University of the State of New-York.
COLLEGE OF PHYSICIANS AND SURGEONS.
THE Trustees have the satisfaction to announce that the Honorable the Regents of the University have filled the vacant Professorships in this Institution, and that the College will be opened on the first Monday of November next, by an Address from the President. The several Professors will then commence their respective courses of Lectures in the following order, viz.
JOHN AUGUSTINE SMITH, M. D., *on Anatomy and Physiology.*
ALEXANDER H. STEVENS, M. D., *on the Principles and Practice of Surgery.*
JAMES F. DANA, M. D., *on Chemistry.*
JOSEPH M. SMITH, M. D., *on the Theory and Practice of Physic and Clinical Medicine.*
EDWARD DELAFIELD, M. D., *on Obstetricks and the Diseases of Women and Children.*
JOHN B. BECK, M. D., *on Materia Medica and Botany.*
The Trustees are assured that the several courses of instruction will be full and complete, and that the means of illustration will be ample.
The Students who have already attended Lectures in this Institution, are notified that the changes which have taken place in the College will not deprive them of any privileges or facilities heretofore enjoyed.
In conformity with the ordinances of the Honorable the Regents of the University, and the laws of the State of New-York, every Student is required to attend two full courses of all the Lectures delivered in the College, before he can be admitted as a candidate for the Doctorate; unless said Student shall have attended Lectures in this College prior to the session of 1822-3, or shall have attended one entire course of Lectures delivered in some incorporated Medical School or University.
The candidate must also have studied three years with some respectable practitioner of Medicine, and have arrived at the age of twenty one years.
In announcing the new organization of the College and its first session in November next, the Board of Trustees believe that the high expectations of the Profession and the Public will be fully realized, and sustained by the distinguished reputation and talents of the several gentlemen who have been appointed to the respective Professorships.
By order of the Board of Trustees,
JOHN WATTS, Jun. M. D., *President.*
NICOLL H. DERING, M. D., *Registrar.*

STAMMERING.

THIS Certifies that I ZABULON JONES, aged 40 years, have been afflicted with a most obstinate stammering from my infancy, and at times I was so bad, as to render my speech altogether unintelligible, after having attended Mr. Wemple's Institution three days, I can speak and read with ease and fluency, and consider myself perfectly free from all impediment. I am also fully persuaded, from the principle on which I was cured, that no relapse of my impediment can take place. I would earnestly recommend persons who are afflicted in the same way, to put themselves under his care, as I am persuaded that on the part of the pupil, nothing is necessary but a strict observance of his rules to ensure a speedy recovery.

STAMMERING.

THE subscriber has been qualified at Mrs. LEIGH's and Dr. YATES' Institution, for the correction and cure of Impediments of Speech, in the city of New-York, and has by them been appointed an Agent to conduct an Institution on a similar plan in the city of St. John. From the undoubted fact of daily cures being performed by Mrs. LEIGH and Dr. YATES, on persons from different parts of the United States, and from the fact of those cures being radical and permanent, the subscriber feels warranted in assuring the public that STAMMERING in all its varieties, can be cured by a strict application to the system. Various systems had for years been pursued, both in Europe and America, to relieve impediments of speech; but, from a want of knowledge of the primary cause of Stammering, no radical cure of inveterate Stuttering was ever effected until Mrs. LEIGH lately discovered that cause which has led to the successful treatment of the complaint ever since.
The proofs of the success of her system are too well authenticated to need the aid of numerous certificates. To persons of enlightened understanding, no better evidence need be adduced than the following opinion of gentlemen of the first science and literature in the United States, and who would be the last to lend their names to a deceptive or doubtful system.
For further particulars, at present, apply at the Star Office. CHRISTOPHER Y. WEMPLE.
St. John, September 5, 1826.
N. B. Letters addressed to *C. Y. Wemple*, Post Paid, will be punctually attended to.
New-York, April 12th, 1826.
Having received from Mrs. LEIGH, an explanation of her theory for the correction of stammering, and other impediments of speech, and having visited her institution, it is with pleasure we offer to the public our testimony in her favor.
From the many instances we there saw of cure, even when the habit had been of very long standing, as well as from the assurances of many respectable persons, of the great advantage they had derived from her instructions, we sincerely believe it will prove a public benefit; and we hope that Mrs. LEIGH may obtain the patronage her ingenuity and persevering patience so well deserve.
We do not hesitate further to add our conviction, that an adherence to her rules on the part of the pupil, is all that is required to effect a cure.
