RUPTURES.

Springless Truss and Supporters.

Prof. G. Hotchkin will again visit as follows:

Erantford, Wheeler Hall, Oct. 1, 2, and Oct. 31.
Berlin, Commercial Hotel, Oct. 2, 3 and 4.
Guelph, Wellington Hotel, Oct. 5, 6 and 7.

Prof. Hotchkin's treatment is practical, rational and economical. Its objects are immediate relief. It is based upon scientific principles, and easily demonstrated to the comprehension of any intelligent person, that it differs without any kind of spring or hard substance, having healed inguinal and umbilical as well as varicocele, at his advanced ages respectively from 70 to 80 years, who had tried almost all spring trusses. Trusses for children as well as adults.

Since his having had 10 years' experience has become Master of his profession, and feels confident he can satisfy all who may call.

G. W. HOTCHKIN.

O. julxwtf

Local News.

Says the Manitoulin *Expositor*:—A. B. Petrie and family of Guelph, are rusticating on Beauty Island, near Little Current.

The Public Schools in towns, villages and townships were re-opened on Monday morning, according to law, after the midsummer vacations.

The band gave a concert at Trafalgar Square last night. The evening was pleasant and a large number of people turned out to listen to the music. The playing of the band was excellent.

The Excursionists. — The excursion party who took advantage of the cheap trip given under the auspices of the Berlin Oddfellows and left on Monday forenoon for Detroit, Cleveland and other points, wish received augmentations at every station as far as New Hamburg, until there were finally about 800 excursionists on board the train.

New Goods.—Mr. D. R. Brown, returned from the Montreal markets on Saturday where he had been for a few days purchasing his winter stock of boots and shoes. Yesterday the first consignment of seventy-five cases arrived and will be opened out for inspection in a few days. Mr. Brown says he will be able to sell boots and shoes cheaper than ever this year.

Returned.—Mr. Geo. Walker, of Hugill, Walker & Co., returned yesterday from Southampton where he has been enjoying a holiday for a short time. During his stay there he encountered several Guelph people among them were Mr. and Mrs. James Innes and Postmaster Simpson. The former were on their way to the Northwest, and the latter had left Southampton for Strawberry Island to join Sheriff Grant and company.

Barozzera v. Police.—The London *Advertiser* says, while discussing the red tape which requires police patrol men to meet a sergeant at regular intervals while on their beats:—"Reporters, from the nature of their own occupation, know that the words of a policeman are full of sound sense. Suppose that this reporter who gets on the track of a good item were not allowed to use his judgment as to following it up, but had to report himself to the city editor at some specified place every fifteen minutes, how much use would he be? The average reporter can trace up anything better than the average policeman, for the reason among others, that the reporter uses common sense and is not bound by any cast iron rules to be at certain places at certain times."

Oxen Stolen.—At the July fair, held in Harriston, George Creelock, a Toronto buyer, bought a yoke of white oxen, for which he paid $125. The cattle were taken to Toronto, and then sold to the Montreal buyer, to go to the English market, and were just being shipped on board the vessel when they were claimed by Mr. Healey, of Egremont, who had traced the stolen animals from Harriston to that point. Of course Mr. Healey gave ample truth that the oxen had been stolen, they were at once delivered over to him. The Montreal buyer coming back upon the Toronto man, who had to refund the price received, and now the Toronto buyer is up endeavoring to find the man who sold him the cattle. We fear there will be a hard task, as no doubt the guilty party has long ere this made his departure for new pastures. We trust that every effort will be made, not only by the Toronto buyer, but by the people of the section in which the theft was committed to trace the thief and bring him to justice.

Live Stock Markets.

