Lake Shore Rail Road.—We would call the attention of the Travelling public to the advertisement of Mr. Howard Dixon, who has been appointed Agent for the "Great Lake Shore Rail Road" to the West. We know Mr. Dixon, and can assure our readers that any arrangement made with him may depend on being faithfully carried out. Office, in Nelson street.

☞ **The Coming Election.**—It is now pretty well understood that Mr. Partelow will be appointed Financial Secretary, and that an election to fill the vacancy which will be caused by his accepting the office, will shortly take place. Mr. Gordon, who is now in England, made the necessary arrangements before his departure, and may therefore be considered in the field as a candidate. Mr. G. lost at last election by a majority *at one*—the *Dictator's* staunch friends having voted some of them twice, to attain the glorious majority. We perceive this morning by the Freeman, that Mr. Hawkes, will likewise be on the ground.

[From the Halifax Colonist, April 28.]

Thursday morning the people were almost frightened from their propriety, by the sudden announcement that the General Election was fixed for an unprecedently early day,—the nomination to take place on the 15th, and the polling on the 22d of next month, May.

The country will naturally enquire the reason for so short a notice. Unless the notices were sent off before the old House was dissolved, it is impossible that the distant Counties can receive them in time. Whence this indecent haste? The Supreme Court is sitting in Halifax and the Eastern and Western Circuits just about to commence. The nomination day is the very day that the Court opens in Annapolis County, and as the law requires that the Sheriff should hold his Election Court in the Court House, the whole legal business of the county must be postponed and thrown into confusion. Again, the polling day is the very day that the Court opens in Digby, and the whole business of that county is to be thrown on one side. Why is this? The reason is obvious. The Government fear to meet the people face to face, and, like honest men, render an account of their stewardship, so by hurrying the election they hope to take the people unawares, and, as the Journals are not yet completed, without information on which to judge them.

Their hot haste, too, has Disfranchised a large portion of the Fishermen—who are absent in May, but will have returned in June. Why was this—ay, there was good reason why the Government should fear the Fishermen. The Government have bartered away their rights for a very inadequate equivalent, they have permitted foreigners to come to our shore and snatch from our Fishermen their means of subsistence, and not content with perpetrating this act of unparaleled injustice, they proceed a step further, and move heaven and earth till they have succeeded in rescinding a motion passed in the House to take a portion of the duty off Molasses, and so cheapen to the Fishermen the article they consume.

PULMONARY CONSUMPTION

Has until within a few years, been generally considered INCURABLE, although many medical men of the highest standing, among whom we might mention Laenne and his friend Bayle—both distinguished authors, admit that this much dreaded disease may be cured, even in its advanced stages when the lungs are not completely disorganized. The remedy which we now offer,

Wistar's Balsam of Wild Cherry,

not only emanates from a regular Physician, but has been well tested in all complaints for which it is recommended. A Physician in Maine says:

"I have recommended the use of Dr. Wistar's Balsam of Wild Cherry for diseases of the lungs, for two years past, and many bottles to my knowledge have been used by my patients, all with beneficial results. In two cases where it was thought confirmed Consumption had taken place, the Wild Cherry effected a cure."

Look out for imitations and counterfeits. Remember the original and only genuine article always bears the written signature of I. BUTTS, upon the outside wrapper.

THE 18th annual General Meeting of this company was held at Liverpool on the 19th Feb'ry last, when the following Report of the business of the Company during the past year was submitted:—

"The increase in the Fire Insurance Business must be satisfactory to the Proprietors, as shewing the rapid and safe progress which the Company is making. The receipts for the first year have increased considerably over those of 1852, while the losses have materialy diminished.
