ITALY MAKES ANTI-CLERICAL MOVEMENT

FIFTEEN THOUSAND CITIZENS OF ROME SHOW THEIR SYMPATHY WITH FRANCE.

Republicans and Socialists Throughout the Country March With the Red Flag and Denounce the Policy of the Vatican.

ROME, Feb. 17.—Fifteen thousand persons, among them 100 red-shirted Garibaldians, with 120 flags and 20 bands of music, participated today in an anti-clerical demonstration in favor of France.

The procession went to the monument of Gioradino Bruno, the Italian philosopher, who was burned at the stake by order of the Inquisition, and deposited thirty wreaths there. Afterwards the marchers went to the Capitol, and despite their being prohibited, entered the balcony of Michael Angelo, planted the red republican flag and amid enthusiastic cheers Republican and Socialistic deputies delivered violent anti-clerical speeches.

The Government took eneregtic measures to avoid trouble. The whole garrison was under arms, and all the streets leading to the Vatican were barred by troops.

Similar manifestations took place in all the leading Italian towns.

QUEEN MEIE'S MUMMY.

Jewelry and Much Gold Found in Tomb of Mother of "Heretic King."

LONDON, Feb. 16.—Theodore M. Davis, who discovered the tomb of the parents of the Egyptian Queen, Meie, has discovered the tomb and mummy of the Queen herself. As her tomb lay in the bed of a watercourse, the mummy and wooden articles have suffered severely. Queen Meie was the mother and inspirer of the famous "Heretic King," and from her tomb the priests of Thebes had erased every inscription of that King's name, leaving, however, the jewelry and gold.

Water had reduced almost to pulp the sheets of gold in which the mummy was wrapped. Bracelets encircled the arms, there was a costly necklace around the neck, and on the head was still the imperial crown of ancient Egypt's Queens.

Unctuous Rectitude and Cheap Hysteria.

(Toronto Evening Telegram.)

Where was the Globe's critical eye when its favorite work of fiction, "The Doctor," was being eulogized? Are not certain passages in "The Doctor" almost as unfit to be read aloud in mixed society as certain passages in the telegraphed versions of the Thaw trial published in this country? If there is to be a censorship of facts in this country there must also be a censorship of fiction. Fiction that forces so-called problems into the sight of old and young ought to be no more privileged than the facts which relate to a problem that is being worked out in a court of justice.

WILLING TO ARBITRATE.

Presidents of Nicaragua and Honduras Say There'll Be No War.

WASHINGTON, FEB. 17—Dispatches received by the president from the presidents of Nicaragua and Honduras give assurance of the maintenance of peaceful relations between those two countries. In response to the joint note of the United States, Mexico, Guatemala and other Central American countries, both presidents have signified their willingness to agree to any step which may be taken leading up to the submission of the question in dispute to an arbitration court and to abide by its decision.

NEW LUMBER COMPANY.

To Be Established at Saskatoon With Capital of $100,000.

OTTAWA, Feb. 15—Edward Albert Konantz, lumber merchant of St. Paul; Roscoe Percy Ward, banker, Wanseca, Adelbert Nathan Stacey, merchant of St. Paul, Charles Johnlee, managing agent, Saskatoon, and Everett Stanley Konantz, St. Paul, have been incorporated as the North American Lumber and Supply Co. The chief business place will be Saskatoon and the proposed capital is $100,000.

Four Killed at Funeral.

LONG ISLAND, Feb. 13.—A train on the Long Island Railway ran into a funeral at the Penny Bridge crossing yesterday afternoon. The coach was smashed to kindling-wood and four of the occupants were instantly killed. There were gates at the crossing, but it is said they were not lowered at the approach of the train.

GREAT STRUGGLE AGAINST LORDS IS NOW ON

BRITISH HOUSE OF COMMONS BEGINS FIGHT TO WREST POWER FROM UPPER HOUSE.

Irish Home Rule Issue Also Up—King Edward in Speech Refers to Measures to Give Erin Better Government.