Montreal, Aug. 21.—The demand for cattle for shipment continues light at the asking figures of owners and in view of continued depression abroad there is little disposition to ship from this side excepting upon positive orders or a considerable concession in prices. At the Vieux stock yards this morning there were about 400 head on the market, of which about 200 head were left over, and the balance sold at from 4½ to 5c, the latter the highest figure paid. Common to good beeves on the standard of the whole lot sold at 4½ to 4¾, and inferior 3½ to 4c. There were about 1,000 lambs on sale for which there was a good demand at $2.50 to $4. Shipping sheep sold at 5c to 5½c per lb live weight as to quality. A few calves were on sale and sold at $4 to $10 each.

East Buffalo, Aug. 21.—Receipts—Cattle, 30; hogs, 1,700; sheep, 1,200. Shipments—Cattle, 110; hogs, 1,000; sheep, 2,000. Cattle—Dull and unchanged, with a downward tendency for common grades. Sheep and lambs—Receipts and sales of sheep moderate; market unchanged as far as prices are concerned, although feeders and countrymen took quite a liberal number, and shippers appeared more anxious to buy a few of the better lots.

THE Admiration OF THE WORLD. Mrs. S. A. Allen's WORLD'S Hair Restorer IS PERFECTION!

Public Benefactress. Mrs. S. A. Allen has justly earned this title, and thousands are this day rejoicing over a fine head of hair produced by her unequaled preparation for restoring, invigorating, and beautifying the Hair. Her World's Hair Restorer quickly cleanses the scalp, removing Dandruff, and arrests the fall; the hair, if grey, is changed to its natural color, giving to the gray locks an luxurious quantity as in youth.

COMPLIMENTARY. "My hair is now restored to its youthful color; I have not a gray hair left. I am satisfied that the preparation is not a dye, but acts on the secretions. My hair ceases to fall, which is certainly to my advantage to me, for I was fast becoming bald or old coming bald." This is the testimony of all who use Mrs. S. A. Allen's World's Hair Restorer.

Don't be old at 40. That is the opinion of many who have had their gray hair restored to its natural color, and their bald spot covered with hair, after using one bottle of Mrs. S. A. Allen's World's Hair Restorer. It is not a dye.

We understand that parties from Guelph visiting the Galt Caledonian games on Friday, and who wish to remain to the concert, can return home by special car after the concert is over.

The Puslinch Township Council, with commendable liberality, has voted the sum of $200 for the Provincial Exhibition to be held in Guelph next month. What other townships will follow this good example?

John Hogg & Son announce to-day in a thirteenth advertisement that they are "pushing the trade." Their stock is large and complete, and the proprietors announce that their prices are low and their goods first-class.

Runaway.—About half past four o'clock yesterday afternoon Dr. McGuire's horse, which was tied at the residence of Mr. Kirk, near the Grand Trunk freight station, broke its fastening and took a run home on its own account. It came up Waterloo avenue at a rapid pace, crossed the track and along Norfolk street. When opposite Klopfer's coal yard the animal stumbled and fell on the sidewalk, when it was instantly secured. The horse received slight cuts on its legs, but no damage was done to the buggy.

Uncle Tom's Cabin.—The Wren company were greeted with a good house last night to witness the play. Eliza, in the person of Miss Hosea's Cabin, was the star of the play, contrasted with the "Two Orphans" which was produced on Monday night, seem better suited to the more gaudy heroine of melodramatic stage. Marks Mr. Wren's portrayal of the character to a dot, while "Topsy" was equally well sustained by Miss Wren. The company will be here for one more night. Mayor Chase received a telegram this forenoon stating that the party would arrive at 3:30 to-day on their return east. They will be met at the G. T. R. station by the Mayor and members of the Railway Committee.

Police Court Departures.—After a lull of some weeks, we are again pestered with applications from Police Court defendants to have their names withheld from publication. As has been frequently pointed out in these columns, the appearance of the names of offenders in the newspapers is a greater deterrent to acts of illegality than the fines which are imposed by the magistrate. For this reason it is in the public interest that all cases should be published, and it is quite impossible to make any distinction of persons. Let those therefore who object to see their names in print in connection with Police Court scrapes think about the consequences before they commit an act which will make them liable to prosecution. No entreaties for suppression will avail once they come into court, and we once more emphasize the advice, let them count the cost beforehand.

