HAPPY COUPLES WEDDED YESTERDAY

Pemberton-Sampson Nuptials a Social Event — Pretty Home Weddings

(From Thursday's Daily.)

The wedding of Miss Harriet Susan, youngest daughter of the late J. D. Pemberton, Esq., formerly surveyor-general of the colony of British Columbia, to W. Curtis Sampson, Esq., of Molton Combe, Oak Bay, was solemnized at Christ Church cathedral yesterday, his lordship the bishop of Columbia officiating.

The bride was given away by her brother, F. B. Pemberton, and was attended by a dainty maid of honor in the person of Miss Arminie Pemberton, while Miss Phillippa Pemberton, Miss Mab. Pemberton, Miss Allison Beanlands, Miss Helen Laundy and Miss Theresa Pemberton made a pretty group of girl attendants. Master Francis John Pemberton, as page, completed the pretty circle gathered at the chancel rail. Mr. Sampson, the groom, was supported by Mr. H. A. Bromley, as best man; Mr. L. Crease, Mr. T. B. Pemberton, Mr. C. C. Pemberton, Mr. A. W. Williams, Mr. Kingscote and Capt. Macdonald, R.A., acting as ushers.

The service was fully choral, "The Voice That Breathed O'er Eden" and "O, Perfect Love" being sung by the choir. The church was decorated with spring blossoms, the bright greens lending a fine background to the artistic grouping of the guests. The bride wore a rich white satin gown, cut en train, Princess in design, and finished by panels of silk embroidery on Brussels net. The high bodice and sleeves were composed of the Brussels net, the design in embroidery being carried out here again. A bridal veil of old family lace caught above the low coif by orange blossoms. She carried a sheeaf of Easter lilies, and the only ornament worn was a pearl and peridot pendant, the gift of the groom.

The bridesmaids were dressed in quaint "Kate Greenway" flowered muslin frocks of white and green, with sashes of green and mab-caps tied with green ribbons. Each wore a pendant of peridots, the gift of the groom.

Mrs. Pemberton, mother of the bride, was gowned in heavy black satin, semi-Empire in cut. The coat, en-suite, having lapels of rich Russian lace, with touches of white in relief at the throat. Her bonnet, coronet-shaped, composed of cut jet and steel, with white plumes. She carried a handsome bouquet of white roses with trailing lilies of the valley.

After the ceremony the guests repaired to "Gonzales," the home of the Pemberton family since as long ago as 1864. There a reception was held, with a wedding breakfast served, Mrs. Pemberton being assisted as hostess by her daughter Mrs. Bevan, Mrs. J. D. Pemberton and Mrs. Pearse. The table presented a spring-like view, being decorated lavishly with lilies and orange blossoms. An immense brides' cake was a central attraction, a confection designed to illustrate the happy day. The usual toast "The Bride," was most heartily drunk, and the wedding party left shortly afterwards for a country honeymoon of some weeks.

The bride's going-away gown was of palest blue broadcloth, the coat being cut in the Directoire fashion; it was of blue brocaded silk, semi-fitting with a smartly designed hat of pale blue basket weave patterned straw.

The house decorations were roses, red and white; golden daffodils, predominated in the reception rooms, while masses of spring-like greens were everywhere found.

The Presents.

Mrs. Pemberton, cheque; Mr. and Mrs. F. B. Pemberton, cheque; Mr. and Mrs. J. D. Pemberton, cheque; Mr. W. D. Pemberton, cheque; Mr. and Mrs. H. K. Beaven, cheque; Canon and Mrs. Beanlands, cheque; Mr. Ward (England), cheque; Mr. Pearse, cheque; Mrs. James Dunsmuir, cheque; Mr. and Mrs. Burton, bearskin rug; Mr. L. Day, brass vase; Miss Williams, flower pot.

NEW J.B.A.A. CLUB PRACTICALLY ASSURED

Dominion Trust Company Representatives Find Agreement Satisfactory

That the management of the James Bay Athletic Association will be able to make a definite announcement regarding plans for the construction of a new and handsome building within a week was the gratifying news conveyed to members yesterday.

H. D. Helmcken, K.C., president of the club, who has just returned from Vancouver, states that he interviewed representatives of the Dominion Trust Company to ascertain the stand they took with reference to the agreement entered into between the J.B.A.A. and the Imperial Trust Co., the latter having been amalgamated by the former.

He was told that the only reason that no action had been taken was because an option had been granted a certain party on the property fronting the harbor, opposite the Post Office. As this was the site on which the contemplated structure was to be placed nothing could be done until its expiration. The land was now free from all strings and it was intended to take up the matter of the construction of a J.B.A.A. club building without delay.

