THERE IS STILL DOUBT AS TO THE FATE OF THE LEGATIONS

Senate Rdg Room 1feb00 SENATE FO

"No Authentic News From Pekin" is Still the Burden of the Despatches From the Far East—Greatest Anxiety Prevails.

Japs Only Prevented a Disaster at Tien Tsin by Their Timely Arrival—One Russian Company Was Wiped Out—It is War to the Knife Between the Dowager Empress and Prince Tuan—Allies Will Bombard the Native City of Tien Tsin.

London, July 11.—(4.15 a.m.)—"No authentic news from Pekin" is still the burden of the despatches from the Far East, and, altho the disposition is to believe the optimistic reports from Chinese sources, no real confidence is possible until the legations, if they are still in existence, are permitted to communicate with their Governments. If, as is alleged, the Boxer movement is losing ground in Pekin, it might have been supposed that the Boxers would have endeavored to send up reinforcements from Tien Tsin, but instead of that they are still in great force in the neighborhood of the latter place, and are assisted by the Imperial Chinese troops with ample, efficient artillery.

Fighting Around Tien Tsin.

According to a special Che Foo despatch the fighting around Tien Tsin on the third and fourth was the severest yet experienced. The British losses alone were 30 killed or wounded. The Chinese had 75,000 men attacking simultaneously from the west, north and east, and made excellent practice with over 100 guns.

Japs Prevented a Disaster.

The defenders numbered 14,000, with scant supplies, and it was only the presence of the newly-arrived Japanese and Russian guns that prevented a disaster.

Terrible Slaughter of Russians.

One Russian company of infantry numbering 120 men had 115 killed or wounded. The German contingent also suffered heavily. By the evening of the 4th the situation was very critical, The allies narrowly escaped total defeat. Providentially, when things were at their worst, a torrential rainfall compelled the Chinese to retire.

Renewed Attack on the 6th.

On the 6th the rain had abated and the Chinese renewed the attack, opening fire on Tien Tsin with two batteries of four-inch guns, but the allies, aided by two of H.M.S. Terrible's 4.7 guns, succeeded in silencing the Chinese artillery after 8 hours of fighting.

Was the Date Wrong?

At Shanghai it seems now to be the general belief that the date of the despatch of July 3, asserting that two legations were still standing, was an error, either accidental or intentional. The couriers must have left Pekin at least five days earlier, making the real date of the message June 28, while the alleged massacres are said to have occurred on June 30. Until this point can be cleared up the greatest anxiety will be felt as to the fate of the Europeans.

War to the Knife for the Throne.

According to the Shanghai correspondent of The Express, it is war to the knife between the Dowager Empress and Prince Tuan. In a recent edict the latter boldly discards his mask and signs himself as Emperor. He warmly defends the prowess of "his faithful Boxers," and in flowery language appeals to their cupidity and fanaticism. In the same decree Prince Tuan appoints Prince Tsuan, the "Iron Capped;" Prince Tsaisha his imperial clansman, and Kangyi to command the three chief wings of the Boxer army.

Refugees in a State of Destitution.

Three hundred European refugees from Tien Tsin have arrived at Shanghai in a state of destitution after terrible suffering.

Von Ketteler Was Hated.

The Chinese version of the origin of the outbreak, as published in Shanghai, is that Baron Von Ketteler was hated by the Pekinese, who, taking advantage of the disturbed condition of affairs, shot him out of revenge, thereby causing a conflict between the Chinese troops and the Germans, the latter of whom destroyed the Tsung li Yamen. The infuriated soldiers under Prince Tuan then gained complete control over the Dowager Empress.

Will Bombard Tien Tsin.

The Daily News Tien Tsin correspondent says the allies have decided to bombard the native city which they have hitherto hesitated to attack owing to the heavy commercial interests involved.

Secretary Hay's Circular.

The London daily papers comment favorably upon Secretary of State Hay's circular. The Times says: "It will meet with general approbation and welcome in Great Britain. While it is manifestly dictated by regard for American interests it coincides closely in almost all important respects with England's avowed policy. The reason is simple. In China the interests of both countries are primarily commercial and it is from their commercial interests that their political interests are derived. Secretary Hay bears this fundamental fact steadily in mind."

