

The resolution unanimously passed was as follows:

As a gathering of Protestants representing the L.O.L., we desire further to say:

1. We desire to extend to others the same toleration as we claim for ourselves and have no thought to in suit any one's religious convictions.

2. And further we claim that we have a right to demand from others what they demand from us. If in the name of toleration, objectionable clauses are struck out of the King's oath, we hold that the same toleration would result in the very drastic revision of some other oaths.

3. We desire to put ourselves on record as being unalterably opposed to any revision of the King's oath that would not safeguard the Protestant succession as at present constituted.

Results of Sports.

The sports of the day resulted as follows:

Men's 100 yards—1, A. H. Brady, Wetaskiwin; 2, E. F. Crum, Strathcona; 3, H. Latimer, Namao.

Boys' 100 yards—1, N. Wills, Edmonton; 2, J. Carver; 3, G. McCrea.

Three-legged, 100 yards—1, Latimer and Rowland; 2, Crum and Harris. Only two entries.

Married ladies' 100 yards—1, Mrs. Whitford, Edmonton; 2, Mrs. Reid, Edmonton; 3, Mrs. Blitch, Edmonton.

Obstacle race, 50 yards—1, W. Kennedy, Edmonton; 2, J. Carmichael, Edmonton; 3, H. Allen, Strathcona.

Single ladies' 100 yards—1, M. Latimer, Edmonton; 2, L. Phillips, Edmonton; 3, J. Carlisle, Edmonton.

Girls' race, 7 to 12 years, 50 yards—1, M. Tidsbury; 2, M. Saners; 3, M. Bremner.

Girls' race, under 7 years, 50 yds.—1, M. Bremner; 2, M. Sanders; 3, M. Hapley.

Sack race, 50 yards—1, B. Broadfot; 2, J. Moffatt; 3, N. Carney.

Baseball.

Y.M.C.A.—Parney, c; Morgan, 2b; Knott, 3b; Gasnell, 1b; Grant, cf; Tripp, ss; Paradis, rf; Waugh, lf; Crabbs, p.

Wetaskiwin—Kobb, c; Miller, 2b; Hurd, 3b; Hardy, 1b; Brady, cf; Niles, ss; Graban, rf; Blades, lf; Legear, p.

Wetaskiwin .....000 00—0
Y.M.C.A. .....610 00—7

Trophy—Silver cup, value $25. There were many errors. "Y's" excellent hitting and classy team playing were features.

C.P.R. CROP REPORTS FAVORABLE TO NORTH

From Crossfield North Conditions Are Very Good—In Parts of South Crops Badly Damaged — The Weekly Report of Crops Conditions by Canadian Pacific.

Calgary, July 12.—The crop reports received by the Canadian Pacific railway show that the general condition is fair. In some places the crops are fine, but, again, in other parts of the province they have been partially destroyed by the dry weather.

The crop at Airdrie is fair, but requires rain badly. Light rains fell during the past week.

Fall grains are out in head at Carstairs and everything looks fine. Slight damage was done to fall wheat by hail. Three hours of rainfall helped the crops last week.

Hay is short at Didsbury. Otherwise prospects are good.

Ten Hours' Rain at Didsbury.

At Olds the weather has been warm and fine, and crops have benefited from ten hours' rain.

The growing grain is in good condition and making good progress at Bowden. The weather has been very warm and rain fell for eight hours.

More rain is needed at Leduc, but in Strathcona the grain is in splendid condition.

At Killam the wheat crop will probably be 35 to 60 bushels per acre. Rain fell for thirty-six hours last week.

Crops are looking excellent at Sedgewick, where rain fell regularly last week.

The average height of grain at Erskine is twelve inches and the general condition of the crop is good.

At Stettler the average yield of barley per acre will be 12 bushels, it is expected; of flax, 15, and of hay, 2 tons.

At Castor 75 per cent. of hay has been cut to date. General prospects are good. Showers have been frequent.

"Very little hope of any grain; all burnt up," reads the report from Aldersyde.

Rain Needed at Okotoks.

At Okotoks rain is badly needed. Oats are 18 inches high and wheat and barley 14.

At High River the farmers have little hops for any kind of a crop. No rain fell last week and the crops are slowly drying up. The outlook is very poor.

At Cayley the prospects are fair, two hours' rain having fallen, but at Nanton the best that can be expected of the crops is feed for the cattle.

At Stavely 85 per cent. of the crop is destroyed and the weather is sultry.

Claresholm farmers expect to get a 50 per cent. crop. A five hours' rainfall improved conditions somewhat.

Prospects are poor at Granum and over three-quarters of the crop is destroyed.

At Brocket fall wheat is fair, but hay is a failure.

