WELSH'S PUNISHMENT TOO SEVERE

NEW YORK, May 18.—The New York State Athletic Commission today decided to recommend to the Wisconsin State Athletic Commission that it lift the four months' suspension imposed upon Freddie Welsh, lightweight boxing champion. Welsh was accused in Wisconsin of delaying a bout. The New York organization's decision was that the punishment appeared too severe.

A PILE OF EASY MONEY OFFERED JESS WILLARD.

CEDAR RAPIDS, Iowa, May 18.—Tom Jones, manager for Jess Willard, world's champion heavyweight, received a telegram from I. J. Nash, manager of the Twin City Athletic Club of Minneapolis, offering the champion a purse of $50,000. Nash wants Willard to meet Fred Fulton in a ten-round bout on Labor Day.

WINNIPEG GRAIN MARKET.

The opening was weak, and while prices remained steady for a while, they eventually fell away. Oats were firm until the weakness in wheat developed, then declined.

YESTERDAY'S RAW WIND STOPPED BALL FIXTURE

Too Cold at Island to Play—Baseball in England—News and Gossip.

It is many a long day since a ball game in Toronto has been postponed owing to cold weather. Yesterday's raw wind and overcast skies made the Island anything but an ideal place and the club did the wise thing in calling off the fixture with Richmond.

The 95th Battalion will be the guests of the club today.

It was also cold in Buffalo and the Providence-Buffalo game was called off. Montreal has yet to stage the opening game. It rained yesterday.

England is to have her first baseball league. Canadian soldiers stationed near London are forming the organization. Besides the soldier teams it is expected to have a team composed of United States ammunition workers.

HUSTLER PITCHER WEAKENED.

At Rochester (International)—Kermeyer wavered in the eighth inning of yesterday's game and Baltimore won from Rochester, 3 to 1. Score: R.H.E.

Baltimore .....0 0 0 0 0 0 0 0 3—3 6 2

All other games postponed.

PLAYGROUNDS BASEBALL.

The City Playgrounds senior baseball teams had their final workout last night. The weather all week has been poor for the boys with sore arms. Osiers were working at Perth Square and when they run up against their old enemies, the Moss Park boys will have Mackie, who is back to his old form of two years ago, in the box with Gray receiving. Moss Park worked out at their home grounds and look good with Perkins and Corcoran for their battery. Patterson had his Elizabeth team all working at Harbor Square. Oscar Hett, who was to have handled the indicator for the Playground League, has not as yet recovered sufficiently from an operation for appendicitis. Eddie Tolley has promised to take his place, and there is no doubt as to how the games at Perth Square will be run.

BEAVERS CHALLENGE SPORTSMEN.

The they were trimmed last Saturday at the Island by the Sportsmen, the 204th Beaver Battalion baseball team are issuing a general challenge to any military baseball team to meet them in a friendly game for the forenoon of the 24th. Capt. Stanley of the team states that he would much prefer to match the Sportsmen again, but the Beavers will play the first nine which take up their challenge. At the same time it is to be noted that the 204th nine has been considerably strengthened by the addition of E. Holmes, catcher. Much of the trouble last Saturday was that the Beaver catcher could not hold Stanley's pitching. Holmes comes highly recommended, as he is an ex-policeman from the northwest, who played on some of the best western teams.

BASEBALL GOSSIP

There is no stopping those Giants. John McGraw has them going along nicely now and they added their eighth straight yesterday by downing the Pirates. Benton never let a Cardinal past second base.

The Cleveland Indians did a good stroke of business yesterday. They widened the gap at the top of the league and beat the great Walter Johnson. Extra base hits beat Washington.

The Braves lost a grand chance to lead the National League yesterday. Boston let the Reds beat them while the Dodgers were getting a licking.

Rochester were beaten in the only International League game played yesterday.

The Athletics chased Faber of the White Sox to cover and easily downed the Chicago team.

Williams gets into the limelight daily. His timely single yesterday gave the Cubs a victory over the Dodgers.

No plans to take back Jack Ness or to purchase Fred Mollwitz from Cincinnati are being considered by the Chicago Americans, according to a despatch from Boston quoting Manager Rowland.

The Browns made some baseball history yesterday. It was the first time that the St. Louis team ever handed Foster of the world champions a beating. They did it in style with some terrific clouting.

Grover Cleveland Alexander popped up again yesterday. He gave the Pirates four widely scattered hits and the Phillies scored a shutout.

Sam Crawford has returned to the Tiger lineup, but he has not started walloping the ball as of old by any means. He has been able to shake his cold, but he is a long way from feeling right.

Elmer Smith, the youngster playing right field for Cleveland, is about as timely a hitter as there is in the big leagues this spring.

The way Hal Chase is hitting, fielding and running bases for the Reds has made some of the managers in great need of a first sacker feel just a little bit envious. They were all afraid to take a chance with the former Fed.

Ty Cobb forgot to report at the Washington grounds last Saturday in time for the game and had to sneak in later and explain why he was late to Manager Jennings. It was an oversight on Ty's part and he was forgiven.