Weather Probabilities.

Fresh southeast to south winds; fair weather followed by showers at night.

Hespeler Correspondence.

Grand Entertainment.—Under the auspices of the Royal Templars of Temperance of New Hope Lodge, No. 65, the dramatic cantata "Lost and saved," in three acts, will be performed under the able superintendence of professor Tanney in Glick's hall on the evenings of Friday and Saturday, Aug. 24th and 25th. The entertainment will be all a highly moral and educational character, especially adapted to interest the cause of temperance, and to promote temperance work. The successful performance of the play necessitated a combination of the best musical and dramatic talent in the community. This talent has to a great extent been secured for the occasion, and we feel sure that the people of Hespeler will avail themselves of the pleasure to be enjoyed, and a repetition of it to any future time may not take place for a long time.

A Handsome Display.—We have just had our notice attracted by a very handsome display of fancy goods, in the window of Mr. Kelly's popular carriage works. It is of the latest fashion styles, to be brief it is a combination of the useful and ornamental, and a large number of articles of various kinds, which everyone can now see for themselves at the establishment, and appreciate as they will, the eye that refined good taste possessed by employers and employees, and having inspected the display we can say so far as our opinion goes, it is the very best we have seen. One of the firm, Mr. Beckley, has just returned from a tour in Michigan, and in addition to a number of other articles, he has a unique frame which has cost a deal of ingenuity and money, and is a novelty in this section. The peculiarity is that the sides of the frame are composed of a single piece of seam is visible, thus making a frame that has no equal. Among the other articles which have been purchased by our enterprising friend during his late visit to Michigan, we understand we will receive an occasional glance, and we will merit an occasional glance, and we will merit and receive a share of public patronage. We wish the young men every success in their enterprise, and we feel sure they will receive it.

Won't Have Time.—The extra labor and inconvenience involved by changing the location of the time worked out in the Gaslight Co. into their large new factory near the railway station, which change will take place shortly, will likely prevent the firm from figuring so conspicuously at the Guelph exhibition throughout the country they generally formerly have done.

The Station Sunday.—The public waiting room opened here on Monday morning last. Mr. A. Cole, second holder during the early part of year, having resigned his position during vacation, the Trustee Board engaged the services of Mr. Chas. Lang, an experienced clerk. We have reason to believe that Mr. Lang will fill the duties efficiently, as his predecessor, Mr. Cole did during his entire term of service.

A Promotion to Deserving Merit.—John Harris of this place, who for the last year has been attending the Galt Collegiate Institute, passed a public examination for a Third class certificate at the late examination of teachers at Toronto. We congratulate Mr. Harris on what may well be considered an achievement, as he is but a very young man, and should he pursue his literary course on into life, he bids fair to rank well among the educationists of the day. We understand that another besides Mr. Harris from the Galt C.I. also passed successfully.

Tin Cole Business.—In view of the large amount of coal likely to be consumed here, during the coming winter, Mr. John Zeyd, hardware merchant here, is making extensive preparation, and in a few days a coal shed 40 by 20 feet will be constructed in the yard of the railway station. Mr. Zeyd having made the necessary arrangements with the Company. Several tons of coal are already in the shed.

Music.—We are informed that the Guelph Band of this place has been engaged to discourse sweet music to the railway pionickers at Guelph on Saturday next. It is quite probable this music will be found to form an important factor in the day's enjoyment.

A Fatal Fall.—A carpenter named James Redmond, by trade, fell from a house in this place, whilst engaged in putting rafters on a driving shed on the farm of Mr. Edward Sherburn, township of Nichol, elevation about 20 feet, fell a distance of 14 feet, from the effects of which he died five days afterwards. He was of years of age, and leaves a wife and family.

