In the list of exports from Quebec, for want of space, we have omitted a number of articles, so that they do not show the total business done. The following figures, however, represent the gross value of the exports from Quebec to Gaspé and the Lower Provinces for 1866 :—

To the Maritime Provinces	$482,632
To the Free Port of Gaspé	443,250
	$925,782

It will be observed by this statement that Gaspé, with its small population, received from Quebec within forty thousand dollars as much as all the Maritime Provinces put together, a proof of the immense extent to which the trade with these sister Colonies can be extended, if efficient steam communication were established, and the tariffs and exchange of the Provinces properly adjusted.