The British Parliament assembled at Westminster last week for what is expected to be the most momentous session of many years—perhaps of centuries. All doubt as to the intentions of the Government was removed by the declaration of Premier Campbell-Bannerman that all other issues would be subordinated to the question of checking the power of the House of Lords and making the will of the people, represented by the House of Commons, supreme. The Government is committed to a policy which means constitutional revolution, and the leaders say, will not give up the fight until the power of the House of Lords to defeat reforms which the people wish has been removed or the Government has stepped out.

Next to the struggle between the Houses of Parliament, the Irish home rule question is most prominent. King Edward in his speech from the throne in convening Parliament referred to the home rule question and to the measures which would be introduced to give Ireland better government.

When the Commons assembled to debate on the reply to the speech from the throne Premier Campbell-Bannerman boldly stated the issue.

"The question of differences between the two Houses of Parliament is the chief matter," he said. "Two important measures demanded by the country and passed after infinite patience by the House of Commons have been destroyed by the House of Lords. The members of the House of Lords are watchdogs who, after a period of prolonged somnolence, now are full of bitter ferocity. The readjustment of the constitutional machinery would be of real service to the country."

With almost every sentence the Premier was interrupted by cheers. Continuing, he said:

"The question of the House of Lords must be settled. The present situation is discreditable, dangerous and demoralising, but I am not sure that when we get to closer quarters with it it may not prove easier of solution than it appears to be.

"We must have a readjustment of the relations between the two Houses to enable us to carry out in reasonable harmony the wishes of the people, and to this the attention of the House of Commons will be directed."

ONTARIO'S TIMBER OUTPUT.

Forests of the Province Will Give Up Large Quantities This Year.

TORONTO, Feb. 17.—An estimate of the quantity of timber which will be cut in the forests of Ontario during the winter of 1906-07 has been made by the officials of the Department of Lands, Forests and Mines. It is believed that more lumber will be taken out this spring than was taken out last season. It is said that the lumbermen will fell 1,000,000,000 feet board measure of pine this year, 70,000,000 feet board measure of hemlock, 1,500,000 feet board measure of spruce, 1,250,000 cubic feet of square timber, 100,000 cords of pulp wood and 4,500,000 railway ties. The activity in railway construction throughout the country has created a great demand for ties, and the production in Ontario will in consequence increase this year.

AN UNIQUE WEDDING.

Three Couples, Widower and Widow and a Daughter of Each.

MONTREAL, Feb. 16.—An unusual matrimonial event was celebrated at the parish church of St. Louis de Mile Eend recently, when an elderly widower, father of five children, was united to a widow, also parent of five, while at the same service a daughter of the bride and a daughter of the groom were also provided with husbands. In order that the parents and children might join in this nuptial family reunion, special permission was granted the younger couples to undergo the marriage ceremony outside their respective parishes. Friends of the six participants witnessed the unique wedding, which was performed by Rev. Canon Le Pailleur, the parish priest.

MORE EARTHQUAKES DUE.

Jamaican Shock Nothing to What Is in Store, Scientist Says.

NEW Haven, Conn., Feb. 17—Before the Connecticut Association of Arts and Sciences, Professor Addison Verrill of Yale said last night: "The recent earthquakes in Jamaica are nothing to what is in store for the West Indies the next few years. The geological formations of the islands make it almost certain that some startling catastrophes will occur."

Professor Verrill for years resided in the West Indies for the purpose of conducting exhaustive geological investigations into the island. He is the leading American authority on the subject.

VALUABLE FURS BURN AT BRANDON

STOCK VALUED AT $28,000 DESTROYED—FACTORY DAMAGED AT MONTREAL.

BRANDON, Feb. 17.—The building on Rosser avenue occupied by the Montreal Fur Co. was gutted by fire. The blaze started upstairs in the workroom and had gained considerable headway before the fire brigade arrived. The stock of furs, valued at $28,000, will be a total loss.