Mr. Helmcken states that the Dominion Trust company representative will visit Victoria in the course of a few days to confer with the James Bay management. As the new concern is willing to accept the arrangement entered into with the Imperial Trust Corporation, it is believed that there will be no difficulty in arriving at an understanding mutually satisfactory. Immediately thereafter construction will commence.

The proposed building, it is estimated, will cost about $75,000 and will be one of the most modern structures of its kind on the Pacific coast.

MAN AMUCK WITH RAZOR TERRORIZES

Prince Edward Islander Runs Through Town With Razor Madly Insane

O'Leary, P.E.I., April 15.—Charles MacAlduff, about 35 years old, a native of the vicinity of Alberton, terrorized the people of O'Leary by running about the village slashing with an open razor and threatening people. He proved to be madly insane and was overpowered with much difficulty. He was taken to the asylum at Charlottetown this morning.

It may be that the good die young, but it by no means follows that the young die good.

ARRANGE INTERESTING EVENTS FOR REGATTA

Empire Day Aquatic Programme Will Be Good One —Novelty Events

Continuous enjoyment for the spectators with none of the long waits which have characterized previous regattas will be the aim of the regatta committee which has in hand the preparation of the programme for the big aquatic event to be held at the Gorge on the 24th of May, the premier event of the Empire Day celebration. The committee met last evening in the offices of J. A. Smart and arranged the major part of the programme though other events will doubtless be added. The prizes to be given will aggregate aount $800 in value, including the cash prizes which will be given.

The favorite Indian canoe races will be held and arrangements will at once be made to have a proper representation of the dusky paddlers present. These events always form the chief item of interest at the regattas and the committee feels that they should be included in the events this year.

Many Novelties Sought.

The long distance races will be eliminated as far as possible for the reason that the waits between such events make the regatta drag and spin the programme out to too great a length. The idea is to introduce as many novelty events as possible. There will be an obstacle swimming race in which the contestants, besides swimming a certain distance, must show their ability in getting through a barrel; a hobby-horse swimming race in which the participants mounted on barrels fixed up as dummy horses must paddle their way to victory; a combined tilting and canoe race in whch canoes with seven paddles will carry suspended out from the stern, the tilters who as the race progresses will endeavor to overturn each other, and a combination swimming event in pairs, the swimmers to lie on their backs, one with his legs about his partner's neck, one to use his arms and the other his legs in propelling themselves.

The Boat Races.

There will be one or two straight-away races, one for four-oared crews, and the other probably for doubles. Last year there were a number of boating events open for the ladies but this year these will be cut out owing to the difficulty hitherto experienced in getting entries. Races for the sailors and soldiers will also be arranged, provided the members of the service show a disposition to enter.

In all this year's programme promises to be a particularly interesting and amusing one, and no effort will be spared to make it fully the equal of those of previous years.

Cheap Transportation.

The transportation committee appointed to arrange rates for the big celebration has also held a meeting and has waited upon the various transportation companies for the purpose of endeavoring to secure a reduction in rates for those from outside desiring to visit the city at that time. The committee hoped to secure a single rate return from Vancouver and Seattle on the C. P. R. boats and also from the E. & N. from all points on that line. The request seemed to be favorably received by the companies, which will make known their intentions in a short time

The printing committee has also met and made arrangements for the adequate advertisement of the coming celebration. Attractive programmes and posters will be widely distributed at outside points.

SEVEN NOW AFTER OFFICE OF FIRE CHIEF

Council Will Fill Position At Special Meeting Friday Night

Applications for the vacant office of fire chief are not confined to Victoria alone. Besides the four local aspirants for the position three applications have been received from Nelson, Winnipeg and Ottawa and it is probable that there will be still more applications before the position comes to be filled on Friday evening when a special meeting of the city council will be called at 7 o'clock for the purpose of considering the applications and filling the position. The local applicants are said to be Assistant Chief McDowell, Joseph Wachter, W. P. Dempster and ex-Chief Deasy. The outside applicants are stated to be all men who have had considerable experience in fire fighting. It was rumored that Fire Chief Smith, of Calgary, intended to be an applicant, but such is not the case.

In the meantime Assistant Fire Chief McDowell is in command of the local fire fighting force. Within the past month he has been making an inspection of the city buildings and ordering the cleaning of moss from the roofs. The owners of eighty-two down-town premises have been notified to have the roofs cleaned and notices have also been issued to outside owners.

The new fire hall at the corner of Dunedin and Douglas streets, is now occupied by a combination chemical and two firemen. Two new men, H. Beach and J. Hill, who have been on the temporary staff, have been appointed to the permanent force.

CHILD SCALDED TO DEATH AT SASKATOON

Saskatoon, Sask, April 15.—Herbert Fenton, the little 3-year-old son of Hugh Fenton met a horrible death at the home of his grandfather, where his mother and her three children had been staying.

