NOW PUBLISHING
BY JOHN TALLIS & CO. OF LONDON
THE LIFE AND TIMES OF THE LATE
Duke of Wellington;

By Lieut: Col. Williams; (a Companion in Arms, of His Grace)

Comprising the Campaigns and Battle Fields of Wellington and his Comrades, the Political Life of the Duke and his Contemporaries, and a detailed account of England's Battles by Sea and Land, from the commencement of the Great French Revolution to the present time, interspersed with Anecdotes Personal Incidents, and Adventures, etc.

ADDRESS.

The earthly career of Arthur Duke Wellington has closed; one of the greatest men of the nineteenth century, the foremost military commander of any age, has paid the debt of nature. The time has now arrived for giving to the world a History of the Great Captain—of the Events of his Life and Time—a life marked by patriotism, probity and honour, and events the greatest which have ever agitated the civilized world, and whose influence will be felt upon society till the end of time. Such a work must appeal to the best and proudest feelings in the heart of every Briton—the glory of his country, the honour of its name and position among the nations—nay his own existence as a freeman, are recorded and engraven in the annals of the "well fought fields," and "the deadly imminent breaches, the immortal battles and the glorious sieges in which Wellington and his Companions in-arms gathered unfading laurels, placed their country's honour and renown on the highest pinnacle of fame and glory and tore the victors's wreath from the brows of heroes decorated with the trophies of Italy, Egypt, and Germany.

To supply such a desideratum in English literature, the publishers of The Life and Times of the Duke of Wellington have determined to produce a book which shall present to the reader, not only the dry details which a mere biographical sketch would afford, but a comprehensive work, embracing the contemporaneous history of the period; exhibiting the circumstances which brought about the great events in which the Duke and his contemporaries were engaged, and giving to the reader a connected narrative of the lives and actions of the Warriors and Statesmen of the nineteenth century; and this from the pen of one who was a companion in arms of the great hero, and participated with him in many a well fought field.

In order to carry out their views, the Publishers have determined that the work shall be profusely illustrated by Portraits of the Warriors and Statesmen of the last half century who have shed a lustre upon the history of their country; also representations of the most important engagements by sea and land from the period of 1780 till 1852; so that the work, when finished, shall form an Illustrated Gallery of the Naval and Military Exploits of England.

It has been well said, "Character is the true strength of nations; true glory their best inheritance. When the time shall come that the British heart no longer thrills at the names of Cressy, Poictiers, Agincourt, Blenhum, Ramilies, Oudenarde, Malplaque; of Talavera, Salamanca, Toulouse, Waterloo,—the last hour of the British Empire will be struck." The promotion and elevation of national spirit and feeling is therefore the duty and interest of every true and loyal son of England. May Heaven inspire the hearts of every one of us with that spirit and feeling.

Conditions of Publication—The work will be issued on the 1st and 15th of every month, in Parts at 1s. 3d, and Divisions handsomely bound at 9s. 4½, printed on Imperial 8 vo duble. columns, each part will be embellished by two highly finished steel Engravings, and will contain 32 pages of letter press. A beautiful steel Engraving, 13 by 19 inches, the storming of Seringapatam, the first victory in which the late Duke of Wellington was engaged in India, to every subscriber to the work.