CANADIANS ARE SAFE.

A Reassuring Cable Received by Rev. Dr. Warden of the Presbyterian Mission Board.

Rev. Dr. Warden of the Presbyterian Mission Board received at a late hour last night the following cablegram from Dr. McClure, one of the church's missionaries at Che Foo, China:

"The Malcolms, Menzies, McLures, Dr. Wallace arrived at Che Foo. The rest coming. Great danger. Still hope."

The cablegram was dated yesterday. Dr. Warden says there are still 10 or 12 missionaries who are expected to arrive at Che Foo, which is considered a place of safety, and it was these missionaries that the cablegram referred to when it said: "The rest coming."

Dr. Warden immediately on receipt of the news wired back, asking to be kept posted.

KWANG SU STILL LIVES!

Chinese Emperor Addresses a Message to the English, Russian and Japanese Governments.

London, July 11.—(3.30 a.m.)—The Shanghai correspondent of The Daily Mail, telegraphing yesterday (Tuesday), says: "A message has arrived here from Emperor Kwang Su, dated July 2, by couriers from Pekin to the Viceroy of Nankin, who forwarded it here. It is addressed to the Russian, English and Japanese Governments. It deplores the recent occurrences and solemnly affirms that the foreign Governments are mistaken in supposing that the Chinese Government was protecting the Boxers against the Christians. The Emperor further implores their aid in suppressing the rebellion and upholding the existing Government.

"In a separate despatch to the Japanese Government, Kwang Su expresses deep regret for the murder of Legation Councellor Sugiyama.

"These despatches are taken to indicate that the Emperor is in seclusion and is ignorant of the seriousness of recent events."

WATER BAD AT TIEN TSIN.

This is the Chief Difficulty of the Allied Forces in Holding Their Position.

Shanghai (Monday), July 9.—The chief difficulty of the allied forces at Tien Tsin is the absence of an adequate water supply. The condition of the river is pestilential.

The panic among the Chinese in the southern provinces is completely stopping trade, and most of the native cotton mills are closed.

JAPAN WILL HAVE 63,000 TROOPS

In China Before the Rainy Season Begins—All With Modern Equipments.

London, July 10.—The Chinese correspondent of The Express telegraphs yesterday (Tuesday):

"The Japanese force is equipped with 36 heavy mortars and 120 field guns and has pontoon and balloon sections. It is expected either Marshal Nodzu or Marshal Oyama will take comand. The plan of campaign contemplates operations extending two or three years.

"A further force of 13,000 men will be landed at Taku a week hence and an additional 10,000 soon afterwards.

"Before the rainy season is well advanced Japan hopes to have 63,000 troops in China."

EXPECTS DISORDER CHECKED.

Sir Henry Blake, Governor of Hong Kong, Does Not Fear Rebellion in South China.

Hong Kong, July 10.—Sir Henry A. Blake, Governor of Hong Kong, for the first time after a three months' absence, to-day addressed the Executive Council. His Excellency expressed the belief that the anti-foreign rebellion would not extend in any appreciable degree to the southern provinces of China. He expressed the deepest condolence with the widow of the unfortunate German Minister, Baron Von Ketteler.

Russians Accused of Barbarity.

Nagasaki, July 10.—An American missionary named Famman, who has just arrived in Nagasaki from Tien Tsin, reports that the Russian troops in that district have acted with altogether Asiatic barbarity, killing and wounding friendly Chinese simply because their skin was yellow and respecting the lives of neither women nor children.

ALL CALM AT FOO CHOW.

Viceroy and Tartar Marshal Issue a Proclamation Favorable to Foreigners.

Paris, July 10.—The French consul at Foo Chow telegraphs under date of July 10 as follows: "The town is calm. The Viceroy and the Tartar Marshal have issued a proclamation favorable to foreigners and asking that warships should not come to Foo Chow. They propose in return to take such steps as will avert trouble in the Foo Kien province.

Shantung Governor Says It's So.

Washington, July 10.—The following official despatch was received here to-night from China:

"Che Foo. Secretary State. Shantung Governor wires has reports 4th July. All legationists Pekin safe, except German. Fowler, Consul."

