FAIR YEAR REPORTED BY COCKSHUTT PLOW

Earnings After Depreciation Over Seven Per ent. on Preferred.

Although it improved its position materially in the fiscal year ending June 30, the Cockshutt Plow Company of Brantford, in the opinion of its directors, is not yet in a position to resume dividends on the preferred stock, which payment has been deferred for the quarter ending September 30, 1914, and since. The net profits of the company, and dividends from affiliated companies for the year ending June 30, were $500,176, which is equal to 7.7 per cent. on the $6,465,000 of preferred stock outstanding. The earnings for the year showed an increase of $109,000 over the previous twelve months, when earnings were $391,363.

The President, Mr. H. Cockshutt, in his report, says that abnormal conditions prevailed and were a factor in keeping profits down. Prices of raw material were high, and deliveries were slow and uncertain. Lack of labor also interferred with the business. Mr. Cockshutt says that enquiries were received from time to time as to why the company has not engaged in the manufacture of munitions, to which he replied that the company's equipment was not suitable, and the class of labor employed would have to be very considerably changed.

The current liabilities of the company have dropped from $5,033,306 to $3,769,402, a decrease of $1,263,904. In the decrease the chief factor was the reduction of bank and other loans from $4,620,472 to $3,284,407. In current assets the item accounts and notes outstanding, which in the case of such companies usually represents a large proportion of the assets, is $7,510,209, a decline of about $700,000 as compared with a year ago. The value of raw materials and supplies on hand is slightly higher than in 1915. Inventories at western branches were taken on the basis of cost, and at the head office the values were determined by officials of the company. Prices of raw material, of course, have necessitated the advance in price of implements from time to time. This situation is unusual in the agricultural implement business, and there is a liability to sudden change both as to cost of labor and as to price of material, against which the directors have deemed it necessary to provide a merchandise reserve of $150,000.

As to dividends, the directors say they deem it best to defer further payments until such time as business and commerce are more settled. On the cumulative preference shares dividends are deferred for the quarter ending September 30, 1914, and since.

The company has suffered more than ordinary losses through the war. Among the officials who have entered military service are the President and the secretary, Lieut.-Col. and Adjutant of the 215th Overseas battalion respectively.

Classified Advertising PAYS

The waste paper basket in some offices is emptied once a day, sometimes twice a day. Besides scraps of paper and envelopes it usually contains many circulars addressed to the man who seldom opens them.

Thousands of dollars are wasted by circular publicity. There is no surer method of reaching the people you want than through the CLASSIFIED COLUMNS OF THE COURIER. There is no waste publicity in CLASSIFIED ADVERTISING. You can reach a greater number of possible buyers at a cost far below that of sending circulars, and the only time needed is to write your copy.

Eliminate office basket waste and turn your money into CLASSIFIED ADVERTISING.

DO YOU SUFFER FROM BACKACHE?

When your kidneys are weak and torpid they do not properly perform their functions; your back aches and you do not feel like doing much of anything. You are likely to be despondent and to borrow trouble, just as if you hadn't enough already. Don't be a victim any longer.

The old reliable medicine, Hood's Sarsaparilla, gives strength and tone to the kidneys and builds up the whole system. Get it today.
