Chicago Gossip.

Marshall, Spader & Co. (J. G. Beaty), King Edward Hotel, received the following to-day:

Wheat—Improved weather in Argentine and corresponding easiness in the foreign markets, along with large increase in the Bradstreet statement of world's available supplies, made a lower market. As heretofore, however, losses were limited and there was no indication that the market would run into demoralization or break badly. Moderate declines brought in good buying and made early short sellers timid. No great pressure on the market at any time. Reports conflicting of cash wheat southwest. Some of the messages claimed an easier market, others that the supply available is light and bid prices high. Northwest prices firm. No cash wheat on sale here. Bids of May price were made for No. 2 red and no round lots available. A large cargo of 230,000 bushels of cash wheat loading at South Chicago may be cleared for Buffalo, as weather is fine. Missouri crop report made condition 90 vs. 73 a year ago.

Ennis & Stoppani wired to J. L. Mitchell, McKinnon Building:

Wheat—Aside from continued light receipts, the market factors were such as to discourage purchases and influence the majority of holders to liquidate their wheat. The market action abroad was not calculated to enthuse the bulls, especially when it was made known that the downward tendency was due chiefly to excellent reports from the Argentine. The market opened steady, but immediately started downward, the decline later being accelerated by Bradstreet's increase in world's visible of 3,500,000 bushels, against a decrease last week. Another factor of considerable weight was the weakness of the cash grain in southwestern markets on indications of an increased movement in primary points. In the late trading the Dec. option was bid up quite sharply causing shorts to cover in May the price regaining most of the ground lost in the early trading.

Corn and Oats—Were weak early, with free selling on the assumption that receipts of corn would increase materially. The selling of oats was more in sympathy with the weakness in the finer cereal than on any special independent factor. Later in the session both markets firmed up some and closed steady.

Provisions—Were steady and a shade higher in the early trading, but free sales later caused a slight recession. The market shows evidence of influential accumulative purchases and we look for better prices a little later.

CRAWFORD AND THE MAYORALTY.

So Far He is Not a Candidate, He Says.

At Ward Six Central Conservative Association meeting last night, Thos. Crawford, M.L.A., and Ald. McGhie gave their views on the license questions and the government's action was endorsed.

"As to the report of a Conservative caucus," said Mr. Crawford, "as usual the one man who is supposed to run the Conservative party in Toronto and outside has been so kind as to say I am to be the candidate for the mayoralty. So far as I have heard there was no such meeting, and I haven't even considered whether I shall run.

Perhaps The Telegram is anxious to get one more besides Ald. Coatsworth in the field. I dare say Mayor Urquhart will be in the field and will have the support of The Telegram."

He remarked that the papers were hypocritically decrying politics in city elections.

"It would be better for them to have it so, but I doubt if it is to the good of the people,' said Mr. Crawford.

EDITOR IS ARRESTED.

But Calgary Is With Him—C.P.R. Behind It.

Calgary, Alta., Dec. 12.—(Special.)—B. C. Edwards, editor of The Eye Opener, the most extraordinary paper printed in Canada, has been charged with libel by J. S. Dennis, connected with the C.P.R. land office.

The accusation is based upon a criticism of Dennis' official conduct, and a morning paper quotes Dennis as declaring that in future no news can be given out to Calgary papers about C.P.R. matters, because they have misrepresented him.

Edwards took his arrest as a joke, and a number of prominent citizens accompanied the editor to the police station, everybody willing to go on his bail.

Wycliffe Needs Enlargement.

The president and council of Wycliffe College gave an enjoyable at home last evening to the friends of the college. Dr. Hoyle was in the chair, and in his remarks said the college never had a better attendance than at present; in fact, the authorities feared there would be a shortage of accommodation.

If you intend being one of the many visitors this week to the great Fat Stock Show at Guelph do not fail to inspect the BELL factories—it will be a revelation to you to see the BELL Pianos in course of construction. You will see for yourself how carefully they are "built to last a lifetime."

In our factories we have put all the energy and intelligence of which we are capable into our efforts to produce musical instruments of the highest possible character. We have experimented time and again over minute details that most people would think too slight for attention. In its finality we have made this BELL Piano of ours a thing of beauty, in which we can take a high artistic pride. The exquisite tone, the fine workmanship in every detail, the illimitable, quick-repeating action, the magnificent finish and appearance, are a source of amazement and delight to people who are accustomed to seeing, hearing and criticizing pianos every day in their lives.

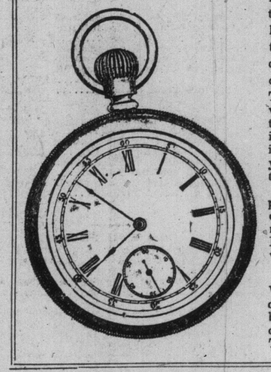
The Boy's First Watch



You can buy a thoroughly reliable timepiece, bearing the trade mark of one of the largest and richest manufacturing concerns in America, coupled with vest chain, for one dollar and fifty cents. The bill you get with each watch is stamped "guaranteed for one year," by authority of the maker. This store is back of that guarantee for your convenience and protection.

It makes an ideal Xmas present, and this is your chance to hide it away. It is not clumsy. It keeps time. It costs little. It does not vary a minute in a week.

This is the mark of the Dunlop rubber heel.

Of all imprints of heels to be noticed on the sidewalks and crossings the Dunlop mark occurs the most often.

It is popular because it is made of "live" rubber — the kind that has spring to it.

Made by the Dunlop Tire and Rubber Goods Company Limited, at its Factory, Booth Avenue, Toronto.