MONTREAL, Que., Feb. 17.—The James Robertson Companys factory, Dalhousie street, suffered $20,000 damage by a fire which broke out in the brass foundry and extended to the packing department. The fire is supposed to have originated from overheated shafting in the brass works.

CAPE CHARLES, Va., Feb. 17.—Fire which broke out in the livery stable of J. W. Coulbourne destroyed the stable and three houses adjoining before it was finally gotten under control. The loss will only amount to about $15,000.

GOD HAS NEED OF MEN

DOMINANT NOTE IN AN ELOQUENT ADDRESS BY W. W. BUCHANAN.

(From Monday's Morning Leader.)

Mr. W. W. Buchanan, the noted temperance advocate, addressed meetings in Knox Church yesterday morning; the Baptist Church in the afternoon, and the Methodist Church in the evening. He spoke to larg congregations on each occasion, and delivered powerful addresses. There is nothing fanatical or sensational about Mr. Buchanan's oratory. It is sane and argumentative and withal very interesting.

In his evening address Mr. Buchanan dwelt eloquently on the need of men in the cause of reform. God's need of men, said the speaker, was a wonderful doctrine. Men realized their need of a Saviour, but the other side of the great hemisphere of truth was neglected, namely, that, although men were puny and humble, God, nevertheless, had need of them.

God's call to men was not for them to secure a title to a mansion in the sky, but His appeal to them was for the salvation of the world, which could only be brought about by the brains and inspiration of men and women.

What was the dominant idea of the Chrstianity of this age? The idea of yesterday was liberty. But they were living in a new age dominated by a new idea—the idea of the Sermon on the Mount, that injury to one was the concern of all, and that persons were more valuable than property. But this idea was being only slowly realized because of the inactivity of men. In the picture of the Judgment Day, contained in Matthew, those who were banished from God's presence were condemned not for what they did, but for what they did not do. The sin of omission was the crying sin of today.

Speaking of the temperance cause, the speaker said that the time had arrived for the battle cry, "To Arms!" The call was for men, not for sentiment. The world was now surfeited with temperance sentiment. What was wanted was men to push the battle to the gates.

The worst that could be said of intemperance was that the conditions now prevailing were the best that the conscience of the country demanded, and which the people had the courage, intelligence and devotion to secure.

The speaker closed with a ringing appeal for workers. Everybody could do something. Those who had but a single talent could unite their efforts in the cause of temperance and follow a Joshua, who would lead them out into the promised land of temperance.

Miss Burnett, of Winnipeg, and Miss Cote, formerly of the Regina Industrial School, sang beautiful solos, which were much enjoyed by the congregation.

Tonight at 8 o'clock a temperance rally will be held in the Hamilton Street Methodist Church. Mr. Buchanan will speak, and Miss Burnett, who is an exceptionally gifted singer, possessing a voice of great sweetness and compass, will sing. His Worship Mayor Smith will occupy the chair. There will also be a rally on Tuesday night in the same church.

BONSPIEL NEARLY OVER.

Several Final Games Were Played at Winnipeg Yesterday.

WINNIPEG, Feb. 15.—Today saw a number of the final games in the bonspiel, and it is likely that tomorrow will see the end of the gathering of curlers for 1907. The ice was not in very good shape, and as the players were very tired, some of them having played three and four games a day for the past day or two, some of the games were not as good as could be expected.

The McMillan (Consolation) was won by W. Hicks, of Napinka, R. B. Rice, of Toronto, getting second place.

The Tuckett was again won by the Thistles, of Winnipeg. Mac Braden and Andy Russel beating Kitchen and Hetherington, of Souris, by 25-12.

In the evening draw two more competitions were closed out and as a result of the games the Royal Caledonian trophy will go to St. Paul and the Walker (International) will remain in Winnipeg.

Tomorrow's programme will contain at least two and perhaps three finals. These will be the Blue Ribbon, Dingwall and Tetley Tea, and it is probable that a special effort will be made to complete the Whyte Veteran's trophy, but as quite a few games are to be played it is probable that the final game in this competition will be held over until Monday.