EMPRESS DOWAGER IN CHARGE

She Has Appointed Yung Lu Prime Minister, and Desires Foreigners to Be Protected.

Shanghai, July 10.—News from official sources was received at 10 o'clock last night to the effect that the Empress had, on June 30 resumed the reins of government and appointed Yung Lu Prime Minister. It is said that she sent a despatch to Nanking by courier at the rate of 100 miles per day, thanking the Viceroys of the Yangtsekiang provinces for their loyalty, and recommending that they protect foreigners at any cost.

THE POSITION OF JAPAN.

Prepared to Take a Full Share in the Common Action for the Restoration of Order.

Vienna, July 10.—The Follisches Correspondenz publishes a despatch from Tokio which says Japan is prepared to take a full share of the common action of the powers for the restoration of order in China. But it is added she never contemplated asking for a European mandate for this purpose. She only seeks complete harmony among the powers.

ALL DEPENDS UPON SHENG,

And It is Difficult for the Foreign Consuls at Shanghai to Get News.

Shanghai, Monday, July 9.—It is difficult to get news here, as the consuls are dependent upon Taotai Sheng for Pekin news. He and other officials have large landed interests, and therefore it is supposed he will do his best to assist the foreigners in keeping the peace. A large number of rowdies are enlisting at the arsenals, which may thus get out of hand.

The officials have turned all their attention to the defence of the Yangtse, and have guaranteed to protect foreigners at Yangtse ports, provided the foreigners established there remain quiet.

No warships are allowed to land forces, and single warships only are allowed to pass the fortifications.

Sheng's proposal to form a Chinese volunteer corps has been rejected.

NO PARTITION OF CHINA YET,

And Russia Must Be Kept Outside the Wall, Says a Learned Japanese Gentleman.

Halifax, July 10.—(Special.)—J. Saneyoshi, F. R. S., of Tokio, Medical Director General of the Imperial navy of Japan, who is en route to the Paris Exposition, is in the city. Dr. Saneyoshi is a gentleman of culture and eminence in his profession. He was educated in England and is a fellow of the College of Physicians and Surgeons of London.

"Were you in Japan when the present trouble in China commenced?" asked a reporter of Dr. Saneyoshi.

"Yes, it commenced just before I left, and we also sent over a transport with troops, and afterwards sent two others. I think," continued the doctor, thoughtfully, "that when the allied troops get into Pekin it will be over for the present, and it may come again later. I think it very serious," he continued, "and while the rumors may not be true I don't think the papers have exaggerated it."

"Then you do not think the partition of China is coming just now?"

"No, I do not think so, not just yet; but Russia must be kept outside the wall. When China breaks up there may be a great war. Each power will think the other is getting too much."

In reply to further questioning Dr. Saneyoshi said that Japan had added several ships built in Germany, England and France, but mostly in England, to her navy lately. At the present time most of the navy is on the west coast of Japan, but a good many of the ships are in Chinese waters.

HEAVY ARTILLERY AT WORK.

Chinese Are Good Shots From the Results Shown at Tien Tsin on July 3.

Tien Tsin, Wednesday, July 4.—The Chinese shelled the foreign settlements all day long, July 3. Upwards of 150 shells fell into the concession, and many houses were partially wrecked. The casualties, however, were few, the civilians and women and children being ordered to seek shelter in the cellars of the Town Hall and the Astor Hotel.

Chinese Are Great Shots.

Three companies of Japanese infantry, a mountain battery and a body of Russians engaged the Chinese artillerists, but with little effect. The twelve-pounder of the British first-class cruiser Terrible then came into action, but the enemy placed two shells fairly under the gun, damaging the carriage and wounding the crew. The gun was withdrawn and replaced by a French gun, which had a similar experience, a shell bursting in the midst of its crew.

Japanese Casualties.

The Japanese casualties during the day's fighting were an officer and two men killed and 20 men wounded. The casualties of the other forces engaged are not known.

Chinese Reinforced.