Fall wheat is poor at Pincher, and general conditions at Cowley are unfavorable. The expected yield is: Wheat, 20 bushels to the acre; oats, 80; barley, 25; flax, 10; hay, 1-2 ton.

No rain last week made the prospects at Kipp worse than ever.

At Millet a seven-hours rain fell and the weather is good for growing.

The outlook is bad at Monarch through the lack of rain.

Hay is short at Didsbury.

At Daysland the grain is looking fine, but in short in places.

Heavy rains fell at Bawlf and the crops look good.

Grain is growing rapidly at Lacombe and prospects are good. Showers fell last week.

Ten hours' rain fell at Penhold and general indications are favorable.

PONOKA HAS GOOD CROPS.

Twelve Hours Rain Succeeds to Frequent Showers and Warm Weather.

Ponoka, Alta., July 10.—Ponoka had twelve hours of good steady rain on Saturday night and Sunday morning, which will provide sufficient moisture to insure the harvesting of the crops in good shape, as they are already far advanced owing to the frequent showers and warm weather of June.

Taking this district as a whole, it could not be expected to look better. Everything is green and as flourishing as a garden watered with a hose. The growth is beautiful and wonderful.

To Improve Wireless.

Canadian Associated Press.

London, July 11—The Financial Times says that shipping companies ought to join the chambers of Commerce and other influential bodies in urging upon the various colonial governments to bring their wireless telegraph facilities to a level attained several years ago by Canada.

MILITIA AGAIN CALLED IN TO SPRINGHILL.

Halifax, N.S., July 11—A hurry call for troops was received here last night on account of the rioting at the Cumberland Coal and Railway collieries at Springhill, N.S., where more than 2,000 men, members of the United Mine Workers' of America, have been on strike for more than a year. The police dispersed the rioters but as further trouble is feared three companies of infantry, one of artillery and a company of ambulance corps men will be sent to the scene. The company now has six hundred non-union men working in the collieries.

APPLES AND PLUMS IN CLOVER BAR NURSERY

Robert Easton Will Gather Harvest of These Fruits This Year—Experiment of Several Years Looks as Though it Would Result Successfully.

Well-formed apples and plums will be part of this year's harvest in the Clover Bar district. On the nursery farm of Robert Easton, twelve miles from Edmonton, on the base line road, apple trees and plum trees, planted experimentally several years ago, are bearing fruit. The introduction of these fruit trees into Alberta has been Mr. Easton's ambition for a number of years past. As yet they have seldom been successfully grown. But the experiment is proving a success. The seed of the fruit yielded this year will be carefully gathered and planted. From it, it is expected, there will spring hardy young fruit trees, adapted by selection to the climate of the district.

The present fruit bearing trees form but a link between the trees raised in other climates and those adapted to that of this portion of the province of Alberta. Mr. Easton has every hope that his experiment will prove an ultimate success and that fruit growing will form one of the future industries of Alberta.

Sunday afternoon Secretary Fisher, of the Edmonton Board of Trade, paid a visit to the Easton farm in company with several visitors to the city. Mr. Fisher was highly delighted with what he saw.

"There is no question but what we're going to grow fruit here and lots of it," said the Board of Trade secretary to the Bulletin on Monday.

"I think that the work being carried on by Mr. Easton is going to prove of immense value to the whole province."

Mr. Easton, the wizard of Clover Bar, settled in that district fifteen years ago. Seven or eight years since he went into the tree business. He has now twenty-five acres under trees, shrubs and plants. Fruit trees and shade trees has been raised so far with uniform success. A large number of trees have been supplied the City of Edmonton for its boulevards.

Besides Manitoba maples, which have been successfully grown over a wide area in the west, and trees or indigenous types, Mr. Easton has grown ash and elm trees. He is experimenting with the oak, but because of the slow growth of that species the result of the experiment can not be ascertained for some time. Thus far it has been a success. White pine, Scotch pine, native spruce and blue spruce from the Rocky Mountains have been successfully grown.

Several kinds of evergreen have been grown, and the more common shrubs and hedge plants.

PAYING HIS FATHER'S DEBTS.

Fred. Tench Settling Accounts of Insolvent Firm.

St. Catherines, July 11.—A peculiar case in which the interest exceeded the principal is reported at Port Robinson, a little town along the Welland Canal. The payment is that of a debt incurred twenty years ago. In 1888 Mr. Ross, of Port Robinson, built two tugs for the firm of W. E. Tench & Son, which firm shortly afterwards became insolvent. Later, Fred. Tench, a son of W. E. Tench, went to New York, became rich, and is now paying off the debts of the old firm. The original bill amounted to $146.46, but the interest to date amounts to $152.73, a little more than the principal, making the total amount paid to Mr. Ross slightly over $300.

AVIATORS REFUSE TO SELL TICKETS TO FLY.

