FROM ALL OVER THE MARITIME PROVINCES

ROTHESAY

Rothesay, June 5—Much satisfaction is expressed today in this vicinity because of the statement made by Hon. William Pugsley at the launching in Clifton yesterday that there was a chance that the valley railway might pass through the parishes of Kingston and Rothesay. It has long been a dream of the Kingston people that a railway might some day choose the route through their beautiful and fertile valley and if the waterways are not too numerous and broad the railway company may conclude to gratify them. It would be necessary to bridge both the St. John and Kennebeccasis rivers and the expense it is feared will prevent the adoption of the proposed route.

Dr. Pugsley expressed his pleasure when returning from Clifton that the new boat had been completed ready for the machinery and spoke of the great advantages the steamer would be to the people of the parishes of Kingston and Rothesay. It was pointed out to him how important it was that the passage between the big and little Kennebeccasis islands should be dredged to a sufficient breadth and depth to permit the steamer to make a direct trip from Rothesay to Moss Glen, at which point very many people from the lower part of Kingston parish and from Long Reach could make prompt connections with the railway. His suggestion that the need of work there should be presented to the federal department of public works will be acted upon.

Dr. Pugsley was accompanied by Mrs. Pugsley and his two sons, William and Jack, and other friends. The party made the trip from the city to Rothesay in automobiles in quick time and returned in the evening.

Coun. Gilliland contributed to the enjoyment of the afternoon by bringing a band from the city which enlivened the proceedings considerably.

Among those present from the city were Edward Bates, Henry Gallagher, Henry Finnigan and J. M. Scovil.

Peter Gallagher, who was in charge of the section at Model Farm, has taken the place formerly held by the late Mr. Rafferty and William Munnn is section foreman for the present in his place.

The new baggage room for Rothesay station is about complete and workmen are engaged putting in the water to the main building. The excavating for the new foundation is being done as rapidly as possible. The wires for the station telephone are in position and this long requested convenience may be coming at last.

The deadly fumes escaped into the room and about 12 o'clock Mrs. Walmsley in trying to get out of bed to see one of her children, was overcome and fell limply on the bed. Her husband went outside, drew a pail of water and gave each member of the family a drink after which he again retired, not aware of the escaping gas. About 7 o'clock this morning he awoke and fell helplessly to the floor. On his hands and knees he crawled to the door and across the garden to a neighbor's house, where he alarmed the inmates,who responded and found Mrs. Walmsley dead, face downwards on the bed.

Ottawa, June 6—(Special)—A fashionable June wedding took place at St. Andrew's church when Dora Oliver, second daughter of Hon. Frank Oliver, was united to John Jamieson Anderson, manager of the Union Bank in Edmonton. The church was beautifully decorated. Dr. Herridge performed the ceremony, and the bride was given away by her father. The young couple left for England to spend a couple of months before going to their home in Edmonton.

PALE FACED GIRLS

Thousands Using Successful Cure for Paleness and Anaemia.

The pallid girl always lacks appetite. What little she eats is badly digested.

At night she is restless, she dozes, but doesn't sleep soundly.

Vital force must be increased, new blood must be supplied and a general rebuilding take place before she will feel like she ought.

Dr. Hamilton has invaluable experience in these cases and found nothing so prompt in building up the young women as his vegetable pills of Mandrake and Butternut.

Dr. Hamilton's Pills begin by cleansing the system and purifying the blood; they also improve digestion and render good ready for absorption. Additional nourishment is quickly supplied and the patient is fast strengthened and invigorated.

Full of spirit, ruddy and strong is the girl that assists her system by Dr. Hamilton's Pills.

The following recent letter from Miss Etta McEwen, of Haliburton, speaks for itself:

"In using Dr. Hamilton's Pills I find my system is wonderfully built up. It is certainly the most effective remedy I ever used. I have now a good appetite, sleep more soundly and awaken in the morning feeling quite refreshed.

"Formerly I felt tired and depressed. I looked as if a severe illness was hanging over my head.

"Nothing could give quicker results than Dr. Hamilton's Pills and I strongly advise every young woman to use them.

The Ideal Laxative for Children

Mothers cannot be too careful in what they give children to move the bowels. Calomel, cascara, senna, salts, cathartic pills, castor oil, and purging mineral waters irritate the bowels—upset the stomach—and eventually lead up to chronic non-action of the bowels—Constipation.

Fruit-a-tives (or FRUIT LIVER TABLETS.) are the finest medicine in the world for children.

It is just like giving the little ones apples, oranges, figs and prunes—because "Fruit-a-tives" ARE the juices of these fruits—but so combined that the medicinal action is increased many times.

Fruit-a-tives are perfectly safe for the children. Keep a box always in the house.

50c. a-box—6 for $2.50. Sent on receipt of price, if your druggist does not handle them. Fruit-a-tives Limited, Ottawa.

They succeeded, however, in getting on the bottom of the upturned boat after some time, but before assistance could reach them the eldest of the three let go his hold and was drowned. The other two were rescued by a boat putting out from Morden.

The prize for greatest proficiency in English at Acadia Seminary, which was on Tuesday evening awarded to Miss Louise Thompson, of Chance Harbor (N. B.), has later been given to Miss Elsie Estabrook, of St. John. Miss Thompson was disqualified by being more than twenty years of age.