The Chinese in the vicinity of Tien Tsin have been reinforced during the last 48 hours by several thousands of Gen. Ma's and Gen. Sung's troops from Pekin. The Chinese also have mounted a number of heavy guns commanding the settlements.

Boxers Enter Native City.

A force of Boxers numbering about 3000 men was seen entering the native city yesterday.

Vice-Admiral Alexijeff has arrived here,

SIR FREDERICK HODGSON SAFE.

With Lady Hodgson He Has Arrived at Cape Coast Castle, West Africa.

London, July 11.—The Daily Mail's Accra correspondent, telegraphing July 10, says: "Sir Frederick Mitchell Hodgson, Governor of the Gold Coast Colony, and his wife, arrived at Cape Coast Castle to-day. The remainder of the party is expected to-morrow.

CANADIAN PACIFIC MAY BE USED TO TRANSPORT TROOPS

Officials Have Received a Confidential Communication From the British Admiralty Regarding the Use of the Canadian Highway During Trouble in China.

Montreal, July 10.—(Special).—The Canadian Pacific Railway Company have received a communication from the Admiralty Office in London making enquiries with regard to the transport of troops over the company's system to Vancouver.

The officials of the company have communicated to the Admiralty authorities the information asked for, but the negotiations are of a purely confidential character as yet. It is not known to what extent the Imperial authorities propose using the great Canadian road as a military highway, but it is extremely probable that it will be utilized for transport purposes during the trouble with China.

THE BRITISH HAVE CAPTURED BETHLEHEM AFTER HARD BATTLE

Fight Lasted Two Days and at Noon the Town Was British With the Enemy in Full Retreat—Casualties Are Few, Considering the Position Assailed.

London, July 10.—Lord Roberts has sent the following despatch to the War Office:

"Pretoria, July 10.—Clements' and Paget's forces entered Bethlehem July 7. The former, on nearing the town, sent in a flag of truce demanding its surrender, which was refused by Dewet, when Paget, making a wide turning movement, succeeded in getting hold of the enemy's most important position covering the town. This was carried before dark by the Munster Fusiliers and Yorkshire Light Infantry. The following morning the attack was continued and by noon the town was in our possession and the enemy in full retreat.

The British Casualties.

"Our casualties were 4 officers and 32 men of the Munsters wounded; 1 missing; Captains Macpherson and Weakes and Lieut. Conway severely, and Lieut. Boyd-Rochefert, Scottish Rifles, slightly wounded; 7 men of the Yorkshires wounded; 1 killed; 2 wounded of the Imperial Yeomanry.

Battery Practice Accurate.

"Paget reports that but for the accurate practice of the Thirty-eighth Royal Artillery and the Fourth City Imperial Batteries the casualties would have been many more.

Baden-Powell at Rustenburg.

"Baden-Powell reached Rustenberg during the evening of July 8 without opposition. He found all quiet there and public confidence entirely satisfactory, thanks to the prompt and bold grasp of the situation taken by Major Hanbury-Tracey.

"The district west of this is somewhat unsettled owing to the small force which attacked Rustenburg being still in the neighborhood. Measures are being taken to meet this.

The Capture of Bethlehem.

"Further information regarding the capture of Bethlehem has now been received from Clements. He states that the country there is broken and difficult. Consequently his and Paget's cavalry were unable to make any wide turning movements. Clements attacked one position while Paget attacked another.

The Royal Yeomanry Did It.

"The position assailed by Clements was gallantly captured by the Royal Yeomanry, who captured a gun of the Seventy-sevents, lost at Stormberg. The list of casualties has not been issued, but Clements states they are few considering the strength of the positions assailed.

"Hunter's cavalry under Broadwood reached Bethlehem July 8. Hunter, with his main force, was within nine miles of the town when Clements despatched his report."

TOTAL CASUALTIES TO DATE

Since the Outbreak of the Boer War Are 48,188 Officers and Men.

London, July 10.—The War Office has issued another casualty list from South Africa showing that during the week ending July 7 there were killed, wounded or captured fifteen officers and 180 men; accidental deaths, two men; died of disease, four officers and 194 men; invalided home, 72 officers and 1,306 men. The total casualties as a result of the war are: 48,188 officers and men.