Toronto, July 11—It is reported that the aviators, who are attending the meet here, have refused several offers of large sums from people who want to travel in the machines as passengers. One of these aspirants is said to have offered $1,000 for the privilege.

Do You Have Headache

TAKE ONE OF THESE LITTLE TABLETS AND THE PAIN IS GONE.

"My first experience with Dr. Miles' Anti-Pain Pills was a sample package handed me. They relieved the pain so promptly that I have never been without them since. I have given them to many friends when they had headache and they never failed to relieve them. I have suffered with neuralgia in my head, and the first one I took relieved me. They have cured me of neuralgia. I would not be without them."

MISS LILLIE B. COLLINS
R. F. D. No. 1, Salem, Va.

Price 25c at your druggist. He should supply you. If he does not, send price to us, we forward prepaid. DR. MILES MEDICAL CO., Toronto.

ALBERTA BETTER OFF THAN THE DAKOTAS

Crops Down There Are Burned Black and Will be Practically a Failure—Crops in North Excellent, Elsewhere Fair—Predicted Wheat Prices Will Soar.

Calgary, July 10—That Southern Alberta, even if feeling the effect of the dry weather, is much better off than Dakota and parts of Minnesota, is the opinion of Mr. R. Johnstone, of this city, who has returned from a three weeks' visit to the United States.

"Some of the people who are kicking about this country being dry should go down into the Dakotas and see a country that is properly burnt up," he said. "If they could only see the difference between these places and Alberta, they would sit tight right here. I will admit that around Taber and other parts of the Lethbridge district and east of Medicine Hat, the prospects this year are not very bright but farmers from the dry states think this state of affairs nothing. They are used to a dry season or two and do not mind it. Alberta as a whole is having good crops, especially in the north, and in my trip from Moose Jaw to Portal, the crops on the Canadian side were all good, a direct contrast to those I saw across the line, which are burnt black."

Mr. Johnstone stated also that he believed the dry season on the other side would result in a further rush of American farmers to Alberta this year.

"The news of the railroads opening up more territory here, has already had its effect, and all over the farmers are talking of moving up here. They are taking a great deal of interest in the north country, and the provincial government should see that the possibilities of Northern Alberta are laid properly before them," he said. "They know as much about Calgary and the points south of us as we do, and are enthusiastic about it, but all the same many eyes are turned toward the north."

That the price of flour will be affected by the condition of the crop is another of Mr. Johnstone's forecasts. He says that as the Dakotas and Minnesota are to have a bad year, together with portions of Canada, the prices of wheat and flour will be soaring before this time next year.

RAINFALLS IMPROVE MANITOBA CONDITIONS

Scattered Showers Fell Yesterday and Cool Weather at Nights is Relief—Nothing Like an Average Crop Hoped for in Manitoba, However.

Winnipeg, July 11—A decidedly optimistic feeling is apparent today around the grain exchange. Several reports received, being from the country indicate that spring wheat has already picked up a lot following cooler weather and some showers since Thursday.

It is the cool nights that is doing the trick. he worst feature of the drought spell was the torrid nights which did not give the wheat plant a chance to recuperate.

Scattered showers fell yesterday over the most of Manitoba with less rain further west, but there has not been nearly enough at any one point yet. However, the cool weather is a great relief to man, beast and growing thing.

But though the outlook is more cheerful not even the most sanguine looks for anything like an average crop in this province. Conditions are better in Saskatchewan.

ORANGEMEN DECLARE WAR.

Will Bring Pressure on Ontario Government to Change Educational System.

Toronto, July 11—War was declared by the Grand Orange Lodge of Ontario East and West this afternoon against educational abuses said to exist in the counties of Prescott, Russell, Stormon and Glengarry, though chiefly in Prescott and Russell. The service held in Cooke's Presbyterian church was attended by 2,500 local Orangemen. Rev. John Coburn, of Toronto, Methodist clergyman, announced that Rev. W. T. Allison, of Toronto, had secured thirty-four affidavits from various persons in these counties that Protestant children attending public schools there where Roman Catholics predominate are forced to learn Catholic prayers and go through the Roman Catholic devotional services. Coburn said tonight that pressure would be put on the provincial government to remedy the evil and the fight will be bitter.

FATAL HEAT IN NEW YORK.

Eight Deaths Reported There and Thirteen in Philadelphia.

New York, July 11—In addition to the several eaths due to drownings, falling from roofs and the accidents caused by the high temperature, there were eight deaths from the heat reported yesterday in New York city and vicinity.

Philadelphia sweltered with a temperature of 93 and thirteen deaths were reported there up to 7 o'clock when there was a rapid fall of the mercury. It dropped 16 degrees in two hours.