MANY WOMEN MANGLED IN TRAIN WRECK

N. Y. CENTRAL EXPRESS WRECKED WHILE SPEEDING SIXTY MILES AN HOUR.

Cars Filled with Theatre-goers Returning Home—Police Place Number Killed at Forty—Overturned Cars Catch Fire.

NEW YORK, Feb. 17.—The electric suburban train on the Harlem division of the New York Central Railroad, which left the Grand Central station at 6:13 o'clock last night, was wrecked near Mosholu Parkway in the Bronx.

According to the police forty people are known to have been killed, while many others were injured. Fire followed the wreck, but it was soon extinguished. Physicians from all available points were summoned to the scene, as were two fire engine companies.

The cause of the wreck is in doubt. The train was No. 25, and after the stop at One Hundred and Twenty-fifth street at 6:26 o'clock, was not scheduled to stop again until its arrival at White Plains. The train would then have made stops at nearly all stations.

According to the railroad officials there are fourteen known dead, with a hundred others injured, some of whom will die.

There is a sharp curve where the wreck occurred. The two motors and the first cars remained on the track, all the rest being overturned. Most of the fatalities occurred in the last coach, which was crowded with matinee-goers, mostly women, many of the bodies being mangled beyond recognition.

Several of the survivors state that the train was traveling fully sixty miles an hour at the time of the accident.

Later Report.

NEW YORK, Feb. 17.—Latest reports on Saturday night's wreck show that twenty persons were killed in the wreck of the Brewster express of the Harlem division of the New York Central Railroad last night.

Two persons, probably fatally injured, are in Fordham Hospital, and 150 persons figure on the police lists as seriously hurt. All but three of the bodies of the dead have been identified.

THE WORLD IN BRIEF

LONDON—Ambassador James Bryce and Mrs. Bryce held a farewell audience of King Edward and Queen Alexandra, when Mr. Bryce "kissed hands," as the ceremony is termed, on his appointment to the British embassy at Washington.

NICE, France—Harold S. Van Buren, of New York, American consul here, is dead.

BAKHMUT, Russia—One hundred men wer etrapped in a coal mine that caught fire.

ST. PETERSBURG—It is now certain that the union of the parties of the Left in the Douma will give them a small majority over the Octoberists. The elections of delegates at Moscow has been a great victory for the Left.

KINGSTON, Jamaica—Carles Tait, Mayor of the city, died in the public hospital from injuries sustained at the time of the earthquake. Mayor Tait was conducting a meeting of the council when the building collapsed. He was sixty-eight years old and of Scotch descent.

PARIS—Henri Des Houx, organiser of the League of French Patriots, has challenged Deputy Pugliesi to a duel as the result of a quarrel.

LONDON—A new British expedition to the south pole will leave England next October under the command of E. H. Shackleton. It will land a party at Mount Melbourne to attempt to reach the magnetic pole. A motor car built for ice travelling will be used.

CONSTANTINOPLE—The sudden and mysterious death of Vice Admiral Hairi Pasha recently is occasioning much comment. He had just been appointed by imperial irade as chairman of the commission to examine the battleship Assar-i-tewfik after her modernisation and rearmament at Kiel, an examination to which certain persons are said to have objected.

TEHERAN—The Shah last night sent a message to Parliament granting all the popular demands, including formal recognition that the country is under constitutional government. This message was telegraphed to Tabriz, where the people had seized the arsenal and closed the government offices, and to other points where revolutionary demonstrations were being made. All is now quiet.

LONDON—The funeral of Lady Victora Grenfell will take place next Tuesday at Harwick. The services will be held at St. George's church, Hanover Square.

ST. PETERSBURG—A son of Count Tolstoi was indicted for high treason on the charge of printing his father's latest political pamphlet.

A Divorce Coming to Her.