BOERS HAVE SKIPPED OUT.

Evacuated All Their Positions Around Senekal in Orange River Colony.

Senekal, Orange River Colony, Monday, July 9.—An extended reconnaissance today resulted in the discovery that the Boers had evacuated all their positions around Senekal. Numbers of them appear to have gone towards Ficksburg and the remainder in the direction of Bethlehem. The British commanders express the opinion that the retirements of the Boers foreshadows a speedy end of the war in this section of the country.

CANADIANS SERIOUSLY ILL.

Members of the Artillery and Mounted Rifles Who Are Suffering in Africa.

Montreal, Que., July 10.—The Star publishes the following special cables from London:

The War Office reports the following Canadians as seriously ill: Pte. A. G. Howard, B Battery, R.C.A., late of the 3rd Canadian Artillery, St. John, N.B.; Pte. J. Neild of E Battery R.C.A., late of the 13th Field Battery, Carberry, Man.; Pte. Ernest Lutz, C Company, R.C.R.I., late of the 74th Battalion, New Brunswick; 2489, Welmore, there is no such combination of name and number in the official lists; there is Henry A. Welmore of the 77th Battalion, who went out as a saddler.

The War Office announces that No. 25, Pte. John Everett Ball, 2nd Battalion Canadian Mounted Rifles, is dangerously ill. Pte. E. Ball belongs to Edmonton, N.W.T.

SCHEME WAS GOOD TO DEFEAT LAURIER, BUT IT MISSED FIRE

French-Canadians Had Gone Home and the Conservative Whips Sent For Opposition Members—Government Got Wind of It, and the Kickers Came Back.

Ottawa, July 10.—(Special).—The story in Saturday's World that the French-Canadian Liberal members were out on strike because they were refused additional sessional indemnity was true and there is now ample reason to believe that a pretty political coup has just been avoided on Parliament Hill.

Le Temps, the Ottawa French daily, published a statement Friday that the French-Canadian members of the Commons, who started and nearly all signed the round-robin, were particularly indignant at the Government's decision and that they would resent it on both sides of the House by refusing to attend further sittings.

French-Canadians Had Gone.

This statement of Le Temps was not generally credited at the time, but it appears to have been pretty correct. Next day Mr. Belcourt was about the only French-Canadian member outside the ministers in his seat and since Friday hardly any French-Canadian members have been in the House. Also some of the English-speaking members went home and as previously the attendance in the House had been small, the result was that yesterday the House was exceedingly slim.

Scheme to Defeat Laurier.

Now a brilliant idea occurred to the Conservative whips. A scheme was planned to defeat the Government, whose ranks were badly thinned. Yesterday the Conservative whip telegraphed for some fifteen or twenty members to come to Ottawa at once. The Government got wind of this and also telegraphed for assistance to counteract any coup. Consequently members, both Liberals and Conservatives, came to Ottawa to-day from all directions.

They All Came Back.

The twenty-three French-Canadian Liberals who went away Friday are all back in line to-day ready to do the behest of the Government, increased indemnity or no increased indemnity.

It is stated that the cause of this influx is due not as a result of the Premier's refusal to grant more money, but because Mr. Foster proposes to move a vote of want of confidence in the Government. The story holds good whatever the cause.

It Will Cost $140,000.

The French-Canadian Liberals were in force to-night to vote against Mr. Foster's motion of want of confidence. It is believed that their return cost the Government $140,000, which represents the increased sessional indemnity. It is expected that in a few days at the latest Sir Wilfrid will confess to his backdown.

MACKENZIE AND MANN'S SCHEME IS A TRANSCONTINENTAL LINE

Are Now Trying to Capitalize a Company to Connect All Their Railroads With the Object of Having a Second Route Across the Continent.