150 Vote Against Change.

London, July 11.—It is estimated the number of members who will vote against the declaration bill will be 150. Many of the opponents are credited with the intention of appealing to the house of lords to defeat the measure, as in the case of Lord Salisbury's bill of 1901.

BIG CATTLE SHIPMENT FROM BUFFALO TOWN

Wainwright Sends Out a Thousand Head of Prime Beef to Market—Good Prices Commanded—Crops Are in Splendid Shape.

Wainwright, Alta., July 9.—The Wainwright district has been just as successful in raising cattle as in growing wheat. Within the past few days nearly a thousand head of cattle have been shipped from this point. The cattle were in the pink of condition and have gone mostly to local markets. They have commanded good prices, ranging from $75 to $80 per head. The cattle were shipped by J. M. Dickson, Houcher Brothers, Mabey & Wells, H. J. Kelly, G. A. Hunt, W. Cain and Mr. Coffee.

The crops around Wainwright are looking fine, the heavy rains during the past month having worked wonders.

The Board of Trade are erecting a fine plate glass showcase on the platform, 25 x 25, at the Wainwright station and will exhibit in it samples of grain and vegetables grown in the Wainwright district.

MORE WOMEN ON STRIKE.

Expected That 80,000 Garment Makers Will be Out Tomorrow.

New York, July 11—The general strike committee of the cloakmakers today made an official request to the United Garment Workers of America, an organization kindred to the International Ladies' Garment Makers' union, which is conducting the general strike, to call sympathetic strikes in all shops under the jurisdiction of the United Garment Workers in which women's garments are made.

The strike leaders stated the request would bring about a general strike tomorrow of all men's and women's mackintosh makers and also a general strike of reefer makers, thus increasing the number of strikers to 80,000.

An offer of arbitration submitted to the general strike leaders by industrial arbitrator Michael J. Regan on behalf of the state department of labor was accepted today by the general strike committee and a committee was appointed to confer with the manufacturers.

DISTILLERIES CLOSE.

New Taxes Make the Business Unprofitable.

Dublin, July 11—It is a little more than a year since the imposition of the increased whisky tax in Lloyd-George's 1909 budget, and Ireland is just beginning to realize what a fatal blow has been dealt to one of her principal industries. No relief can be expected for the 1910 budget just introduced, continues the extra impost of 50 cents a gallon and even if the Irish party succeeds in compelling the English government to remit the tax much mischief already has been done. Before the introduction of the new tax there were about thirty distilleries of fair size in Ireland. Today there are fewer than twenty. They have been dropping out one by one, but the people at large hardly realized what was happening until this week when the directors of Kinahan & Co., one of the largest distillers in the country, advised their shareholders that the best course would be to wind up the company while there still were assets to divide.

3 KILLED IN EXPLOSION.

Dominion Explosive Works Near Arnprior Blown Up With Fatalities.

Arnprior, Ont., July 11—The works of the Dominion Explosives company, five miles west of this town, blew up this morning, killing three workmen and injuring several others. Four of these are seriously hurt. The explosion was caused by a fire which completely destroyed the factory.

The workmen killed are: Earl Murphy, Frank Pittmore and John Hebolt, all of Sand Point. Those seriously injured are: Edward Lynn, David Lynn and John Chatterton, all of Sand Point, and Thomas Mallett, of Carleton Place.

SAW NOTORIOUS DR. COOK.

Brooklyn Explorer Living in Seclusion in South America.

New York, July 10—Another traveller has come home back from South America with tales of the vanished polar explorer, Dr. Frederick A. Cook. This time it is Dr. Robert Kelley, of Philadelphia, and he brings a photograph to prove his tale. Dr. Cook shows in print, wearing a long rain coat, a golf cap and without the moustache he had when he toured the country giving lectures. Dr. Kelley did not succeed in interviewing Dr. Cook.

"The doctor keeps very much to himself,' he explained, "and avoids Americans whenever possible. He is living in Cumber, 12,800 feet up in the Chilean Andes. I believe he will stay there until he can come back with some sort of proofs."

PRISONERS BREAK JAIL.

Jumped From Wall to Street Below and Some Got Away.

Georgetown, Dela., July 10—By digging their way through a two-foot wall, five prisoners, four of them desperate characters, who were awaiting trial for various crimes, including murder, escaped from the county jail here this morning. Making their way to the top of the wall surrounding the building the men leaped 22 feet to the street below. One of them was so badly injured that he was unable to regain his feet and was captured. The other four dashed wildly through the town and succeeded in losing their pursuers and have not yet been recaptured.

ROBLIN TO A RULE IN MAN

General Elections Resu For Conservatives. Change In Stan

Winnipeg, July 11—With three or four constituenc the returns of the genera Manitoba today show tha government has been susta jority that will not greatl that of the last house.