The lad had been playing with a toy horse and wagon and was pulling and driving this across the floor. Nearby was a pail of scalding water which the mother had placed there a moment before and as the good mother stepped into another room for something the child gave a sudden pull on his toys and in doing so caught his foot in some way, falling backwards into the boiling water.

The little fellow was terribly scalded on the legs, arms, and the lower part of his body and died some hours after, suffering untold agony during the interval.

BATTERY OFFIELD GUNS FOR THE MILITIA

Modern Equipment Being Forwarded Fifth Regiment From Ottawa

A field battery comprising six modern breach loading guns is being forwarded from the militia department, Ottawa, to the Fifth regiment. It is expected to arrive in about a month. This will complete the equipment of the Esquimalt fortress in this respect, as in all fortresses a battery of field guns forms a part of what is called the moveable armament.

It has been decided to augment the corps by the addition of another company, which will bring the total strength to the neighborhood of five hundred. The addition of contemplated with a view to making provision for the satisfactory handling of the new guns.

It is probable that Major Currie's company will assume charge of the field guns, as was the case previous to the last change being made. Since then this company has had charge of the 12-pounders quick-firing guns. When it was declared that the powers that be at Ottawa had determined to give Canada's most westerly corps a complete and up-to-date field fortress equipment Major Currie was asked whether he would take command. He consented without hesitation and the arrangement, therefore, while not official, is understood.

At present there are three companies, the respective strength of which is one hundred and sixteen each. For the past few weeks the recruits have been taking the oath in bunches. This has inspired great enthusiasm. The prediction is now made that the corps will enter camp, for their annual training, in much better shape than in the memory of any Victoria military veterans. That it will be fully up to the strength, it is stated, is practically assured. Those who make this assertion are of the opinion that there will be no difficulty in procuring the required number to fill the ranks of the new company.

That all that was necessary to rouse enthusiasm was the obtaining of needed guns is the opinion generally expressed. Therefore it is believed that now that the government appears to be disposed to recognize the existence of the western forces that the latter will flourish.

All that is required is a new outfit of uniforms. These were due some months ago but haven't yet arrived. They are expected before the corps goes under canvas, however, so that the rejuvenated militia will appear a more businesslike and efficient appearance than heretofore.

Murder Suspected.

Montreal, April 15.—Dominic Pelletier was found dead on his own farm near St. Etienne de Beauharnois 10th. They have no settled theory Tuesday night with a bullet hole behind the left ear. Murder is suspected.

Campbells
"THE FASHION CENTRE"

Bluse News!

WE HAD A BIG DAY in our Bluse Department yesterday — no ad! no puff! — we just filled a window with our beautiful blusewear; the goods themselves did the talking, for fashion and daintiness they were miles ahead, and as for prices, here they are:

DAINTY BLUSES, in the height of fashion $1.00
OUR SPECIAL BLUSE, unmatched at the price $1.25
DECIDEDLY CHIC BLUSES, elaborately trimmed, $1.50
NEW MODEL BLUSES, very daintily built $1.75
PETER PAN BLUSES, blue or red spots and tie $1.50
TAILORED BLUSES, Gibson models, very choice $1.60
COLOURED BLUSES, strictly tailor-made, $1.50 & $1.25
EXQUISITE NET BLUSES, magnificently trimmed with baby Irish, cluny, and other fine laces, each one an exclusive creation, at prices varying in accordance with cost of the elaborate lace-work, viz., $12.75, $9.00, $7.00 $6.75 and $4.75
NET BLUSES, GOLD BRAID TRIMMED, a leading feature in this season's styles $6.50

For Greater Plant

Pittsburg, Pa., April 15.—It was stated here yesterday that the $10,000,000 bond issue recently authorized by the Republic Iron and Steel Company would be utilized in the construction of a new plant to cost from $10,000,000 to $15,000,000, at Youngstown, Ohio, where the company already has a large plant. The new plant will be for the manufacture of tubes.

Tecumsehs Get Permission

Montreal, April 15.—The Tecumsehs have given permission by the National Lacrosse Union to go to the Coast to make an attempt to regain the Minto Cup. They expect to play in New Westminster on July 1st and 3rd, and will be away from June 26 to July 10th. They have no settled league games from June 19th to July 10th.

PROFITS IN PAPER MAKING

No industry not even mining itself has yielded as large and permanent dividends as the manufacture of Wood Pulp and Paper. At the present time it is absolutely impossible to buy stock in the majority of the operating pulp and paper mills of Canada, and there is not the remotest doubt but that the stock which we are now offering for subscription will not only pay from 15 to 25 annual dividends but will be selling at a big premium within 90 days from the opening of the plant.