Ottawa, July 10.—(Special.)—Anyone who has attended a Railway Committee sitting must have been struck with the influence of Mackenzie & Mann. Hence the latest rumor of their proposed new trans-continental line will not come as a shock. Mackenzie & Mann, the well-known contractors, have been in England for some time. They have been there for a purpose. These two men own many small railroads in Canada, which stretch across the continent like separated links in a chain that might easily be connected. It is said that they have at present a scheme to capitalize a company, and by connecting their lines to form another trans-continental route. It is hinted that Sir Charles Tupper's business to England is in connection with this scheme. But as Sir Charles has never denied that he has a friendly feeling towards the Canadian Pacific Railway, it is thought that his mission is to oppose the capitalization of the new company, feeling that Canada cannot support two continental routes. It is possible a statement in Parliament regarding the new company may be asked for or given before the present session ends.

MORE SUPPLEMENTARIES.

Government Will Ask a Revote of $300,000 for Improvements at Port Colborne.

Ottawa, July 10.—(Special.)—Mr. Fielding laid on the table to-night the following supplementary estimates:

Improvement to Port Colborne entrance (revote), $300,000.

Hull public building (revote), $19,153.99.

Bridges over the Chaudiere slides (revote), $19,622.21.

Total, $338,776.20.

SUMMER SNOW IN EUROPE.

LOST THEIR ONLY CHILD.

Three-Year-Old Daughter of J. B Collins of Brigden Fell Into the Cistern.

Brigden, Ont., July 10.—About six o'clock this evening the three-year-old daughter of J. B. Collins, principal of the public school here, was drowned in the cistern. While Mrs. Collins was ironing the child was playing about the door outside, and is supposed to have raised the cover and fallen in. She was their only child.

THEY LACK BUSINESS, SAYS HON. MR. FOSTER

In Moving a Vote of Want of Confidence at Ottawa He Presented a Scathing Arraignment of Liberal Rule.

All Procrastination, He Adds—Ministers' "Lips Blistered With Their Perjuries to the People of Canada," Davin Says —Vote Stood 44 to 86.

Ottawa, Ont., July 10.—(Special.)—After sitting this morning till 3 o'clock but few members had the hardihood to turn up at 11. In fact, still Houses are the order these days.

That Round Robin.

The religious atmosphere created by Speaker Bain had scarcely cleared when Mr. Casey arose with The Hamilton Spectator in his hand and found fault with an editorial that claimed that the French-Canadian Liberal members had been "around robbin' again," and had become disgruntled because Sir Wilfrid had not opened up the public treasury to them. Casey said it was "a purely gratuitous lie, because the French-Canadian members were not alone in desiring increased indemnity." [Applause.] Casey himself had signed the round robin. [Renewed applause.] He was not a French-Canadian [Cheers.]

T. Dixon Craig Signed It.

T. Dixon Craig took up the strain. He had signed the round robin and was not ashamed of it. [Applause.] He argued historically and at length to show that members of Parliament religiously attending a session lasting over five months were poorly paid if they got but $1000.

He Wanted $500 More.

He wanted $500 more, and believed the country would support him in his desire. He declared he had 5000 electors in East Durham, and felt sure that each man would contribute 10c to his increased indemnity if he asked for it, but he proposed to ask Parliament. He declared the anxious desire for money was not confined to the French-Canadian Liberals.

Sir Wilfrid Only Smiled.

Sir Wilfrid Laurier listened calmly to the discussion, and the House expected him to make an announcement, but he only smiled. The effect of the smile was painful, and the members saw visions of $500 float into oblivion. Interest in the session is gone.

Why Was Not Cases Hanged?

Sir Adolphe Caron brought up the subject of Dube and Cazes, the Quebec murderers. Dube killed a man and was hanged. Cazes killed his wife and his sentence was commuted. He wanted to know why this discrimination was indulged in.

Sir Wilfrid reviewed the report of the trial judge, and declared it was on the strength of that report that Cazes' sentence of death was commuted.

Corporal Courtney's Case.

Dr. Borden spoke of the case of Corp. Courtney, who was reduced to the ranks at Kingston for disobedience. The matter was purely of a regimental nature. Courtney was in charge of a squad of soldiers who were to be marched to a canteen to drink the health of the Queen in beer or get the equivalent in money. Courtney refused to carry out orders. A court-martial found him guilty of disobedience and he was reduced to the ranks. A complaint had been made that Courtney was a temperance man and should not have been asked to do this duty. There was no one in the House courageous enough to espouse Courtney's cause.