Jake Daubert, the Dodgers' first sacker, is playing a whale of a game this spring. He is next to Hal Chase of the Reds in the averages just at present.

Fielder Jones says that his team is going to improve. The Browns can not be any worse than they are at present, so Fielder is perfectly safe in predicting they will go better.

Some of the eastern critics say that the reason for the slump of Eddie Collins is because he was appointed captain of the Sox.

The White Sox need a little home cooking and a lot of morning practice. Rowland and his men have not had a chance to do much practicing since they started the season on the home grounds.

Manager Jennings says his team will show marked improvement very soon. He is waiting patiently for his pitchers to get into form before he starts to drive his Tigers very hard.

Wheezer Dell, one of the star young pitchers of the Dodgers, started his career in baseball as a first baseman and then took up pitching. He reversed the general order of things, for almost every youngster tries to become a pitcher first and then goes to some other part of the team.

Ty Cobb says that it is easier to steal third base than any other. Ty is finding it pretty hard work even to steal third this season.

WHEAT DESCENDS ON PEACE RUMORS

Sharp Breaks in Quotations Follow General Surmises at Chicago.

CHICAGO, May 18.—Surmises that definite moves for peace had begun were accompanied in the wheat market today by sharp breaks in quotations. The close was heavy, 2⅜c to 3⅜c net lower, with July at $1.12¾ and September at $1.13⅝. Corn lost ⅝c to 1c and oats ⅝c to 1⅛c. Provisions finished unchanged to 20c higher.

Weakness in the wheat market took an acute form in the last half hour of the session just after news was printed that the British foreign secretary officially announced that the Vatican had made representations to Germany in a n effort to have German abandon submarine warfare. Traders were quick to couple the dealings with earlier advices that President Wilson had accepted an invitation to address a meeting of the League to Enforce Peace, that a former French ambassador had been charged with a mission to the Pope, and that Count Von Bernstorff had warned Germans in the United States to give scrupulous obedience to the laws.

Unloading of speculative holdings of wheat became general, and quickly included much selling of an automatic stoploss character. The previous failure of the market to respond to bullish crop news had caused discouragement on the part of owners and had prepared the way for a smashing of values. In this connection a leading authority was quoted to the effect that the general prospect of the Kansas crop was not alarming despite big losses in the central and southern sections of the state. Beside, there were favorable crop advices from the Dakotas and Minnesota, and estimates were current that owing to a big carry over expected on July 1, the supply in the United States this year would be twenty million bushels greater than was raised last season.

Corn declined mainly as a result of the break in wheat. Reports of record-breaking industrial demand failed to act as an offset. Oats took the same course as other grains. Crop reports were favorable and receipts large.

Higher prices on hogs lifted provisions.

MINING CORPORATION PROFITS INCREASED

The second annual report of the Mining Corporation of Canada, which holds the Cobalt Townsite, Chambers-Ferland and Cobalt Lake mines, set out that the production of silver by the concern was greater last year than that of any other silver mining company in Canada, and actually exceeded that of the nearest competitor by over 450,000 ounces. The financial report shows an output of 4,563,957 ounces, against 3,185,124 in 1914; net profits of $1,193,395, which compares with $753,105 the previous year. Special expenditure and depreciation took $1,193,395, and after paying dividends of $518,750, a surplus for the year of $674,645, was carried forward, bringing the total surplus of $1,167,376.

It will be news to most mining interests that English interests have come so much to the fore in Cobalt, as the operations of the Mining Corporation have received far less attention here than the report shows they have merited.

WHAT NOVA SCOTIA STEEL RESTS ON.

Canada has the richest mine in the world in the Creighton nickel glory hole at Sudbury. Canada has two gold mines in Porcupine that are the equal of any in the world. And a Canadian company, Nova Scotia Steel, has the greatest single iron deposit in the world in its Newfoundland iron beds. It is this great mass of high-class iron ore right on the sea shore, easy to mine, easy to transport to Cape Breton, or any place on the Atlantic coast for that matter, that is opening the eyes of American and Canadian capitalists to the commanding position of Nova Scotia Steel. The supply of iron is practically inexhaustible; and the company has coal to burn in enormous quantity, also on the sea coast; and therefore all its main raw materials including fluxes in sight at lowest transportation charges. It is this commanding position with big earnings and low capitalization that is making Nova Scotia Steel the greatest iron proposition anywhere. Whether Canadians will keep a lot of it for themselves remains to be seen. But ownership in this company means great values in the present, enormous values in the future. A block of Nova Scotia Steel put away in a safe is certain foundation of a family fortune.

N. Y. STEEL THE STRONG STOCK.

Heron & Co. had the following at the close:

MONTREAL, May 17.—Nova Scotia Steel was again surprisingly strong and advanced to 130 on an otherwise weak market. There seems to be a good deal of mystery about the strength of this stock and only vague rumors of stock bonuses and dividends are circulated to account for the aggressive buying. Ames & Co. were also exceptions to the general weakness. Power, Shawinigan and Canada Cottons, Smelting, Steel of Canada and Dominion Steel were all on the heavy side. Today's reactions was quite in order, as the market has been going up steadily for some time and an irregular market such as we have had today was only to be expected.