Revival.—Rev. Messrs. Crossley and Hunter, of Toronto, commenced a revival in the Methodist church here on Sunday last, and have had very good attendance at the services. Cabs were engaged and taken to Puslinch lake station to examine the new buildings being erected on the Exhibition Grounds.

The case of Wilson for criminal libel remanded till to-day for sentence was not proceeded with until [illegible] Hirschfelder and Fox were fined $1 and costs each for disorderly conduct.

There was no quorum at the cricketers meeting last night.

A new sidewalk is being laid on Wyndham street, in front of Messrs. P. Anderson and J. E. McElderry's stores.

Murdoch Mackenzie and D. Galbraith played a practice game of checkers last night. Mackenzie came out ahead, but the games were keenly contested.

A few days ago a heifer was purchased by Mr. Andrew Laing, of Puslinch, and on being killed by one of our butchers a ball measuring 11½ inches in circumference was found in the animal's stomach.

Thomas Barrett, who received the contract for laying the water works pipes from the General Hospital to the new private Asylum, is progressing rapidly with the work. He has about 400 feet done. The pipes have nearly all been delivered.

Late night Mr. George Williams, of the City Bakery, entertained the City Band after they had got through playing on Trafalgar Square, to ice cream, cakes, &c. The Band thanked Mr. Williams for his kindness.

Pig mg.—The employees of Burr Bros. factory are making big preparations for their annual pic-nic, to be held at Puslinch Lake on Friday. The procession will start about eight o'clock from the factory, thence along Suffolk street to Woolwich and along Wyndham street and Maitland Square to the Lake. The City Band have been engaged for the occasion. Most of the livery rigs are engaged.

G. T. R. Arrangements.—The special train conveying Sir Henry Tyler, President of the G. T. R., Joseph Hickson, General Manager, and party, came in on the Grand Trunk last evening, changed on to the Wellington Division and ran through to Wiarton. Mayor Chase received a telegram this forenoon stating that the party would arrive at 3:30 to-day on their return east. They will be met at the G. T. R. station by the Mayor and members of the Railway Committee.

Police Court Departures.—After a lull of some weeks, we are again pestered with applications from Police Court defendants to have their names withheld from publication. As has been frequently pointed out in these columns, the appearance of the names of offenders in the newspapers is a greater deterrent to acts of illegality than the fines which are imposed by the magistrate. For this reason it is in the public interest that all cases should be published, and it is quite impossible to make any distinction of persons. Let those therefore who object to see their names in print in connection with Police Court scrapes think about the consequences before they commit an act which will make them liable to prosecution. No entreaties for suppression will avail once they come into court, and we once more emphasize the advice, let them count the cost beforehand.

Elmira Correspondence.

Donald McFarlane Killed.—On Tuesday last, the 14th instant, our village was startled by the news that Donald McFarlane, jr., and Donald McFarlane, sr., had been killed at 5 o'clock in the afternoon and were about half an hour before, going by the way of Montreal. About midnight Mr Wenger, between Elmira and Wallenstein, called up Mr. Cowan, of Elmira, who at once went out and found the boy, and that he had fallen from the bridge, and that he believed that he (McFarlane) was dead. Cowan replied that if he was dead there was no use of his going to him, for he could do no good to a dead man. Wenger, notwithstanding, was doubtful if there was another doctor in the place, and was recommended to go to Glen, who was being called on your behalf. On arriving at the village of Wallenstein they found that Jacob Fisher, who had been drinking, was in a stupor before he went for the doctor, and had cured the help of some hangers-on, and had tied the man into Mr Fisher's shed, near to where the accident had happened, and found the man stone dead. As the accident appeared in good time when he died, the doctor concluded, in view of the village, no post mortem, and decided that it would be better for the village, no post mortem, and decided that it would be better for the village, no post mortem, and decided that it would be better for