Courtney's Record.

The Minister added that during the eight months Corp. Courtney had been in barracks he had been put in the black book of the regiment for the following offences: Improper language, 2; dirty on parade, 1; breaking out of ranks, 1; insolence, 1; abusing horses on parade, 1; defaulting from drill, 1.

The report of the court which reduced the corporal to the ranks concluded: "Religious scruples, however conscientious, cannot excuse disobedience."

Mulock's P. O. Amendments.

The next order of business was the discussion of a motion to give Mr. Mulock's amendment to the Postoffice Act a second reading.

The Oppposition opposed the motion because they declared the present proposal would introduce the principle of discrimination among the provinces. It was claimed that there was no justification for the tax on newspapers, and still less justification for reducing the tax on papers circulated within the province of publication and maintaining the old rate on papers going into other provinces.

Mr. Davin moved that the bill should be

TORNADO AT MANITOU, MAN.,

Destroyed Some Houses and Barns and Damaged Others—Several Persons Hurt.

ONE HOUSE PICKED UP BODILY

And Building and Contents Totally Wrecked—Little Damage to Crops.

Manitou, Man., July 10.—(Special.)—Last evening a tornado passed at the outskirts of the town in a southeasterly direction. Harmer's farm buildings, a mile and a half from town, were in the path of the storm and suffered severely, the barn being completely demolished. The house was also damaged. A small house and stable on the next farm, which were unoccupied, were also destroyed. Two miles further on John Tait's house was picked up bodily and entirely destroyed, with all its contents. The occupants at the time were Mrs. Tait, two children and a man named Martin Fiddielick, from Morden. Fiddelick's leg was broken, a little boy had one arm broken, while the others escaped with a severe shaking up. Very little hail accompanied the storm and no damage to crops is reported from it.

GOVERNMENT WILL HANG ON.

This is the View of a Prominent Parliamentarian, Given to The World.

Ottawa, July 10.—(Special.)—Will there be another session? The World asked a prominent Parliamentarian to-day.

"I don't think so," was the reply. "But I believe the Government will hang on as long as possible to office. I think that this Parliament will not be dissolved till early next year, and elections may be held in January."

Still Another Bargain Sale in Ladies' Hats.

Bargain sales are a rarity these days, at least "real" bargain sales are. For the last three weeks the Dineen Company have been having a solid cheap sale on Friday of each week. These sales were, and still are, necessitated by the unexpected enlarging of the Dineen building. On Friday next they will sell some of the latest ladies' outing hats at 50c and 85c each. The cheaper line includes many sailor hats heretofore sold at from $1.25 to $2, and the 85c line of new Paris straws at from $2 to $3.50. An example as to the quality of the sale may be seen in the Dineen Company's windows any day up to Friday. You will notice that it is not an off-stock or old-fashioned unloading, but a solid bargain, and we assure you it is made necessary by the Dineen Company's improvement in their building.

Mostly Fair and Warm.

Meteorological Office, Toronto, July 10.—(8 p.m.)—The weather to-day has been fine and moderately warm in the Dominion except near Lake Superior and near the Gulf of St. Lawrence, where it has been showery. The general outlook seems to be for rather more settled weather, and winds are unlikely to be more than moderate either on the Lakes or on the Atlantic coast.

Minimum and maximum temperatures: Victoria, 50—64; Kamloops, 50—82; Calgary, 42—74; Prince Albert, 56—74; Qu'Appelle, 54—76; Winnipeg, 52—70; Port Arthur, 50—58; Parry Sound, 48—66; Toronto, 53—74; Ottawa, 58—76; Montreal, 60—72; Quebec, 58—72; Halifax, 58—74.

Probabilities.

Lower Lakes and Georgian Bay—Moderate winds; mostly fair and warm; thunder showers in a few localities.

Upper St. Lawrence and Ottawa Valley—Moderate winds; mostly fair and warm; thunder showers in a few localities.

Lower St. Lawrence and Gulf—Fair and moderately warm.

Maritime—Moderate winds; fine and warm.

Lake Superior—Light to moderate winds; mostly fair and cool.

Manitoba—Fine and warm.