CHICAGO, Feb. 16.—Masses of dark brown hair—two pounds and eleven ounces of it, enough to fill a pillow—were unrolled from a newspaper parcel before the astonished eyes of Judge Windes on the corner of the judicial desk when Mrs. Mary Schrayer offered one of the most novel exhibits ever produced in a Chicago divorce court.

The hair, Mrs. Schrayer declared with much vehemence, was torn from her head during the course of her married life with Max Schrayer, from whom she asks a decree on the grounds of cruelty.

For six long years, from 1900 to 1906, the Schrayers lived together. That was the period during which the hirsute collection was made. Its value, at Chicago retail prces, was stated by hair dealers to be $8.60.

CALGARY SURE OF CHEAP POWER

MANY COMPANIES ARE PREPARING TO SELL POWER TO CITIZENS.

CALGARY, Feb. 16.—Calgary will not want for cheap power.

With one steam plant, generating power from cheap coal, three companies harnessing the Bow River and selling power in this city, one gas producing plant competing with the rest, and a natural gas plant supplying power, this city is to be better supplied with cheap power than any other city on the American continent.

In a recent interview Mr. Butchart, manager of the Alberta Portland Cement Co., stated that that company intended to proceed at once with the development of power. Their proposition is to be at Radnor, at the spot where Messrs. Alexander and Budd intended in the first instance to develop power. They intend to generate 4,000 horse power, using about 2,500 for themselves, with the balance for sale in the city. They are willing to come in under the same arrangements as the other companies.

"I think that we shall have the power here by the spring of 1908," said Mr. Butchart.

A big company is being formed to develop power by the gas producer method. This company will also apply to the city upon terms similar to the suggested agreement with Alexander and Budd.

The natural gas company, though temporarily delayed by a breakdown of some parts of the machinery, is quite confident that it is only a matter of a few hundred feet before the gas is struck in the well here. This company has already secured the right to distribute gas for light, heat and power in the city.

With three water power companies, one gas producer, one natural gas and one steam plant, the city will be well supplied for cheap power, and no power will be at more than $24 per horse power.

TO THE PUBLIC.

Saskatchewan can boast of having the greatest sire of the day in the black horse, "Satrap," (7326), the sire of Jubilee, 2:06¼, and the fastest horse in the world on ice. Satrap sired by Dictator, a son of Hambleton, 10, first dam "Virgie Wilkes," by George Wilkes, a great brood mare; second dam Cleopatra, by "American Clay," also in great brood mare list; third dam Mangy, by Messenger, and so on. Satrap is a double-gaited horse, and to high wheels with a record of 2:19; is also the sire of many more fast performers; is owned at Disley by W. F. Mahoney, and will make the season at Disley for 1907. For further particulars, address W. F. Mahoney, Golden Lion Hotel, Disley, Sask. 52tfw

TENDERS FOR JAIL SUPPLIES.

Sealed tenders, addresed to the undersigned, marked "Tender for Jail Supplies," will be received at this office until 4.30 o'clock p.m., on Wednesday, February 20th, 1907, for the following supplies for the Provincial Jails at Regina and Prince Albert, for one year ending February 28th, 1908:

Bread.
Beef.
Groceries.

Details of information as to form of contract, together with form of tender and estimated quantities to be supplied, will be furnished on application to the Jailors at the Regina and Prince Albert Jails.

All supplies are subject to the approval of the Jailor.

All tenders submitted must specify clearly the institution or institutions which it is proposed to supply, and tenders must be for delivery at the respective jails.

A marked cheque for ten per cent. of the total amount of the tender must accompany each tender, which will be forfeited if the successful tenderer fails to enter into a contract when called upon to do so, or having entered into a contract, fails to complete the same.

The lowest or any tender will not necessarily be accepted.

Papers inserting this advertisement without authority will not be paid for it.

FRANK FORD,
Deputy Attorney General.
Department of the Attorney General,
Regina, Sask. 51-1w.

SHERIFF'S SALE.