The official United States government report issued at Washington, D. C., January 15, 1909, showed that the nine paper mills of the State of Maine, after deducting insurance, depreciation, rent, wages, administration expense, cost of material, etc., made a net profit in 1908 of $705,718. The 43 mills of the State of Massachusetts manufactures exclusively of newspaper, after deducting expenses of every kind and character, made a profit of $7,957,494. The 36 mills of the State of Michigan made a net profit of $3,052,182. The 40 mills of the State of Pennsylvania, manufactures of news, book and fiber paper, showed a net profit of $3,426,740. The 75 mills of New York manufactures exclusively of book and newspaper, showed a profit of $5,259,935. 20 mills of the State of Ohio represented a profit of $758,856, while the 32 mills of Wisconsin confined exclusively to news and wrapping paper showed a profit of $2,326,684. The St. Argis Pulp and Paper Co. showed a gross profit in 1908 of $229,974.27 in 44 months. The Rumford Falls Pulp and Paper Co. made $488,000 on a capital of $500,000. The profits of the Luarentide Pulp and Paper Co. of Grandmere, Quebec, in 1908, represented $251,458, in 1907 the net profits after deducting all interest charges on bonds and loans, etc., amounted to $283,321. The Kellner-Parlington Pulp and Paper Co. last year showed a gross profit of $1,252,205. The official United States government report under date of July 25, 1907, Bulletin 80 showed that the paper mills of the state of Oregon made a gross profit of 20 2-3 on the value of goods over all expenses, while the mills in California showed the value of goods over all expenses of 19 per cent. The gross profits of the International Paper Co. for 1908 amounted to $1,635,918.

Who would not be glad now to buy a few thousand shares of stock in the Eastern Canadian Paper Mills, for instance, at the price they were originally quoted at, such as the Toronto Paper Co., Dominion Pulp and Paper Co., Lincoln Paper Co., Montreal Paper Co., Lawrentide Pulp and Paper Co., Trent River Pulp and Paper Co., Georgetown Paper Co., Northern Mills, St. Raymond Paper Co., Kinleith Paper Co., and other Eastern mills. As a matter of fact it is impossible to secure stock in the majority of operating pulp and paper mills. People ordinarily buy this character of stock as a permanent investment and in consequence it is usually retired from the market. The last issue of the British Paper Maker Journal gave the following quotations: Darwen Paper Co., £5 shares are now at £9¾; East Lancashire Paper Co., £10 shares are now at 15¾ and 16¼; the £5 shares of the Guardbridge Paper Co. are now at 9½; Rambottam Paper Co., £5 shares with only £3 paid, are now at 8½; Roach Bridge, £5 shares with only £4½ paid, are now at 6. The £5 share of the Star Paper Co., with only £3 paid, are now worth 5½. In offering the Preferred Stock of The Western Canada Wood Pulp and Paper Co., Ltd., for subscription we do so with a feeling that it is the best industrial stock ever offered in Western Canada. The Company have acquired 55,569 acres of magnificent Pulp Limits at Quatsino Sound, Vancouver Island, large water power on Marble Creek, Quatsino Sound, and are proceeding with the erection of the Pulp and Paper Plant, which when fully complete will have a capacity of 600 tons of news and wrapping paper per week. The erection of the plant is under the supervision of Mr. Charles B. Pride, of Appleton, Wis., one of the most distinguished authorities in the United States or Canada on the erection of Pulp and Paper Mills, having built more than fifty of the leading mills of the country during the past twenty years. We are rushing the work along and are confident that we will have the pulp division, with a capacity of 100 tons of pulp, in operation by December 1 this year. The Preferred Stock which we are now offering is entitled to a cumulative preferential dividend of 7 per cent., payable before any dividend is paid on the Ordinary Stock. After 7 per cent. has been paid upon the Ordinary and Preferred Stock both stocks thereafter participate equally in all surplus profits which the company may determine to distribute for that year. As a matter of fact there is no reason why we should not pay conservatively from 20 to 40 per cent. on the Preferance Stock, and within 90 days from the opening of the Pulp Plant the Stock will be selling at a big premium. We know the big dividends that the paper mills of the United States and Canada are paying and with our vast timber limits, huge water powers, and proximity to the great Oriental markets, there is no reason why we should not pay at least 10 per cent. better dividends than the Eastern Canada or American mills.

WE NOW OFFER FOR SUBSCRIPTION THE REMAINDER OF THE FIRST ISSUE OF

300,000 PREFERENCE SHARES

IN BLOCKS OF 100 SHARES AT $1.00 PER SHARE.

PAYMENTS: FIFTEEN PER CENT ON APPLICATION, FIFTEEN P ER CENT IN THIRTY DAYS

Balance, 10 per cent. per month until fully paid. The Preferred Stock is entitled to a cumulative dividend of 7 per cent., payable out of the net profits of the Company before any dividend is paid on the Ordinary Stock, after a like amount has been paid on the Ordinary Stock, both Stocks thereafter participate equally.
