MORE HOPE FOR KANSAS WHEAT

Cheering Reports Send Prices Down at Chicago — Strength in Corn.

CHICAGO, May 23.—Statements that rain within a week or so would correct much of the crop damage in Kansas served today to lessen bullish enthusiasm regarding wheat. The market closed heavy at prices varying from last night's level to ⅝c below. Other leading staples all showed net gains—corn ⅛c to ⅜c; oats, ⅜c to ¾c, and provisions 2½c to 22½c.

Latest estimates of the probable wheat yield in Kansas were 110,000,000 bushels to 115,000,000 bushels, as against a total of 90,000,000 bushels, figured out early in the day by one influential authority. Warmer weather northwest and continued slow merchandising trade had an effect also on the bear side. Big world's shipments promised made wheat longs willing to take profits. This was done largely at the expense of eleventh-hour investors and belated shorts who for a while carried the market sharply higher. When these buyers were supplied, however, prices fell back. Primary receipts of wheat today were 458,000 bushels.

Good Buying of Corn.

In corn, the fact that the country had tightened up on offerings led to covering by a number of big shorts. One concern alone bought 1,000,000 bushels. Stocks here are light. Oats advanced on account of assertions that the seven chief producing states would have one-third less to sell this season than the preceding.

Packers buying thru commission houses gave provisions an upturn after early weakness due to a liberal run of hogs.

EUROPEAN MARKETS.

The Liverpool market closed ½d lower on wheat and ⅝d lower on corn, Budapest wheat ⅝c lower; Berlin wheat ½c lower; Paris wheat ½c to 1½c higher.

FLOODS COST N. & W. A MILLION.

NEW YORK, May 23.—President Johnson of Norfolk & Western has completed survey of the road's flood damage in Ohio and finds that to make permanent repairs will require 500 men for four months and 200 men for four months longer. He expects to see the work finished by March, 1914. Estimated damage to roadbed, bridges, telegraph lines and buildings, and values of lost materials is $526,500, while loss of revenue, due to floods, approximates $500,000. A further expenditure of about $700,000 will be required to prevent similar loss under like conditions.
